Please accept these responses to the post-audit you conducted of the Governor's Office. The numbered paragraphs correspond to the numbered findings contained in the draft of the report you provided.

1.1 Staffing and GSD costs:

The Auditor recommends the Governor request greater appropriations at the expense of the taxpayers and the agencies under his purview. The Auditor posits a clear delineation is required to separate when agency employees are conducting their assigned work compared to when they are supplementing other operations. The Auditor's finding fails to acknowledge the fluid and flexible nature of the work many state employees perform in order to prevent inefficiencies or gaps in service to the State. The Governor's office accounted for its operational costs in a manner that properly reflected the nature of the work it performed. All agencies under the purview of the chief executive officer of the State of Missouri work with and for the Governor in the performance of his duties. Agencies request appropriations and the legislature approves appropriations in accordance with the budget process. To the extent the Auditor disagrees with the budgeting and appropriations process she is welcome to offer legislative proposals or provide constructive testimony during budget hearings.

1.2 Other expenses:

The Auditor posits the Governor used agency appropriations to pay for dues and association fees. The Auditor fails to acknowledge the dues and association fees correlated to and were in support of the operations of the agencies who expended the appropriations. The Governor directs and supervises all operations of executive agencies under his purview and this finding fails to account for the structure of the executive branch.

2.1 Board vacancies and expired terms:

The Governor works to ensure qualified individuals are nominated for service and the application, vetting, and confirmation process takes considerable time. The Auditor's recommendation offers no specifics as to how the process should be expedited. The Auditor posits there are Boards and Commissions that should be eliminated and she is encouraged to offer legislative proposals to accomplish this goal.

2.2 Task Force recommendations:

See comments in under 2.1.

2.3 Incomplete and inaccurate records:

The Governor's Office maintains appropriate records to track vacancies on Boards and Commissions. The information concerning all Boards and Commissions is available online for public access.

3. Mansion:

The Governor has implemented this recommendation upon taking office. The Governor's Mansion is facility unlike any other owned by the State. The Mansion serves multiple and various purposes. The Governor's Office coordinates with the relevant staff in order to ensure the Mansion is operated in an efficient and cost-effective manner.

4.1 Governor's calendar:

The Governor acknowledges this recommendation.

4.2 Employee manual:

The Auditor fails to cite to any authority mandating an employee manual. Such a task should fall under the purview and discretion of the office holder in order to allow employee job flexibility in acknowledgement of the myriad of tasks that each employee performs. It would be impractical and inefficient to reduce the work of the Governor's Office to a single comprehensive manual given fluid nature of the work. This finding exceeds the Auditor's mandate to conduct a post-audit and is an attempt to manage an agency beyond the Auditor's control.

4.3 Employee job descriptions:

The Auditor fails to cite to any authority mandating job descriptions. Such a task should fall under the purview and discretion of the office holder in order to allow employee job flexibility in acknowledgement of the myriad of tasks that each employee performs. It would be impractical and inefficient to reduce each job to a written description given fluid nature of the work. This finding exceeds the Auditor's mandate to conduct a post-audit and is an attempt to manage an agency beyond the Auditor's control.

5.1 Airfare:

The Governor and his staff follow state travel policy and work to ensure airfare is purchased in a timely cost effective manner.

5.2 Lodging:

The Governor and his staff follow state lodging policy and work to ensure lodging is purchased in a cost effective manner.

6. Use of State Resources for Political and Personal Purposes:

The Governor adheres to relevant state statutes concerning the use of state resources. To the extent the Auditor finds these statutes need to be amended she is welcome to offer legislative proposals to accomplish this goal.

7. Capitol Assets

The Governor's Office and Mansion staff will continue to perform annual inventory checks.

If I may be of any future assistance please feel free to contact me.

Respectfully,

Christopher K. Limbaugh
General Counsel
Office of the Governor, Michael L. Parson

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Phelps County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Phelps County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Phelps County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Phelps County, Missouri, as of December 31, 2017 and 2018, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Phelps County, Missouri, as of December 31, 2017 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Phelps County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated July 8, 2019, on our consideration of Phelps County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Phelps County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Phelps County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are eleven elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, Surveyor, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Phelps County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from

accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2017	2018
Road and Bridge Debt Service	✓	N/A
Unemployment	✓	✓
Use Tax	✓	N/A
Health Department	N/A	✓
Sheriff's Training	✓	N/A
Sheriff's Drug Enforcement	✓	✓
Law Enforcement Sales Tax	✓	N/A
Administrative Handling	✓	✓
Shelter	✓	✓
Recorder User Fee	N/A	✓
Senior Companions	N/A	✓

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation were:

	2018	2017
Real Estate	$ 459,768,110	$ 451,087,290
Personal Property	118,054,723	114,587,253
Railroad and Utilities	21,166,509	20,847,223
Total	$ 598,989,342	$ 586,521,766

For calendar years 2018 and 2017, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2018	2017
General Revenue	$ 0.1215	$ 0.1221
Special Road and Bridge	0.1153	0.1156
Developmentally Disabled	0.0720	0.0718

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an

original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018 and 2017, the carrying amounts of the County's deposits were $17,801,983 and $17,884,642, respectively, and the bank balances were $17,936,626 and $18,098,109, respectively. Of the bank balances, $1,000,000 and $750,000 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2018 and 2017, County officeholders held, in addition to the cash and investments listed above, cash held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018 and 2017, the carrying amounts of the County's custodial funds were $16,432,831 and $17,669,010, respectively, and the bank balances were $16,440,226 and $17,667,711, respectively. Of the bank balances, $1,353,005 and $1,768,683 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Phelps County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Phelps County contribute 4% of their gross salary. The January 1st statutorily required contribution rates were 7.0% and 7.5% (General), and 9.4% and 8.4% (Police) of annual covered payroll for 2018 and 2017 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2018 and 2017, the County contributed $396,556 and $401,669 to LAGERS.

4) Funding Status

As of February 28, 2018, the actuarial value of plan assets exceeded accrued liabilities by $1,554,978 and $332,215 for the General and Police divisions, respectively. As of February 29, 2017, the actuarial value of plan assets exceeded accrued liabilities by $1,218,437 and $121,528 for the General and Police divisions, respectively. These net pension assets are not recognized in the cash basis financial statements of the County.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. Beginning January 1, 2018, the County contributes 1% of the required 4% as a benefit. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. During 2018 and 2017, the County collected and remitted to CERF employee withholdings and fees collected of $247,211 and $193,364, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $9,690 and $12,920, respectively, for the years ended December 31, 2018 and 2017.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides employees four hours of sick leave per biweekly pay period with no limit on the amount that can be accrued. Upon termination, employees will not be compensated for any unused sick time. Vacation time will accrue at a rate between 10 and 20 days per year depending on length of employment. Beginning in 2010, the vacation carryover into the following years was limited to one year's accrual based on an employee's length of service. However, employees with balances in excess of one year's accrual at the time of adoption in 2010 were allowed to retain those balances. Upon termination, employees will be paid for any unused vacation.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have

not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County had no long-term debt outstanding as of either December 31, 2018 or 2017. In February 2015, the County entered into a non-cancelable lease purchase agreement to finance one 2015 Caterpillar excavator at the cost of $106,872. The agreement called for two annual payments of $20,769 and one final payment of $70,000 in 2017, including interest at 2.98%. The following schedule shows changes in long-term debt during the year ended December 31, 2017:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid
2015 Caterpillar Excavator	$ 67,939	$ -	$ (67,939)	$ -	$ 2,061

8. OPERATING LEASES

The County had the following obligations under capital leases as of December 31, 2018:

A. In September 2018, the County entered into a non-cancelable lease agreement for a postage meter inclusive of maintenance and updates. The lease calls for monthly payments of $970 for 60 months.

B. In August 2018, the County entered into two non-cancelable lease agreements for two 2018 Caterpillar 12M3AWD motor graders, under which the County could purchase the motor graders at the end of the lease for $140,280 each. The agreement calls for seven annual payments of $25,676 ending in 2024.

C. In December 2018, the County entered into two non-cancelable lease agreements for two 2018 Caterpillar 12M3AWD motor graders, under which the County could purchase the motor graders at the end of the lease for $142,590 each. The agreement calls for seven annual payments of $25,676 ending in 2024.

The following schedule represents future payments under operating leases:

Year Ending December 31,	Postage Meter	Grader N9B00671	Grader N9B00672	Grader N9B00689	Grader N9B00690	Total
2019	$ 11,643	$25,676	$25,676	$25,676	$25,676	$114,347
2020	11,643	25,676	25,676	25,676	25,676	114,347

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 8, 2019, the date the financial statements were available to be issued.

In April 2019, the County entered into a non-cancelable lease agreement for a 2019 Caterpillar mini excavator, under which the County could purchase the excavator at the end of the lease for $52,290. The agreement calls for seven annual payments of $20,380 ending in 2025.

For the Fiscal Year Ending December 31,	Mini Excavator
2019	$ 20,380
2020	20,380
2021	20,380
2022	20,380
2023	20,380
2024	20,380
2025	20,380
Purchase Option	52,290

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Phelps County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Phelps County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Phelps County, Missouri's basic financial statements and have issued our report thereon dated July 8, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Phelps County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Phelps County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Phelps County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control described in the accompanying schedule of findings and questioned costs as item 2018-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Phelps County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and questioned costs as item 2018-002.

Phelps County, Missouri's Response to Findings

Phelps County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Phelps County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Phelps County, Missouri

Report on Compliance for Each Major Federal Program

We have audited Phelps County, Missouri's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Phelps County, Missouri's major federal programs for the years ended December 31, 2017 and 2018. Phelps County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Phelps County, Missouri's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Phelps County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Phelps County, Missouri's compliance.

Opinion on Each Major Federal Program

In our opinion, Phelps County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2017 and 2018.

Report on Internal Control over Compliance

Management of Phelps County, Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Phelps County, Missouri's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Phelps County, Missouri's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2018-003, that we consider to be a significant deficiency.

Phelps County, Missouri's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Phelps County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purposes.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

PHELPS COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2018 AND 2017

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal award activity of Phelps County, Missouri for the years ended December 31, 2018 and 2017. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

PHELPS COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2018 AND 2017

Financial Statements:

Type of Auditor's Report Issued:	Unmodified
Internal Control Over Financial Reporting:	
- Material weakness(es) identified?	___ Yes __X__ No
- Significant deficiencies identified that are not considered to be material weaknesses?	__X__ Yes ___ None reported
- Noncompliance material to financial statements noted?	__X__ Yes ___ No

Federal Awards:

Internal Control Over Major Programs:	
- Material weakness(es) identified?	___ Yes __X__ No
- Significant deficiencies identified that are not considered to be material weaknesses?	__X__ Yes ___ None reported
Type of Auditor's Report Issued on Compliance For Major Programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516?	__X__ Yes ___ No

Identification of Major Programs:

CFDA Number(s)	Name of Federal Program or Cluster
16.922	Equitable Sharing Program

Dollar Threshold Used to Distinguish Between Type A and Type B Programs:	$750,000
Auditee Qualified as low-risk:	___ Yes __X__ No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2018-001. Internal Control Over Cash Disbursements

Criteria: A proper system of internal control requires adequate documentation of financial records and reconciliations between financial records and supporting documentation.

Condition: Beginning in fall 2017, invoices were not stamped "paid" or otherwise cancelled to prevent duplicate payment as required by the County's internal control practices.

Cause: The County Clerk's office hired a new accounts payable clerk who was not trained to cancel invoices prior to payment.

Effect: Multiple duplicate payments occurred in 2018 due to County Clerk personnel not knowing whether an invoice was previously paid. These were resolved through credits to future bills or the checks were returned by vendors and voided by the County.

Recommendation: We recommend the County Clerk ensure that the policy of canceling all invoices when payments are issued is consistently followed to prevent duplicate payments.

County's Response: Going forward, paid invoices are being stamped as such. Additionally, the Accounts Payable staff is instituting measures during invoice entry to insure that unique invoice number for any particular vendor will be used, which will result in an alert within the accounting system that the invoice has already been paid.

Auditor's Evaluation: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

2018-002. Budgetary Compliance

Criteria: Section 50.740, RSMo prohibits expenditures in excess of approved budgets.

Condition: Expenditures exceeded budgeted appropriations for eight funds in 2017 and seven funds in 2018. The detailed list of funds can be found in Note 1.D.10 to the financial statements.

Cause: The County did not adequately review and amend budgeted expenditures of each fund to ensure actual expenditures did not exceed budgeted appropriations.

Effect: In order to ensure the integrity of the budgeting process, the spending limit should be adhered to for each County fund.

Recommendation: We recommend the County refrain from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to fund the current-year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.

County's Response: Budget amendments are presented only once annually to the Commission, in December, per the recommendation of State Auditor personnel. These have been used to correct errata in budget data entry processes which are inevitable when thousands of entries must be made. On occasion new grants are received on the State Fiscal Year, which naturally occurs mid-fiscal year for the County and necessitates amending the budget for both revenue as well as the accompanying expenditure. In the future the amendment list will be expanded to include any expenditures in excess of original budgeted amounts, after these have been approved by the Office Holder/Department Head and the Commission.

Auditor's Evaluation: This matter was discussed with the State Auditor's Office and a recommendation has not been made by that office to only once annually amend the budget. The remaining response is appropriate to correct the concern.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2018-003. Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Agriculture, U.S. Department of Justice, U.S. Department of Transportation, U.S. Department of Health and Human Services, U.S. Department of Homeland Security
Pass-Through Grantor: Missouri Office of Administration, Missouri Department of Transportation, Missouri Department of Social Services, Missouri Department of Public Safety
Federal CFDA Number: 10.665, 20.224, 93.767, 97.036
Program Title: Schools and Roads – Grants to States, Federal Lands Access Program, Children's Health Insurance Program, Disaster Grants - Public Assistance Grants (Presidentially-declared disasters)
Pass-through Entity Identifying Number: PL106-393, FLAP-9900(597), FEMA-4238-DR-MO, FEMA-4250-DR-MO, FEMA-4317-DR-MO
Award Year: 2017 and 2018
Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The schedules of expenditures of federal awards (SEFA) reported by the County in the 2017 and 2018 annual budget documents contained errors in amounts of federal expenditures reported. Expenditures of the Federal Lands Access Program (CFDA 20.224) were overstated by including $92,990 on the 2017 SEFA that was reported on the 2016 SEFA. Also in 2017, a $100,323 CORE Public Health Grant from the State of Missouri was incorrectly reported as a federal grant under CFDA 93.767. Additionally, the 2017 SEFA overstated $521,596 in Disaster Grants funds (CFDA 97.036) which were reported on the 2016 SEFA.

The 2018 SEFA understated Schools and Roads – Grants to States (CFDA 10.665) by $153,337. Additionally, the 2018 SEFA understated Disaster Grants funds (CFDA 97.036) by $104,429 by reporting grant revenues as opposed to expenses.

This finding was noted in the prior audit for the years ended December 31, 2015 and 2016 as item 2016-004.

Cause: The County reported amounts reimbursed under federal programs rather than amounts spent. Expenditures which were reported on the SEFA in previous years were included on current period schedules. A Health Department grant that was from state funds was reported as federal.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2018 and 2017.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA accurately states the expenditures of federal awards of the County each year.

County's Response: Grant agreements have always required Commission approval. In the future, it will be mandatory that the point of contact within the County for that particular grant provide a one-page form ("Grant Recipient Information") both at the initiation of the grant agreement and in mid-January after the completion of each year. This burden will no longer fall on the County Clerk, but on the department personnel most directly responsible for the financial management of the grant.

PHELPS COUNTY, MISSOURI
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Phelps County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2016 and 2015.

2016-001: Documentation of the County's internal controls has not been prepared for all offices.

Status: Resolved.

2016-002: There is no formal fraud risk assessment in place.

Status: Resolved.

2016-003: The County was not in compliance with Missouri budgetary statute RSMo Chapter 50. There were eleven funds in 2016 and nine funds in 2015 that had actual expenditures in excess of budgeted appropriations. There was one fund in 2016 and two funds in 2015 for which no formal budget was prepared.

Status: Partially resolved. See Finding 2018-002.

2016-004: The Schedule of Expenditures of Federal Awards (SEFA) contained errors.

Status: Not resolved. See Finding 2018-003.

To the County Commission and
Officeholders of Phelps County, Missouri

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2018, we considered Phelps County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated July 8, 2019. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Personnel Policies and Procedures

The County has not adopted a written policy and procedure manual for all County employees. Policies regarding sick and vacation leave, among others, are informally maintained. The County indicated efforts are underway to draft a manual; however, it has not been formally adopted by the Commission and disseminated to County employees. We recommend the County adopt a formal written employee policy manual.

Senate Bill 40 Board Procedures

The bylaws of the Phelps County Board for the Developmentally Disabled require that "meetings shall be held at least quarterly, with exact date to be determined by the Chairman." The Board had only three meetings in 2017, with no meeting occurring after August 8, 2017. A planned October 2017 meeting was cancelled by the Executive Director. As of May 2019, the Board had not yet had a 2019 meeting. A planned March 2019 meeting was cancelled by the Executive Director. We recommend that the Board ensure that regular meetings are held in accordance with the bylaws.

In July 2018, 16 employees of the Phelps County Board for the Developmentally Disabled each received a $500 bonus for a total of $8,000. Additionally, the Board allows each family of a program participant up to $1,200 per year in "Emergency Funds," to be paid for out of Targeted Case Management Medicaid funding. A review of these expenditures revealed two payments totaling $540, including a $500 payment to the Board President, that did not have documentation to support the amount paid. We recommend that the Board adopt policies in writing regarding the authority to pay out bonuses to employees. We also recommend that the Board adopt a formal policy regarding the review, approval, and documentation of Emergency Funds disbursements.

County Collector Controls

During peak property tax collection months, employees receiving cash in the County Collector's office are assigned their own batch number and cash drawer. However, during spring, summer and fall months when fewer property tax receipts are collected, all employees operate out of the same cash drawer and post receipts to the same electronic batch. Multiple employees operating from the same cash drawer and electronic batch increases the risk of unreconciled cash differences due to misappropriation or error. Also, the County Collector maintains blank check stock and a signature stamp in an unlocked file cabinet drawer. The County Collector indicated that the stamp was not used for check signing, however, employees had unrestricted access to the County Collector's blank check stock and the signature stamp. We recommend the County Collector maintain a separate cash drawer and electronic batch for each employee receiving payments at all times during the year, and that the County Collector ensure the physical security of blank check stock and signature stamps.

Assessor's Cash Receipt Process

The Assessor's office receives payments of fees but does not maintain a bank account. Undeposited receipts are turned over on a monthly basis to the Treasurer. Depositing monies in the bank as soon as possible would help to ensure the physical security of cash and checks and prevent the risk of loss due to fraud or error. We recommend the Assessor consider opening a bank account and implementing internal control to ensure receipts are deposited daily. The County has indicated that they prefer to continue the current practice as maintaining a separate bank account would impose an additional burden and cost.

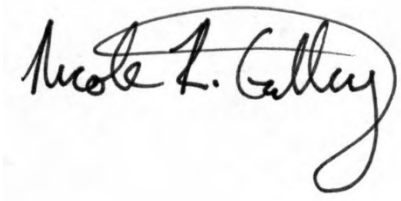
NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Stone County, Missouri

The Office of the State Auditor contracted for an audit of Stone County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.



Nicole R. Galloway, CPA
State Auditor

September 2019
Report No. 2019-083

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Stone County

2018-001	The County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes. Additionally, the County should closely monitor fund balances on an ongoing basis in order to prevent negative fund balances.
2018-002	The County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.
2018-003	Management develop internal controls over reporting and consult with outside accountants, if possible, to ensure an accurate SEFA is prepared.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Stone County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Stone County, Missouri, as of and for the years ended December 31, 2018 and 2017, and the related notes to the financial statements, which collectively comprise Stone County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Stone County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Stone County, Missouri as of December 31, 2018 and 2017, or changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Stone County, Missouri as of December 31, 2018 and 2017, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Stone County, Missouri's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated July 9, 2019 on our consideration of Stone County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other

matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Stone County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Stone County, Missouri's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

Organized in 1851, the county of Stone was named after pioneer judge William Stone. It is a third-class county, and the county seat is Galena. Stone County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Stone County, Missouri and the Stone County Senior Citizens Service Board.

Stone County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Stone County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise Stone County's legal entity. The Stone County Senior Citizens Service Board is controlled by a separate board and is also included under the control of Stone County.

The financial statements do not include financial data for the County's legally separate component unit, which accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting, require to be reported with the financial data of the County. In accordance with accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting, the Stone County Senate Bill 40 Board has issued separate reporting entity financial statements. For information on this component unit, please contact the Senate Bill 40 Board at (417) 272-0444 or write to P.O. Box 2383, Branson West, MO 65737.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statements of Assets and Liabilities Arising from Cash Transactions - Agency Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Stone County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the County's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Stone County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, Stone County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures that exceeded the budgeted expenditures in 2018: National Forest Fund, Law Enforcement Grant Fund, Capital Improvement Fund, Insurance Claims Proceeds Fund, Jail Prisoner Transport Fund, and Law Enforcement Civil Fees Fund. The following funds had actual expenditures that exceeded the budgeted expenditures in 2017: Flood Control Fund, Children's Trust Fund, and Abuse Victims Fund. The following fund had a negative fund balance as of December 31, 2018: Prosecuting Attorney Training Fund.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within Stone County's boundaries for the calendar year 2018 and 2017, respectively, for the purposes of County taxation was as follows:

	2018	2017
Real Estate	$ 481,199,286	$ 471,760,794
Personal Property	137,164,949	130,632,935
Railroad and Utilities	11,291,535	12,599,147
	$ 629,655,770	$ 614,992,876

The tax levy per $100 assessed valuation of tangible taxable property for the calendar year 2018 and 2017, respectively, for the purpose of County taxation, was as follows:

	2018	2017
General Revenue	$ 0.0971	$ 0.1052
Senior Citizens Service Board	0.0482	0.0482

The County also receives sales tax collected by the State and remitted based on the County’s sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Stone County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Stone County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents". Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The bank balances and carrying values of deposits and investments shown below are included in the financial statements at December 31, 2018, as follows:

	Carrying Value	Bank Balances
Deposits	$ 12,628,331	$ 25,009,834
Investments	50,000	50,000
Total Deposits and Investments as of December 31, 2018	$ 12,678,331	$ 25,059,834
Total Cash and Equivalents - Governmental Funds	$ 5,715,040	
Total Cash and Equivalents - Agency Funds	6,963,291	
	$ 12,678,331	

The bank balances and carrying values of deposits and investments shown below are included in the financial statements at December 31, 2017, as follows:

	Carrying Value	Bank Balances
Deposits	$ 8,405,310	$ 23,630,012
Investments	50,000	50,000
Total Deposits and Investments as of December 31, 2017	$ 8,455,310	$ 23,680,012
Total Cash and Equivalents - Governmental Funds	$ 5,105,392	
Total Cash and Equivalents - Agency Funds	3,349,918	
	$ 8,455,310	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2018 and 2017, 100% of Stone County's deposits and investments were covered by the Federal Deposit Insurance Company (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Stone County or its agent but not in the government's name. Stone County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of Stone County or of a type that are not exposed to custodial credit risk.

Note 2 - Deposits and Investments (continued)

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Stone County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by Stone County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). Stone County has no policy in place to minimize the risk of loss resulting from over concentration of assets of a specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	2018 Balance	% of Portfolio	2017 Balance	% of Portfolio
Simmons Bank	Cert. of Deposit	$ 50,000	100%	$ 50,000	100%

Note 3 - Interfund Transfers

Transfers between funds for the years ended December 31, 2018 and 2017 are as follows:

	2018		2017	
Fund	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue	$ -	$ 643,207	$ 25,000	$ 789,047
Special Road and Bridge	727,522	88,306	666,164	49,548
Road and Bridge Capital Improvement	50,000	-	25,000	-
Flood Control	-	718,494	-	661,441
National Forest	-	9,028	-	4,723
Assessment	69,256	-	104,220	-
Capital Improvement	200,000	-	175,000	-
Emergency	-	-	200,000	-
Sheriff Revolving	-	-	-	35,000
Law Enforcement Civil Fees	-	-	35,000	25,000
Collector's Tax Maintenance	-	10,000	-	-
Tax Maintenance Archive	10,000	-	-	-
Edgewater Neighborhood Improv. District	87,339	-	79,214	-
Black Oak Neighborhood Improv. District	120,000	-	106,518	-
Tax Increment Financing	204,918	-	148,643	-
Total	$ 1,469,035	$ 1,469,035	$ 1,564,759	$ 1,564,759

Note 4 - Long-Term Debt

Certificates of Participation

In 2009, Stone County issued $3,690,000 in Refunding Certificates of Participation (COP's) for the purpose of refinancing the Stone County, Missouri Refunding Certificates of Participation Series 1998 for the amount of $2,155,000 and the Stone County, Missouri Black Oak Mountain Resort Phase I Neighborhood Improvement District Bonds Series 2000 for the amount of $1,710,000. Principal payments are due annually on December 1; interest is payable semi-annually on June 1 and December 1 with annual variable interest rates at 3.00% - 4.10%. These Certificates were refunded in 2018.

In 2018, Stone County issued $5,760,000 in Refunding and Improvement Certificates of Participation (COP's) for the purpose of refunding the 2009 Refunding Certificates of Participation and paying the costs of construction and equipping new additions to the County's existing Stone County Justice Center. Principal payments are due annually on December 1; interest is payable semi-annually on June 1 and December 1 with annual variable interest rates at 3.00% - 3.50%.

Balance at 12/13/16	Amount Borrowed	Amount Repaid	Balance at 12/31/17	Amount Borrowed	Amount Repaid	Balance at 12/31/18
$ 1,465,000	$ 5,760,000	$ (1,465,000)	$ 5,760,000	$ -	$ (185,000)	$ 5,575,000

Interest expense for the years ended December 31, 2018 and 2017 was $110,617 and $58,790, respectively.

Future minimum payments due on the Series 2018 Refunding and Improvement Certificates of Participation are as follows:

Year	Principal	Interest	Total
2019	$ 380,000	$ 178,404	$ 558,404
2020	390,000	167,004	557,004
2021	205,000	155,304	360,304
2022	210,000	149,154	359,154
2023	215,000	142,854	357,854
2024-2028	1,180,000	613,469	1,793,469
2029-2033	1,375,000	420,537	1,795,537
2034-2038	1,620,000	173,485	1,793,485
	$ 5,575,000	$ 2,000,211	$ 7,575,211

Principal payments made on the Refunding and Improvement Certificates of Participation are made from the General Fund and the Black Oak Neighborhood Improvement District Fund.

Limited General Obligation Bonds

In 2012, the County issued $1,115,000 in Limited General Obligation Bonds for the purpose of refinancing the Edgewater Village Neighborhood Improvement District Bonds Series 2000. Principal payments are due annually on September 1; interest payments are due semi-annually on March 1 and September 1 with annual variable interest rates at 2.00% - 3.00%.

Balance at 12/31/16	Amount Borrowed	Amount Repaid	Balance at 12/31/17	Amount Borrowed	Amount Repaid	Balance at 12/31/18
$ 585,000	$ -	$ (140,000)	$ 445,000	$ -	$ (145,000)	$ 300,000

Interest expense for the years ended December 31, 2018 and 2017 was $17,550 and $13,350, respectively.

Note 4 - Long-Term Debt (continued)

Limited General Obligation Bonds (continued)

Future minimum payments due on the Edgewater Village Neighborhood Improvement District Bonds are as follows:

Year	Principal	Interest	Total
2019	$ 150,000	$ 9,000	$ 159,000
2020	150,000	4,500	154,500
	$ 300,000	$ 13,500	$ 313,500

Principal payments made on the Edgewater Village Neighborhood Improvement District Bonds are made from the Edgewater Neighborhood Improvement District Fund.

Note 5 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under RSMo. Sections 56.800 to 56.840, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under RSMo. Sections 57.949 to 57.997, and certain personnel not defined as an employee per RSMo. Section 50.1000(8). The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Note 5 - County Employees' Retirement Fund (CERF) (continued)

Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. The County collected and remitted CERF employee contributions of $227,619 and $238,095 for the years ended December 31, 2018 and 2017, respectively.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations,
- Twenty dollars on each merchants and manufacturers license issued,
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one on each document recorded,
- Three sevenths of the fee on delinquent property taxes, and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of $312,760 and $257,110 for the years ended December 31, 2018 and 2017, respectively.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, Stone County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. Stone County has contributed $11,628 and $11,628, respectively, for the years ended December 31, 2018 and 2017.

Note 7 - Other Retirement Plan

Stone County have voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which is paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2018 and 2017 for the 457 plan were $142,650 and $135,528, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2018 and 2017 for the 401(a) plan were $34,452 and $33,702, respectively.

Note 8 - Post-Employment Benefits

Stone County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by Stone County.

Note 9 - Claims, Commitments and Contingencies

Litigation

The County is subject to various claims and legal proceeding covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

The County provides employees with up to 200 hours (25 days) of paid vacation based upon the number of years of continuous service. Vacation days do not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue one sick day per month. The County allows employees to carry forward a maximum of 320 hours (40 days). Accumulated sick leave is not paid out upon termination of employment. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Other Commitments

Part of the County's taxing district contains a redevelopment area subject to a tax increment financing (TIF) plan where the County must remit certain economic activity taxes to a local business for the purpose of reimbursing certain costs of development. The County is committed to remitting these taxes through the year ended December 31, 2030; future amounts are based on overall taxes collected for the redeveloped area and cannot be estimated. Payments remitted for the years ended December 31, 2018 and 2017 totaled $204,918 and $148,643. Additionally, the County collected and remitted $136,612 and $103,771 for the years ended December 31, 2018 and 2017, respectively, on behalf of another agency included in the TIF plan.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

Note 11 - Economic Concentrations

Approximately 31.91% and 32.44% of the County's sales tax revenues received was remitted by two taxpayers located in the County, for the years ended December 31, 2018 and 2017, respectively. Any material reduction in sales tax could result in a significant impact to the County's operations.

Note 12 - Subsequent Events

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through July 9, 2019, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occured that require recognition or additional disclosure in the financial statements.

Note 13 - Prior Period Adjustment

Beginning cash and equivalents has been restated due to the correction of an error. This adjustment has no material effect on the operations of the County.

Cash and Equivalents, January 1, 2017, as previously stated:	$ 5,337,551
Law Enforcement Grant Fund	450
Cash and Equivalents, January 1, 2017, as restated:	$ 5,338,001

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Stone County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Stone County, Missouri as of and for the years ended December 31, 2018 and 2017, and the related notes to the financial statements, which collectively comprise Stone County, Missouri's basic financial statements, and have issued our report thereon dated July 9, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Stone County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Stone County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Stone County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies as items 2018-002.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Stone County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws,

regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards,* and which are described in the accompanying schedule of findings and questioned costs as items 2018-001.

Stone County, Missouri's Response to Findings

Stone County, Missouri's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Stone County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Stone County, Missouri

Report on Compliance for the Major Federal Program

We have audited Stone County, Missouri's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on Stone County, Missouri's major federal program for the years ended December 31, 2018 and 2017. Stone County, Missouri's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for Stone County, Missouri's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program occurred. An audit includes examining, on a test basis, evidence about Stone County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of Stone County, Missouri's compliance.

Opinion on the Major Federal Program

In our opinion, Stone County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the years ended December 31, 2018 and 2017.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2018-003. Our opinion on the major federal program is not modified with respect to this matter.

Stone County, Missouri's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Stone County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of Stone County, Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Stone County, Missouri's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Stone County, Missouri's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2018-003*,* that we consider to be a significant deficiency.

Stone County, Missouri's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Stone County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The County of Stone
Galena, Missouri
Notes to Schedule of Expenditures of Federal Awards
For the years ended December 31, 2018 & 2017

Note 1 - Summary of Significant Accounting Policies

Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This Uniform Guidance requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA number is not available.

This schedule includes all federal awards administered by Stone County, Missouri.

Basis of Presentation

The *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Because the Schedule presents only a selected portion of the operations of Stone County, Missouri, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Stone County, Missouri.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement.

Stone County, Missouri has not elected to use the 10% de minimis indirect cost rate.

Note 2 - Subrecipients

During the years ended December 31, 2018 and 2017, the County provided $190,495 and $165,737 in federal awards to subrecipients.

Dollar threshold used to distinguish between type A and type B programs:	$ 750,000			
Auditee qualified as low-risk auditee?		Yes	X	No

The County of Stone
Galena, Missouri
Schedule of Findings and Questioned Costs
For the years ended December 31, 2018 & 2017

Section 2 - Financial Statement Findings

2018-001 **Condition:** During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures that exceeded the budgeted expenditures in 2018: National Forest Fund, Law Enforcement Grant Fund, Capital Improvement Fund, Insurance Claims Proceeds Fund, Jail Prisoner Transport Fund, and Law Enforcement Civil Fees Fund. The following funds had actual expenditures that exceeded the budgeted expenditures in 2017: Flood Control Fund, Children's Trust Fund, and Abuse Victims Fund. The following fund had a negative fund balance as of December 31, 2018: Prosecuting Attorney Training Fund.

Effect: Due to exceeding budget in certain funds and having a negative fund balance in a certain fund, the County is in violation of Missouri Revised Statutes.

Cause: Oversight

Criteria: Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget and funds are not to be budgeted at a deficit.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes. Additionally, the County should closely monitor fund balances on an ongoing basis in order to prevent negative fund balances.

Management's Response: The following are 'in and out' funds that are dependent on the amount of funds actually received. At the time each annual budget is created, the County has no way to anticipate the amount of funds that will be received into each fund.
• National Forest Fund.
• Insurance Claims Proceeds Fund
• Jail Prisoner Transport Fund.
• Flood Control Fund
• Children's Trust Fund
• Abuse Victims Fund

Law Enforcement Grant Fund - The County makes a grant application before the budget is approved. At budget time cannot anticipate the amount of the grant request that will be approved.

Capital Improvement Fund - The budgeted amount was exceeded to pay for an audit that was necessary to secure funding for the 2019 Judicial Center expansion project. The County could anticipate neither the necessity for the expenditure, nor the amount.

Law Enforcement Civil Fees Fund - This is a non-budgetary fund maintained and controlled by the Sheriff. The County Commission and the other county officers have no control over this fund.

2018-002 **Condition:** During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Section 2 - Financial Statement Findings (continued)

2018-002 (cont.)

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: On May 29, 2018 the County Commission considered fraud risk assessment. The department heads were to review the procedures and make proposals or recommendations at the department heads' meeting on June 19, 2018. This was not done. On April 18, 2019 the County Commission adopted a *Risk Assessment, Accounting Policies, and Internal Control Procedures Policy*. The matter will be brought up at the department heads' meeting to be held on August 20, 2019.

Section 3 - Federal Award Findings and Questioned Costs

2018-003

Federal Grantor:	All Programs
Pass-Through Grantor:	All Programs
Federal CFDA Number:	All Programs
Program Title:	All Programs

Condition: The Schedule of Expenditures of Federal Awards (SEFA) contained errors. The County's current internal controls over SEFA reporting are not sufficient enough to ensure correct SEFA reporting. This finding is a repeat finding and was reported in the previous audit as Finding 16/15-003.

Effect: Federal expenditures reported in the SEFA were incorrect.

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200 requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended, CFDA title and number, award number, name of the Federal agency, and name of pass-through entity.

Recommendation: We recommend management develop internal controls over reporting and consult with outside accountants, if possible, to ensure an accurate SEFA is prepared.

Management's Response: County officers and employees have diligently tried to maintain sufficient records so that the SEFA can be accurately completed. The County is going to consider retaining an expert/consultant to assist in completing the next SEFA.

The County of Stone
Galena, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the years ended December 31, 2018 & 2017

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Stone County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2016 & 2015.

Prior Year Financial Statement Findings

16/15-001 **Condition:** During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures that exceeded the budgeted expenditures in 2016: Insurance Claims Proceeds Fund and Collector's Tax Maintenance Fund. The following funds had actual expenditures that exceeded the budgeted expenditures in 2015: Election Grant Fund and Collector's Tax Maintenance Fund. The following funds did not have a prepared budget for 2015: Flood Control Fund, National Forest Fund, and Federal Seized and Forfeiture Fund. We noted the following funds had budgeted a deficit in 2016 and 2015: Law Enforcement Grant Fund.

Effect: Due to exceeding budget in certain funds, lack of budget in certain funds, and deficit budget in certain funds, the County is in violation of Missouri Revised Statutes.

Cause: Oversight

Criteria: Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget and funds are not to be budgeted at a deficit.

Recommendation: We recommend that the County adopt a budget for all funds, and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The Insurance Claims Proceeds is a fund that deals with unforeseen revenues and expenditures. The County will be diligent in trying to budget appropriately in the future. The Collector Tax Maintenance Fund is not under budgetary control of the Commission. The County now prepares budgets for all funds. The phone number for the Clerk's office is (417) 357-6127.

Status: Management has not corrected this issue, therefore, this finding is repeated as 2018-001 in the current year.

16/15-002 **Condition:** During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Prior Year Financial Statement Findings (continued)

16/15-002 (cont.) **Recommendation:** We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County adopted a risk assessment policy on April 2, 2015. The Elected Officials and Department heads will meet annually to review and amend if necessary starting in 2018. The Clerk's office can be reached at (417) 357-6127.

Status: Management has not corrected this issue, therefore, this finding is repeated as 2018-002 in the current year.

Prior Year Federal Award Findings and Questioned Cost

16/15-003

Federal Grantor:	All Programs
Pass-Through Grantor:	All Programs
Federal CFDA Number:	All Programs
Program Title:	All Programs

Condition: The Schedule of Expenditures of Federal Awards (SEFA) contained errors.

Effect: Federal expenditures reported in the SEFA were incorrect.

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200 requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended, CFDA title and number, award number, name of the Federal agency, and name of pass-through entity.

Recommendation: We recommend management develop internal controls over reporting and consult with outside accountants, if possible, to ensure an accurate SEFA is prepared.

Management's Response: The County Clerk is working towards capturing all grant transactions in a manner sufficient to report the necessary information required on the SEFA by the next audit period. The County Clerk's office phone number is (417) 357-6127.

Status: Management has not corrected this issue, therefore, this finding is repeated as 2018-003 in the current year.

CITIZENS SUMMARY

Findings in the audit of the Sixteenth Judicial Circuit, City of Raytown Municipal Division

Findings

The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, no significant noncompliance with court rules, and no noncompliance with state laws restricting the amount of certain court revenues that may be retained. No findings resulted from the audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

State Auditor's Report 2

Organization and Statistical Information 4

NICOLE GALLOWAY, CPA
Missouri State Auditor

Presiding Judge
Sixteenth Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the Board of Aldermen
Raytown, Missouri

We have audited certain operations of the City of Raytown Municipal Division of the Sixteenth Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended October 31, 2018. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.

2. Evaluate the municipal division's and city's compliance with certain legal provisions.

3. Evaluate the municipal division's compliance with certain court rules.

4. Evaluate the city's compliance with state laws restricting the amount of certain court revenues that may be retained.

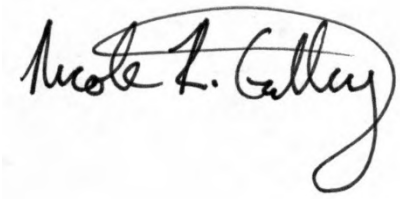
Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, (3) no significant noncompliance with court rules, and (4) no noncompliance with state laws restricting the amount of certain court revenues that may be retained. No findings resulted from our audit of the City of Raytown Municipal Division of the Sixteenth Judicial Circuit.

A petition audit of the City of Raytown, fulfilling our obligations under Section 29.230, RSMo, is still in process, and any findings and recommendations will be included in the subsequent report.



Nicole R. Galloway, CPA
State Auditor

Audit Staff:	Amanda G. Flanigan, MAcc

Sixteenth Judicial Circuit
City of Raytown Municipal Division
Organization and Statistical Information

The City of Raytown Municipal Division is in the Sixteenth Judicial Circuit, which consists of Jackson County. The Honorable David M. Byrn serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury. The municipal division does not utilize the Office of State Court Administrator's statewide automated case management system known as JIS. Instead, the municipal division utilizes Incode, an automated case management system provided by Tyler Technologies, which has been approved for use in municipal divisions by the State Judicial Records Committee.

Personnel

At October 31, 2018, the municipal division employees were as follows:

Title	Name
Municipal Judge	Traci Fann
Court Administrator	Rhonda Wooderson
Prosecuting Attorney	Ross Nigro
Court Clerk	Lamonica Adkins
Court Clerk	Melody Schaefer

Financial and Caseload Information

	Year Ended October 31, 2018
Receipts	$435,752

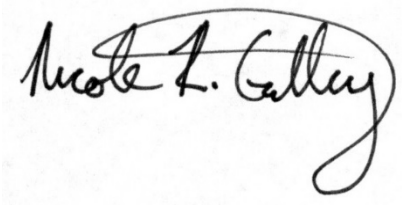
NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Ralls County, Missouri

The Office of the State Auditor contracted for an audit of Ralls County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.



Nicole R. Galloway, CPA
State Auditor

August 2019
Report No. 2019-081

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Ralls County

2018-001	The County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2018-002	The County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.
2018-003	The County should implement procedures to ensure that the risk assessment over federal awards are addressed going forward.
2018-004	The Sheriff's office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.
2018-005	The Collector’s office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.
2018-006	The County periodically review all account balances to ensure they are fully secured.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Ralls, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Ralls (County), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2018, and 2017, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2018, and 2017, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2018, and 2017, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 1, 2019, on our consideration of the County of Ralls' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Ralls' internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Ralls, Missouri ("County"), which is governed by three commissioners, was established in 1820 by an Act of the Missouri Territory. In addition to the three commissioners, there are ten elected Constitutional Officers: Assessor, County Clerk, Collector of Revenue, Coroner, Circuit Clerk/Recorder of Deeds, Prosecuting Attorney, Public Administrator, Sheriff, Surveyor, and Treasurer.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Ralls County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances– All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other agency operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting (concluded)

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their offices or departments for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes (concluded)

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation, was:

	2018	2017
Real Estate	$ 141,420,180	$ 140,749,370
Personal Property	90,911,468	82,123,470
Railroad and Utilities	22,260,955	23,032,338
	$ 254,592,603	$ 245,905,178

During 2018 and 2017, the County Commission approved a $0.5521 and $0.5544 tax levy, respectively, per $100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2018	2017
General Revenue Fund	$ 0.2832	$ 0.2864
Special Road and Bridge Fund	0.2689	0.2680
	$ 0.5521	$ 0.5544

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, and 2017, the carrying amounts of the County's deposits were $2,583,452.02 and $3,077,820.72, and the bank balances were $12,223,545.19 and $10,161,863.10, respectively. The total bank balance as of December 31, 2018, were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions. $568,133.29 of the total balance as of December 31, 2017, was not insured, however, by January 2, 2018 it was subsequently covered.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2018, as follows:

Statements of Receipts, Disbursements and Changes in Cash and Investment Balances		
Deposits and cash equivalents	$	2,583,452.02
Investments		-
Total Governmental Funds		2,583,452.02
Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:		
Deposits		10,557,803.22
Total Agency Funds		10,557,803.22
Total Deposits and Investments as of December 31, 2018	$	13,141,255.24

The carrying values of deposits shown above are included in the financial statements at December 31, 2017, as follows:

Statements of Receipts, Disbursements and Changes in Cash and Investment Balances		
Deposits and cash equivalents	$	1,627,820.72
Investments		1,450,000.00
Total Governmental Funds		3,077,820.72
Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:		
Deposits		6,965,955.62
Total Agency Funds		6,965,955.62
Total Deposits and Investments as of December 31, 2017	$	10,043,776.34

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

II. DEPOSITS AND INVESTMENTS (concluded)

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. The County's investments were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ended December 31, 2018, and 2017.

III. CAPITAL LEASES

On November 23, 2013, the County of Ralls entered into a lease purchase agreement with Commerce Bank to finance the purchase of 2 – 2012 Dodge Chargers, 1 – 2013 Dodge Charger and 1 – 2013 Ram 1500 for $103,103.29. The lease term is 48 months. Payments of principal and interest are due annually on November 29 with the first payment due November 29, 2014. The interest rate is 2.65% per annum. The County paid the balance off in 2017.

On July 14, 2014, the County of Ralls entered into a lease purchase agreement with Commerce Bank to finance the purchase of 2 – 2014 Dodge Chargers and service contracts for $70,083.23. The lease term is 40 months. Payments of principal and interest are due annually on July 14 with the first payment due November 29, 2014. The interest rate is 2.68% per annum. The County paid the balance off in 2017.

On May 11, 2015, the County of Ralls entered into a lease purchase agreement with Caterpillar Financial Services Corporation for one new 140M3AWD Caterpillar Motor Grader for $167,430.00. The financing agreement calls for five payments of $36,801.88 to be paid annually. The interest rate is 3.20% per annum. The County paid the balance off in 2018.

III. CAPITAL LEASES (continued)

On January 9, 2017, the County of Ralls entered into a lease purchase agreement with Commerce Bank to finance the purchase of 2 - 2017 Dodge Durangos for $60,784.00. The lease term is 48 months. Payments of principal and interest are due annually on January 9 with the first payment due January 9, 2018. The interest rate is 2.73% per annum.

On March 18, 2017, the County of Ralls entered into a lease purchase agreement with Commerce Bank to finance the purchase of a 2016 Ford Explorer Police Interceptor for $12,892.00. The lease term is 36 months. Payments of principal and interest are due annually on March 18 with the first payment due March 18, 2017. The interest rate is 2.73% per annum. The County paid the balance off in 2017.

On May 11, 2017, the County of Ralls entered into a lease purchase agreement with Caterpillar Financial Services Corporation for one new 140M3AWD Caterpillar Motor Grader for $177,000.00. The financing agreement calls for three payments of $49,033.07 to be paid annually, and the last payment is in the amount of $49,034.07. The interest rate is 4.2% per annum.

On November 2, 2017, the County of Ralls entered into a lease purchase agreement with HNB National Bank to finance the purchase of 2 - 2017 Dodge Durangos and 1 – 2018 Dodge Durango for $131,153.85. The lease term is 48 months. Payments of principal and interest are due annually on March 15 with the first payment due March 15, 2018. The interest rate is 3.75% per annum. The County paid the balance off in 2018.

As of December 31, 2018, the unpaid principal balance was $166,931.18. The payments for the County's lease purchase agreements are as follows:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
2015 Caterpillar Moter Grader	$ 103,635.13	$ -	$ 103,635.13	$ -	$ 1,882.62
2017 Dodge Durangos	46,384.40	-	14,917.98	31,466.42	1,669.84
2017 Caterpillar Moter Grader	177,000.00	-	41,535.24	135,464.76	7,497.83
2017 & 2018 Dodge Durangos	113,701.97	-	113,701.97	-	1,457.52
TOTAL	$ 440,721.50	$ -	$ 273,790.32	$ 166,931.18	$ 12,507.81

III. CAPITAL LEASES (concluded)

The future payments for the capital leases as of December 31, 2018, are as follows:

Year Ending December 31,	Interest	Principal	Total
2019	$ 6,871.16	$ 58,749.73	$ 65,620.89
2020	4,480.81	61,140.08	65,620.89
2021	1,992.70	47,041.37	49,034.07
	$ 13,344.67	$ 166,931.18	$ 180,275.85

As of December 31, 2017, the unpaid principal balance was $440,721.50. The payments for the County's lease purchase agreements are as follows:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
2013 & 2012 Dodge Chargers	$ 26,795.71	$ -	$ 26,795.71	$ -	$ 710.09
2014 Dodge Chargers	17,923.40	-	17,923.40	-	480.25
2015 Caterpillar Moter Grader	136,039.87	-	32,404.74	103,635.13	4,397.14
2017 Dodge Durangos	-	60,784.00	14,399.60	46,384.40	2,188.22
2016 Ford Explorer	-	12,892.00	12,892.00	-	486.68
2017 Caterpillar Moter Grader	177,000.00	-	-	177,000.00	-
2017 & 2018 Dodge Durangos	-	131,153.85	17,451.88	113,701.97	-
TOTAL	$ 357,758.98	$ 204,829.85	$ 121,867.33	$ 440,721.50	$ 8,262.38

The future payments for the capital leases as of December 31, 2017, are as follows:

Year Ending December 31,	Interest	Principal	Total
2018	$ 12,507.81	$ 273,790.32	$ 286,298.13
2019	6,871.16	58,749.73	65,620.89
2020	4,480.81	61,140.08	65,620.89
2021	1,992.70	47,041.37	49,034.07
	$ 25,852.48	$ 440,721.50	$ 466,573.98

IV. OPERATING LEASES

On March 28, 2014, the County of Ralls entered into an operating lease with Canon for 3-4235 copiers. The term of the lease is for 60 months with monthly payments of $455 beginning in June 2014.

On February 23, 2017, the County of Ralls entered into an operating lease with Canon for a C5235a copier. The term of the lease is for 51 months with monthly payments of $148 beginning in March 2017.

The future payments for operating leases entered into by the County for the year ended December 31, 2018, are as follows:

Year Ending December 31	Operating Lease Payments
2019	$ 3,163.00
	$ 3,163.00

The future payments for operating leases entered into by the County for the year ended December 31, 2017, are as follows:

Year Ending December 31	Operating Lease Payments
2018	$ 7,236.00
2019	3,163.00
	$ 10,399.00

V. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2018, and 2017 are as follows:

	2018		2017	
	TRANSFERS IN	TRANSFERS OUT	TRANSFERS IN	TRANSFERS OUT
General Revenue Fund	$ 78,926.98	$ 849.04	$ 1,888.09	$ 65,000.00
Special Road and Bridge Fund	1,219.22	-	1,062.05	-
Election Services Fund	849.04	-	-	-
Flood Control Fund	-	3,386.71	-	2,950.14
Emergency Fund	-	76,759.49	65,000.00	-
TOTAL	$ 80,995.24	$ 80,995.24	$ 67,950.14	$ 67,950.14

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Ralls County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Ralls County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with Sections 70.600-70.755 RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

	2018 Valuation
Benefit Multiplier:	1.50%
Final Average Salary:	5 Years
Member Contributions:	0%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2018, the following employees were covered by the benefit terms:

	General	Police
Inactive employees or beneficiaries currently receiving benefits	41	9
Inactive employees entitled to but not yet receiving benefits	10	13
Active employees	32	9
	83	31

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer do not contribute to the pension plan. Employer contribution rates are 10.9% (General) and 8.3% (Police) of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2018.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Actuarial Assumptions

The total pension liability in the February 29, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%

The healthy retiree mortality tables, for post-retirement mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Equity	43.00%	5.16%
Fixed Income	26.00%	2.86%
Real Assets	21.00%	3.23%
Strategic Assets	10.00%	5.59%

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Changes in the Net Pension Liability

	General Division	Police Division
A. Total Pension Liability		
1 Service Cost	$ 104,060	$ 21,269
2 Interest on Total Pension Liability	298,485	64,022
3 Changes of Benefit Terms	-	-
4 Difference between expected and actual experience of the Total Pension Liability	93,429	24,517
5 Changes of Assumptions	-	-
6 Benefit payments, including refunds of employee contributions	(234,896)	(38,675)
7 Net change in total pension liability	261,078	71,133
8 Total pension liability - beginning	4,181,307	891,617
9 Total pension liability - ending	$ 4,442,385	$ 962,750
B. Plan Fiduciary Net Position		
1 Contributions - employer	$ 110,010	$ 34,599
2 Contributions - employee	-	-
3 Net investment income	506,701	117,928
4 Benefit payments, including refunds of employee contributions	(234,896)	(38,675)
5 Pension plan administrative expense	(6,913)	(1,963)
6 Other (net transfer)	44,826	12,526
7 Net change in plan fiduciary net position	419,728	124,415
8 Plan fiduciary net position - beginning	4,246,478	976,488
9 Plan fiduciary net position - ending	$ 4,666,206	$ 1,100,903
C. Net Pension Liability / (Asset)	$ (223,821)	$ (138,153)
D. Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	105.04%	114.35%
E. Covered-Employee Payroll	$ 1,114,765	$ 350,958
F. Net Pension Liability as a Percentage of Covered Employee Payroll	-20.08%	-39.36%

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Sensitivity of the Net Position Liability to Changes in the Discount Rate

The following presents the Net Pension Liability of the employer, calculated using the discount rate of 7.25%, as well as what the employer's Net Pension Liability would be using a discount rate that is 1% lower (6.25%) or 1% higher (8.25%) than the current rate.

Sensitivity of Net Pension Liability to the Single Discount Rate

	1% Decrease 6.25%	Current Single Discount Rate Assumption 7.25%	1% Increase 8.25%
General Division:			
Total Pension Liability (TPL)	$ 5,033,792	$ 4,442,385	$ 3,954,405
Plan Fiduciary Net Position	4,666,206	4,666,206	4,666,206
Net Pension Liability / (Asset) (NPL)	$ 367,586	$ (223,821)	$ (711,801)
Police Division:			
Total Pension Liability (TPL)	$ 1,111,391	$ 962,750	$ 843,731
Plan Fiduciary Net Position	1,100,903	1,100,903	1,100,903
Net Pension Liability / (Asset) (NPL)	$ 10,488	$ (138,153)	$ (257,172)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2018, the employer would have recognized pension expense of $244,171 under GAAP. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	General		Police	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 168,830	$ -	$ 15,035	$ (3,606)
Changes in assumptions	41,883	-	1,411	-
Net difference between projected and actual earnings on pension plan investments	-	(120,796)	-	(33,813)
Total	$ 210,713	$ (120,796)	$ 16,446	$ (37,419)

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending June 30, 2018.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2019	$ 151,754	$ 10,759
2020	38,717	(2,461)
2021	(60,169)	(19,889)
2022	(40,385)	(9,382)
2023	-	-
Thereafter	-	-
Total	$ 89,917	$ (20,973)

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit, which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2018 and 2017, the County collected and remitted to CERF, employee contributions of approximately $37,220.09 and $54,829.62, respectively, for the years then ended.

VIII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $11,628.00 and $11,628.00, respectively, for the years ended December 31, 2018, and 2017.

IX. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There was one participant and one retiree at December 31, 2018, paying premiums of $1,127.48 and one participant at December 31, 2017, paying premiums of $7,974.36.

X. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County was not involved in any litigation as of the audit report date.

B. Compensated Absences (Vacation and Sick Time)

Ralls County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is not reimbursed for unused vacation and overtime. Sick time is offered to full time employees at the rate of one-half day for each calendar month of employment and are allowed to accumulate up to 30 days. Sick time is paid for at a rate of 50% for any unused sick pay up to 120 hours. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

XI. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XII. SUBSEQUENT EVENTS

There are no subsequent events as of the audit report date.

SUPPLEMENTARY SCHEDULES
AND
AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

I. For the year ended December 31, 2018, the budget for the Special Road and Bridge Fund budgeted a negative fund balance of $89,344.52.

INTERNAL CONTROL AND COMPLIANCE SECTION

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Ralls, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Ralls (County) as of and for the years ended December 31, 2018, and 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 1, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. [2018-001, 2018-002, 2018-003, 2018-004, 2018-005 and 2018-006]

Compliance and Other Matters

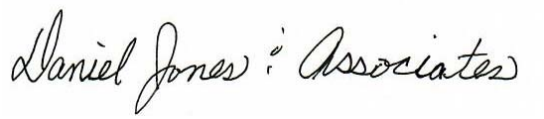
As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's response to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.



DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

July 1, 2019

I. FINANCIAL STATEMENT FINDINGS

2018-001

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County Clerk's office is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is by the next audit period. The phone number for the Clerk's office is (573) 985-7111.

I. FINANCIAL STATEMENT FINDINGS (continued)

2018-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the County's walkthroughs, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of Responsible Officials and Planned Corrective Actions: The County Clerk's office is in the process of preparing the needed documentation to implement a formal fraud risk assessment. The expected completion date is by the next audit period. The phone number for the Clerk's office is (573) 985-7111.

2018-003 Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) require the auditee to document risk assessment over federal awards.

Condition: Through auditing procedures, we identified that the County has not prepared the required risk assessment over all federal awards.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required risk assessment over all federal awards.

Effect: No risk assessment over all federal awards.

Cause: The County was not aware of the required risk assessment over federal awards.

I. FINANCIAL STATEMENT FINDINGS (continued)

2018-003 Recommendation: The County should implement procedures to ensure that the risk assessment over federal awards are addressed going forward.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the required risk assessment for federal programs and hopes to have the documentation completed for the next audit period. The phone number for the Clerk's office is (573) 985-7111.

2018-004 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Sheriff's office.

Condition: We noted that bank reconciliations for the Sheriff's office were not being performed for the account during 2017. If they were being reconciled for the year ended December 31, 2017, they could not be found by the current Sheriff's administration.

Context: This deficiency became apparent through our testing of the Sheriff's cash accounts and the related reconciliations during the December 31, 2017, year.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Previous management did not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Sheriff's office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.

Views of Responsible Officials and Planned Corrective Actions: The Sheriff's (Gerry Dinwiddle) office was reconciling the account during 2018 and has ensured that all bank statements and reconciliations are kept for future reference. The completion date of this corrective action was already completed during 2018. The phone number for the Sheriff's office is 573-985-5611.

2018-005 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Collector's office.

Condition: We noted that bank reconciliations for the Collector's main account were not being performed for the account during 2017. If they were being reconciled for the year ended December 31, 2017, they could not be found by the current Collector's administration.

Context: This deficiency became apparent through our testing of the Collector's cash accounts and the related reconciliations during the December 31, 2017, year.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

I. FINANCIAL STATEMENT FINDINGS (concluded)

2018-005 Cause: Previous management did not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Collector's office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.

Views of Responsible Officials and Planned Corrective Actions: The current Collector's (Tara Comer) office was reconciling the account during 2019 and the previous Collector was reconciling the accounts during 2018 and has ensured that all bank statements and reconciliations are kept for future reference. The completion date of this corrective action was already completed during 2018. The phone number for the Collector's office is 573-985-5621.

2018-006 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance Corporation (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the County's accounts were under-pledged for the year ended December 31, 2017.

Context: The County's bank accounts with a financial institution were under collateralized by $568,133.29 at December 31, 2017.

Effect: There is a risk that the County's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: We recommend that the County periodically review all account balances to ensure they are fully secured.

Views of responsible officials and planned corrective actions: The County will review account balances with the financial institution to ensure that they are collateralized on a regular basis. The financial institution did add another letter of credit on 1/2/2018 in the amount of $5,000,000.00. The Treasurer is Jena Epperson (573-985-7151) and the Collector of Revenue is Tara Comer (573-985-5621).

I. FOLLOW-UP PRIOR YEAR FINDINGS

FS 2016-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County Clerk's office is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is by the next audit period. The phone number for the Clerk's office is (573) 985-7111.

Status: Finding unresolved by County for the years ending December 31, 2018, and 2017. See 2018-001.

FS 2016-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the County's walkthroughs, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

I. FOLLOW-UP PRIOR YEAR FINDINGS (concluded)

FS 2016-002 Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

	Program Title:	All Federal Programs listed on SEFA Schedule
	Award year	2016, 2015
	Type of Finding	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective internal controls over Federal awards, regulation and the terms and conditions of the Federal awards.

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) require the auditee to document risk assessment over federal awards.

Condition: Through auditing procedures, we identified that the County has not prepared the required risk assessment over this federal award.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required risk assessment over this federal award.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (concluded)

SA 2016-001

Effect: No risk assessment over this federal award.

Cause: The County was not aware of the required risk assessment over federal awards.

Recommendation: The County should implement procedures to ensure that the risk assessment over federal awards are addressed going forward.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the required risk assessment for federal programs and hopes to have the documentation completed for the next audit period. The phone number for the Clerk's office is (573) 985-7111.

Status: Finding unresolved by County for the years ending December 31, 2018, and 2017. See 2018-003.

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

July 1, 2019

To the County Commission
The County of Ralls, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Ralls (the "County") as of and for the years ended December 31, 2018 and 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2018-001

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County Clerk's office is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is by the next audit period. The phone number for the Clerk's office is (573) 985-7111.

2018-002

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the County's walkthroughs, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

2018-002 Views of Responsible Officials and Planned Corrective Actions: The County Clerk's office is in the process of preparing the needed documentation to implement a formal fraud risk assessment. The expected completion date is by the next audit period. The phone number for the Clerk's office is (573) 985-7111.

2018-003 Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) require the auditee to document risk assessment over federal awards.

Condition: Through auditing procedures, we identified that the County has not prepared the required risk assessment over all federal awards.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required risk assessment over all federal awards.

Effect: No risk assessment over all federal awards.

Cause: The County was not aware of the required risk assessment over federal awards.

Recommendation: The County should implement procedures to ensure that the risk assessment over federal awards are addressed going forward.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the required risk assessment for federal programs and hopes to have the documentation completed for the next audit period. The phone number for the Clerk's office is (573) 985-7111.

2018-004 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Sheriff's office.

Condition: We noted that bank reconciliations for the Sheriff's office were not being performed for the account during 2017. If they were being reconciled for the year ended December 31, 2017, they could not be found by the current Sheriff's administration.

Context: This deficiency became apparent through our testing of the Sheriff's cash accounts and the related reconciliations during the December 31, 2017, year.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Previous management did not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Sheriff's office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

2018-004 Views of Responsible Officials and Planned Corrective Actions: The Sheriff's (Gerry Dinwiddle) office was reconciling the account during 2018 and has ensured that all bank statements and reconciliations are kept for future reference. The completion date of this corrective action was already completed during 2018. The phone number for the Sheriff's office is 573-985-5611.

2018-005 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Collector's office.

Condition: We noted that bank reconciliations for the Collector's main account were not being performed for the account during 2017. If they were being reconciled for the year ended December 31, 2017, they could not be found by the current Collector's administration.

Context: This deficiency became apparent through our testing of the Collector's cash accounts and the related reconciliations during the December 31, 2017, year.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Previous management did not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Collector's office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.

Views of Responsible Officials and Planned Corrective Actions: The current Collector's (Tara Comer) office was reconciling the account during 2019 and the previous Collector was reconciling the accounts during 2018 and has ensured that all bank statements and reconciliations are kept for future reference. The completion date of this corrective action was already completed during 2018. The phone number for the Collector's office is 573-985-5621.

2018-006 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance Corporation (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the County's accounts were under-pledged for the year ended December 31, 2017.

Context: The County's bank accounts with a financial institution were under collateralized by $568,133.29 at December 31, 2017.

Effect: There is a risk that the County's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: We recommend that the County periodically review all account balances to ensure they are fully secured.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (concluded)

2018-006 Views of responsible officials and planned corrective actions: The County will review account balances with the financial institution to ensure that they are collateralized on a regular basis. The financial institution did add another letter of credit on 1/2/2018 in the amount of $5,000,000.00. The Treasurer is Jena Epperson (573-985-7151) and the Collector of Revenue is Tara Comer (573-985-5621).

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 24, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2018 and 2017 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 1, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

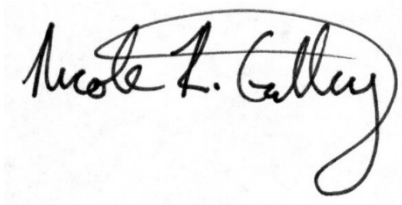
Other Matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Schuyler County, Missouri

The Office of the State Auditor contracted for an audit of Schuyler County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.



Nicole R. Galloway, CPA
State Auditor

August 2019
Report No. 2019-080

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Schuyler County

2018-001 Procurement Procedures	The County solicit bids in accordance with Missouri state law and maintain bid documentation in conjunction with associated disbursement records. In cases in which state statutes would normally dictate that bidding is necessary but is not performed, this reasoning should be included in the Commission minutes or elsewhere.
2018-002 Investment Policy	The County adopt an investment policy in accordance with state statutes and review compliance with this policy at least annually. The Model Investment Policy from the State Treasurer's office has been provided to the County for review.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Schuyler County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Schuyler County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Schuyler County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Schuyler County, Missouri, as of December 31, 2017 and 2018, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Schuyler County, Missouri, as of December 31, 2017 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated July 30, 2019, on our consideration of Schuyler County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Schuyler County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Schuyler County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Schuyler County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County, particularly the Collector and Treasurer, as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2018	2017
Senior Citizen	N/A	✓
County Improvement Corporation	N/A	✓

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation were:

	2018	2017
Real Estate	$ 29,930,976	$ 29,418,451
Personal Property	15,642,585	15,395,508
Railroad and Utilities	4,807,034	5,004,580
Total	$ 50,380,595	$ 49,818,539

For calendar years 2018 and 2017, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2018	2017
General Revenue	$ 0.3255	$ 0.3345
Special Road & Bridge	0.2659	0.2659
Common Road District	0.4802	0.4775
Senior Citizen	0.0500	0.0499

The Common Road District levy is included in the Property Tax receipts of the Special Road & Bridge Fund.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time

certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018 and 2017, the carrying amounts of the County's deposits were $600,510 and $647,807, respectively, and the bank balances were $628,278 and $667,198, respectively. Of the bank balances, $250,000 and $250,000 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2018 and 2017, County officeholders held, in addition to the cash and investments listed above, cash and investments held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018 and 2017, the carrying amounts of the County's custodial funds were $2,956,144 and $1,887,692, respectively, and the bank balances were $2,683,367 and $1,569,752, respectively. Of the bank balances, $969,146 and $515,254 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. The County has elected not to make contributions on behalf of employees. During 2018 and 2017, the County collected and remitted to CERF employee withholdings and fees collected of $66,838 and $53,129, respectively, for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting

Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $3,360 and $3,360, respectively, for the years ended December 31, 2018 and 2017.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

After one full year of employment, vacation time will accrue at one week per year. After three full years of employment, vacation time will accrue at two weeks per year. All vacation time must be taken in the year it is earned. A terminated employee is entitled to receive a pro-rated payment of unused vacation time. Full-time hourly employees receive six sick/personal days after their 90 day probationary period, up to a maximum of 12 days. Any days over the 12 days will be paid out at the end of the year.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2018:

A. On February 5, 2013, the County entered into a retail installment loan contract for the purchase of a 2013 Chevy Silverado beginning in March 2013 for the amount of $22,496 with monthly payments of $415 at an interest rate of 3.99% for a term of 5 years. The final payment was made in 2018.

B. On November 1, 2013, the County entered into a Governmental Obligation Contract to purchase a 2013 Volvo G940B Motor Grader in the amount of $80,050 with annual payments of $12,989 due annually beginning November 1, 2014, at an interest rate of 3.29% for a term of 7 years.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 12,175	$ 814	$ 12,989
2020	12,576	413	12,989
Totals	$ 24,751	$ 1,227	$ 25,978

C. On January 27, 2014, the County entered into a lease-purchase agreement for a 2014 John Deere Motor Grader for the amount of $74,064 (net of trade-in) with annual payments of $16,191 starting January 27, 2015, with an interest rate of 3.00% for a term of 5 years.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 15,714	$ 477	$ 16,191

D. On May 22, 2015, the County entered into a capital lease for a 2015 John Deere Loader Backhoe for the amount of $46,969 with annual payments of $10,572 starting May 22, 2016, with an interest rate of 4.00% for a term of 5 years.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 9,761	$ 811	$ 10,572
2020	10,159	414	10,573
Totals	$ 19,920	$ 1,225	$ 21,145

E. On February 1, 2016, the County entered into a promissory note for the purchases of 911 signs with the U.S. Department of Agriculture for the amount of $13,500 with annual payments of $2,959 starting in February 2017, with an interest rate of 3.125% for a term of 5 years.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 2,698	$ 261	$ 2,959
2020	2,782	177	2,959
2021	2,866	93	2,959
Totals	$ 8,346	$ 531	$ 8,877

F. On March 18, 2016, the County entered into a capital lease for a 2008 John Deere Excavator for the amount of $49,674 with annual payments of $11,263 starting March 18, 2017, with an interest rate of 4.25% for a term of 5 years.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 9,917	$ 1,346	$ 11,263
2020	10,347	916	11,263
2021	10,796	468	11,264
Totals	$ 31,060	$ 2,730	$ 33,790

G. On May 16, 2016, the County entered into a promissory note for the purchase of a 2016 Ford F-150 Sheriff vehicle with the U.S. Department of Agriculture for the amount of $14,500 with annual payments of $5,115 starting in May 2017, with an interest rate of 2.875% for a term of 3 years.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 4,969	$ 146	$ 5,115

H. On August 15, 2016, the County entered into a capital lease for a 2016 Caterpillar Motor Grader for the amount of $190,483 with annual payments of $30,804 starting in August 2016, with an interest rate of 3.20% for a term of 7 years.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 26,316	$ 4,488	$ 30,804
2020	27,158	3,646	30,804
2021	28,027	2,777	30,804
2022	28,923	1,881	30,804
2023	29,850	955	30,805
Totals	$ 140,274	$ 13,747	$ 154,021

I. On September 11, 2017, the County entered into a promissory note for the purchase of a 2018 Ford F-150 Sheriff vehicle with the U.S. Department of Agriculture for the amount of $15,000 with annual payments of $5,329 starting in September 2018, with an interest rate of 3.25% for a term of 3 years.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 4,999	$ 330	$ 5,329
2020	5,160	169	5,329
Totals	$ 10,159	$ 499	$ 10,658

J. On February 23, 2018, the County entered into a capital lease for a 2018 John Deere Motor Grader for the amount of $198,000 with annual payments of $37,862 starting in February 2019, with an interest rate of 4.00% for a term of 6 years.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 29,795	$ 8,067	$ 37,862
2020	31,009	6,853	37,862
2021	32,273	5,589	37,862
2022	33,587	4,275	37,862
2023	34,956	2,906	37,862
2024	36,380	1,482	37,862
Totals	$ 198,000	$ 29,172	$ 227,172

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 30, 2019, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Schuyler County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Schuyler County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Schuyler County, Missouri's basic financial statements and have issued our report thereon dated July 30, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Schuyler County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Schuyler County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Schuyler County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Schuyler County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and are described in the accompanying schedule of findings and recommendations as items 2018-001 and 2018-002.

Schuyler County, Missouri's Response to Findings

Schuyler County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and recommendations. Schuyler County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

2018-001: Procurement Procedures

Criteria: Section 50.660, RSMo states that, "All contracts and purchases shall be let to the lowest and best bidder after due opportunity for competition, including advertising the proposed letting in a newspaper in the county or township with a circulation of at least five hundred copies per issue, if there is one, except that the advertising is not required in case of contracts or purchases involving an expenditure of less than six thousand dollars. It is not necessary to obtain bids on any purchase in the amount of four thousand five hundred dollars or less made from any one person, firm or corporation during any period of ninety days…." Section 50.783.1, RSMo states that, "The county commission may waive the requirement of competitive bids or proposals for supplies when the commission has determined in writing and entered into the commission minutes that there is only a single feasible source for the supplies."

Condition: Our audit noted several transactions for which bidding would be expected to have been performed but for which no documentation of bidding was available. Four payments totaling $103,267 (ranging from $8,154 to $46,974) were explained by the County as having been emergency Road & Bridge department purchases, but this was not documented in the Commission minutes or elsewhere. The County indicated that the bidding for a $35,000 Road & Bridge department equipment purchase was done over the phone, but no documentation was maintained. Road & Bridge department equipment was purchased in 2018 for $28,000, but no bidding was performed. The Commissioners discovered the item was for sale and decided to purchase it.

Cause: Informal bidding was performed or the County believed bidding was not necessary due to the emergency nature of certain items.

Effect: The County was noncompliant with state statutes pertaining to procurement practices.

Recommendation: We recommend the County solicit bids in accordance with Missouri state law and maintain bid documentation in conjunction with associated disbursement records. In cases in which state statutes would normally dictate that bidding is necessary but is not performed, this reasoning should be included in the Commission minutes or elsewhere.

County's Response: Schuyler County will take the recommendation under advisement.

Auditor's Evaluation: The County's consideration should include specific steps to address the recommendation.

2018-002: Investment Policy

Criteria: Section 30.950, RSMo requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Section 110.270, RSMo authorizes counties to place their funds in U.S. Treasury and agency obligations.

Condition: The County has not adopted a formal investment policy as required by state statutes.

Cause: The County has not invested in anything other than a certificate of deposit, therefore, they did not believe that an investment policy was necessary.

Effect: The investment policy commits that County to the principles of safety, liquidity, and yield (in that order) when managing public funds and prohibits the purchase of derivatives, use of leveraging, and use of public funds for speculation. It also addresses topics such as collateralization of deposits, strategy with respect to investment in public funds, and other areas.

Recommendation: We recommend the County adopt an investment policy in accordance with state statutes and review compliance with this policy at least annually. The Model Investment Policy from the State Treasurer's office has been provided to the County for review.

County's Response: Schuyler County will take the recommendation under advisement.

Auditor's Evaluation: The County's consideration should include specific steps to address the recommendation.

SCHUYLER COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Schuyler County, Missouri, on the applicable findings in the prior audit report issued for the years ended December 31, 2014 and 2013.

1. The County Commission approved excess expenditures in three funds in 2014 and 2013.

   Status: There were two funds in 2017 for which actual expenditures exceeded budgeted. There were no such instances in 2018. We do not consider these instances to rise to the level of material noncompliance, therefore, this finding is considered resolved.

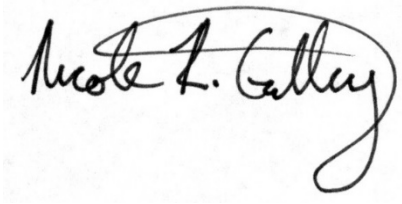
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 11 political subdivisions required to file a financial report by July 31, 2019, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in July 2019, after their filing deadline. The filing status for these 196 entities is presented in summary on page 3 and by individual entity in Appendix B-D.



Nicole R. Galloway, CPA
State Auditor

Monthly Report on Political Subdivision Filings
July 2019
Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 11 political subdivisions, other than cities, towns, and villages, with a fiscal year end of January 31, 2019. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 11 political subdivisions, 8 filed an annual financial report timely.

This report also includes the filing status for 196 political subdivisions, other than cities, towns, and villages, that filed their financial report in July 2019, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

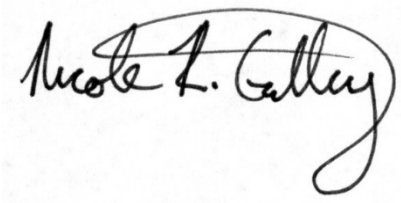
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipaliy required to file a financial report by July 31, 2019, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 1 city is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in July 2019, after their filing deadline. The filing status for these 41 cities, 2 towns, and 19 villages is presented in summary on pages 4 and by individual entity in Appendixes B to D.



Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 1 city with a fiscal year end of January 31, 2019, whose financial report was due by July 31, 2019. The municipality filed its annual financial report timely. The municipality was not required to file an addendum or certification.

This report includes the filing status for 41 cities, 2 towns, and 19 villages that filed at least one of the items (financial report, addendum, or certification) in July 2019, after their filing deadline. Of these entities, 56 filed an annual financial report, 9 filed an addendum, and 3 filed a certification.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Board of Directors
Kinloch Fire Protection District

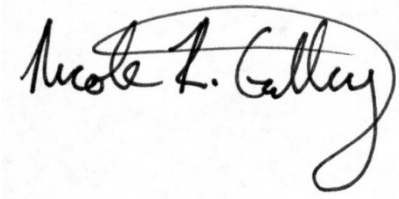
We have conducted follow-up work on audit report findings contained in Report No. 2018-038, *Kinloch Fire Protection District* (rated as Poor), issued in June 2018, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the district about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by district officials and held discussions with officials to verify the status of implementation for the recommendations. Documentation provided by the district included minutes of meetings, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during April and May 2019.



Nicole R. Galloway, CPA
State Auditor

Kinloch Fire Protection District
Follow-Up Report on Audit Findings
Status of Findings

1. Misappropriated Monies

Between January 1, 2014, and March 20, 2017, district disbursements totaling at least $98,189 were improper or unsupported. Former Board President Jayna Small and former Fire Chief Darren Small, misappropriated approximately $72,484 through improper purchases and cash withdrawals from the district's bank account. In addition, documentation to support an additional $25,705 in unsupported disbursements during this period was not retained and the propriety or impropriety of these disbursements could not be determined.

Unsupported payments totaling $6,200 were made to the former Fire Chief and Fire Captains, with one check indicating the payment was for a bonus. These individuals served on a volunteer basis and were not compensated. Also, checks totaling $1,090 were issued to Board members for Board meeting attendance fees, but these payments were not subject to payroll and income tax withholdings or reported by the district on W-2 forms.

Recommendation

The Board of Directors should ensure the propriety of all district disbursements and ensure detailed documentation is obtained and retained to support all disbursements. The Board should take necessary action to recover the improperly disbursed monies. In addition, the Board should discontinue the practice of paying bonuses, ensure compensation paid is subject to proper withholdings, and procedures are established to prepare and file W-2 forms with the Internal Revenue Service (IRS) as required.

Status

In Progress

The Board of Directors has taken steps to ensure the propriety of all district disbursements. The Board is holding meetings on a regular basis, has adopted an accounting policy, and all checks are signed by 2 Board members. However, many of these steps were not initiated until after our initial follow-up contact with the district on February 8, 2019, to discuss the status of various findings and request documentation. In addition, as noted throughout the remainder of this report, further improvements are still necessary.

We confirmed the district is receiving restitution payments approximately monthly.

According to district personnel, neither district employees or Board members are receiving any compensation, including bonuses. Our review of the district's personnel listing and accounting records for the period of June 2018 through April 2019 confirmed that district employees or Board members received no bonus payments or other compensation during this period.

2. Board of Directors Oversight and Elections

The Board did not perform sufficient oversight of district accounting activities. In addition, the district did not comply with state law regarding the election and appointment of members to the Board.

2.1 Oversight

The Board did not establish adequate segregation of duties or review processes over the various financial accounting functions performed by the former Board President.

Recommendation

The Board of Directors segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures. In addition, a documented periodic review of the district's accounting records should be performed, and monthly financial reports should be prepared and approved by the Board and filed with the Board minutes.

Status

Not Implemented

In February 2019, following our initial follow-up contact, district personnel drafted an accounting policy that indicates general oversight of the district finances and procedures are the responsibility of the Board of Directors and financial records will be reviewed monthly and annually. However, this policy was not formally approved by the Board until July 15, 2019, and follow up work shows the Board has not implemented the oversight responsibilities.

The district has not segregated accounting duties or implemented appropriate reviews and monitoring over various accounting functions. The district hired an accounting firm in June 2018 to provide bookkeeping services for the district. However, there is no indication the district's accounting records are periodically reviewed by the Board and monthly financial reports were not prepared by the accountant prior to December 31, 2018. Even though the Board started receiving such reports in 2019, meeting minutes do not indicate whether they are being reviewed and approved by the Board.

2.2 Board of Directors elections and appointments

The district did not hold elections for members of the Board, or appoint members due to vacancies, in compliance with state law. The district's Board consists of 3 directors who are elected to serve 6-year terms with one director elected biennially.

Recommendation

The Board of Directors ensure elections are held as authorized by state law and Board member vacancies are properly filled.

Status

Implemented

The district called for an election in April 2019 as required by state law to fill the Board director position for the term ending in April 2025.

2.3 Board Elections notification

District personnel did not notify the St. Louis County Board of Elections (BoE) that the district had called for any elections between 1991 and 2016. In the district's 2013 and 2015 elections, the number of candidates equaled the number of vacant board seats. Because these elections were not contested, no election (public vote) was required, however, the BoE was required to publish

notice of the candidates assuming office. Since the district did not notify the BoE about these elections this information was not published as required.

Recommendation

The Board of Directors work with the BoE to ensure that proper notice is published as required by state law.

Status

Implemented

District personnel notified the BoE that they called for an election in April 2019. We confirmed with the BoE that the district submitted all required documentation for the election.

3. Accounting Controls and Procedures

The district did not maintain adequate accounting records. In addition, controls and procedures over disbursements needed improvement.

3.1 Accounting records

The district did not maintain adequate accounting records. Receipt slips were not issued for monies received and a record of receipts was not maintained. In addition, a disbursement ledger was not maintained. Receipts and/or invoices to support disbursements were typically not retained. As a result of this lack of records, the district had no accounting records indicating the amount of cash available at any time and could not reconcile the district's accounting records to the bank.

Recommendation

The Board of Directors ensure prenumbered receipt slips are issued for all monies received and are reconciled to the composition of receipts recorded and deposited. In addition, the Board of Directors should ensure accounting records are maintained including a record of all receipts, disbursements, and cash balances, and monthly bank reconciliations are prepared and maintained for the district's bank account.

Status

Partially Implemented

District personnel indicated that prior to our initial follow-up contact all monies received by the district were given directly to the Fire Chief or other district personnel who transferred them to the Fire Chief for deposit into the district bank account. Receipt slips were not issued when monies were received or transferred to the Fire Chief.

Following our initial follow-up contact, district personnel drafted an accounting policy to address how monies received by the district should be handled and modified the district's receipting procedures. According to the revised procedures, all monies received are to be locked in a safe until a Board member is available to assist with preparing and making the deposit. Receipt slips are only required to be issued for cash receipts. Because district personnel do not issue receipt slips for all monies received, the Board cannot

ensure all monies received have been deposited and recorded in district accounting records or the composition of monies received are reconciled to the composition of deposits.

According to district personnel, bank reconciliations are prepared monthly by the accountant. We reviewed the May 31, 2019, bank reconciliation prepared on June 25, 2019, and noted the register balance as of June 25, 2019, per the bank reconciliation was overstated by approximately $6,950 due to the district's accounting records not being updated timely. We noted 13 checks issued between May 28, 2019 and June 11, 2019, and a deposit on June 10, 2019, had not been recorded in the district's accounting records as of June 25, 2019.

3.2 Disbursement review and approval process

The district's disbursement review and approval process needs significant improvement. The Board could not provide any documentation supporting review and approval of bills paid. In addition, the Board did not receive a copy of the district's bank statements for review.

Recommendation

The Board of Directors ensure complete lists of bills are prepared and the Board's approval is documented and retained. In addition, the Board of Directors should compare the approved list of bills to supporting documentation, canceled checks, and debit card transactions posted to the bank account to ensure disbursements are appropriate and adequately supported.

Status

Not Implemented

The Board is not provided and does not approve a complete list of bills presented for payment. Documentation of Board approval is limited to the signature of 2 Board members on individual checks issued for payment. There is no indication Board members review and approve individual invoices associated with the payment or ensure the disbursements are appropriate, adequately supported, and agree to amounts invoiced.

We reviewed 26 disbursements clearing the district's bank account in March 2019, and noted each check included the signature of 2 Board members. However, district personnel could not provide supporting documentation for 2 of the 26 disbursements. We reviewed the supporting documentation for the other 24 disbursements and noted the payee and amount disbursed per the check agreed to the supporting documentation.

3.3 District checks

The district does not have adequate controls over checks. Checks were not issued in numerical sequence and only 1 signature was required to issue checks.

Recommendation

The Board of Directors issue checks in numerical sequence, ensure the numerical sequence of checks is properly accounted for, and retain voided

checks. In addition, the Board of Directors should require dual signatures on all checks.

Status

Partially Implemented

Prior to our initial follow-up contact, the district did not issue checks in numerical sequence. We observed the district is retaining voided checks and checks included dual signatures.

In March 2019, district personnel indicated they began using one dedicated business checkbook to ensure checks are issued in numerical sequence. We reviewed the May 31, 2019, bank reconciliation and noted checks still appeared to be issued out of sequence. For example, the bank reconciliation and accounting records indicate check number 1288 was written on May 7, 2019, and check number 1278 was written on May 23, 2019. However, actual cleared check images show both checks were actually dated April 30, 2019. Checks were entered into accounting records when cleared rather than when written, hampering the district's ability to account for numerical sequence. We also noted check numbers are not always documented in the accounting records. Of 20 checks clearing the bank account in May 2019, the check number was recorded in only 11 instances.

3.4 Debit card

The district did not have a policy restricting or limiting the use of the district's debit card. Between January 1, 2014, and March 20, 2017, 1,366 of the 1,434 district disbursement transactions (95 percent) totaling approximately $147,000 were transacted using that card.

Recommendation

The Board of Directors adopt formal policies and procedures for debit card use and prohibit cash withdrawals of district funds.

Status

Implemented

District personnel indicated the district no longer uses a debit card. Following our initial follow-up contact, district personnel drafted an accounting policy that prohibits the use of debit cards or checks being made payable to cash, bearer, or an authorized signer. The Board formally approved the policy on July 15, 2019.

We reviewed bank statements for the period January 2019 to May 2019 and did not identify any cash withdrawals or debit card transactions.

3.5 Late fees

The former Board President did not ensure bills were paid timely resulting in the district incurring approximately $768 in late fees, convenience fees, reconnection fees, and other similar fees between January 1, 2014, and March 20, 2017.

Recommendation

The Board of Directors implement procedures to ensure bills are paid timely.

Status

Not Implemented

The Board has not established procedures to ensure bills are paid timely. The district's poor financial condition during the 3 months ended December 2018 limited district official's ability to pay outstanding bills. However, following the district's receipt of significant property tax revenues in January 2019, certain prior bills were still not paid timely. Our review of supporting documentation for the 24 disbursements with such documentation that cleared the district's bank account in March 2019 determined the district only paid 13 of them timely. The late paid bills included a payment of $125 for a training invoiced on September 24, 2018, due October 24, 2018, and paid on March 11, 2019 (138 days late). The district had incurred approximately $31 in late fees in March 2019 related to 4 of these payments. In addition, as of July 31, 2019, the district has not set up a payment plan with the State Auditor's Office (SAO) or made any payments toward the August 2018 audit billing.

3.6 1099-MISC forms

The district did not have procedures in place to prepare and file 1099-MISC forms with the IRS, as required.

Recommendation

The Board of Directors prepare and file 1099-MISC forms with the IRS as required.

Status

In Progress

The district did not file a 1099-MISC form with the IRS for accounting services obtained during 2018. Our review of other district expenditures during 2018 did not identify any other situations where a 1099-MISC form should have been filed. The district's accounting policy, formally approved on July 15, 2019, provides for monitoring and filing 1099-MISC forms as necessary.

4. Nepotism

In September 2014, Darren Small, the husband of former Board President Jayna Small, was appointed as Fire Chief for the district. The district did not prepare or could not locate Board meeting minutes documenting this appointment. As a result, it was unclear if the former Board President recused herself from participating in all Board discussions and/or voting for this appointment.

Recommendation

The Board of Directors ensure Board members abstain from voting when a relative's appointment is involved, and ensure compliance with the Missouri Constitution related to hiring relatives.

Status

Implemented

District personnel indicated no related party situations exist, including contracts, involving the Board members and/or firefighters. The district's accounting policy, formally approved on July 15, 2019, contains multiple statements regarding related parties, conflicts of interest, preferential treatment, and associated prohibited practices.

5. Procurement Procedures and Agreements

Controls and procedures over the district's bidding and written agreement procedures needed improvement.

5.1 Bidding

The district did not have a formal bidding policy and bids were not solicited for required purchases made between January 1, 2014, through March 31, 2017. In addition, while not specifically required by state law, the district did not solicit bids for other significant purchases such as comprehensive general and vehicle liability insurance.

The district entered into an agreement with the district's Assistant Fire Chief to complete plan reviews and inspections for commercial building construction without soliciting bids for these services.

Recommendation

The Board of Directors establish formal bidding policies and procedures, including documentation requirements regarding bid specifications, the bids or quotes received, and justification for bids selected. In addition, the Board of Directors should refrain from entering into business transactions with related parties unless such services or transactions are properly bid in accordance with state law and the selection process is documented.

Status

Partially Implemented

Following our initial follow-up contact, district personnel developed an accounting policy that includes bidding requirements and related documentation. The Board formally approved this policy on July 15, 2019.

We reviewed the accounting policy and noted it addresses the purchase of goods or services from a related party and requires the district to obtain at least one additional bid from an unrelated entity. The competitive bidding requirements in the policy do not comply with statutory provisions because there is no requirement for the district to publish notice for bids for certain expenditures of $10,000 or more.

In addition, we reviewed district expenditures made between January 2019 and May 2019 for any significant expenditures requiring bidding, and identified the district purchased a Fire Chief command vehicle for $13,515 in March 2019. District personnel obtained 3 bids in accordance with the accounting policy, but the Board did not document its justification for selecting the highest bid received. District personnel told us recently they

contacted 3 CPA firms about performing the district's required biennial audit. On June 25, 2019, the district entered into an agreement with one of the firms to conduct the audit at an anticipated cost in excess of $10,000. The district did not publish notice for bids for this service as required by law. Our review did not identify any situations where the Board entered into business transactions with related parties.

5.2 Written agreements

The district entered into agreements with a local consulting firm in 2015 and the Assistant Fire Chief in 2016 to complete plan reviews and inspections for commercial building construction occurring within the fire protection district. These agreements lacked clear and comprehensive guidelines, timeframes, and/or locations or projects associated with each agreement. In addition, the district fully paid both permit inspection agreements prior to services being fully rendered.

Recommendation

The Board of Directors enter into signed, written agreements defining the scope of services to be provided, benefits to be received, and the manner and amount of compensation to be paid. In addition, the Board of Directors should refrain from making payments for services not substantially rendered.

Status

In Progress

District personnel indicated since April 2018, the district had entered into written agreements with a local fire protection district to provide fire marshal services for the district and an accounting firm to provide bookkeeping services. We reviewed these agreements and noted neither had been signed and the agreement with the local fire protection district did not include a fee schedule. However, in February 2019, following our initial follow-up contact, the district modified the scope of services to be provided by the accountant, and a new agreement was signed by the Board.

At its May 24, 2019, meeting the Board voted to terminate the agreement with the local fire protection district and enter into a written agreement with a local consulting firm to complete plan reviews and inspections for commercial building construction occurring within the fire protection district. The Board signed this agreement on August 12, 2019.

The district's accounting policy, formally approved on July 15, 2019, requires all conditions and specifications of a contract or order to be satisfactorily fulfilled prior to authorizing payment.

5.3 Loan

The district improperly paid for trash services for the City of Kinloch and the city still owed the district $331 for payments made on the city's behalf for these services.

Recommendation

The Board of Directors prohibit lending of district funds, and pursue reimbursement from the city for unreimbursed payments.

Status

In Progress

Prior to our initial follow-up contact, the district had not adopted a policy prohibiting lending of district funds. However, following this contact, district officials formally approved an accounting policy on July 15, 2019, that indicates purchases for other organizations is prohibited.

On May 17, 2019, district personnel acknowledged no action had been taken to pursue reimbursement from the city for unreimbursed trash services paid on behalf of the city. On May 21, 2019, district personnel contacted the city to request the reimbursement. As of August 12, 2019, the district has not been reimbursed.

6. Budgets and Financial Reporting

Annual budgets were not prepared for district funds and significant improvement was needed in financial reporting practices.

6.1 Budgets

The district did not prepare annual budgets for district funds as required by state law.

Recommendation

The Board of Directors prepare annual budgets that include all information required by state law, and ensure the budget is formally approved and the approval is documented in the Board minutes.

Status

Not Implemented

The Board did not approve the annual budget for fiscal year 2019 until July 15, 2019. According to district personnel, the proposed budget had been developed in December 2018, but not formally reviewed or approved by the Board.

We reviewed the approved budget and noted it did not include the required comparative statement of revenues and expenditures for the 2 prior years, budget message, or general budget summary. In addition, the total estimated expenditures per the budget was not reasonable. According to district bank statements, the district expended almost $85,000 between January 1, 2019, and May 31, 2019. However, according to the approved budget, total expenditures for 2019 were estimated to be approximately $57,156. As of May 31, 2019, the district had already exceeded the approved budget by almost $28,000.

Our review of the approved budget noted the district had only budgeted $5,000 for insurance coverage, however, as of May 31, 2019, the district had already paid approximately $15,000 for this coverage. In addition, the district purchased a vehicle in March 2019 for $13,515, however, this vehicle purchase was not included in the approved budget.

6.2 Financial reporting

The district did not submit a financial report to the SAO as required by state law for the year ended December 31, 2016. Financial reports submitted to the SAO for certain previous years were inaccurate. In addition, the district had not filed financial statements with the St. Louis County Clerk's office as required by state law since 1977.

Recommendation

The Board of Directors file accurate financial reports with the SAO and the St. Louis County Clerk's office annually as required by state law.

Status

Implemented

The district submitted a financial report to the SAO for the year ended December 31, 2017, on August 1, 2018, and for the year ended December 31, 2018, on April 23, 2019. Our review of the financial report submitted for the year ended December 31, 2017, identified errors in information reported. Based on our review and discussion with the district accountant, district personnel revised the financial report for the year ended December 31, 2017, and resubmitted it on April 23, 2019. District personnel filed the 2018 financial statements with the St. Louis County Clerk's office on August 13, 2019.

6.3 Audits

The district did not obtain an independent audit of its financial statements as required by state law for the years ended December 31, 2015, and December 31, 2016.

Recommendation

The Board of Directors ensure audits of financial statements are completed and filed with the SAO as required by state law.

Status

In Progress

Prior to our initial follow-up contact, the district had not taken steps to secure a financial audit for the 2 fiscal years ended December 31, 2018. In May 2019, following additional inquiries by our office, the Fire Chief contacted three CPA firms to conduct the required audit. On June 25, 2019, the district accepted an audit proposal from one of the firms and signed an engagement letter.

7. Capital Assets and Fuel and Vehicle Usage

Controls and procedures over the district's property and fuel and vehicle usage needed improvement. In addition, a vehicle donated to the district was not titled or registered with the Missouri Department of Revenue (DOR) in the district's name.

7.1 Capital assets

The district did not maintain records of capital assets, including a fire truck, district vehicle, equipment, and other district property. In addition, district personnel did not tag assets for specific identification or perform physical inventories on a periodic basis.

Recommendation

The Board of Directors ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location, and subsequent disposition. The Board of Directors should also ensure assets are properly tagged for identification, and annual physical inventories are performed and compared to detailed records.

Status

In Progress

Prior to our initial follow-up contact, district personnel had not prepared a comprehensive list of the district's capital assets or established procedures to tag assets or perform physical inventories. Since that time they have created an accounting policy that establishes procedures for tracking, tagging, and performing annual inventories of capital assets costing more than $5,000 and this policy was formally approved by the Board on July 15, 2019.

7.2 Fuel and vehicle usage

The district had not established effective monitoring procedures over fuel and vehicle usage. The district maintained a fuel log for the fire truck, but fuel purchases were not consistently documented in this log. The district did not maintain a fuel log for the other district vehicle, which was driven exclusively by the former Fire Chief during the audit period. In addition, vehicle usage logs were not documented for either vehicle.

Recommendation

The Board of Directors establish adequate records and procedures to effectively monitor vehicle and fuel use.

Status

Not Implemented

The district has not established adequate records or procedures to monitor fuel and vehicle use. While the district placed fuel logs in district vehicles on August 4, 2019, the district does not require vehicle usage to be documented for all district vehicles, including the fire truck or vehicles used exclusively by the Fire Chief and/or Assistant Fire Chief.

7.3 Commuting miles

The district did not report the value of personal (commuting) mileage for the former Fire Chief's personal use of an unmarked district vehicle on his W-2 forms as required by the IRS, and a vehicle usage log indicating business and personal use of the vehicle was not maintained.

Recommendation

The Board of Directors comply with IRS guidelines for reporting fringe benefits related to personal miles and require logs that distinguish between business and personal use.

Status

Not Implemented

District vehicles are now marked, but vehicle logs documenting business and personal use are not maintained. Personal use of district vehicles was not reported for 2018, as required by IRS reporting guidelines.

7.4 Vehicle title and registration

The district failed to title and register a vehicle donated to the district with the DOR.

Recommendation

The Board of Directors ensure district vehicles are properly titled and registered with the DOR as required by law.

Status

In Progress

As of August 12, 2019, this district vehicle had not been properly titled and registered with the DOR. District personnel indicated they have been communicating with the donating district and the DOR to try to resolve this issue. Two additional vehicles purchased by the district in July 2017 and March 2019 were properly titled and registered in the district's name.

8 Sunshine Law, Compliance, and Bylaws

The district did not always ensure compliance with the Sunshine Law, and the district did not obtain surety bonds for Board members. Written guidelines for the administration of the district were not developed and maintained.

8.1 Meeting minutes and notices

District personnel did not prepare or could not locate meeting notices, tentative agendas, or minutes for any Board meetings or tax hearings occurring after September 26, 2013, and prior to March 28, 2017. In addition, they could not provide documentation the district's tax rates were formally approved by the Board.

Recommendation

The Board of Directors maintain complete and accurate minutes for all meetings and ensure proper notification and agendas for public meetings are given. In addition, a public hearing should be held annually to determine and set the property tax levy.

Status

Partially Implemented

District personnel indicated Board meetings are held monthly and the district notifies the public of these meetings on its website and by posting notices at the fire station. In addition, they indicated a public hearing was held to set the property tax levy in September 2018.

During our initial follow-up contact with the district, we requested district personnel provide copies of all Board meeting minutes and associated notices and agendas for meetings held between June 2018 and January 2019 by February 15, 2019. However, this information was not provided to our office until February 26, 2019, March 9, 2019, and April 16, 2019. Due to the

significant delays in obtaining these records, we extended our request to include Board meeting minutes through March 2019. District personnel indicated while monthly Board meetings had been recorded, written minutes had not been prepared for these meetings prior to our initial request. In addition, they indicated minutes for the March 2019 Board meeting could not be prepared because the Board failed to record this meeting. District personnel could not provide meeting notices or agendas for all Board meetings held during the time period requested.

None of the minutes provided were signed by the preparer or Board members, but all minutes noted Board members had reviewed and approved the minutes for the prior meeting. This statement cannot be accurate because no one prepared written minutes prior to the next meeting for meetings that occurred prior to February 2019.

The Board held a September 2018 tax rate hearing and prepared minutes documenting the meeting. Two additional meetings occurred in October to modify the district's tax rates for 2018, but no one prepared minutes to document these meetings.

8.2 Public access policy

The district had not adopted a written policy regarding public access to district records as required by state law.

Recommendation

The Board of Directors develop written policies regarding procedures to obtain access to, or copies of, public records.

Status

Not Implemented

The district has not developed written policies regarding procedures to obtain access to, or copies of, public records. District personnel indicated the Board intends to make meeting minutes publicly available on the district's website, but had no plans regarding other district records that would also be considered public records.

8.3 Surety bonds

The district had not obtained corporate surety bonds for Board members, or filed these bonds with the St. Louis County Circuit Clerk.

Recommendation

The Board of Directors obtain and file corporate surety bonds with the Circuit Clerk as required by law.

Status

Partially Implemented

At the time of our initial follow-up contact, Board members had not obtained corporate surety bonds. However, on April 22, 2019, the district modified its insurance policy to include public official liability coverage, to fulfill the surety bond requirement. According to the St. Louis County Circuit Clerk's

office, as of August 12, 2019, the district had not filed this information with the Circuit Clerk as required by law.

8.4 Bylaws

The district did not have up-to-date and comprehensive bylaws. In addition, the Board did not maintain ordinances and resolutions in an organized manner and signed copies of ordinances and resolutions documenting Board approval were not always retained.

Recommendation

The Board of Directors ensure up-to-date bylaws are documented and are readily available to employees and the public. In addition, maintain a complete updated set of district ordinances and resolutions in an organized manner and ensure a signed copy of all district ordinances and resolutions are retained.

Status

Not Implemented

District officials have not adopted bylaws and have not organized the district's ordinances and resolutions or ensured all approved versions are available.

We requested copies of all ordinances or resolutions the district passed since June 2018. District personnel could only provide a copy of one resolution passed in September 2018, establishing the 2018 tax rates. However, this resolution was modified in October 2018 and the final resolution was not provided.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Madison County, Missouri

The Office of the State Auditor contracted for an audit of Madison County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Madison, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Madison (County), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2018, and 2017, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2018, and 2017, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2018, and 2017, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 1, 2019, on our consideration of the County of Madison's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Madison's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Madison, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1818 by an Act of the Missouri Territory. In addition to the three board members, there are eleven elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Surveyor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Madison County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is determined upon changes in financial position rather than upon net income.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other agency operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the generally accepted basis of accounting, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting (concluded)

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations that were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes (concluded)

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2018 and 2017, for purposes of taxation, was:

	2018	2017
Real Estate	$ 87,381,310	$ 86,396,397
Personal Property	30,316,684	29,258,279
Railroad and Utilities	5,243,304	5,080,399
	$ 122,941,298	$ 120,735,075

During 2018 and 2017, the County Commission approved a $0.6260 and $0.6265 tax levy, respectively, per $100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2018	2017
General Revenue Fund	$ 0.1394	$ 0.1394
Special Road and Bridge Fund	0.2899	0.2902
Senate Bill 40 Board Fund	0.1967	0.1969
	$ 0.6260	$ 0.6265

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes depositing funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

G. Interfund Transactions

During the course of operations, numerous transactions occur among individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available to all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, and 2017, the carrying amounts of the County's deposits and investments were $1,393,317.97 and $1,211,914.87, and the bank balances were $5,990,312.57 and $5,621,202.91, respectively. The total bank balance as of December 31, 2018, and December 31, 2017, were insured through the Federal Deposit Insurance Corporation and the securities set by the County's and the Senate Bill 40 Board's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2018, as follows:

Statements of Receipts, Disbursements and Changes in Cash and Investment Balances		
Deposits and cash equivalents	$	1,376,503.57
Investments		16,814.40
Total Governmental Funds		1,393,317.97
Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:		
Deposits		6,121,193.20
Total Agency Funds		6,121,193.20
Total Deposits and Investments as of December 31, 2018	$	7,514,511.17

The carrying values of deposits and investments at December 31, 2017, are as follows:

Statements of Receipts, Disbursements and Changes in Cash and Investment Balances		
Deposits and cash equivalents	$	1,191,689.27
Investments		20,225.60
Total Governmental Funds		1,211,914.87
Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:		
Deposits		5,619,103.04
Total Agency Funds		5,619,103.04
Total Deposits and Investments as of December 31, 2017	$	6,831,017.91

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

II. DEPOSITS AND INVESTMENTS (concluded)

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ended December 31, 2018, and 2017.

III. TAX INCREMENT FINANCING DISTRICT

On December 12, 2013, the County authorized issuance of the Tax Increment Revenue Note, Series 2013, in an aggregate principal amount of not to exceed $5,000,000. The payments continue through April of 2025, with an interest rate of 2.99%.

As of December 31, 2018, the unpaid principal balance for the Tax Increment note was $3,530,938.64. The payments for the Tax Increment note agreement of the County are as follows:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid	Amounts Due Within One Year
2013 TIF	$ 2,296,287.35	$ 1,804,539.53	$ (569,888.24)	$ 3,530,938.64	$ 72,800.28	$ 400,959.30
TOTAL	$ 2,296,287.35	$ 1,804,539.53	$ (569,888.24)	$ 3,530,938.64	$ 72,800.28	$ 400,959.30

III. TAX INCREMENT FINANCING DISTRICT (concluded)

As of December 31, 2018, the schedule of the County's future payments for the Tax Increment Note are as follows:

Year Ending December 31,	Interest	Principal	Total
2019	$ 241,727.22	$ 400,959.30	$ 642,686.52
2020	87,674.92	555,013.60	642,688.52
2021	70,955.96	571,732.56	642,688.52
2022	53,733.38	588,955.14	642,688.52
2023	35,991.98	606,696.54	642,688.52
2024-2025	20,446.17	807,581.50	828,027.67
	$ 510,529.63	$ 3,530,938.64	$ 4,041,468.27

As of December 31, 2017, the unpaid principal balance for the Tax Increment note was $2,296,287.35. The payments for the Tax Increment note agreement of the County are as follows:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid	Amounts Due Within One Year
2013 TIF	$ 2,876,135.59	$ -	$ (579,848.24)	$ 2,296,287.35	$ 52,492.86	$ 277,456.24
TOTAL	$ 2,876,135.59	$ -	$ (579,848.24)	$ 2,296,287.35	$ 52,492.86	$ 277,456.24

As of December 31, 2017, the schedule of the County's future payments for the Tax Increment Note are as follows:

Year Ended December 31,	Interest	Principal	Total
2018	$ 66,600.40	$ 277,456.24	$ 344,056.64
2019	58,242.45	285,814.19	344,056.64
2020	49,632.71	294,423.93	344,056.64
2021	40,763.64	303,293.00	344,056.64
2022	31,627.38	312,429.26	344,056.64
2023-2025	37,270.87	822,870.73	860,141.60
	$ 284,137.45	$ 2,296,287.35	$ 2,580,424.80

IV. CAPITAL LEASES

In April of 2017, the County entered into a capital lease with FS Leasing LLC to purchase three 2017 Ford Police Interceptors for a total of $110,485.00. The lease calls for 26 quarterly payments of $4,688.60 with an interest rate of 2.95%.

In April of 2017, the County entered into a capital lease with Caterpillar Financial Services Corporation for a 120M2AWD Motor Grader (M9H00447) for a total of $210,500.00. The lease calls for five annual payments of $26,118.25 and a final payment of $107,760.00 with an interest rate of 3.77%.

In April of 2017, the County entered into a capital lease with Caterpillar Financial Services Corporation for a 120M2AWD Motor Grader (M9H00448) for a total of $210,500.00. The lease calls for five annual payments of $26,118.25 and a final payment of $107,760.00 with an interest rate of 3.77%.

In April of 2017, the County entered into a capital lease with Caterpillar Financial Services Corporation for a 120M2AWD Motor Grader (M9H00449) for a total of $210,500.00. The lease calls for five annual payments of $26,118.25 and a final payment of $107,760.00 with an interest rate of 3.77%. This capital lease was paid off early in the 2018 fiscal year.

As of December 31, 2018, the unpaid principal balance for the capital leases was $428,504.57. The payments for the lease purchase agreements of the County are as follows:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid	Amounts Due Within One Year
FS Leasing (Police Cars)	$ 102,653.38	$ -	$ (15,861.05)	$ 86,792.33	$ 2,893.35	$ 16,340.80
Caterpillar (M9H00447)	190,592.88	-	(19,736.76)	170,856.12	6,381.49	21,136.75
Caterpillar (M9H00448)	190,592.88	-	(19,736.76)	170,856.12	6,381.49	21,136.75
Caterpillar (M9H00449)	190,593.06	-	(190,593.06)	-	2,352.24	-
TOTAL	$ 674,432.20	$ -	$ (245,927.63)	$ 428,504.57	$ 18,008.57	$ 58,614.30

As of December 31, 2018, the schedule of the County's future payments for the capital leases are as follows:

Year Ending December 31,	Interest	Principal	Total
2019	$ 12,376.60	$ 58,614.30	$ 70,990.90
2020	9,974.82	61,016.08	70,990.90
2021	8,272.37	62,718.53	70,990.90
2022	6,527.94	227,746.46	234,274.40
2023	345.20	18,409.20	18,754.40
	$ 37,496.93	$ 428,504.57	$ 466,001.50

IV. CAPITAL LEASES (concluded)

As of December 31, 2017, the unpaid principal balance for the capital leases was $674,432.20. The future payments for the County's lease purchase agreements are as follows:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid	Amounts Due Within One Year
FS Leasing (Police Cars)	$ -	$ 110,485.00	$ (7,831.62)	$ 102,653.38	$ 1,545.58	$ 15,861.05
Caterpillar (M9H00447)	-	210,500.00	(19,907.12)	190,592.88	6,211.13	19,736.76
Caterpillar (M9H00448)	-	210,500.00	(19,907.12)	190,592.88	6,211.13	19,736.76
Caterpillar (M9H00449)	-	210,500.00	(19,906.94)	190,593.06	6,211.31	19,736.76
TOTAL	$ -	$ 741,985.00	$ (67,552.80)	$ 674,432.20	$ 20,179.15	$ 75,071.33

As of December 31, 2017, the schedule of the County's future payments for the capital leases are as follows:

December 31,	Interest	Principal	Total
2018	$ 22,037.82	$ 75,071.33	$ 97,109.15
2019	17,358.10	79,751.05	97,109.15
2020	13,999.80	83,109.35	97,109.15
2021	11,703.40	85,405.75	97,109.15
2022	9,349.06	332,685.52	342,034.58
2023	345.20	18,409.20	18,754.40
	$ 74,793.38	$ 674,432.20	$ 749,225.58

V. OPERATING LEASES

In December of 2014, the County Clerk entered into a 63-month lease with Neopost, for a postage machine with a monthly payment of $237.44.

In January of 2017, the County Clerk entered into a 63-month lease with Canon Financial for a copier machine with a monthly payment of $105.17.

V. OPERATING LEASES (concluded)

The future payments for the County's operating leases as of December 31, 2018, are as follows:

Year Ending December 31	Clerk Copier	Clerk Postage Machine	Total
2019	$ 1,262.04	$ 2,849.28	$ 4,111.32
2020	1,262.04	237.44	1,499.48
2021	1,262.04	-	1,262.04
2022	420.68	-	420.68
	$ 4,206.80	$ 3,086.72	$ 7,293.52

The future payments for the County's operating leases as of December 31, 2017, are as follows:

Year Ending December 31	Clerk Copier	Clerk Postage Machine	Total
2018	$ 1,262.04	$ 2,849.28	$ 4,111.32
2019	1,262.04	2,849.28	4,111.32
2020	1,262.04	237.44	1,499.48
2021	1,262.04	-	1,262.04
2022	420.68	-	420.68
	$ 5,468.84	$ 5,936.00	$ 11,404.84

VI. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2018, and 2017 are as follows:

	2018		2017	
	TRANSFERS IN	TRANSFERS OUT	TRANSFERS IN	TRANSFERS OUT
General Revenue Fund	$ 155,577.00	$ 180,000.00	$ 129,774.00	$ 462,477.65
Special Road and Bridge Fund	-	110,256.60	-	147,676.97
Assessment Fund	40,000.00	-	40,000.00	-
911 Fund	140,000.00	-	135,000.00	-
Law Enforcement Sales Tax Fund	72,256.60	117,577.00	109,676.97	91,774.00
Tax Increment Fund	-	-	287,477.65	-
TOTAL	$ 407,833.60	$ 407,833.60	$ 701,928.62	$ 701,928.62

VI. INTERFUND TRANSFERS (concluded)

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs.

Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2018 and 2017, the County collected and remitted to CERF, employee contributions of $132,787.18 and $107,100.02, respectively, for the years then ended.

VIII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $3,366.00 and $3,366.00, respectively, for the years ended December 31, 2018, and 2017.

IX. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There were no participants at December 31, 2018, and no participants at December 31, 2017.

X. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is involved in a potential legal claim at December 31, 2018. No provision has been made in the financial statements for any loss that might arise in the event of an unfavorable outcome of these matters. County officials believe that such litigation and claims will ultimately be resolved without material financial liability, if any, to the County.

B. Compensated Absences (Vacation and Sick Time)

Madison County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Vacation leave earned must be used within one year of earning the leave. Upon termination from county employment, an employee is not reimbursed for unused vacation if the required notice time is not met. If required notice time is met, then the unused vacation time will be reimbursed. Sick time is offered to full time employees after the first 90 days of employment. A maximum of 240 hours can be accrued but these hours cannot be accrued while the employee is absent from work. These have not been subjected to auditing procedures.

X. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in refunding of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

XI. SUBSEQUENT EVENTS

There are no subsequent events to report as of the audit report date.

XII. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

SUPPLEMENTARY SCHEDULES
AND
AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

I. For the year ended December 31, 2018, actual expenses exceeded budgeted expenses in the 911 Fund, Law Enforcement Sales Tax Fund, Unclaimed Fund, Madison County Sheriff's Office Fund, Sheriff's Revolving Fund, and the Senate Bill 40 Board Fund.

II. For the year ended December 31, 2017, actual expenses exceeded budgeted expenses in the General Revenue Fund and Health Grant Fund.

To the County Commission
The County of Madison, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Madison ("County") as of and for the years ended December 31, 2018, and 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 1, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. (2018-001, 2018-002, 2018-003 and 2018-004)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

I. FINANCIAL STATEMENT FINDINGS

2018-001

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared for the Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared for the above - mentioned offices.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation for the Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney's office is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is by the next audit period. Contact the County Clerk's office for further questions or contact information at (573) 783-2176.

2018-002

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the County's walkthroughs, we noted there is no formal fraud risk assessment in place for the Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared for the above - mentioned offices.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

I. FINANCIAL STATEMENT FINDINGS (continued)

2018-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls for the Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of Responsible Officials and Planned Corrective Actions: The County Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney's office is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is by the next audit period. Contact the County Clerk's office for further questions or contact information at (573) 783-2176.

2018-003 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Recorder of Deeds' office.

Condition: We noted that bank reconciliations for the Recorder of Deeds' office were not being performed for the account during 2017 and 2018. If they were being reconciled for the year ended December 31, 2017, and 2018, they could not be found by the current Recorder of Deeds' administration.

Context: This deficiency became apparent through our testing of the Recorder of Deeds' cash accounts and the related reconciliations during the December 31, 2017, and 2018 years.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Previous management did not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Recorder of Deeds' office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.

Views of Responsible Officials and Planned Corrective Actions: The Recorder of Deeds' (Saundra Ivision's) office was reconciling the account during 2019 and has ensured that all bank statements and reconciliations are kept for future reference. The completion date of this corrective action was already completed during 2019. The phone number for the Recorder of Deeds' office is 573-783-3410.

I. FINANCIAL STATEMENT FINDINGS (concluded)

2018-004

Criteria: SAS No. 55, Consideration of Internal Control in a Financial Statement Audit, as amended by SAS No. 78, Consideration of Internal Control in a Financial Statement Audit: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties in the County Collector's office.

Context: During our audit, we noted the County Collector's office had the opportunity to be able to keep cash payments and not post them to the payors account.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Lack of segregation of duties and internal controls along with checks and balances within the County Collector's office.

Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The County will work to implement procedures to prevent the lack of segregation of duties, and already has in the County Collector's office. The County Collector is Debby Boone and the office phone number is 573-783-6544.

THE COUNTY OF MADISON
FREDERICKTOWN, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2018 AND 2017

I. FOLLOW-UP PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There was no audit performed for the years ending December 31, 2016, and 2015; therefore, we have no prior year audit findings to report.

Daniel Jones
& Associates

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

July 1, 2019

To the County Commission
The County of Madison, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Madison (the "County") as of and for the years ended December 31, 2018 and December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in the County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. The responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2018-001

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared for the Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared for the above - mentioned offices.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation for the Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney's office is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is by the next audit period. Contact the County Clerk's office for further questions or contact information at (573) 783-2176.

2018-002

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the County's walkthroughs, we noted there is no formal fraud risk assessment in place for the Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared for the above - mentioned offices.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

2018-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls for the Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of Responsible Officials and Planned Corrective Actions: The County Treasurer, Recorder of Deeds, Sheriff, Assessor and Prosecuting Attorney's office is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is by the next audit period. Contact the County Clerk's office for further questions or contact information at (573) 783-2176.

2018-003 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Recorder of Deeds' office.

Condition: We noted that bank reconciliations for the Recorder of Deeds' office were not being performed for the account during 2017 and 2018. If they were being reconciled for the year ended December 31, 2017, and 2018, they could not be found by the current Recorder of Deeds' administration.

Context: This deficiency became apparent through our testing of the Recorder of Deeds' cash accounts and the related reconciliations during the December 31, 2017, and 2018 years.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Previous management did not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Recorder of Deeds' office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.

Views of Responsible Officials and Planned Corrective Actions: The Recorder of Deeds' (Saundra Ivision's) office was reconciling the account during 2019 and has ensured that all bank statements and reconciliations are kept for future reference. The completion date of this corrective action was already completed during 2019. The phone number for the Recorder of Deeds' office is 573-783-3410.

2018-004 Criteria: SAS No. 55, Consideration of Internal Control in a Financial Statement Audit, as amended by SAS No. 78, Consideration of Internal Control in a Financial Statement Audit: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties in the County Collector's office.

Context: During our audit, we noted the County Collector's office had the opportunity to be able to keep cash payments and not post them to the payors account.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (concluded)

2018-004 Cause: Lack of segregation of duties and internal controls along with checks and balances within the County Collector's office.

Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The County will work to implement procedures to prevent the lack of segregation of duties, and already has in the County Collector's office. The County Collector is Debby Boone and the office phone number is 573-783-6544.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 9, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2018 and 2017 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 1, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Marion County, Missouri

The Office of the State Auditor contracted for an audit of Marion County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Marion, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Marion ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2018, and 2017, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2018, and 2017, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2018, and 2017, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 6, 2019, on our consideration of the County of Marion's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Marion's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Marion, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1826 by an Act of the Missouri Territory. In addition to the three Commissioners, there are eleven elected Constitutional Officers: Assessor, Circuit Clerk, Collector of Revenue, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder of Deeds, Sheriff, Surveyor, and Treasurer.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of Marion County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. The financial statements do not include financial data for the County's legally separate component unit, which accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting require to be reported with the financial data of the County. In accordance with accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting, the Marion County Services for Developmentally Disabled has issued separate reporting entity financial statements. For information on this component unit, please contact them at (573) 248-1077 (or write to 12 Northport Plaza, Hannibal, MO 63401).

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2018 and 2017, for purposes of taxation, was:

	2018	2017
Real Estate	$ 289,770,240	$ 284,893,740
Personal Property	104,506,364	102,948,007
Railroad and Utilities	59,138,893	66,011,172
	$ 453,415,497	$ 453,582,919

During 2018 and 2017, the County Commission approved a $0.4640 and $0.4613 tax levy per $100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2018	2017
General Revenue Fund	$ 0.1350	$ 0.1350
Special Road and Bridge Fund	0.3290	0.3263
	$ 0.4640	$ 0.4613

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable,

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions (concluded)

are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County’s funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, and 2017, the carrying amount of the County's deposits was $3,904,886.04 and $3,471,693.91, respectively, and the bank balance was $23,402,864.95 and $21,357,201.46, respectively. The total bank balances as of December 31, 2018, and 2017 were insured through the Federal Deposit Insurance Corporation and securities set by the County’s financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2018, as follows:

Statements of Receipts, Disbursements and Changes in Cash and Investments	
Deposits and cash equivalents	$ 3,019,690.20
Investments	885,195.84
Total Governmental Funds	3,904,886.04
Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:	
Deposits	20,622,150.34
Total Agency Funds	20,622,150.34
Total Deposits as of December 31, 2018	$ 24,527,036.38

II. DEPOSITS AND INVESTMENTS (concluded)

The carrying values of deposits shown above are included in the financial statements at December 31, 2017, as follows:

Statements of Receipts, Disbursements and Changes in Cash and Investments	
Deposits and cash equivalents	$ 2,741,286.86
Investments	730,407.05
Total Governmental Funds	3,471,693.91
Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:	
Deposits	21,244,630.07
Total Agency Funds	21,244,630.07
Total Deposits as of December 31, 2017	$ 24,716,323.98

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. The County's investments were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2018, and 2017.

III. LONG-TERM DEBT

Certificates of Participation (COPs)

In 2013, the County entered into Lease Refunding Certificates of Participation, Series 2013, with a $375,000 original principal, due in varying annual principal installments ranging from $50,000 to $55,000 through June 2020. Interest rate is variable from 1.250% to 2.250%. Principal payments are made annually on June 1 and interest is paid semiannually.

As of December 31, 2018, the unpaid principal balances of the COPs agreements were $110,000.00.

Description	Prior Year 12/31/2017	Current Year Additions	Deletions & Payments	Balance 12/31/2018	Interest Paid Current Year
Series 2013	$ 165,000.00	$ -	$ 55,000.00	$ 110,000.00	$ 3,093.75
	$ 165,000.00	$ -	$ 55,000.00	$ 110,000.00	$ 3,093.75

The future payments for the COPs agreements of the County are as follows:

December 31,	Interest	Principal	Total
2019	$ 1,856.25	$ 55,000.00	$ 56,856.25
2020	618.75	55,000.00	55,618.75
	$ 2,475.00	$ 110,000.00	$ 112,475.00

As of December 31, 2017, the unpaid principal balances of the COPs agreements were $165,000.00.

Description	Balance Prior Year 12/31/2016	Current Year Additions	Current Year Deletions & Payments	Balance 12/31/2017	Interest Paid Current Year
Series 2013	$ 220,000.00	$ -	$ 55,000.00	$ 165,000.00	$ 4,193.75
	$ 220,000.00	$ -	$ 55,000.00	$ 165,000.00	$ 4,193.75

The future payments for the COPs agreements of the County are as follows:

December 31,	Interest	Principal	Total
2018	$ 3,093.75	$ 55,000.00	$ 58,093.75
2019	1,856.25	55,000.00	56,856.25
2020	618.75	55,000.00	55,618.75
	$ 5,568.75	$ 165,000.00	$ 170,568.75

III. LONG-TERM DEBT (continued)

Capital Leases

In 2014, the County entered into a lease purchase agreement for three dump trucks for the highway department with a principal amount of $371,678 and an interest rate of 1.60%. The four annual payments of $96,665.78 start in October 2015 and mature October 2018. This agreement was paid off during 2018.

In 2014, the County entered into a lease purchase agreement for three 2014 Dodge Charger police vehicles with a principal amount of $70,935 at an interest rate of 3.26%. The term of the agreement is 36 months with an annual payment of $25,203.14 beginning in April 2015 and maturing April 2017. This agreement was paid off in 2017.

In 2015, the County entered into a lease purchase agreement for two 2014 Dodge Charger police vehicles with a principal amount of $49,890 at an interest rate of 2.27%. The term of the agreement is 36 months with an annual payment of $17,390.65 beginning in March 2016 and maturing March 2018. This agreement was paid off in 2018.

In 2015, the County entered into a lease purchase agreement for five Caterpillar graders with a principal amount of $709,820 at an interest rate of 1.79%. The term of the agreement is 60 months with a $123,611.94 principal payment due immediately and then 5 annual payments of $123,611.94 beginning April 2016 and maturing April 2020.

In 2017, the County entered into a lease purchase agreement for three 2017 Ford police interceptor utility AWD vehicles with a principal amount of $102,686 at an interest rate of 2.30%. The term of the agreement is 36 months with an annual payment of $35,815.12 beginning March 2018 and maturing March 2020.

In 2018, the County entered into a lease purchase agreement for three 2018 Ford police interceptor utility AWD vehicles with a principal amount of $111,111 at an interest rate of 3.15%. The term of the agreement is 36 months with an annual payment of $39,394.45 beginning March 2019 and maturing March 2021.

As of December 31, 2018, the unpaid principal balances of the lease purchase agreements were $421,084.55.

Description	Balance Prior Year 12/31/2017	Current Year Additions	Current Year Deletions & Payments	Balance 12/31/2018	Interest Paid Current Year
3 Dump Trucks	$ 95,143.48	$ -	$ 95,143.48	$ -	$ 1,522.30
2 Police Vehicles	17,004.64	-	17,004.64	-	386.01
5 Caterpillar Road Graders	357,945.60	-	117,204.71	240,740.89	6,407.23
3 2017 Ford Interceptors	102,686.00	-	33,453.34	69,232.66	2,361.78
3 2018 Ford Interceptors	-	111,111.00	-	111,111.00	-
	$ 572,779.72	$ 111,111.00	$ 262,806.17	$ 421,084.55	$ 10,677.32

III. LONG-TERM DEBT (concluded)

Capital Leases

The future payments for the lease purchase agreements of the County are as follows:

December 31,	Interest	Principal	Total
2019	$ 9,401.61	$ 189,419.90	$ 198,821.51
2020	5,348.28	193,473.23	198,821.51
2021	1,203.03	38,191.42	39,394.45
	$ 15,952.92	$ 421,084.55	$ 437,037.47

As of December 31, 2017, the unpaid principal balances of the lease purchase agreements were $572,779.72.

Description	Balance Prior Year 12/31/2016	Current Year Additions	Current Year Deletions & Payments	Balance 12/31/2017	Interest Paid Current Year
3 Dump Trucks	$ 188,788.64	$ -	$ 93,645.16	$ 95,143.48	$ 3,020.62
3 Police Vehicles	24,407.45	-	24,407.45	-	795.69
2 Police Vehicles	33,631.85	-	16,627.21	17,004.64	763.44
5 Caterpillar Road Graders	473,089.24	-	115,143.64	357,945.60	8,468.30
3 2017 Ford Interceptors	-	102,686.00	-	102,686.00	-
	$ 719,917.18	$ 102,686.00	$ 249,823.46	$ 572,779.72	$ 13,048.05

The future payments for the lease purchase agreements of the County are as follows:

December 31,	Interest	Principal	Total
2018	$ 10,677.32	$ 262,806.17	$ 273,483.49
2019	5,901.61	153,525.45	159,427.06
2020	2,978.96	156,448.10	159,427.06
	$ 19,557.89	$ 572,779.72	$ 592,337.61

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2018, and 2017, are as follows:

	2018		2017	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ 1,149,520.21	$ 150,000.00	$ 1,127,708.61	$ 91,075.00
Special Road and Bridge Fund	-	106,652.17	-	110,724.37
Capital Improvements Fund	-	945,167.94	-	929,028.28
Collector's Tax Maintenance Fund	-	38,000.00	-	36,000.00
General Revenue Emergency Fund	150,000.00	-	91,075.00	-
Road Fund	-	59,700.10	-	51,955.96
TOTAL	$ 1,299,520.21	$ 1,299,520.21	$ 1,218,783.61	$ 1,218,783.61

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement.

Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system. The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2018, and 2017, were $99,776.40 and $95,330.75, respectively.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Marion County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Marion County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Sections 70.600-70.755 RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance. The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

	2018 Valuation
Benefit Multiplier:	2.00%
Final Average Salary:	3 Years
Member Contributions:	4%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2018, the following employees were covered by the benefit terms:

	General	Police
Inactive employees or beneficiaries currently receiving benefits	57	14
Inactive employees entitled to but not yet receiving benefits	23	10
Active employees	75	17
	155	41

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 19.1% (General) and 17.2% (Police) of annual covered payroll.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2018.

Actuarial Assumptions

The total pension liability in the February 28, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%

The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2018, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Equity	43.00%	5.16%
Fixed Income	26.00%	2.86%
Real Assets	21.00%	3.23%
Strategic Assets	10.00%	5.59%

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Changes in the Net Pension Liability

	General Division	Police Division
A. Total Pension Liability		
1 Service Cost	$ 355,022	$ 85,528
2 Interest on Total Pension Liability	968,992	197,974
3 Changes of Benefit Terms	-	-
4 Difference between expected and actual experience of the Total Pension Liability	146,746	(99,700)
5 Changes of Assumptions	-	-
6 Benefit payments, including refunds of employee contributions	(462,983)	(90,736)
7 Net change in total pension liability	1,007,777	93,066
8 Total pension liability - beginning	13,418,442	2,733,236
9 Total pension liability - ending	$ 14,426,219	$ 2,826,302
B. Plan Fiduciary Net Position		
1 Contributions - employer	$ 546,273	$ 116,815
2 Contributions - employee	-	-
3 Net investment income	1,444,020	291,839
4 Benefit payments, including refunds of employee contributions	(462,983)	(90,736)
5 Pension plan administrative expense	(12,036)	(3,073)
6 Other (net transfer)	(11,348)	(84,490)
7 Net change in plan fiduciary net position	1,503,926	230,355

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2018, the employer recognized pension expense of $762,372 for the general and $186,879 for police. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	General		Police	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 339,025	$ (35,632)	$ 15,985	$ (205,797)
Changes in assumptions	179,581	-	39,512	-
Net difference between projected and actual earnings on pension plan investments	-	(331,504)	-	(48,829)
Employer contributions subsequent to the measurement date	-	-	-	-
Total	$ 518,606	$ (367,136)	$ 55,497	$ (254,626)

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending June 30, 2018.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2019	$ 271,521	$ (4,703)
2020	133,475	(37,759)
2021	(145,249)	(86,797)
2022	(108,277)	(62,080)
2023	-	(7,790)
Thereafter	-	-
Total	$ 151,470	$ (199,129)

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $22,338 and $7,752, respectively, for the years ended December 31, 2018, and 2017.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had two COBRA participants at December 31, 2018, paying total premiums of $8,372, and one COBRA participant paying premiums totaling $7,755 at December 31, 2017.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service with a maximum of 20 days that may be carried over from one year to the next. Upon termination from County employment, an employee is reimbursed for unused vacation and overtime, if applicable. Regular full-time employees earn 12 days of sick leave each year. An employee will not be compensated for any accumulated sick leave upon termination of employment. At full retirement, if an employee has 700 or more hours of accumulated sick leave, the employee would receive 350 hours of their paid sick leave. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. PRIOR PERIOD ADJUSTMENT

The prior audit cash balances at December 31, 2016, has been adjusted to $3,365,868.39 for a net adjustment of ($1,571.61). The details of the cash adjustments to the funds are as follows:

General Revenue Fund	$	4.32
Special Road and Bridge Fund		(2.29)
Capital Improvements Fund		(1.61)
Local Emergency Planning Committee Fund		1.74
Election Services Fund		(1.40)
Sheriff Fund		(2.23)
Collector's Tax Maintenance Fund		(98.98)
Circuit Clerk Fund		(1,470.00)
Rounding of Other Funds		(1.16)
	$	(1,571.61)

XII. SUBSEQUENT EVENTS

There are no subsequent events to report as of the date of the audit report.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Marion, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Marion ("County"), Missouri as of and for the years ended December 31, 2018, and 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 6, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis, A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. (2018-001, 2018-002)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

I. FINANCIAL STATEMENT FINDINGS

2018-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Clerk's (Valerie Dornberger) office is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is for the next audit period. The phone number for the Clerk's office is 573-769-2549.

2018-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

I. FINANCIAL STATEMENT FINDINGS (concluded)

2018-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County Clerk's (Valerie Dornberger) office is in the process of preparing the needed documentation to implement a formal fraud risk assessment. The expected completion date is the next audit period. The phone number for the Clerk's office is 573-769-2549.

THE COUNTY OF MARION
PALMYRA, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2018 AND 2017

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There were no financial statement findings for the years ended December 31, 2016 and 2015.

Daniel Jones
& Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

August 6, 2019

To the County Commission
The County of Marion, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Marion (the "County") as of and for the years ended December 31, 2018 and December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 30, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2018 and 2017 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 6, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Henry County, Missouri

The Office of the State Auditor contracted for an audit of Henry County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Henry, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Henry (County), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2018 and 2017, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2018, and 2017, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2018, and 2017, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 19, 2019, on our consideration of the County of Henry's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Henry's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Henry, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1834 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, and ex officio Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, and social and human services.

The financial statements referred to above include only the primary government of Henry County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. The financial statements do not include financial data for the County's legally separate component unit, which accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting require to be reported with the financial data of the County.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other agency operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the generally accepted basis of accounting, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations that were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1, and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2018 and 2017, for purposes of taxation, was:

	2018	2017
Real Estate	$ 240,701,580	$ 237,530,950
Personal Property	78,979,707	81,225,614
Railroad and Utilities	31,299,156	31,437,506
	$ 350,980,443	$ 350,194,070

During 2018 and 2017, the County Commission approved a $.1170 and $.1032, respectively, tax levy per $100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2018	2017
General Revenue Fund	$ .0684	$ .0550
Senior Citizens Service Fund	.0486	.0482
	$ .1170	$ .1032

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include any instruments with an original maturity of ninety days or less. State law authorizes depositing funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting. Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, and 2017, the carrying amounts of the County's deposits were $4,001,847.49 and $4,482,805.01, and the bank balances were $15,329,515.69 and $14,032,348.40, respectively. As of December 31, 2018, and 2017, the County's deposits were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2018, as follows:

Included in the following fund financial statement captions:	
Statements of Receipts, Disbursements and Changes in Cash and Investments – Governmental Funds:	
Deposits	$ 3,398,564.47
Investments	603,283.02
Total Governmental Funds	4,001,847.49
Statement of Assets and Liabilities Arising From Cash Transactions – Agency Funds:	
Deposits	11,278,876.94
Investments	-
Total Deposits and Investments as of December 31, 2018	$ 15,280,724.43

II. DEPOSITS AND INVESTMENTS (concluded)

The carrying values of deposits and investments at December 31, 2017, are as follows:

Included in the following fund financial statement captions:		
Statements of Receipts, Disbursements and Changes in Cash and Investments – Governmental Funds:		
Deposits	$	3,879,110.36
Investments		603,694.65
Total Governmental Funds		4,482,805.01
Statement of Assets and Liabilities Arising From Cash Transactions – Agency Funds:		
Deposits		10,669,982.18
Investments		-
Total Deposits and Investments as of December 31, 2017	$	15,152,787.19

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of the County or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has a policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ended December 31, 2018, and 2017.

III. LONG-TERM DEBT

CERTIFICATES OF PARTICIPATION:

On December 26, 2016, the County refinanced $6,650,000 of the 2009 Certificates of Participation with the 2016 Certificates of Participation with First Bank of Missouri with an interest rate of 3%. The Certificates of Participation are solely payable from rents paid by the County to the trustee under the lease purchase agreement. The County's obligations under the lease purchase agreements do not extend beyond the amount budgeted for any respective fiscal year. The County has the option to purchase the trustee's interest in the leased property on any date at an amount necessary to provide for the rent payments on each rent payment date through the end of the leases. Certificates of participation payable at December 31, 2018, and 2017 are as follows:

The following is a schedule of payments made under the agreement as of December 31, 2018.

Description	Balance 12/31/2017	Additions	Retirements	Balance 12/31/2018	Interest Paid	Principal Due Within 1 Year
2016 COPS	$ 5,330,000.00	$ -	$ 1,355,000.00	$3,975,000.00	$159,900.00	$365,000.00

III. LONG-TERM DEBT (concluded)

On June 15, 2018, the County Recorder entered into a lease agreement with Mobilis Technologies LLC for software licenses and certain hardware leases requiring 60 monthly payments of $1,000 to begin on May 1, 2018, and mature on April 1, 2023.

The following is a schedule of payments made under the agreement as of December 31, 2018.

Description	Balance 12/31/2017	Additions	Retirements	Balance 12/31/2018	Interest Paid	Principal Due Within 1 Year
Software License	$ -	$ 60,000.00	$ 9,000.00	$ 51,000.00	$ -	$ 12,000.00
TOTAL	$ -	$ 60,000.00	$ 9,000.00	$ 51,000.00	$ -	$ 12,000.00

2018 Future Minimum Payments:

Year Ending December 31	Amount
2019	$ 12,000.00
2020	12,000.00
2021	12,000.00
2022	12,000.00
2023	3,000.00
	$ 51,000.00

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2018, and 2017 are as follows:

	2018		2017	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ 245,206.86	$ 100,000.00	$ 600,000.00	$ -
Local Use Tax Fund	-	245,206.86	-	800,000.00
Henry County Law Enforcement Fund	100,000.00	-	200,000.00	-
	$ 345,206.86	$ 345,206.86	$ 800,000.00	$ 800,000.00

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit, which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions (concluded)

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2018 and 2017, the County collected and remitted to CERF, employee contributions of $164,234.51 and $156,112.55, respectively, for the years then ended.

VI. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $11,628 and $11,628, respectively, for the years ended December 31, 2018, and 2017.

VII. POST-EMPLOYMENT BENEFITS

The County does provide post-employment benefits including, as mandated, the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. Retirees may remain on the health insurance plan until they are Medicare eligible. If an employee has over 25 years of service with the County, the County will continue to pay the same portion of health insurance that they paid before the person retired, until the person becomes Medicare eligible. There were three participants on COBRA for the year ended December 31, 2018, paying premiums of $12,207.43 and one participant for 2017, paying premiums of $5,125.86.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continuous service. Up to one week of vacation may carry forward if it is unused. Upon termination from county employment, an employee is reimbursed for any unused vacation days. Employees accrue one sick day per month. The County allows employees to carry forward six days a year to a maximum of ninety days. Upon termination from county employment, an employee is reimbursed for half of unused sick leave, except if the employee has not worked in the County for ten years. These have not been subjected to auditing procedures.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. OTHER RETIREMENT PLAN

Contributions to a voluntary plan are paid by a voluntary deduction from employees' salaries. These contributions qualify under the Internal Revenue Code and are tax exempt. These contributions are then remitted to Pepco who administers the 457 Plan. Employee contributions were $60,776.25 and $50,307.56, respectively, for the years 2018 and 2017.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is also a member of the Missouri Rural Services Workers Compensation Insurance Trust. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $1,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

As of the date of the audit report, there are no subsequent events to report.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Henry, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Henry ("County") as of and for the years ended December 31, 2018, and 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 19, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis, A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. [2018-001, 2018-002, 2018-003, 2018-004]

Compliance and Other Matters

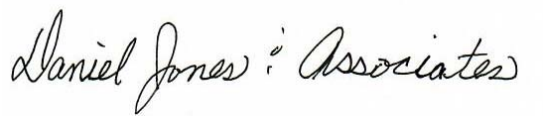
As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The County's Responses to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.



DANIEL JONES & ASSOCIATES, P.C.

I. FINANCIAL STATEMENT FINDINGS

2018-001

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County will complete the recommendation of the auditors by developing documentation to outline the County's internal control policy to deter fraud. The County will model its internal control policy from another acceptable government entity. The finished document will be approved by all office holders or department heads within the County. The County Clerk's office phone number is 660-885-7204.

2018-002

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the walkthroughs of the County, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

I. FINANCIAL STATEMENT FINDINGS (continued)

2018-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of Responsible Officials and Planned Corrective Actions: The creation of an Internal Control Policy will address and deter potential risks of fraud. The County will work to complete a thorough policy with the assistance of the auditor and other state governmental agencies. The County Clerk's office phone number is 660-885-7204.

2018-003 Criteria: Bank reconciliations must be accurately prepared for the Sheriff's Fee Account to ensure a positive cash balance.

Condition: We noted that the Sheriff's Fee bank account was reconciled to a negative balance.

Context: During our review of the Sheriff's bank accounts, we noticed that the reconciliation was negative for Sheriff's Fee Account.

Effect: Negative bank balances can result in unnecessary bank fees.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations for this account to ensure positive cash balances.

Recommendation: We recommend that the Sheriff's office prepare accurate bank reconciliations for this account.

Views of Responsible Officials and Planned Corrective Actions: The Sheriff's office will take the auditor's recommendation and make sure that the Sheriff's Fee bank account does not go negative. The Sheriff can be reached at 660-885-7021.

2018-004 Criteria: Uniform Guidance requires the auditee to document internal controls over each federal program.

Condition: During the walkthroughs of the County, we noted there is not documentation over internal controls with regards to federal awards in place.

Context: During the audit of federal programs, we noted there was not adequate internal control documentation of each federal program.

Effect: Not documenting internal controls over federal compliance requirements could result in the noncompliance of a major component of the federal program.

I. FINANCIAL STATEMENT FINDINGS (concluded)

2018-004 Cause: Adequate emphasis was not placed on the documentation of internal controls required under the *Uniform Guidance*.

Recommendation: We recommend that the County formally document internal controls over federal programs in accordance with the *Uniform Guidance.*

Views of responsible officials and planned corrective actions: The County Clerk is in the process of preparing the needed documentation to document their internal control structure in conformity with the *Uniform Guidance*. The Clerk expects to complete this by the next audit period. The Clerk's office can be reached at (660) 885-7204.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 2016-001

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County will complete the recommendation of the auditors by developing documentation to outline the County's internal control policy to deter fraud. The County will model its internal control policy from another acceptable government entity. The finished document will be approved by all office holders or department heads within the County. The County Clerk's office phone number is 660-885-7204.

Status: The finding is repeated in the current year as 2018-001.

FS 2016-002

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the walkthroughs of the County, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (concluded)

FS 2016-002

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of Responsible Officials and Planned Corrective Actions: The creation of an Internal Control Policy will address and deter potential risks of fraud. The County will work to complete a thorough policy with the assistance of the auditor and other state governmental agencies. The County Clerk's office phone number is 660-885-7204.

Status: This finding is repeated in the current year as 2018-002.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

SA 2016-001

Federal Grantor:	All
Pass-Through Grantor:	All
Federal CFDA Number:	All
Program Title:	All
Pass- Through Entity Identification Number:	All
Award Year:	2015 and 2016
Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective internal control over federal awards.

Criteria: Uniform Guidance requires the auditee to document internal controls over each federal program.

Condition: During the walkthroughs of the County, we noted there is not documentation over internal controls with regards to federal awards in place.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we noted there was not adequate internal control documentation of each federal program.

Effect: Not documenting internal controls over federal compliance requirements could result in the noncompliance of a major component of the federal program.

Cause: Adequate emphasis was not placed on the documentation of internal controls required under the *Uniform Guidance*.

Recommendation: We recommend that the County formally document internal controls over federal programs in accordance with the *Uniform Guidance.*

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (continued)

Views of responsible officials and planned corrective actions: The County Clerk is in the process of preparing the needed documentation to document their internal control structure in conformity with the *Uniform Guidance*. The Clerk expects to complete this by the next audit period. The Clerk's office can be reached at (660) 885-7204.

Status: This finding is repeated in the current year as 2018-004.

SA 2016-002	Federal Grantor:	U.S. Department of Transportation, General Services Administration, Election Assistance Commission, U.S. Department of Health and Human Services and U.S. Department of Homeland Security.
	Pass-Through Grantor:	Missouri Highway and Transportation Commission, Missouri Department of Public Safety, Missouri Office of Secretary of State, Missouri Department of Social Services, and the State Emergency Management Agency.
	Federal CFDA Number:	20.205, 20.600, 39.011, 90.401, 93.563, 97.036 and 97.042
	Program Title:	Alcohol Open Container Requirements, Child Support Enforcement, CDBG, BJA Vest Grant and State and Community Highway Safety
	Award year	2016 and 2015
	Type of Finding	Other Information – Significant Deficiency

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* requires the auditee to prepare the Schedule of Expenditures of Federal Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards.*

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (concluded)

SA 2016-002 *Recommendation:* The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA.

Views of responsible officials and planned corrective actions: The County will work diligently to comply with and to fully understand the proper procedures of completing the SEFA. As the state does not provide SEFA training, advice may be sought from Certified Public Accountants with SEFA knowledge and local governments. The County Clerk's office will create a spreadsheet to input data relating to expenditures of federal awards. The County Clerk's office phone number is 660-885-7204.

Status: This finding has been resolved in the current audit period.

& Associates
CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

July 19, 2019

To the County Commission
The County of Henry, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Henry (the "County") as of and for the years ended December 31, 2018 and December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2018-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County will complete the recommendation of the auditors by developing documentation to outline the County's internal control policy to deter fraud. The County will model its internal control policy from another acceptable government entity. The finished document will be approved by all office holders or department heads within the County. The County Clerk's office phone number is 660-885-7204.

2018-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the walkthroughs of the County, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Concluded)

2018-002 Views of Responsible Officials and Planned Corrective Actions: The creation of an Internal Control Policy will address and deter potential risks of fraud. The County will work to complete a thorough policy with the assistance of the auditor and other state governmental agencies. The County Clerk's office phone number is 660-885-7204.

2018-003 Criteria: Bank reconciliations must be accurately prepared for the Sheriff's Fee Account to ensure a positive cash balance.

Condition: We noted that the Sheriff's Fee bank account was reconciled to a negative balance.

Context: During our review of the Sheriff's bank accounts, we noticed that the reconciliation was negative for Sheriff's Fee Account.

Effect: Negative bank balances can result in unnecessary bank fees.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations for this account to ensure positive cash balances.

Recommendation: We recommend that the Sheriff's office prepare accurate bank reconciliations for this account.

Views of Responsible Officials and Planned Corrective Actions: The Sheriff's office will take the auditor's recommendation and make sure that the Sheriff's Fee bank account does not go negative. The Sheriff can be reached at 660-885-7021.

2018-004 Criteria: Uniform Guidance requires the auditee to document internal controls over each federal program.

Condition: During the walkthroughs of the County, we noted there is not documentation over internal controls with regards to federal awards in place.

Context: During the audit of federal programs, we noted there was not adequate internal control documentation of each federal program.

Effect: Not documenting internal controls over federal compliance requirements could result in the noncompliance of a major component of the federal program.

Cause: Adequate emphasis was not placed on the documentation of internal controls required under the *Uniform Guidance*.

Recommendation: We recommend that the County formally document internal controls over federal programs in accordance with the *Uniform Guidance.*

Views of responsible officials and planned corrective actions: The County Clerk is in the process of preparing the needed documentation to document their internal control structure in conformity with the *Uniform Guidance*. The Clerk expects to complete this by the next audit period. The Clerk's office can be reached at (660) 885-7204.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 13, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2018 and 2017 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 19, 2019.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity. During our audit we noted that the federal form 941's were not being reconciled to the general ledger on a quarterly basis. We also noted that during testing of accounts payable transactions, it was noted that sales tax was charged on multiple invoices. It was also noted that one expenditure was coded to an incorrect account and there were two missing invoices.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Warren County, Missouri

The Office of the State Auditor contracted for an audit of Warren County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Warren, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Warren (County), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2018, and 2017, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2018, and 2017, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2018, and 2017, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 19, 2019, on our consideration of the County of Warren's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Warren's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Warren, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1833 by an Act of the Missouri Territory. In addition to the three commissioners, there are eleven elected Constitutional Officers: Assessor, County Clerk, Collector of Revenue, Treasurer, Coroner, Circuit Clerk, Recorder of Deeds, Prosecuting Attorney, Public Administrator, Surveyor, and Sheriff.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Warren County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is determined upon changes in financial position rather than upon net income.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other agency operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the generally accepted basis of accounting, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting (concluded)

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations that were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes (concluded)

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2018 and 2017, for purposes of taxation, was:

	2018	2017
Real Estate	$ 449,484,684	$ 434,987,335
Personal Property	106,952,556	101,305,967
Railroad and Utilities	33,227,184	36,780,663
	$ 589,664,424	$ 573,073,965

During 2018 and 2017, the County Commission approved a $0.4401 and $0.4360 tax levy, respectively, per $100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2018	2017
General Revenue Fund	$ 0.1031	$ 0.0990
Special Road and Bridge Fund	0.1767	0.1767
Senate Bill 40 Board Fund	0.1603	0.1603
	$ 0.4401	$ 0.4360

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes depositing funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

G. Interfund Transactions

During the course of operations, numerous transactions occur among individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available to all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, and 2017, the carrying amounts of the County's deposits were $6,612,779.54 and $7,079,719.71, and the bank balances were $30,820,827.11 and $29,792,395.31, respectively. The total bank balance as of December 31, 2018, and December 31, 2017, were insured through the Federal Deposit Insurance Corporation and the securities set by the County's and the Senate Bill 40 Board's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2018, as follows:

Statements of Receipts, Disbursements and Changes in Cash and Investment Balances		
Deposits and cash equivalents	$	6,099,806.53
Investments		512,973.01
Total Governmental Funds		6,612,779.54
Statements of Assets and Liabilities Arising from Cash Transactions – Agency Funds:		
Deposits		31,732,333.10
Investments		17,128.67
Total Agency Funds		31,749,461.77
Total Deposits and Investments as of December 31, 2018	$	38,362,241.31

The carrying values of deposits and investments at December 31, 2017, are as follows:

Statements of Receipts, Disbursements and Changes in Cash and Investment Balances		
Deposits and cash equivalents	$	6,575,927.11
Investments		503,792.60
Total Governmental Funds		7,079,719.71
Statements of Assets and Liabilities Arising from Cash Transactions – Agency Funds:		
Deposits		30,911,564.57
Investments		17,128.67
Total Agency Funds		30,928,693.24
Total Deposits and Investments as of December 31, 2017	$	38,008,412.95

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

II. DEPOSITS AND INVESTMENTS (concluded)

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. The County's investments were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ended December 31, 2018, and 2017.

III. CERTIFICATE OF PARTICIPATION

On August 8, 2018, Warren County issued Series 2018 Lease Certificates of Participation in the amount of $3,600,000. Proceeds from the sale of the series 2018 Certificates, together with other legally available funds of the County, will be used to provide funds to expand the current jail by approximately 52 beds through remodeling the existing space. The term is for 15 years with a variable interest rate from 3.000% to 3.500% with annual payments ranging from $225,000.00 to $300,000.00. These payments will be made out of the General Revenue Fund.

As of December 31, 2018, the unpaid principal balance for the Certificates of Participation were $3,600,000. The payments for the Certificate of Participation agreement of the County are as follows:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid	Amounts Due Within One Year
Series 2018 COPS	$ -	$ 3,600,000.00	$ -	$ 3,600,000.00	$ -	$ -
TOTAL	$ -	$ 3,600,000.00	$ -	$ 3,600,000.00	$ -	$ -

III. CERTIFICATE OF PARTICIPATION (concluded)

As of December 31, 2018, the schedule of the County's future payments for the Certificate of Participation are as follows:

:

Year Ending December 31,	Interest	Principal	Total
2019	$ 136,106.25	$ -	$ 136,106.25
2020	111,375.00	225,000.00	336,375.00
2021	104,625.00	225,000.00	329,625.00
2022	97,875.00	225,000.00	322,875.00
2023	91,125.00	225,000.00	316,125.00
2024-2028	344,312.50	1,250,000.00	1,594,312.50
2029-2033	128,125.00	1,450,000.00	1,578,125.00
	$ 1,013,543.75	$ 3,600,000.00	$ 4,613,543.75

IV. CAPITAL LEASES

On April 1, 2010, Warren County entered into a lease purchase agreement with Missouri Bank to build the Warren County Recycle Center. The terms include a principal amount of $200,000 with an interest rate of 3.95%. The County makes the payment for the building but it is reimbursed by the Recycle Center each month. These payments are made out of the General Revenue Fund.

On July 1, 2017, Warren County entered into a lease purchase agreement with the Warren County Health Department to purchase a fitness center building through Missouri Bank. The terms include a principal amount of $150,000 with an interest rate of 3.00% and 10 semi-annual payments of $16,269.53. These payments are made out of the General Revenue Fund.

As of December 31, 2018, the unpaid principal balance for the capital leases was $153,117.99. The payments for the lease purchase agreement of the County are as follows:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid	Amounts Due Within One Year
Recyle Center Building	$ 53,951.57	$ -	$ (22,515.43)	$ 31,436.14	$ 1,726.37	$ 23,421.07
Fitness Center	150,000.00	-	(28,318.15)	121,681.85	4,220.81	29,059.12
TOTAL	$ 203,951.57	$ -	$ (50,833.58)	$ 153,117.99	$ 5,947.18	$ 52,480.19

IV. CAPITAL LEASES (concluded)

As of December 31, 2018, the schedule of the County's future payments for the capital leases are as follows:

Year Ending December 31,	Interest	Principal	Total
2019	$ 4,300.57	$ 52,480.19	$ 56,780.76
2020	2,662.60	37,956.96	40,619.56
2021	1,671.58	30,867.38	32,538.96
2022	725.55	31,813.46	32,539.01
	$ 9,360.30	$ 153,117.99	$ 162,478.29

As of December 31, 2017, the unpaid principal balance for the capital lease was $203,951.57. The future payments for the County's lease purchase agreements are as follows:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid	Amounts Due Within One Year
Recyle Center Building	$ 75,596.37	$ -	$ (21,644.80)	$ 53,951.57	$ 2,597.00	$ 22,515.43
Fitness Center	-	150,000.00	-	150,000.00	-	28,318.15
TOTAL	$ 75,596.37	$ 150,000.00	$ (21,644.80)	$ 203,951.57	$ 2,597.00	$ 50,833.58

As of December 31, 2017, the schedule of the County's future payments for the capital lease are as follows:

Year Ended December 31,	Interest	Principal	Total
2018	$ 5,947.18	$ 50,833.58	$ 56,780.76
2019	4,300.57	52,480.19	56,780.76
2020	2,662.60	37,956.96	40,619.56
2021	1,671.58	30,867.38	32,538.96
2022	725.55	31,813.46	32,539.01
	$ 15,307.48	$ 203,951.57	$ 219,259.05

V. OPERATING LEASES

On August 18, 2014, the Assessor's office entered into a 60-month lease with Marco Technologies, formerly Data Comm, for a copier with a monthly payment of $352.00. The County paid off the lease in September of 2017 for $4,065. These payments are made out of the Assessment Fund.

On June 30, 2016, the Sheriff's office entered into a 36-month lease with Lease Finance Partners for 22 wearable cameras with a monthly payment of $1,406.00. These payments are made out of the Sheriff's Civil Fees Fund.

V. OPERATING LEASES (concluded)

On September 24, 2018, the Assessor's office entered into a 60-month lease with Great America Financial Services for the lease of copier equipment with a monthly payment of $1,535.43. These payments are made out of the Assessment Fund.

The future payments for the County's operating leases as of December 31, 2018, are as follows:

Year Ending December 31	Assessor Copier	Sheriff Cameras	Total
2019	$ 18,425.16	$ 8,436.00	$ 26,861.16
2020	18,425.16	-	18,425.16
2021	18,425.16	-	18,425.16
2022	18,425.16	-	18,425.16
2023	13,818.87	-	13,818.87
	$ 87,519.51	$ 8,436.00	$ 95,955.51

The future payments for the County's operating leases as of December 31, 2017, are as follows:

Year Ending December 31	Assessor Copier	Sheriff Cameras	Total
2018	$ 4,606.29	$ 16,872.00	$ 21,478.29
2019	18,425.16	8,436.00	26,861.16
2020	18,425.16	-	18,425.16
2021	18,425.16	-	18,425.16
2022	18,425.16	-	18,425.16
2023	13,818.87	-	13,818.87
	$ 92,125.80	$ 25,308.00	$ 117,433.80

VI. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2018, and 2017 are as follows:

	2018		2017	
	TRANSFERS IN	TRANSFERS OUT	TRANSFERS IN	TRANSFERS OUT
General Revenue Fund	$ 99,881.00	$ 866,629.76	$ 98,072.00	$ 473,160.00
Special Road and Bridge Fund	-	152,881.00	-	151,283.00
Assessment Fund	-	6,000.00	-	4,053.00
Law Enforcement Fund	849,629.76	27,500.00	450,000.00	35,898.00
Health Reimbursement Fund	55,500.00	-	68,322.00	-
Road and Bridge Capital Fund	100,000.00	-	100,000.00	-
Tax Maintenance Fund	-	52,000.00	-	52,000.00
TOTAL	$ 1,105,010.76	$ 1,105,010.76	$716,394.00	$ 716,394.00

VI. INTERFUND TRANSFERS (concluded)

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs.

Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (Concluded)

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2018 and 2017, the County collected and remitted to CERF, employee contributions of $333,221.98 and $315,466.14, respectively, for the years then ended.

VIII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $11,628.00 and $11,628.00, respectively, for the years ended December 31, 2018, and 2017.

IX. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There were three participants at December 31, 2018, and four participants at December 31, 2017, which contributed a total of $6,002.96 and $4,740.29, respectively.

X. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is involved in a potential legal claim at December 31, 2018. No provision has been made in the financial statements for any loss that might arise in the event of an unfavorable outcome of these matters. County officials believe that such litigation and claims will ultimately be resolved without material financial liability, if any, to the County.

B. Compensated Absences (Vacation and Sick Time)

Warren County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Vacation leave earned must be used within one year of earning the leave. Upon termination from county employment, an employee is not reimbursed for unused vacation if the required notice time is not met. If required notice time is met, then the unused vacation time will be reimbursed. Sick time is offered to full time employees after the first 90 days of employment. A maximum of 240 hours can be accrued but these hours cannot be accrued while the employee is absent from work. These have not been subjected to auditing procedures.

X. CLAIMS COMMITMENTS AND CONTINGENCIES (Concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in refunding of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

XI. SUBSEQUENT EVENTS

There are no subsequent events to report as of the audit report date.

XII. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Warren, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Warren ("County"), Missouri as of and for the years ended December 31, 2018, and 2017, and the notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 19, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses that we consider to be a significant deficiency. (2018-001)

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

I. FINANCIAL STATEMENT FINDINGS

2018-001

Criteria: Investments made out of the regular bank accounts of the County should be recorded as investment assets, not expensed out of the funds.

Condition: We noted that investments made for the Capital Improvement Fund and the Road and Bridge Capital Fund were expensed in the amount of $300,000.00 and $200,000.00, respectively, during 2017. These amounts were not being properly shown as additional assets for the respective funds. Interest income for the Capital Improvement Fund from these investments in the amounts of $2,275.56 for 2017 and $5,508.25 for 2018 were not being represented in the County's financial statements and general ledger. Interest income for the Road and Bridge Capital Fund from these investments in the amounts of $1,517.04 for 2017 and $3,672.16 for 2018 were not being represented in the County's financial statements and general ledger.

Context: This deficiency became apparent through our testing of the Treasurer's cash accounts and the related reconciliations.

Effect: Errors in reporting expenses versus a transfer of assets misrepresent the financial condition of the County within the respective funds.

Cause: Management misclassed transactions for expenses rather than a transfer of assets.

Recommendation: We recommend that the Treasurer's office reclass these transactions as a transfer of assets and record the interest revenue for each fund for each respective year. We also recommend ensuring that this practice is carried through for any future investments made within any fund for the County.

Views of Responsible Officials and Planned Corrective Actions: The Treasurer's Office (Jeffrey A. Hoelscher) has already begun implementing the auditor's recommendation. The Treasurer's office is working on reclassing the expenses to assets, recording interest revenue, and plans to have this implemented by the next audit period. The Treasurer's office phone number is (636) 456-3389.

THE COUNTY OF WARREN
WARRENTON, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2018 AND 2017

I. FOLLOW-UP PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There were no financial statement findings for the years ended December 31, 2016, and December 31, 2015.

Daniel Jones

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

July 19, 2019

To the County Commission
The County of Warren, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Warren (the "County") as of and for the years ended December 31, 2018 and December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the County's internal control to be a significant deficiency as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiency Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided a written response to the finding in this report that was identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2018-001 Criteria: Investments made out of the regular bank accounts of the County should be recorded as investment assets, not expensed out of the funds.

Condition: We noted that investments made for the Capital Improvement Fund and the Road and Bridge Capital Fund were expensed in the amount of $300,000.00 and $200,000.00, respectively, during 2017. These amounts were not being properly shown as additional assets for the respective funds. Interest income for the Capital Improvement Fund from these investments in the amounts of $2,275.56 for 2017 and $5,508.25 for 2018 were not being represented in the County's financial statements and general ledger. Interest income for the Road and Bridge Capital Fund from these investments in the amounts of $1,517.04 for 2017 and $3,672.16 for 2018 were not being represented in the County's financial statements and general ledger.

Context: This deficiency became apparent through our testing of the Treasurer's cash accounts and the related reconciliations.

Effect: Errors in reporting expenses versus a transfer of assets misrepresent the financial condition of the County within the respective funds.

Cause: Management misclassed transactions for expenses rather than a transfer of assets.

Recommendation: We recommend that the Treasurer's office reclass these transactions as a transfer of assets and record the interest revenue for each fund for each respective year. We also recommend ensuring that this practice is carried through for any future investments made within any fund for the County.

Views of Responsible Officials and Planned Corrective Actions: The Treasurer's Office (Jeffrey A. Hoelscher) has already begun implementing the auditor's recommendation. The Treasurer's office is working on reclassing the expenses to assets, recording interest revenue, and plans to have this implemented by the next audit period. The Treasurer's office phone number is (636) 456-3389.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 3, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2018 and 2017 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Significant Audit Matters (concluded)

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 19, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Butler County, Missouri

The Office of the State Auditor contracted for an audit of the Butler County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. This audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Butler, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Butler ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2018, and 2017, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2018, and 2017, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2018, and 2017, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Butler's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 2, 2019, on our consideration of the County of Butler's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Butler's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Butler, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1849 by an Act of the Missouri Territory. In addition to the three Commissioners, there are nine elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk and ex officio Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of Butler County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation, was:

	2018	2017
Real Estate	$ 458,941,900	$ 445,300,690
Personal Property	134,310,179	128,557,308
Railroad and Utilities	28,348,547	27,256,076
	$ 621,600,626	$ 601,114,074

During 2018 and 2017, the County Commission approved a $.2597 and $.2678, respectively, tax levy per $100 of assessed valuation of tangible taxable, for purposes of County taxation, as follows:

	2018	2017
General Revenue Fund	$ .0893	$ .0934
Special Road and Bridge Fund	.0262	.0305
Care of the Handicapped Fund	.0963	.0961
Senior Citizens Fund	.0479	.0478
	$ 0.2597	$ 0.2678

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on a weighted average of cash balance. Cash equivalents include any instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash balances are separately held by several of the County’s funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, and 2017, the carrying amounts of the County's deposits were $7,947,783.52 and $6,591,965.68, respectively, and the bank balances were $24,968,765.58 and $23,659,779.11, respectively. As of December 31, 2018, and 2017, the County’s deposits were insured through the Federal Deposit Insurance Corporation and securities set by the County’s financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2018, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash Balances – Governmental Funds:	
Deposits	$ 7,947,783.52
Total Governmental Funds	7,947,783.52
Statement of Assets and Liabilities Arising From Cash Transactions – Agency Funds:	
Deposits	22,784,777.66
Total Deposits as of December 31, 2018	$ 30,732,561.18

II. DEPOSITS (concluded)

The carrying values of deposits at December 31, 2017, are as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash Balances – Governmental Funds:		
Deposits	$	6,591,965.68
Total Governmental Funds		6,591,965.68
Statement of Assets and Liabilities Arising From Cash Transactions – Agency Funds:		
Deposits		23,314,853.48
Total Deposits as of December 31, 2017	$	29,906,819.16

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2018, and 2017.

III. LONG-TERM DEBT

CAPITAL LEASES:

The County entered into a capital lease agreement with Willard and Janice Allison for housing the Butler County Juvenile Center, including a detention center and Edgewood Home. The lease has a principal of $144,000.00 with 0% interest. Monthly payments of $1,000.00, beginning on September 1, 2005, with a 144-month term, are stated in the agreement. The capital lease ended in August 2017.

The County entered into a capital lease purchase agreement with Dominion Voting, for the purchase of election equipment for the County in the amount of $150,750.00, in January 2017. The term of the lease is 36 months with 0% interest and consist of payment at delivery of $75,375.00 and consecutive yearly payments of $45,225.00 and $30,150.00. The lease ends in January 2019.

The County entered into a capital lease purchase agreement with Tri-State Trucking for Mack Trucks for $266,538.00, in October 2018. The lease ends October 15, 2020, with a nominal interest rate of 3.790%. Payments of $34,571.97 and $214,000 are to be paid in the next two consecutive years with interest and principal combined.

The County entered into a capital lease purchase agreement with Tri-State Trucking for Mack Trucks for $262,164.00, in September 2018. The lease ends September 20, 2020, with a nominal interest rate of 3.790%. Payments of $32,344.30 and $214,000.00 are to be paid in the next two consecutive years with interest and principal combined.

The County entered into a capital lease purchase agreement with Tri-State Trucking for Mack Trucks for $219,110.00, in September 2018. The lease ends October 20, 2020, with a nominal interest rate of 3.790%. Payments of $31,219.40 and $170,000 are to be paid in the next two consecutive years with interest and principal combined.

The following is a schedule of payments made under the agreement as of December 31, 2018.

Description	Balance 12/31/2017	Additions	Retirements	Balance 12/31/2018	Interest Paid	Principal Due Within 1 Year
Dominion Voting	$ 75,375.00	$ -	$ 45,225.00	$ 30,150.00	$ -	$ 30,150.00
Mack Trucks	-	266,538.00	34,571.97	231,966.03	-	25,780.46
Mack Trucks	-	262,164.00	32,344.30	229,819.70	-	23,634.13

TOTAL	$ 75,375.00	$ 747,812.00	$ 143,360.67	$679,826.33	$ -	$ 103,662.93

2018 AMORTIZATIONS

YEARS ENDING DECEMBER 31,	PRINCIPAL	INTEREST	TOTAL
2019	$ 103,662.93	$ 24,662.74	$ 128,285.67
2020	576,163.40	21,836.60	598,000.00
	$ 679,826.33	$ 46,459.34	$ 726,285.67

III. LONG-TERM DEBT (continued)

CAPITAL LEASES: (concluded)

The following is a schedule of payments made under the agreement as of December 31, 2017.

Description	Balance 12/31/2016	Additions	Retirements	Balance 12/31/2017	Interest Paid	Principal Due Within 1 Year
Capital Lease	$ 8,000.00	$ -	$ 8,000.00	$ -	$ -	$ -
Dominion Voting	-	150,750.00	75,375.00	75,375.00	-	45,225.00
TOTAL	$ 8,000.00	$ 150,750.00	$ 83,375.00	$ 75,375.00	$ -	$ 45,225.00

2017 AMORTIZATIONS

YEARS ENDING DECEMBER 31,	PRINCIPAL	INTEREST	TOTAL
2018	$ 45,225.00	$ -	$ 45,225.00
2019	30,150.00	-	30,150.00
	$ 75,375.00	$ -	$ 75,375.00

OPERATING LEASES:

In 2014, the County entered into an operating agreement with Pitney Bowes for a postage meter. The lease agreement calls for monthly payments of $324.95 for 60 months.

In May of 2017, the Prosecuting Attorney entered into a lease agreement for a copier. The lease requires 60 monthly payments of $132.24.

In January 2017, the Clerk entered into a lease agreement for network equipment. The lease requires 36 monthly payments of $85.00.

In January 2017, the Recorder entered into a lease agreement for network equipment. The lease requires 36 monthly payments of $85.00.

In August 2018, the County entered into an operating agreement with Pitney Bowes for a postage meter. The lease agreement calls for monthly payments of $297.47 for 60 months.

2018 AMORTIZATIONS

Year Ending December 31	Postage Meter	P.A. Copier	Clerk Network	Recorder Network	Total
2019	$ 3,569.64	$ 1,586.88	$ 1,020.00	$ 1,020.00	$ 7,196.52
2020	3,569.64	1,586.88	1,020.00	1,020.00	7,196.52
2021	3,569.64	1,586.88	-	-	5,156.52
2022	3,569.64	661.20	-	-	4,230.84
2023	3,272.17	-	-	-	3,272.17
	$ 17,550.73	$ 5,421.84	$ 2,040.00	$ 2,040.00	$ 27,052.57

III. LONG-TERM DEBT (concluded)

OPERATING LEASES (concluded)

2017 AMORTIZATIONS

Year Ending December 31	Postage Meter	P.A. Copier	Clerk Network	Recorder Network	Total
2018	$ 3,871.92	$ 1,586.88	$ 1,020.00	$ 1,020.00	$ 7,498.80
2019	-	1,586.88	1,020.00	1,020.00	3,626.88
2020	-	1,586.88	1,020.00	1,020.00	3,626.88
2021	-	1,586.88	-	-	1,586.88
2022	-	661.20	-	-	661.20
	$ 3,871.92	$ 7,008.72	$ 3,060.00	$ 3,060.00	$ 17,000.64

On October 5, 2016, the County entered into a lease agreement with three other counties to lease office space for the public defender. The lease calls for monthly payments of $2,062.50 for 60 months. The County is only responsible for 55.809% of the monthly rent. The lease ends on December 31, 2019. Below are the minimum lease payments as of December 31, 2018, and December 31, 2017.

2018 AMORTIZATIONS

YEARS ENDING DECEMBER 31,	PAYMENT	TOTAL
2019	$ 13,812.72	$ 13,812.72
	$ 13,812.72	$ 13,812.72

2017 AMORTIZATIONS

YEARS ENDING DECEMBER 31,	PAYMENT	TOTAL
2018	$ 13,812.72	$ 13,812.72
2019	13,812.72	13,812.72
	$ 27,625.44	$ 27,625.44

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2018, and 2017 are as follows:

	2018		2017	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ -	$ 450,000.00	$ -	$ 450,000.00
Law Enforcement Training Fund	15,000.00	-	5,000.00	-
Sheriff Commissary Fund	-	4,029.74	-	9,235.50
Butler County 911 Fund	-	80,000.00	-	80,000.00
Sheriff Civil Fund	-	60,000.00	-	5,000.00
Sheriff Revolving Fund	-	2,500.00	-	-
Law Enforcement Complex Fund	581,529.74	-	539,235.50	-
TOTAL	$ 596,529.74	$ 596,529.74	$ 544,235.50	$ 544,235.50

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Butler County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Butler County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with Sections 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance. The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

	2018 Valuation
Benefit Multiplier:	2.00%
Final Average Salary:	3 Years
Member Contributions:	0%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2018, the following employees were covered by the benefit terms:

	General	Police	Road
Inactive employees or beneficiaries currently receiving benefits	40	25	32
Inactive employees entitled to but not yet receiving benefits	29	22	6
Active employees	53	24	31
	122	71	69

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 13.4% (General), 12.8% (Police) and 17.0% (Roads) of annual covered payroll for 2018.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2018.

Actuarial Assumptions

The total pension liability in the February 28, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2018, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Equity	43.00%	5.16%
Fixed Income	26.00%	2.86%
Real Assets	21.00%	3.23%
Strategic Assets	10.00%	5.59%

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Changes in the Net Pension Liability

Schedule of Changes in Net Pension Liability and Related Ratios

	General Division	Police Division	Roads Division
A. Total Pension Liability			
1 Service Cost	$ 250,978	$ 123,087	$ 161,202
2 Interest on Total Pension Liability	717,501	240,791	553,159
3 Changes of Benefit Terms	-	-	-

Total	$ (556,581)	$ (312,796)	$ (300,348)

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs.

Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55.

Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee.

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions (concluded)

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2018 and 2017, the County collected and remitted to CERF, employee contributions of approximately $129,774.05 and $126,300.88, respectively, for the years then ended.

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $11,628 and $11,628, respectively, for the years ended December 31, 2018, and 2017.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There were two participants at December 31, 2018, totaling $5,982.86 in contributions and no participants at December 31, 2017.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Vacation days do not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue one sick day per month. The County allows employees to carry forward six days a year to a maximum of thirty days. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Rural Services Self-Insured Workers' Trust Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

As of the date of the audit report, there are no subsequent events to report.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

I. For the year ended December 31, 2018, expenditures exceeded those budgeted for the following: DRA Fund and the Health and Dental Escrow Fund.

II. For the year ended December 31, 2018, the CERF agency fund had a negative balance of ($292.03).

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Butler, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Butler ("County") as of and for the years ended December 31, 2018, and 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 2, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis, A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. [2018-001 and 2018-002]

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To The County Commission
The County of Butler, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Butler's ("County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2018, and 2017. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2018, and 2017.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2018-003 and 2018-004. Our opinion on each major federal program is not modified with respect to these matters.

The County's responses to the noncompliance findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2018-003 and 2018-004, that we consider to be significant deficiencies.

The County's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The notes to the schedule of expenditures of federal awards are an integral part of this statement.

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the County of Butler under programs of the federal government for the years ended December 31, 2018, and 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Butler, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Butler.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The County has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 – SUBRECIPIENTS

The County passed-through the following grant to the following sub-recipients as of December 31, 2018, and 2017:

Entity	Grant	CFDA#	2018 Amount	2017 Amount	Total
Poplar Bluff R-I	Schools and Roads - Grants to States	10.665	$ 61,858.51	$ 35,809.72	$ 97,668.23
Twin Rivers R-10	Schools and Roads - Grants to States	10.665	16,776.10	9,711.64	26,487.74
Greenville R-2W	Schools and Roads - Grants to States	10.665	4,833.11	2,797.88	7,630.99
East Carter R-2C	Schools and Roads - Grants to States	10.665	28,978.70	16,775.70	45,754.40

THE COUNTY OF BUTLER
POPLAR BLUFF, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2018 AND 2017

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unmodified – Regulatory Basis

2. Internal control over financial reporting:

a. Material weakness(es) identified?	2018 ___	Yes	X No
	2017 ___	Yes	X No
b. Significant deficiency(ies) identified?	2018 X	Yes	___ None Reported
	2017 X	Yes	___ None Reported

3. Noncompliance material to financial statements noted?

	2018 ___	Yes	X No
	2017 ___	Yes	X No

B. Federal Awards

1. Internal control over major federal programs:

a. Material weakness(es) identified?	2018 ___	Yes	X No
	2017 ___	Yes	X No
b. Significant deficiency(ies) identified?	2018 X	Yes	___ None Reported
	2017 X	Yes	___ None Reported

2. Type of auditor's report issued on compliance for major federal programs:

2018 - Unmodified

2017 - Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with section 2 CFR 200.516(a)?

	2018 X	Yes	___ No
	2017 X	Yes	___ No

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major federal program:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2018/2017	14.228	Community Development Block Grants/State's program and Non-Entitlement Grants in Hawaii

5. Dollar threshold used to distinguish between type A and type B programs: $ 750,000

6. Auditee qualified as low-risk auditee? 2018 ___ Yes X No

2017 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

2018-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

II. FINANCIAL STATEMENT FINDINGS (concluded)

2018-001 Views of responsible officials and planned corrective actions: The County has started researching the COSO internal control guidance and will begin the process of internal control documentation in the County Commission's office. The County Commission's office phone number is (573)686-8050.

2018-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there was no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County will address fraud risk assessment and work on preparing in all of the offices. The County Commission's office phone number is (573)686-8050.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017

2018-003

Federal Grantor:	All
Pass-Through Grantor:	All
Federal CFDA Number:	All
Program Title:	All
Pass- Through Entity Identification Number:	All
Award Year:	2017 and 2018
Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective internal control over federal awards.

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) requires the auditee to document internal controls over each federal program.

Condition: During the walkthroughs of the County, we noted there is not documentation over internal controls with regards to federal awards in place.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we noted there was not adequate internal control documentation of each federal program.

Effect: Not documenting internal controls over federal compliance requirements could result in the noncompliance of a major component of the federal program.

Cause: Adequate emphasis was not placed on the documentation of internal controls required under the *Uniform Guidance*.

Recommendation: We recommend that the County formally document internal controls over federal programs in accordance with the *Uniform Guidance.*

Views of responsible officials and planned corrective actions: The County Clerk (Tonyi Deffendall) is continuing to work on the internal controls along with the County Clerks' Association to help all clerks in Missouri meet this requirement. The Clerk's office can be reached at (573) 686-8050.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017 (concluded)

2018-004	Federal Grantor:	U.S. Department of Housing and Urban Development, U.S. Department of Interior, U.S. Department of Transportation, U.S. Department of Health and Human Services, and U.S. Department of Homeland Security
	Pass-Through Grantor:	MO Department of Economic Development, MO Highway Safety and Traffic Division, MO Department of Social Services, MO State Emergency Management Agency
	Federal CFDA Number:	14.228, 15.226, 20.600, 93.563 and 97.042
	Program Title:	Community Development Block Grants/State's program and Non-Entitlement Grants in Hawaii, Payments in Lieu of Taxes (PILT), State and Community Highway Safety, Child Support Enforcement and Emergency Management Performance Grants
	Award year	2017 and 2018
	Type of Finding	Other Information – Significant Deficiency

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) requires the auditee to prepare the Schedule of Expenditures of Federal Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards.*

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA.

Views of responsible officials and planned corrective actions: The County Clerk's office (Tonyi Deffendall) will work more closely with the grant administrators to ensure the SEFA is correctly prepared going forward. The Clerk's office can be reached at (573) 686-8050.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 2016-001

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County has started researching the COSO internal control guidance and will begin the process of internal control documentation in the County Commission's office. The County Commission's office phone number is (573)686-8050.

Status: This finding is repeated in the current year as 2018-001.

FS 2016-002

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there was no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (concluded)

FS 2016-002 Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County will address fraud risk assessment and work on preparing in all of the offices. The County Commission's office phone number is (573)686-8050.

Status: This finding is repeated in the current year as 2018-002.

FS 2016-003 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the County was under-pledged with a financial institution.

Context: The County holds several bank accounts with a financial institution that was under-collateralized for the years ended December 31, 2016 and 2015, respectively.

Effect: There is a risk that the County's under-collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: The County Treasurer should periodically review the cash and investment securities pledged with the bank to ensure the County's deposits are fully collateralized.

Views of Responsible Officials and Planned Corrective Actions: The County Treasurer repeatedly reviews the collateral for both operating and investment accounts. This under-collateralization was the result of the financial institution's misinterpretation of the County investment policy. The Treasurer's office can be reached at 573-686-8083.

Status: This finding was resolved in the current audit period.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

SA 2016-001

Federal Grantor:	All
Pass-Through Grantor:	All
Federal CFDA Number:	All
Program Title:	All
Pass- Through Entity Identification Number:	All
Award Year:	2015 and 2016
Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective internal control over federal awards.

Criteria: Uniform Guidance requires the auditee to document internal controls over each federal program.

Condition: During the walkthroughs of the County, we noted there is not documentation over internal controls with regards to federal awards in place.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we noted there was not adequate internal control documentation of each federal program.

Effect: Not documenting internal controls over federal compliance requirements could result in the noncompliance of a major component of the federal program.

Cause: Adequate emphasis was not placed on the documentation of internal controls required under the *Uniform Guidance*.

Recommendation: We recommend that the County formally document internal controls over federal programs in accordance with the *Uniform Guidance.*

Views of responsible officials and planned corrective actions: The County Clerk (Tonyi Deffendall) is in the process of preparing the needed documentation to document their internal control structure in conformity with the *Uniform Guidance*. The Clerk expects to complete this by the next audit period. The Clerk's office can be reached at (573) 686-8050.

Status: This finding is repeated in the current year as 2018-003.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (concluded)

SA 2016-002	Federal Grantor:	U.S. Department of Transportation, U.S. Department of Health and Human Services, U.S. Department of Housing and Urban Development and U.S. Department of Justice

CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

July 2, 2019

To the County Commission
The County of Butler, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Butler (the "County") as of and for the years ended December 31, 2018 and December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be a significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be a significant deficiency as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiency Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2018-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County has started researching the COSO internal control guidance and will begin the process of internal control documentation in the County Commission's office. The County Commission's office phone number is (573) 686-8050.

2018-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there was no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Continued)

2018-002 Views of responsible officials and planned corrective actions: The County will address fraud risk assessment and work on preparing in all of the offices. The County Commission's office phone number is (573)686-8050.

	Type of Finding	Other Information – Significant Deficiency

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) requires the auditee to prepare the Schedule of Expenditures of Federal Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards.*

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA.

Views of responsible officials and planned corrective actions: The County Clerk's office (Tonyi Deffendall) will work more closely with the grant administrators to ensure the SEFA is correctly prepared going forward. The Clerk's office can be reached at (573) 686-8050.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards and the Uniform Guidance*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 20, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2018 and 2017 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 2, 2019.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report the schedule of expenditure of federal awards, which accompanies the financial statements but is not RSI (required supplementary information). With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity. During our review of the County's QuickBooks, we noted that the Treasurer would start a new QuickBooks file each year. We noted that the revenues were not being tracked by fund and type and expenditures are not being tracked by fund, function and object and transfers were not being tracked separately but instead as cash receipts and disbursements. We recommend that the Treasurer setup a QuickBooks file to properly track revenues by fund and type and expenditures by fund, function and object. Daniel Jones & Associates has prepared a new QuickBooks file for the client to use going forward to help eliminate these issues. We also noted the Treasurer has a bank account called payroll that is currently not included in the County's accounting system. We recommend that the County include this payroll bank account in the accounting system to better track all activity. During our payroll testing for 2018, we noted a discrepancy in timesheet vs paycheck. The payroll check did not reflect overtime hours as stated on the timesheet filed in the Clerk's office. We recommend that the Clerk's Office verify all timesheets match before processing payroll.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Monroe County, Missouri

The Office of the State Auditor contracted for an audit of Monroe County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Monroe, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Monroe ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2018, and 2017, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2018, and 2017, or changes in net position or cash flows thereof for the years then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2018, and 2017, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 1, 2019, on our consideration of the County of Monroe's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Monroe's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Monroe, Missouri ("the County"), which is governed by a three-member board of commissioners, was established in 1831 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: Assessor, County Clerk, Collector, Coroner, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and human services.

The financial statements referred to above include only the primary government of the County of Monroe, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation, was:

	2018	2017
Real Estate	$ 89,890,200	$ 87,969,540
Personal Property	33,933,563	32,307,507
Railroad and Utilities	15,415,075	15,306,775
	$ 139,238,838	$ 135,583,822

During 2018 and 2017, the County Commission approved a $0.6401 and $0.6443, respectively, tax levy per $100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2018	2017
General Revenue Fund	$ 0.2652	$ 0.2707
Special Road and Bridge Fund	0.2808	0.2798
Senate Bill 40 Board Fund	0.0941	0.0938
	$ 0.6401	$ 0.6443

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on a weighted average of cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. In addition, cash and investments are separately held by several of the County’s funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, and 2017, the carrying amount of the County's deposits was $1,245,602.91 and $1,215,802.79, the bank balance was $9,177,491.63 and $8,647,747.12, respectively. As of December 31, 2018, and 2017, 100% of the County’s cash and cash equivalents were insured through the Federal Deposit Insurance Corporation and securities set aside in the name of the County by the financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2018, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash Balances – Governmental Funds	
Deposits	$ 1,245,602.91
Total Governmental Funds	1,245,602.91
Statement of Assets and Liabilities Arising From Cash Transactions – Agency Funds:	
Deposits	5,748,449.82
Investments	2,146,080.29
Total Agency Funds	7,894,530.11
Total Deposits and Investments as of December 31, 2018	$ 9,140,133.02

II. DEPOSITS AND INVESTMENTS (concluded)

The carrying values of deposits shown above are included in the financial statements at December 31, 2017, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash Balances – Governmental Funds -	
Deposits	$ 1,215,802.79
Total Governmental Funds	1,215,802.79
Statement of Assets and Liabilities Arising From Cash Transactions – Agency Funds:	
Deposits	4,973,674.79
Investments	2,242,195.60
Total Agency Funds	7,215,870.39
Total Deposits and Investments as of December 31, 2017	$ 8,431,673.18

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ending December 31, 2018, and 2017.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does have a policy for custodial credit risk relating to investments. The County's investments were not exposed to custodial credit risk for the years ended December 31, 2018, and 2017.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has a policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ending December 31, 2018, and 2017.

III. LONG-TERM DEBT

On August 29, 2016, the County purchased 911 Equipment totaling $171,672. The County financed $38,000 of the purchase through Paris National Bank. The lease calls for 48 monthly payments of $835.24 with an interest rate of 2.20%. The lease was paid off in full during February of 2018.

	Balance at December 31, 2017	Amount Borrowed	Amount Repaid	Balance at December 31, 2018	Interest Paid During Year
911 Equipment	$ 29,059.30	$ -	$ 29,059.30	$ -	$ 18.39
Totals	$ 29,059.30	$ -	$ 29,059.30	$ -	$ 18.39

	Balance at December 31, 2016	Amount Borrowed	Amount Repaid	Balance At December 31, 2017	Interest Paid During Year
911 Equipment	$ 38,000.00	$ -	$ 8,940.70	$ 29,059.30	$ 1,082.18
Totals	$ 38,000.00	$ -	$ 8,940.70	$ 29,059.30	$ 1,082.18

The future payments as of December 31, 2017, are as follows:

Year Ending December 31	Principal	Interest	Total
2018	$ 9,471.62	$ 551.26	$ 10,022.88
2019	9,685.08	337.80	10,022.88
2020	9,902.60	120.28	10,022.88
	$ 29,059.30	$ 1,009.34	$ 30,068.64

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2018, and 2017 are as follows:

	2018		2017	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ 85,532.84	$ 34,146.76	$ 92,687.41	$ 82,833.96
Special Road and Bridge Fund	-	87,421.64	-	64,129.21
Assessment Fund	13,500.00	-	13,500.00	-
Collector's Tax Maintenance Fund	-	5,000.00	-	5,800.00
Recorder Fund	-	-	-	700.00
Sheriff Civil Fees Fund	-	6,155.00	-	6,200.00
Sheriff Revolving Fund	-	3,111.20	-	13,111.20
Law Enforcement Training Fund	1,155.00	-	1,200.00	-
County Law Enforcement Restitution Fund	-	-	-	18,947.00
Mark Twain Reservoir Fund	25,626.76	-	18,500.00	-
Pleasant View Economic Development Fund	10,020.00	-	10,020.00	-
County Health Insurance Fund	-	-	55,813.96	-
TOTAL	$ 135,834.60	$ 135,834.60	$ 191,721.37	$ 191,721.37

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2018, and 2017 were $33,917.04 and $34,487.53, respectively.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Monroe County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Monroe County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with Sections 70.600-70.755 RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance. The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

	2018 Valuation
Benefit Multiplier:	1.50%
Final Average Salary:	3 Years
Member Contributions:	0.00%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2018, the following employees were covered by the benefit terms:

	General	Police
Inactive employees or beneficiaries currently receiving benefits	25	4
Inactive employees entitled to but not yet receiving benefits	9	18
Active employees	34	7
	68	29

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4.0% of their gross pay to the pension plan. Employer contribution rates are 2.7% (General) and 1.9% (Police) of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2018.

Actuarial Assumptions

The total pension liability in the February 28, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25% wage inflation; 2.50% price inflation
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%

The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2018, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Equity	43.00%	5.16%
Fixed Income	26.00%	2.86%
Real Assets	21.00%	3.23%
Strategic Assets	10.00%	5.59%

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Changes in the Net Pension Liability

Schedule of Changes in Net Pension Liability and Related Ratios

	General Division	Police Division
A. Total Pension Liability		
1 Service Cost	$ 86,091	$ 23,444
2 Interest on Total Pension Liability	258,732	56,417
3 Changes of Benefit Terms	-	-
4 Difference between expected and actual experience of the Total Pension Liability	(12,318)	7,353
5 Changes of Assumptions	-	-
6 Benefit payments, including refunds of employee contributions	(175,855)	(25,637)
7 Net change in total pension liability	156,650	61,577
8 Total pension liability - beginning	3,612,815	779,246
9 Total pension liability - ending	$ 3,769,465	$ 840,823
B. Plan Fiduciary Net Position		
1 Contributions - employer	$ 88,401	$ 22,732
2 Contributions - employee	-	-
3 Net investment income	460,246	99,299
4 Benefit payments, including refunds of employee contributions	(175,855)	(25,637)
5 Pension plan administrative expense	(5,292)	(1,366)
6 Other (net transfer)	26,372	2,741
7 Net change in plan fiduciary net position	393,872	97,769

9 Plan fiduciary net position - ending	$ 4,238,457	$ 920,327
C. Net Pension Liability / (Asset)	$ (468,992)	$ (79,504)
D. Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	112.44%	109.46%
E. Covered-Employee Payroll	$ 924,150	$ 220,365
F. Net Pension Liability as a Percentage of Covered Employee Payroll	-50.75%	-36.08%

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Sensitivity of the Net Position Liability to Changes in the Discount Rate

The following presents the Net Pension Liability of the employer, calculated using the discount rate of 7.25%, as well as what the employer's Net Pension Liability would be using a discount rate that is 1% lower (6.25%) or 1% higher (8.25%) than the current rate.

Sensitivity of Net Pension Liability to the Single Discount Rate

	1% Decrease 6.25%	Current Single Discount Rate Assumption 7.25%	1% Increase 8.25%
General Division:			
Total Pension Liability (TPL)	$ 4,218,325	$ 3,769,465	$ 3,394,636
Plan Fiduciary Net Position	4,238,457	4,238,457	4,238,457
Net Pension Liability / (Asset) (NPL)	$ (20,132)	$ (468,992)	$ (843,821)
Police Division:			
Total Pension Liability (TPL)	$ 978,451	$ 840,823	$ 729,879
Plan Fiduciary Net Position	920,327	920,327	920,327
Net Pension Liability / (Asset) (NPL)	$ 58,124	$ (79,504)	$ (190,448)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2018, the employer recognized pension expense of $56,762 for general and $26,618 for police. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	General		Police	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ -	$ (86,689)	$ 5,118	$ (9,525)
Changes in assumptions	41,645	-	7,399	-
Net difference between projected and actual earnings on pension plan investments	-	(89,823)	-	(21,936)
Employer contributions subsequent to the measurement date	-	-	-	-
Total	$ 41,645	$ (176,512)	$ 12,517	$ (31,461)

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending December 31, 2018.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2019	$ 19,367	$ 7,368
2020	(46,122)	(4,485)
2021	(70,672)	(13,885)
2022	(37,440)	(7,942)
2023	-	-
Thereafter	-	-
Total	$ (134,867)	$ (18,944)

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $3,366 and $3,366, respectively, for the years ended December 31, 2018, and 2017.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had no COBRA participants at December 31, 2018, and December 31, 2017.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

B. Compensated Absences

The County provides employees with up to four weeks (160 hours) of paid vacation based upon the number of years of continuous service. All vacation earned in one year must be taken in its entirety each calendar year. Compensation for unused vacation is at the discretion of the County Commission. Upon termination from County employment, an employee is reimbursed for unused vacation and overtime, if applicable. Failure to give proper notice forfeits all unused vacation time. Sick time is accrued at a day per month after the first 90 days of employment. These have not been subjected to auditing procedures. Regular full-time employees earn 12 days of sick leave each year. Full-time employees may accumulate sick leave with pay to a maximum of sixty days. An employee will not be compensated for any accumulated sick leave upon termination of employment unless they have been employed by the County after 15 years. Employees leaving employment of the County after 15 years of service will receive $25.00 a day compensation for accrued sick leave as follows: 15 days for 15 years plus one day for each additional year up to 60 days.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as not appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

There are no subsequent events to report as of the audit report date.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

I. For the year ended December 31, 2018, actual expenditures exceeded those budgeted in the County Health Insurance Fund and Senate Bill Board 40 Fund.

II. For the year ended December 31, 2017, actual expenditures exceeded those budgeted in the County Health Insurance Fund and Senate Bill 40 Board Fund.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Monroe, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Monroe ("County"), Missouri as of and for the years ended December 31, 2018, and 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 1, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. [2018-001, 2018-002, 2018-003]

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

August 1, 2019

I. FINANCIAL STATEMENT FINDINGS

2018-001

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is working to prepare the documentation of the internal controls for the next audit period. The County Clerk is Christina Buie, and the office phone number is (660)327-5106.

2018-002

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

I. FINANCIAL STATEMENT FINDINGS (concluded)

2018-002 Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County is working to prepare the documentation of fraud risks of the County for the next audit period. The County Clerk is Christina Buie, and the office phone number is (660)327-5106.

2018-003 Criteria: SAS No. 55, Consideration of Internal Control in a Financial Statement Audit, as amended by SAS No. 78, Consideration of Internal Control in a Financial Statement Audit: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties in the Treasurer's office.

Context: During our audit, we noted the Treasurer performs all duties of the cash disbursement process including writing, approving, signing, and reconciliation of bank statements.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within the County's offices.

Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The County will work to implement procedures to prevent the lack of segregation of duties in the Treasurer's office. The County Treasurer is Sheila Jurgesmeyer and the office phone number is (660)327-4711.

THE COUNTY OF MONROE
PARIS, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2018 AND 2017

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 2016-001 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified* in an Audit, which is effective for periods ending on or after December 15, 2009, as amended by SAS 122, *Statements on Auditing Standards: Clarification and Recodification*, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency.

Condition: During the current year, it was necessary for the auditors of the County to assist with the preparation of the financial statements and the notes to financial statements.

Context: During the audit planning phase of the audit, the client informed us that we would be preparing the audited financials.

Effect: If the management of the County does not have the ability to prepare the external financial statements and the notes to the financial statements without the assistance of the auditors, management may be unable to review and take responsibility of the financial statements and notes. Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 122 indicates that conditions necessitating the entity's auditor to provide such assistance are at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Management of the County does not possess the technical accounting skills to prepare the external financial statements without the assistance of the auditors. Management did not prepare the financial statements or the notes to the financial statements.

Recommendation: We recommend the County either provide training to current management, hire additional staff that possesses the accounting skills needed to prepare and review the external financial statements, or contract with an outside accountant to prepare and review the external financial statements.

Management's Response: Monroe County has prepared the 2016 financial statements in compliance with Missouri Revised Statute 50.815.

Status: This finding has been resolved in the current audit period.

FS 2016-002 Criteria: Statement on Auditing Standards (SAS) No. 115, Communicating Internal Control Related Matters Identified in an Audit, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, Statements on Auditing Standards: Clarification and Recodification, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: During the walkthroughs, we noted there is no internal control documentation prepared.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (continued)

FS 2016-002 Context: During the walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Management did not prepare the required documentation of internal control.

Recommendation: We recommend the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County Clerk is in the process of preparing and adopting and documenting their internal control structure in conformity with the COSO framework.

Status: This finding is repeated as 2018-001.

FS 2016-003 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the walkthroughs of the County, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate audit risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County Clerk is in the process of adopting and documenting formal risk assessments in conformity with the COSO framework.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (concluded)

FS 2016-003 Status: This finding is repeated as 2018-002.

FS 2016-004 Condition: The County has not adopted an investment policy as required by State Statutes. An investment policy addresses topics such as collateralization of deposits, strategy with respect to investment of public funds, and other areas, and thus such a policy would be beneficial and also required for the County. Section 110.270, RSMo, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation.

Recommendation: We recommend that the County adopt an investment policy and review compliance with this policy at least annually.

Management's Response: The County has adopted an investment policy and review compliance with this policy annually.

Status: This finding has been resolved in the current audit period.

FS 2016-005 Condition: Budgeted expenditures exceeded budgeted revenues for multiple funds in 2016. The detailed list of funds can be found in Note 1.D. to the financial statements. RSMo. 50.740 prohibits budgeted expenditures in excess of budgeted revenues. Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We also recommend the County refrain from adopting a budget with a deficit fund balance.

Management's Response: The County accepts the recommendation and will make the necessary changes.

Status: This finding has been resolved in the current audit period.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

SA 2016-001: Incorrect Schedule of Expenditures of Federal Awards (SEFA)

Federal Grantor: U.S. Department of Transportation
Pass-through Grantor: Highway and Transportation Commission
Federal CFDA Number: 20.205
Program Title: Highway Planning and Construction
Pass-through Entity Identifying Number: BRO-043, BRO-044, FLAP
Award Year: 2016
Questioned Costs: None

Criteria: OMB Circular A-133 requires auditees to "Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its federal programs." Section .310 (d) requires auditees to "Prepare appropriate financial statements, including the schedule of expenditures of Federal awards…."

Condition: During our audit, we noted that the Schedule of Expenditures of Federal Awards (SEFA) contained errors.

Effect: Federal expenditures reported in the SEFA were incorrect.

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Recommendation: We recommend management develop internal controls over reporting to ensure an accurate SEFA is prepared.

Management's Response: OMB Circular A-133 is being reviewed and training sessions will be initiated by the County Clerk's office. The County Clerk is working towards capturing grant transactions in a manner sufficient to readily report the necessary information required on the SEFA by the next audit period.

Status: This finding has been resolved in the current audit period.

& Associates
CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

August 1, 2019

To the County Commission
The County of Monroe, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Monroe (the "County") as of and for the years ended December 31, 2018 and December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

DANIEL JONES & ASSOCIATES, P.C.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2018-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is working to prepare the documentation of the internal controls for the next audit period. The County Clerk is Christina Buie, and the office phone number is (660)327-5106.

2018-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County is working to prepare the documentation of fraud risks of the County for the next audit period. The County Clerk is Christina Buie, and the office phone number is (660)327-5106.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Concluded)

2018-003 Criteria: SAS No. 55, Consideration of Internal Control in a Financial Statement Audit, as amended by SAS No. 78, Consideration of Internal Control in a Financial Statement Audit: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties in the Treasurer's office.

Context: During our audit, we noted the Treasurer performs all duties of the cash disbursement process including writing, approving, signing, and reconciliation of bank statements.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within the County's offices.

Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The County will work to implement procedures to prevent the lack of segregation of duties in the Treasurer's office. The County Treasurer is Sheila Jurgesmeyer and the office phone number is (660)327-4711.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 30, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2018 and 2017 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 1, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

CITIZENS SUMMARY

Summary of Local Government and Court Audit Findings - Information Security Controls

User Access Management	Access to certain systems is not adequately restricted. The user access of former employees is not disabled timely. Policies and procedures are not fully established or documented to ensure areas housing information technology resources are properly controlled, monitored, and restricted.
User Authentication	Passwords are not required to be changed on a periodic basis. User accounts and passwords for accessing computers and various systems are shared by users. A password is not required to logon and authenticate access to a computer. Passwords are not required to contain a minimum number of characters.
Security Controls	Inactivity controls have not been implemented to lock a computer or system after a certain period of inactivity. Security controls have not been implemented to lock access to a computer or system after a specified number of unsuccessful logon attempts. Malware or antivirus protection software to detect and eradicate malicious code has not been installed on computer systems.
Backup and Recovery	Data in various systems is not periodically backed up. Data backups are not stored at a secure off-site location. Periodic testing of backup data is not performed. Management has not developed a formal contingency plan to ensure business operations and computer systems can be promptly restored in the event of a disaster or other disruptive incident.
Data Management and Integrity	Data management and integrity controls to guard against the improper modification or destruction of data and information have not been implemented.
Vendor Security	Contracts for software acquired or outsourced from information technology vendors do not always contain security requirements. Security practices used by vendors are not always reviewed.

Because of the nature of this report, no rating is provided.

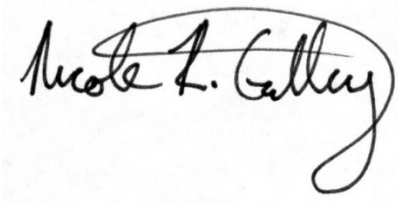
Audit Reports 10

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

This report was compiled using local government and court audit reports issued by my office between July 2018 and June 2019 (report numbers 2018-044 through 2018-140 and 2019-001 through 2019-048). The objective of this report was to summarize recent information security control issues and recommendations.

The recommendations address a variety of topics including user access management, user authentication, security controls, backup and recovery, data management and integrity, and vendor security. The Appendix lists the 26 reports with findings covering these topics.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Douglas J. Porting, CPA, CFE
Audit Manager:	Alex R. Prenger, M.S.Acct., CPA, CISA, CFE, CGAP

Summary of Local Government and Court Audit Findings
Information Security Controls
Audit Issues

1. User Access Management

1.1 Access rights and privileges

Access to certain systems is not adequately restricted. Access rights and privileges are used to determine what a user can do after being allowed into a system, such as read or write to a certain file. Unrestricted system access allows the capability to make unauthorized changes to records or to delete or void transactions after the transactions have been entered in the system. In addition, adequate supervisory reviews of users are not performed. Access should be limited based on user needs and job responsibilities.

Without adequate user access restrictions, there is an increased risk of unauthorized changes to data and records and of the loss, theft, or misuse of funds.

Recommendation

Ensure user access rights are limited to only what is necessary to perform job duties and responsibilities.

Report Source

2018-097 (Callaway County Collector and Property Tax System)
2019-002 (Miller County)
2019-013 (Crawford County Collector and Property Tax System)
2019-037 (Cape Girardeau County Collector and Property Tax System)
2019-043 (Howell County)

1.2 Terminated employees

The user access of former employees is not disabled timely.

Without effective procedures to remove access upon termination, former employees could continue to have access to critical or sensitive data and records, which increases the risk of the unauthorized use, modification, or destruction of data and information.

Recommendation

Ensure user access is promptly deleted following termination of employment to prevent unauthorized access to computer systems and data.

Report Source

2019-009 (Gasconade County)
2019-019 (Village of Ferrelview)

1.3 Physical security

Policies and procedures are not fully established or documented to ensure areas housing information technology resources are properly controlled, monitored, and restricted. Such procedures include requesting, granting, periodically reviewing, and removing physical access.

Physical security is the protection of technology resources, including computers and network servers, from theft or damage. Physical security makes technology resources physically unavailable to unauthorized users and

can include locked rooms and cabinets, and other measures to protect assets from unauthorized access.

Inadequate physical security could lead to the loss of property, the disruption of service and functions, and the unauthorized disclosure of data and information. Without appropriate procedures to grant, periodically review, and remove access to sensitive areas, individuals may receive inappropriate or unauthorized access.

Recommendation

Establish and document physical access policies and procedures, ensure access to sensitive technology assets is necessary with job responsibilities, implement independent periodic reviews of access, and timely remove unnecessary access.

Report Source

2019-029 (City of St. Louis Information Technology Services Agency)

2. User Authentication

2.1 Passwords not changed

Passwords are not required to be changed on a periodic basis. As a result, there is less assurance passwords are effectively limiting access to computer systems and data files to only those individuals who need access to perform their job responsibilities. Passwords should be changed periodically to reduce the risk of unauthorized access to and use of systems and data.

Without requiring passwords to be periodically changed, the likelihood that accounts could be compromised and used by unauthorized individuals to gain access to sensitive information is increased.

Recommendation

Ensure passwords are periodically changed to prevent unauthorized access to computers and data.

Report Source

2018-046 (City of Coffey)
2018-069 (City of Winona)
2018-081 (Andrew County)
2018-110 (Laclede County)
2018-121 (Perry County)
2018-122 (Iron County)
2018-130 (Lewis County)
2018-139 (Washington County)
2018-140 (Clinton County)
2019-009 (Gasconade County)
2019-019 (Village of Ferrelview)
2019-035 (City of Miller)
2019-038 (Dallas County)
2019-041 (St. Francois County Prosecuting Attorney)

2019-043 (Howell County)
2019-046 (Hickory County)

2.2 Sharing passwords

User accounts and passwords for accessing computers and various systems are shared by users. The security of a password system is dependent upon keeping passwords confidential. By allowing users to share accounts and passwords, individual accountability for system activity could be lost and unauthorized system activity could occur.

Without strong user account and password controls, including maintaining the confidentiality of passwords, the likelihood that accounts could be compromised and used by unauthorized individuals to gain access to sensitive information is increased.

Recommendation

Ensure unique user accounts and passwords are required to access computers and data. In addition, ensure users understand the importance of maintaining the confidentiality of passwords.

Report Source

2018-063 (Scott County)
2018-069 (City of Winona)
2018-081 (Andrew County)
2018-130 (Lewis County)
2019-007 (City of Hamilton)
2019-009 (Gasconade County)
2019-035 (City of Miller)
2019-043 (Howell County)

2.3 Password not required

A password is not required to logon and authenticate access to a computer.

Without requiring passwords to access a computer or system, there is no assurance the data or system is protected from unauthorized access and use.

Recommendation

Ensure passwords are required to authenticate access to computer systems and data.

Report Source

2018-049 (City of Bethany)
2018-122 (Iron County)

2.4 Password complexity

Passwords are not required to contain a minimum number of characters. Strong passwords are often the first line of defense into a computer or system. As a result, an appropriate minimum character length should be established so passwords cannot be easily guessed or identified using password-cracking mechanisms.

Without enforcing password complexity by requiring a minimum number of characters, there is an increased risk that passwords can be more easily guessed, allowing unauthorized access to data and systems.

Recommendation

Ensure passwords contain a minimum number of characters so they cannot be easily guessed.

Report Source

2018-046 (City of Coffey)
2018-069 (City of Winona)
2018-081 (Andrew County)
2019-009 (Gasconade County)
2019-035 (City of Miller)
2019-043 (Howell County)

3. Security Controls

3.1 Inactivity control

Inactivity controls have not been implemented to lock a computer or system after a certain period of inactivity. To reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files, users should log off computers when unattended and an inactivity control should be implemented to lock a computer or terminate a user session after a certain period of inactivity.

Without an inactivity control, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendation

Ensure an inactivity control is implemented to lock a computer or system after a certain period of inactivity.

Report Source

2018-046 (City of Coffey)
2018-069 (City of Winona)
2018-081 (Andrew County)
2018-139 (Washington County)
2019-007 (City of Hamilton)
2019-035 (City of Miller)
2019-038 (Dallas County)
2019-043 (Howell County)
2019-046 (Hickory County)

3.2 Unsuccessful logon attempts

Security controls have not been implemented to lock access to a computer or system after a specified number of unsuccessful logon attempts. Logon attempt controls lock the capability to access a computer or system after a specified number of consecutive unsuccessful logon attempts, and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer or system by guessing passwords.

Without effective controls to limit the number of consecutive unsuccessful logon attempts, there is less assurance sensitive data is effectively protected from unauthorized access.

Recommendation: Ensure a security control is implemented to lock access to a computer or system after multiple unsuccessful logon attempts.

Report Source: 2018-046 (City of Coffey)
2018-069 (City of Winona)
2018-099 (Smithville Area Fire Protection District)
2018-130 (Lewis County)
2018-139 (Washington County)
2019-009 (Gasconade County)
2019-043 (Howell County)

3.3 Malware protection

Malware or antivirus protection software to detect and eradicate malicious code has not been installed on computer systems.

Without adequate malware protection, there is an increased risk that computers will be infected by malware and that unauthorized processes will have an adverse impact on the confidentiality, integrity, or availability of a system.

Recommendation: Ensure computers and systems are adequately protected from malware.

Report Source: 2018-046 (City of Coffey)

4. Backup and Recovery

4.1 Data backup

Data in various systems is not periodically backed up. Preparation of backup data, preferably on a daily or at least weekly basis, provides reasonable assurance data could be recovered if necessary.

Without regular data backups, there is an increased risk critical data will not be available for recovery should a disruptive incident occur.

Recommendation: Ensure data is regularly backed up.

Report Source: 2018-120 (City of Greenville)

4.2 Off-site storage

Data backups are not stored at a secure off-site location. Data backups are performed; however, the backup files are stored at the same location as the original data leaving the files susceptible to the same damage as that data.

Without storing backup data at a secure off-site location, critical data may not be available for restoring systems following a disaster or other disruptive incident.

Recommendation

Ensure backup data is stored in a secure off-site location.

Report Source

2018-046 (City of Coffey)
2018-049 (City of Bethany)
2018-069 (City of Winona)
2018-120 (City of Greenville)
2019-009 (Gasconade County)
2019-019 (Village of Ferrelview)

4.3 Periodic testing

Periodic testing of backup data is not performed. Such testing is necessary to ensure the backup process is functioning properly and to ensure all essential data can be recovered.

Without testing the full backup process, management cannot be assured the entire system can be restored when necessary.

Recommendation

Ensure backup data is tested on a regular, predefined basis.

Report Source

2018-049 (City of Bethany)
2018-069 (City of Winona)
2018-099 (Smithville Area Fire Protection District)
2018-120 (City of Greenville)
2019-009 (Gasconade County)
2019-019 (Village of Ferrelview)
2019-035 (City of Miller)

4.4 Contingency Plan

Management has not developed a formal contingency plan to ensure business operations and computer systems can be promptly restored in the event of a disaster or other disruptive incident. A comprehensive written contingency plan should include plans for a variety of disaster situations and specify detailed recovery actions required to reestablish critical business, computer, and network operations. Once a contingency plan has been developed and approved, the plan should be periodically tested and reviewed.

Without an up-to-date and tested contingency plan, management has limited assurance the organization's business and computer operations can be promptly restored after a disruptive incident.

Recommendation

Develop a formal contingency plan and periodically test and evaluate the plan.

Report Source

2018-069 (City of Winona)
2018-120 (City of Greenville)
2019-019 (Village of Ferrelview)
2019-035 (City of Miller)

5. Data Management and Integrity

Data management and integrity controls to guard against the improper modification or destruction of data and information have not been implemented. As a result, critical systems, such as property tax systems, do not prevent users from voiding receipt transactions after they are completed. In addition, systems do not have the audit trail controls or functionality to generate reports of deleted or modified transactions.

Without data management, integrity, and audit trail controls, there is an increased risk of manipulation of data without detection and the loss, theft, or misuse of funds.

Recommendation

Ensure adequate data management, integrity, and audit trail controls are in place to allow for the proper accountability of all transactions.

Report Source

2018-097 (Callaway County Collector and Property Tax System)
2019-013 (Crawford County Collector and Property Tax System)

6. Vendor Security

Contracts for software acquired or outsourced from information technology vendors do not always contain security requirements. Security practices used by vendors are not always reviewed.

Accepted standards require organizations to identify and manage risk relating to a vendor's ability to securely deliver services; and when preparing contracts, to clearly define service requirements, including security and protection of intellectual property. Further security insight can be obtained by requesting independent reviews of vendor internal practices and controls, and/or reviewing vendor-supplied descriptions of security practices. Without consistently defining security requirements or assessing vendor security practices, there is less assurance in a vendor's ability to ensure services meet current and future data privacy and security needs.

Recommendation

Consistently ensure that vendor contracts contain security requirements, and review vendor security practices.

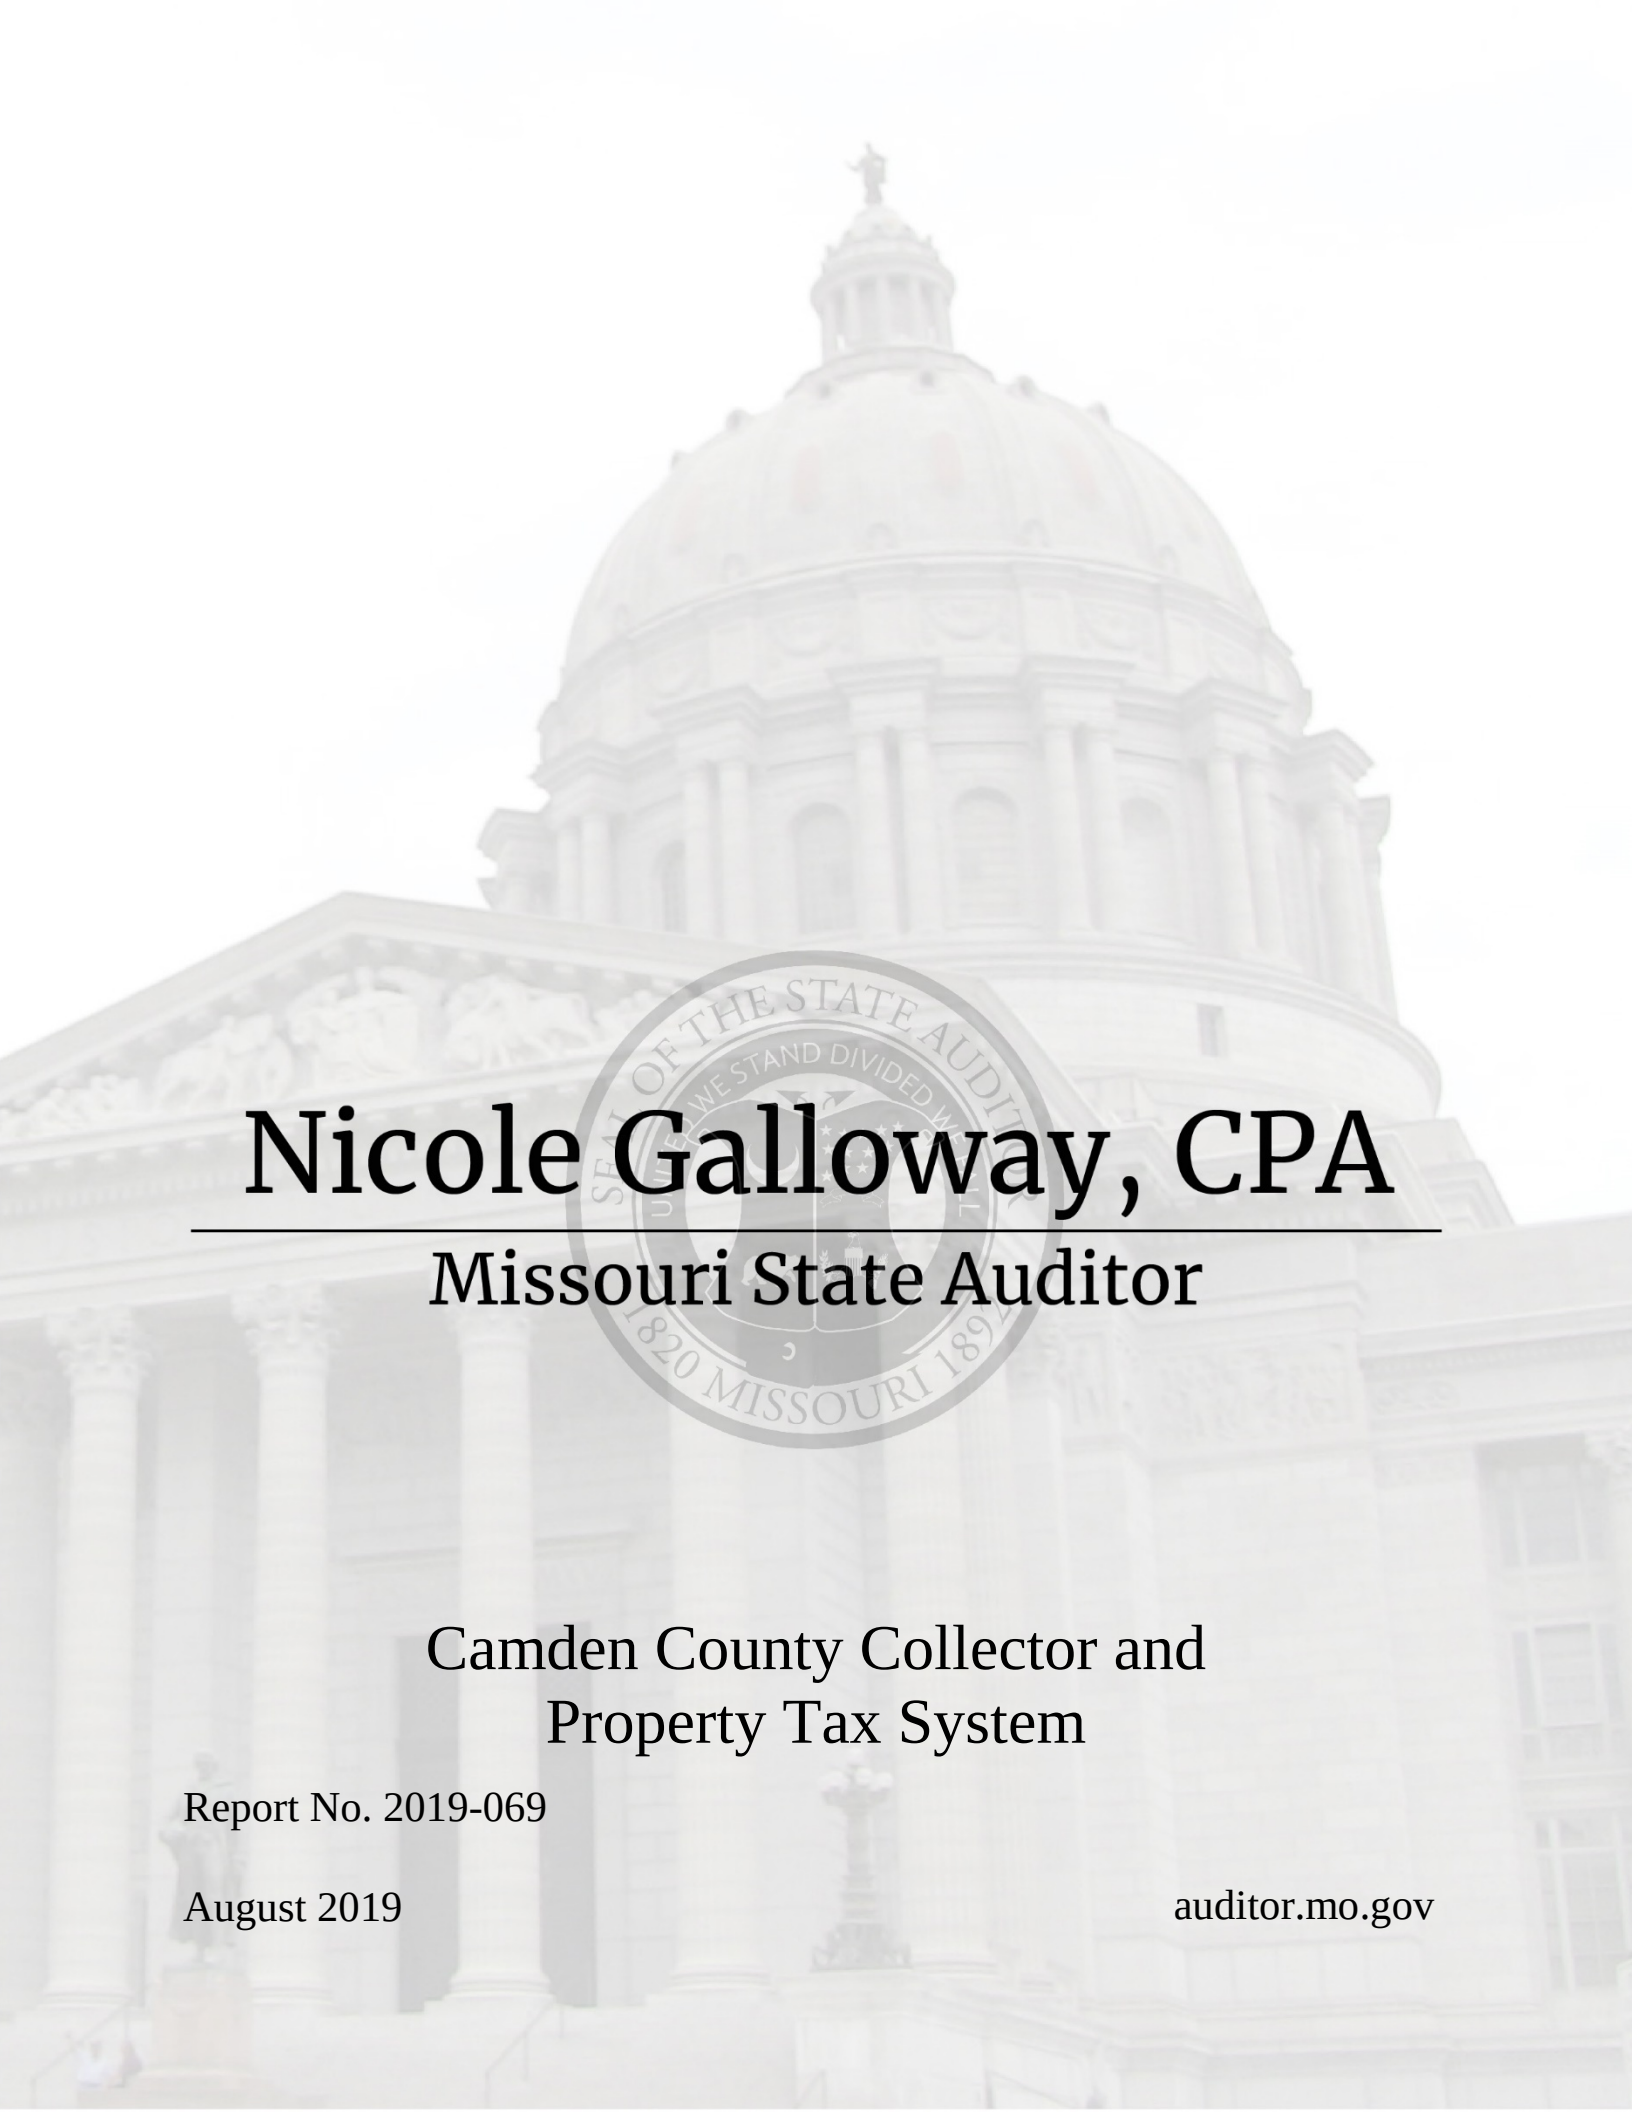
(1) This report noted the auditee needs to improve certain information system control activities. Under Section 610.021.21, RSMo, details of these issues were not disclosed in the report because of their sensitivity. During the audit, we communicated the issues and recommendations confidentially to the auditee for corrective action.



Nicole Galloway, CPA

Missouri State Auditor

Camden County Collector and Property Tax System

Report No. 2019-069

August 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Camden County Collector and Property Tax System

Property Tax System Controls and Procedures

Significant weaknesses exist in the controls and procedures over the county's property tax system. The county has not appropriately restricted access within the computerized property tax system and the system lacks necessary system controls and reporting capabilities to meet the needs of the office. The annual settlements for the years ended February 28, 2018, and 2017, were not complete and accurate. The County Clerk does not prepare or verify the accuracy of the current tax books. The financial activities of the County Collector's office were not adequately reviewed by the County Clerk, the County Auditor, or the County Commission. The County Clerk and the County Commission do not adequately review changes (e.g., additions and abatements) entered into the property tax system and documentation to support these changes is not always retained or accurate.

County Collector's Controls and Procedures

Controls and procedures for the County Collector's office need improvement. The County Collector's procedures for receipting, recording, and depositing are not adequate. The former County Collector and current County Collector did not prepare monthly lists of liabilities for the property tax collections bank accounts. The current County Collector and former County Collector did not disburse tax collections accurately or in accordance with state law, and various political subdivisions did not receive their appropriate share of tax collections. The County Collector's office does not have procedures to routinely follow up on outstanding checks. Neither the former County Collector nor the current County Collector timely transferred monies from the 5 local bank accounts and the partial payment account to the main account prior to making monthly disbursements of the corresponding receipts.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
County Collector
Camden County, Missouri

We have audited the County Collector and Property Tax System of Camden County. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. In addition, under Section 50.057, RSMo, the County Commission of Camden County, Missouri, requested the State Auditor to audit Camden County. On May 31, 2017, a vacancy occurred in the office of the County Collector of Camden County. A successor was appointed and sworn into office effective June 12, 2017. The scope of our audit included, but was not necessarily limited to, the 2 years ended February 28, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant property tax functions.

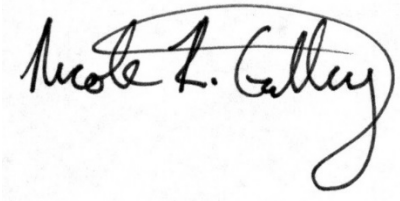
2. Evaluate the county's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and county management and was not subjected to the procedures applied in our audit of the County Collector and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any monies owed to the county or the former County Collector. For the areas audited, we identified (1) deficiencies in internal controls, and (2) noncompliance with legal provisions. The accompanying Management Advisory Report presents our findings arising from our audit of the County Collector and Property Tax System of Camden County.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Regina Pruitt, CPA
Audit Manager:	Deborah Whitis, MBA, CPA, CIA, CFE

Audit Staff:	Charity Grotzinger, CGAP
	Devin Jackson
	John-Henry T. Jarwood, MBA
	Sheldon Hayes

1. Property Tax System Controls and Procedures

Significant weaknesses exist in the controls and procedures over the county's property tax system.

The former County Collector resigned on May 31, 2017, and the current County Collector was appointed and sworn into office effective June 12, 2017.

We expanded audit work in the County Collector's office to encompass both the collector vacancy closeout audit and the requested county audit. As a result, the scope of our audit includes both the former and current County Collector. The current County Collector worked in the office prior to her appointment as County Collector and assisted the former County Collector with the daily operations of the office, preparation of monthly and annual settlements, and making monthly disbursements. The current County Collector has continued to use the same property tax system and most of the procedures established by the former County Collector.

The County Collector's office processed collections totaling approximately $74 million during the year ended February 28, 2018, and $72 million during the year ended February 28, 2017.

1.1 Property tax system controls

The county has not appropriately restricted access within the computerized property tax system. In addition, the system lacks necessary system controls and reporting capabilities, and as a result, it does not meet the needs of the County Collector's office.

User access, identifications, and passwords

The county has not adequately restricted property tax system access and login credentials are shared among users. The current County Collector and her deputies have access rights in the property tax system allowing them to make changes to individual tax records and delete receipt transactions. Similar access rights existed for the former County Collector and her deputies prior to her resignation. Because the County Collector's office is responsible for collecting tax payments, the ability of personnel within the office to alter tax records and delete receipt transactions represents a significant weakness in internal controls. Good internal controls require the County Collector and other office personnel not have access rights allowing alteration or deletion of tax rates, assessed valuations, and property tax billing information. Also, the ability to delete receipt transactions should be restricted and require an independent or supervisory review and approval.

County Assessor's office personnel use the County Clerk's user identification and password to access the property tax system to record additions and abatements. As a result, there is an increased risk that unsupported or unauthorized changes could be made to the property tax system. In addition, the current County Collector shares her password with the Chief Deputy Collector.

The combination of a user identification and password are required to authenticate access, and the security of these logon credentials is dependent upon keeping them confidential. Allowing users to share logon credentials increases the risk of unauthorized access and/or changes to the system and records, and does not provide assurance access is limited to only those individuals who need access to perform their job responsibilities. User identifications should be unique to each person and passwords should be kept confidential to reduce these risks.

Receipt transactions

The property tax system does not maintain an audit trail to document deleted receipt transactions and, as discussed earlier, all County Collector's office employees have the ability to delete receipt transactions. When a receipt transaction is deleted, there is no record of the initial receipt, date it was deleted, or user responsible for each action. Unlike deleted receipt transactions, when the County Collector and the Chief Deputy Collector unpost (void) erroneous receipt transactions a record of this action is maintained in the property tax system. We identified numerous missing receipt transactions that could not be accounted for. Neither the current County Collector nor the contracted property tax system programmer could explain why receipt transactions would be deleted. Without an audit trail of deleted transactions, there is a risk completed receipt transactions could be improperly deleted and not detected.

In addition, the property tax system does not have the capability to record railroad and utility property tax receipts and lodging tax receipts and does not automatically generate receipt slip numbers for merchant licenses.

Due to these significant control weakness, the numerical sequence of receipt slips cannot be accounted for properly and there is no assurance all monies collected are deposited. To properly account for monies received, system controls should provide an audit trail for all transactions and restrict the ability to delete receipt transactions.

System reports

The property tax system is not capable of generating reports of additions and abatements. Reports of unposted (voided) receipt slips are periodically generated, but reports of deleted receipt transactions cannot be generated. These reports are necessary to properly monitor tax activities and collections.

Conclusions

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds as well as to protect the integrity of the property tax system, controls are necessary to provide reasonable assurance that all tax changes are authorized, receipts are accounted for properly, and assets are adequately safeguarded. In addition, due to the lack of oversight of the County Collector's office activities, any erroneous or improper changes made in the property tax system by the County Assessor or the County Collector could go undetected.

System controls would be improved by limiting each user's access in the property tax system to only those functions necessary to perform his or her duties; ensuring all employees maintain confidential passwords; restricting the ability to delete receipt transactions, and developing system generated reports of additions, abatements, and deleted receipt transactions. If proper system controls cannot be achieved, adequate independent reviews of the property tax system should be performed and any differences should be investigated and documented.

1.2 Annual settlements

The annual settlements for the years ended February 28, 2018, and 2017, were not complete and accurate.

Year ended February 28, 2018

We noted numerous errors and inaccuracies on the annual settlement for the year ended February 28, 2018 (see Appendix A):

- Total collections and total distributions reported on the annual settlement did not balance and were not accurate. Total collections of $73,896,559 were understated by $66,531 and total disbursements of $73,598,727 were overstated by $54,483. The current County Collector could not explain the differences. In addition, the current County Collector reported $297,832 more collections than disbursements on the annual settlement because she did not properly disburse Tax Increment Financing (TIF) monies received during the tax year.

- Current and delinquent charges for real estate and personal property taxes did not agree to current and delinquent credits. To make the amounts balance the current County Collector added reconciling amounts to the settlement, totaling $172,125, with a description titled "total discrepancies from reports provided." The current County Collector indicated the differences are likely the result of differences between the amounts of additions and abatements recorded in the property tax system and those reported to her by the County Clerk.

Year ended February 28, 2017

We also noted numerous errors and inaccuracies on the annual settlement for the year ended February 28, 2017 (see Appendix B):

- Total collections and total distributions reported on the annual settlement were not accurate. Total collections of $71,457,985 were understated by $615,890 and total disbursements of $71,457,985 were understated by $395,178, resulting in $220,712 collections not disbursed. We determined $162,732 of this amount was TIF monies collected but not disbursed during the tax year. The current County Collector indicated these monies had not been disbursed during the tax year because the office was waiting on the TIF disbursement calculation from the TIF lawyer. Therefore, the former County Collector unposted (voided) the related transactions from the property tax system and did not report these

collections on the annual settlement. The current County Collector could not explain the remaining $57,980 collected but not disbursed.

- Current and delinquent charges for real estate and personal property taxes did not agree to current and delinquent credits. To make the amounts balance the former County Collector added reconciling amounts to the settlement, totaling negative $426,219, with a description titled "total discrepancies from reports provided." The current County Collector attributed the differences to the same issues with additions and abatement records noted with the year ended February 28, 2018, settlement.

The County Collector should ensure complete and accurate annual settlements are prepared to provide assurance all collections and distributions are accounted for properly. Incomplete and/or inaccurate annual settlement information reduces the effectiveness of the settlement as a mechanism for accounting for all monies the County Collector is charged with collecting. As noted in section 1.4, procedures should be performed by the County Clerk, the County Auditor, and the County Commission to verify the accuracy of the County Collector's annual settlements.

1.3 Tax books

The County Clerk does not prepare or verify the accuracy of the current tax books. The county's property tax system programmer prepares the real estate and personal property tax books using assessed valuations provided by the County Assessor and tax levies provided by the County Clerk. The current County Collector reviews the tax books for accuracy. However, because the County Collector is responsible for collecting property tax monies, good internal controls and state law require someone independent of the collection process be responsible for generating and testing the accuracy of the tax books. A review of the current tax books should include verification of individual entries in the current tax books and recalculating tax book totals and charges. Failure to prepare and/or review the tax books and test individual tax statement computations may result in errors or irregularities going undetected.

Section 137.290, RSMo, requires the County Clerk to extend the current tax books and charge the County Collector with the amount of taxes to be collected. If it is not feasible for the County Clerk to prepare the tax books, at a minimum, the accuracy of the tax books should be verified by someone independent of the process, and approval of the tax book amounts to be charged to the County Collector should be documented.

1.4 Review of property taxes

The financial activities of the County Collector's office were not adequately reviewed by the County Clerk, the County Auditor, or the County Commission. Neither the County Clerk nor the County Auditor maintained an account book or other records summarizing property tax charges, transactions, and changes as required by state law. In addition, the County

Clerk, the County Auditor, and the County Commission did not perform procedures to verify the accuracy and completeness of the former and current County Collector's annual settlements. As a result, there is an increased risk of loss, theft, or misuse of property tax monies going undetected, and less assurance the annual settlements are complete and accurate. As noted in section 1.2, the annual settlements for the years ended February 28, 2018, and 2017, contained numerous errors and inaccuracies.

Section 52.361, RSMo, requires the County Collector to prepare the delinquent tax books. However, the County Clerk, the County Auditor, and the County Commission did not perform procedures to verify the accuracy and completeness of the delinquent tax books prepared by the former and current County Collector.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. Section 55.160, RSMo, requires the County Auditor to keep a correct account between the county and all county officers. An account book or other records summarizing all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk and/or County Auditor. Such records would help the County Clerk and County Auditor ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk, the County Auditor, and the County Commission to verify the accuracy and completeness of the County Collector's annual settlements and delinquent tax books. Such procedures are intended to establish checks and balances related to the collection of property taxes.

1.5 Additions and abatements

The County Clerk and the County Commission do not adequately review changes (e.g., additions and abatements) entered into the property tax system and documentation to support these changes is not always retained or accurate. The County Assessor's office updates the assessed valuations in the assessment system and communicates needed changes to property tax records on manual forms provided to the County Clerk's office. These forms are not reviewed and approved by the County Commission prior to recording the changes in the property tax system. Instead, County Clerk's office personnel use them to prepare spreadsheets of the changes, and prior to November 2017, used them to enter the changes into the property tax system. In November 2017, County Assessor's office personnel began posting the changes to the property tax system using the County Clerk's login information. The County Clerk does not review property tax system entries made by County Assessor's office personnel.

The County Commission does not review and approve actual changes made to property tax records in the property tax system. Instead, the County Clerk uses his spreadsheets to prepare annual summary reports of changes made to

the property tax system for the County Commission's review and approval. These annual summary reports only show a total by tax type and tax year, and do not list individual changes. No comparison of actual changes to changes documented by the County Assessor and the County Clerk is performed, and the property tax system cannot generate a report of these changes. As a result, changes to the tax system are not properly monitored and errors or irregularities could go undetected.

We tested 20 additions and 35 abatements made during the 2 years ended February 28, 2018, and identified discrepancies between assessment system records, the property tax system, the County Assessor's manual forms, and the County Clerk's spreadsheet. Four of the additions tested were recorded on manual forms and in both systems, but not recorded on the County Clerk's spreadsheets. Fourteen of the abatements tested were recorded on manual forms and in the property tax system, but not recorded in the assessment system or on the County Clerk's spreadsheet. The County Clerk's spreadsheets are used to prepare summary listings for the County Commission, so amounts not included on those spreadsheets are not included in the totals approved by the County Commission.

In addition, supporting documentation was not maintained for all changes. The current County Assessor could not locate manual change forms for changes submitted to the County Clerk by the former County Assessor. The County Clerk could not provide documentation to support the 2016 and prior year real estate abatement amount reported on the yearly summary report to the County Commission totaling $26,404 for the year ended February 28, 2018.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making changes to the tax books with the approval of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, an independent reconciliation of approved changes to actual changes made to the property tax system would help ensure changes are proper. In addition, supporting documentation should be retained to show changes to the property tax system are accurate.

Recommendations

1.1 The County Collector work with the County Commission and County Clerk to ensure the property tax system is sufficient to meet the needs of the Collector's office and protect the integrity of the data. Ensure system access is limited to only what is needed for users to perform their job duties and responsibilities; require employees maintain confidential passwords; and develop system controls to provide an audit trail for all transactions and restrict the user's ability to delete receipt transactions. If proper system controls cannot be achieved, adequate independent reviews of the property tax system should be performed and any differences investigated and documented.

1.2 The County Collector prepare complete and accurate annual settlements.

1.3 The County Clerk prepare the current tax books, or at a minimum, verify the accuracy of the tax books prior to charging the County Collector with the property tax amounts to be collected. Procedures performed should be adequately documented.

1.4 The County Clerk and the County Auditor work together to maintain an account book with the County Collector. In addition, the County Clerk, the County Auditor, and the County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.

1.5 The County Commission, the County Clerk, and the County Assessor develop procedures to ensure all property tax system changes are properly approved and monitored. In addition, ensure county records are properly retained and accurate.

Auditee's Response

The County Collector, the County Clerk, and the County Commission, provided the following response:

1.1 The current property tax system used by Camden County originated in 1988, and at that time it encompassed the County Assessor's, County Clerk's, and County Collector's offices. The system has been modified over the years to comply with statute changes, but still has limitations of a 30 year old system. In 2015, the County Assessor's office purchased a new valuation system from Vanguard. Currently we are planning to implement a new collections system starting in the fourth quarter of 2019 in phases that will include stronger security with more robust tracking and reporting with the intent to address many of the shortcomings identified in our current processes. In the current system, only the County Collector and the Chief Deputy Collector can unpost a transaction for voids. Tracking of receipt numbers, changes, passwords, and security levels will be role-based in the new system. Railroad and utility along with lodging taxation will be integrated into the system. The County Clerk and County Commission will ensure the data integrity of the tax book along with independent review. The County Clerk and County Collector will put adequate safeguards and security levels in place for all data. Differences will be documented and resolved timely.

The County Collector provided the following response:

1.2 The current system does not support the calculation and consolidation required for producing the annual tax settlement and

as such, the process is manual. In the implementation of the new system, the County Collector's office will be automating the annual settlement in addition to the ability to conduct monthly settlements for the generation of required information. In addition, we are implementing disbursement functionality that will match the associated statements and receipts for tax payments to the disbursements conducted to the taxation entities. Having an automated system will help with the discrepancies provided to the County Collector in compiling the annual settlement.

The County Clerk provided the following response:

1.3 The calculations of the associated tax books are made in the background by the computer system when original tax records are generated and when additions, abatements, and deletions are generated. The County Clerk's office typically conducts a review of a sampling of the individual tax statements generated, but this review was not documented and information was not provided for it to be done for 2017 taxes. We will ensure this review is performed and documented going forward. The County Clerk's office does oversee the associated levy rates and assessments entered into the automated system prior to these calculations occurring. The County Clerk's office does receive a report of the initial tax rolls when developed in October of each year. In addition to these tax rolls, the new system will provide the County Clerk's office with daily transactional reports showing the additions, abatements, and deletions so that a running tax roll may be generated for comparison to the annual settlement allowing them to keep a physical copy of the tax book at creation of the tax year and all changes to the end of the tax year.

The County Clerk will prepare a current tax book and verify the accuracy of the data to include assessed values and levies of tax districts, the tax book totals, and charges prior to charging the County Collector with the property tax amounts for collections. The County Clerk's and County Collector's offices will properly document the tax book and collection procedures.

The County Collector, the County Clerk, the County Commission, and the County Auditor provided the following response:

1.4 The County Collector's new system will generate reports in the County Auditor's and County Clerk's offices of daily tax due reports and daily tax collected to the related district or entities depending on the need for the report. The County Collector's new system will also generate reports for disbursements due to the entities.

The County Clerk will, as stated in the response to finding 1.3, prepare and maintain a tax book and verify the accuracy prior to charging the County Collector with taxes due. In addition, the County Clerk, County Auditor, and County Commission will review tax book amounts charged to the County Collector and the collection of tax to the annual settlements to ensure completeness and accuracy. In addition, the County Clerk, County Auditor, and County Commission will verify the accuracy and completion of delinquent tax books.

The County Auditor's office will collect tax book information in a digital format (including values, levies, etc.) by creating an independent tax book log including taxes due and update with changes (add, delete, abatement, etc.). The County Auditor's office will also track collections of receipts, reconcile to monthly reports, and verify distributions to entities to ensure the accuracy and completeness of the County Clerk's office tax books in reconciliation of the annual settlements. The County Auditor's office will communicate with the County Clerk and the County Commission verification of its independent reconciliation of the annual settlement.

The County Clerk, the County Commission, and the County Assessor provided the following response:

1.5 Since the time of the audit, the County Collector, County Clerk, County Assessor, and County Commission have been working together to implement an automated system for handling abatement, addition, and deletion of valuations from the Assessor's office that result in changes to the property tax system. This new automated process will begin in the Assessor's office in his valuation system and changes will be uploaded into the County Clerk's portion of the property tax system. The County Clerk will then confirm the calculations from the changes and generate individual reports along with a summary report for those changes, and present them to the County Commission for review and approval (or disapproval). Once the sign off is done, these reports will be submitted back to the County Clerk's office to be scanned into the system for electronic approval by the County Commission. Initial plans are to have this new system implemented by December 2019.

The above described process is currently a manual process and the County Commission is approving changes in a manual paper form until the new phase of the system is operational. Audit trails are maintained of before and after values in addition to the reporting of the individual changes made by parcel and the associated changes to taxing levies. In addition, the property tax system is being modified to generate reports highlighting these changes on a daily, weekly,

and monthly basis and will be provided to the County Auditor and County Clerk for their review.

This new system will also provide document scan attachments and trace the process through the tax book, collection process, and abatement process. Including in the case of refunds, the refund of monies to the party involved into the tax levies and district entities. This procedure will help ensure county records are properly maintained and accurate.

The current County Collector provided additional written responses for recommendations 1.1 through 1.5. See Appendix C.

2. County Collector's Controls and Procedures

Controls and procedures for the County Collector's office need improvement.

2.1 Receipting, recording, and depositing

The County Collector's procedures for receipting, recording, and depositing are not adequate. As a result, there is no assurance all monies collected are properly receipted, recorded, and deposited.

- Receipt slips were not issued for railroad and utility property tax collections and lodging tax collections totaling $2,958,331 for the year ended February 28, 2018, and $2,873,394 for the year ended February 28, 2017. The property tax system is not capable of receipting these taxes.

- Neither the current County Collector nor the former County Collector accounted for the numerical sequence of receipt numbers assigned by the property tax system. Some receipt numbers were missing and could not be accounted for because there is no record of deleted receipt transactions. Some property tax system receipt numbers were issued out of sequential order. This occurred because 1) the receipt date was erroneously entered by office personnel, or 2) office personnel did not complete the property tax system transactions timely. A receipt number is automatically generated when the transaction is opened, but the receipt date is not recorded until the transaction is completed.

  Our review of receipt numbers issued during the 2-week period ending November 15, 2017, identified 3 skipped receipt numbers and 7 receipt numbers issued out of sequence. Our review of receipt numbers issued during the 2-week period ending December 9, 2016, identified 103 skipped receipt numbers and 3 receipt numbers issued out of sequence. The skipped receipt numbers for both test periods could not be accounted for and are likely deleted receipt transactions.

- Merchant license receipt numbers assigned by the County Collector's office were not always issued in sequential order. County Collector's office personnel manually assign a sequential number as the merchant license number when paid and enter this same number into the property tax system as the receipt number. Our review of 450 merchant license receipt numbers issued during the 2-week period ending November 15, 2017, identified 191 receipt numbers issued out of sequence. In 2 instances, the merchant's check number was incorrectly entered into the system as the merchant license receipt number.

- Monies received are not always deposited timely. The County Collector's office policy is to deposit monies received the next day. Our review of receipts recorded in the property tax system during the 2-week period ending November 15, 2017, noted receipts in 44 cash drawers totaling $8,193,448 were not deposited until 2 to 9 days after receipt. Our review of receipts recorded in the tax system during the 2-week period ending December 9, 2016, noted receipts in 41 cash drawers totaling $8,228,131 were not deposited until 2 to 15 days after receipt.

Failure to implement adequate receipting, recording, reconciling, and depositing procedures increases the risk that loss, theft, or misuse of monies received will go undetected.

2.2 Liabilities

The former County Collector and current County Collector did not prepare monthly lists of liabilities for the property tax collections bank accounts. As a result, liabilities were not agreed to the reconciled bank balances monthly to ensure records balanced.

- We determined liabilities for the former County Collector's main bank account consisted of 3 months of undistributed surtax and bank interest, current month's collections, and undistributed TIF collections totaling $774,774 as of May 31, 2017. The reconciled bank balance on that date of $702,285 was less than the identified liabilities, resulting in an apparent shortage of $72,489. In addition, the former County Collector had 5 bank accounts at various banks within the county and tax payments were accepted at these locations. These 5 bank accounts had unidentified balances totaling $1,222 as of May 31, 2017.

- We determined liabilities for the current County Collector's main bank account consisted of 12 months of undistributed surtax and bank interest, current month's collections, and undistributed TIF collections totaling $1,296,289, as of February 28, 2018. The reconciled bank balance on that date of $1,706,404 was more than the identified liabilities, resulting in an unidentified balance of $410,115. In addition, the current County Collector's 5 bank accounts at various banks (same accounts held by the former County Collector) and tax sale account had unidentified balances

totaling $176,623 and $37,900, respectively, as of February 28, 2018. Also the former County Collector's main bank account was still open and had an unidentified balance of $160,734 as of February 28, 2018.

Regular identification and comparison of liabilities to the reconciled bank balance is necessary to ensure records are in balance, monies are available to satisfy all liabilities, and monies are disbursed timely. Differences should be promptly investigated and explained. Various statutory provisions provide for the disposition of unidentified monies.

2.3 Disbursements

The current County Collector and former County Collector did not disburse tax collections accurately or in accordance with state law, and various political subdivisions did not receive their appropriate share of tax collections.

For example, TIF collections received in November and December 2017 totaling $297,832 were not disbursed until March 2018. Protested TIF collections were not properly disbursed when settled during the year ended February 28, 2017. The former County Collector disbursed $49,880 more than required for one settled protested TIF collection. Distributions for another settled protested TIF collection from 2016, totaling $212,612, had not been disbursed as of April 2019. In addition, our review of the February 2018 monthly property tax disbursements noted one entity was overpaid by $2,970 and three other entities were underpaid by their share of this amount. This distribution error occurred because the current County Collector based distributions on spreadsheet calculations that contained data entry errors and did not ensure the amounts agreed to system generated reports that showed the correct distribution amounts.

Section 139.210.2, RSMo, requires all collections to be distributed to the political subdivisions by the fifteenth day of the following month. In addition, timely and proper distribution of property tax collections to political subdivisions is important because the political subdivisions rely on property tax revenues to fund operations. To ensure all tax collections are properly distributed and to help detect errors timely, taxes collected and distributed should be periodically reviewed and recalculated for accuracy.

2.4 Outstanding checks

The County Collector's office does not have procedures to routinely follow up on outstanding checks. As of May 31, 2017, the former County Collector's main account had 127 checks totaling $10,747 that had been outstanding for more than a year. As of February 28, 2018, this account had an additional 40 checks totaling $11,006 that had been outstanding for more than a year.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of monies in the account and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law.

2.5 Transfers

Neither the former County Collector nor the current County Collector timely transferred monies from the 5 local bank accounts and the partial payment account to the main account prior to making monthly disbursements of the corresponding receipts.

As noted earlier, the County Collector allows citizens to drop off tax payments at 5 local banks where the monies are deposited into accounts at those respective banks. The County Collector receipts these monies into the property tax system, as well as partial payments when the full payment is made. These amounts are included in the monthly collections that are to be disbursed from the main bank account at month-end, but the associated monies are not transferred to the main bank account prior to making the disbursements. Instead, monies deposited in these accounts are transferred to the main account after the end of the tax year. Monies collected in the 5 local bank accounts and partial payment account during tax year ending February 28, 2017, and 2018, totaled $608,603 and $434,881, respectively. Unidentified monies in the account, undistributed TIF collections, and outstanding checks prevented the main bank account from being overdrawn. If the County Collector had made disbursements as required, the main account would have been overdrawn.

To ensure all property tax collections are accounted for properly, monies received in other accounts should be transferred timely to the main account and monies should not be disbursed prior to transfer.

Recommendations

The County Collector:

2.1 Ensure all monies collected are properly receipted and deposited timely. Ensure receipts slips are sequentially issued for all monies received and the numerical sequence of receipt slips is accounted for properly.

2.2 Prepare and reconcile lists of liabilities to the reconciled bank balances monthly. Any differences should be promptly investigated and resolved. After sufficient efforts are made to resolve differences, any remaining unidentified monies should be disposed of in accordance with state law.

2.3 Ensure all property tax collections are timely and accurately disbursed in accordance with state law.

2.4 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the monies should be disposed of in accordance with state law.

2.5 Ensure all monies collected are transferred timely and prior to disbursement.

Auditee's Response

The current County Collector's written response is included at Appendix C.

Camden County Collector and Property Tax System
Organization and Statistical Information

The County Collector bills and collects property taxes for the county and most local governments. Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

Vicky Burns served as County Collector until May 31, 2017. Teresa Murray was appointed the Camden County Collector and sworn into office on June 12, 2017.

During the year ended February 28, 2017, the former County Collector received compensation of $60,988. The former County Collector received compensation of $16,406 for the period March 1, 2017, to May 31, 2017, and the current County Collector received compensation of $44,531 for the period June 12, 2017, to February 28, 2018. Compensation was in accordance with statutory provisions.

Responses to the State Audit Report for Camden County Collector's Office

The current Property Tax System used by the Camden County Collector was originally written and purchased in 1988, which at that time also encompassed the activities of the Assessor's and County Clerk Offices. It has been modified significantly over the past 30 years to adapt the system to changes in the state statutes and the growth in volume of the real estate and personal property articles within the county. The Assessor's Office moved from this combined package in 2015 to the Vanguard Assessor's package. In November 2017, as the current Collector I began the process of developing a new Taxpayer System that would remove the limitations presented by a system over 30 years old and to enable more taxpayer functionality and improved availability of information to the public. The plans for the new Collections System is scheduled to be implemented in its first phase in the fourth quarter of 2019, additional phases will follow.

The audit results highlighted in the Advisory Report were derived from an audit originally requested by Camden County in December 2017 and conducted during this time of transition. Many of the aspects of the report are encompassed in the development of the new Collector's System and report many of the short comings already identified in our process.

In response to section 1.1 of the Advisory Report, the County Collector and Collector's Chief Deputy are the only ones in the Collector's Office that can unpost a payment, an explanation is required before the process continues to unpost the payment. When generated the unpost report prints out the reason stated when unposted and shows by initials who unposted. This report can be generated at any time. A check returned for insufficient funds etc, is a necessary reason to unpost. While the current process does not require a secondary review or approval of the unpost, this has been incorporated into the new system. The Collector's Office does not have the capability to change assessed valuation or tax amount due.

Regarding the tracking of receipt numbers with the Collector's System, the programming of the old system did not track the receipt number from an un-post or when a payment transaction was not completed. Deleting a transaction receipt, when one of the collector's office staff starts to post a payment paid and has not followed thru to complete the process and backed out. Reasons to back out might be a taxpayer decided not to pay at that time or if the office personnel input an incorrect amount to be collected, this locks up the system and the transaction is aborted and you have to back out and start again. In both instances a delete receipt transaction takes place, therefore this results in gaps in the receipt sequence when reviewed. There were no reports for cancelled transactions. In the new Collector's System receipt numbers are tracked when assigned and cancellation actions for these receipts are also traced with an associated reason code and the user information of the person cancelling the receipt. This information will provide the necessary audit trail for tracking receipt numbers.

Regarding the ability of users to sign into different aspects of the system, the current Collector's System has individual user functions where specific user ids have been hard coded into the programming source code of the system. This limitation of the old system requires that the user credentials be shared among those whose job activities require this functionality. In developing the new Collector's System, these authorities have been transitioned to a role-based structure such that individual functionality may be granted or revoked from a single user id. The new system requires individual password assignments to limit the knowledge of an individual user's password to that specific individual and will require periodic password changes which will limit the use of prior passwords. Additionally, training is being implemented communicating the expectation that individuals will not share credentials.

Regarding the reporting of additions, abatements and deletes, knowing this was an issue in information provided for the annual settlement, our IT started capturing information in March 2018 to identify when the actions occur. We acknowledge that the system does not maintain a record of these transactions such that at a later date the system can generate a report (such as an audit trail) of the before and after values associated with these actions. A new automated addition, abatement, deletion system has been implemented that does allow for subsequent reporting of additions, abatements and deletions that are generated from the Assessor's Office to the Collector's Office through an automated system, that will track all activity and generate required reports. This system has been expanded to support transactions back to 2001 moving between the two offices.

Regarding the tracking of Railroad & Utility and Lodging Tax receipts, the issuance of statements and the associated tax receipts are being incorporated into the new Collector's System. For the 2018 & 2017 Railroad & Utility payments, a manual receipt was issued. In 2018 per recommendations from the State Auditor's Office numbered receipts were issued.

Overall, in response to section 1.1; Camden County has implemented system level changes beginning with the implementation of the Vanguard Assessor's System and culminating with the implementation of the New Collector's Tax Payer System later this year. The new system incorporates the ability to move from a single state of information to a transactional structure which will maintain an audit trail of changes throughout the taxation system with both prior and current information being available. This new system will also provide the identified reporting and user controls highlighted in the Advisory Report.

In response to section 1.2 of the Advisory Report, the current systems does not support the calculation and consolidation required for producing the annual tax settlement and as such, the process is manual. In the implementation of the new system, the Collector's Office will be automating the Annual Settlement. In addition, we are implementing disbursement functionality that will match the associated statements and receipts for tax payments to the disbursements conducted to the taxation entities. Having an automated system will help with the discrepancies provided to the Collector in compiling the annual settlement.

In response to section 1.3 of the Advisory Report, the calculations of the associated tax books are made in the background by the computer system when original tax records are generated and when additions, abatements and deletions are generated. The Collector's office gives the Clerk's Office the tax records to review the individual tax statements generated. The Clerk's Office oversees the associated levy rates and assessments entered into the automated system prior to these calculations occurring. The Clerk's Office receives a report of the initial tax roles when developed in October of each year. In addition to these tax roles, the new system will provide the Clerk's Office with daily transactional reports showing the additions, abatements and deletions so that a running tax role may be generated for comparison to the annual settlement.

In response to section 1.4 of the Advisory Report, the Collector's Office does provide the Auditor's office with daily reports of collections by user account. The Collector's Office has also instituted a policy of providing disbursements and associated details to the Auditor's Office following a disbursement being made.

In response to section 1.5 of the Advisory Report, the Collector and other offices involved in this process have been working together to implement an automated system for handling abatement, addition and deletion of valuations from the Assessor's office that result in changes to the property tax system. This new automated process will begin in the Assessor's office in his valuation system and changes will be uploaded in to the County Clerk's portion of the property tax system. The County Clerk will then confirm the calculations from the changes and generate individual reports along with a summary report for those changes and present them to the County Commission for review and approval (or disapproval). Once the sign off is done, these reports will be submitted back to the County Clerk's office to be scanned into the system for electronic approval by the County Commission. Initial plans are to have this system implemented in the fourth quarter of 2019.

The above described process is currently a manual process and the Commission is approving changes in a manual paper form until the new system is operational. Audit trails are maintained of before and after values in addition to the reporting of the individual changes made by parcel and the associated changes to taxing levies. In addition, the property tax system is being modified to generate reports highlighting these changes on a daily, weekly and monthly basis and be provided to the Auditor and County Clerk for their review.

This new system will also provide document scan attachments and trace the process thru the tax book, collection and abatement process. In the case of refunds, the refunding of monies to the parties by taking the new assessed valuation into the tax levies which withdraws the monies disbursed to the district entities. This procedure will help ensure county records are properly maintained and accurate.

In response to section 2.1 of the Advisory Report, while there is not documented procedures for the receipting, recording and deposits; procedures do exist that provide for these functions within the Collector's Office. Receipts, records and deposits do occur to support the taxpayer functions and licensing requirements within the county and in support of Department of Revenue requirements of the County, for the current and future collections. In response to those areas identified by the Advisory Report;

- Tax amounts due for railroad and utility property taxes are developed by the County Clerk's office and associated payments received are recorded against these tax statements. Since the time of the audit the Collector's Office has instituted a physical receipt system for these payments and is incorporating the collection process into the overall Collector's Taxpayer System.
- Modifications are being made to the new Collector's Tax Payer System to record and manage the issuance of receipt numbers and the associated reasons why receipts are cancelled.
- Merchant Licenses are being incorporated into the new system and receipt numbers being generated as stated above.

> Monies received are deposited in a timely fashion given the requirements to register and process payment based upon the post mark date of the mailing of taxes. This requires the assignment of batches based upon the postmark date over the receipt date. The Collector's office processes payments in this manner as the postal and processing delays could result in interest and penalties to taxpayers. In addition, from the period starting in November through mid-February there is a significant rise in the number of transactions to be processed due to the cyclical nature of the tax season causing a longer period of processing the received payments.

In regard to section 2.2 to the reporting and listing of liabilities outstanding by the Collector's Office;

> The 5 bank accounts referenced with unidentified balances are mail accounts used at local banks for the convenience of taxpayers to pay their tax bill locally instead of mailing payments to the County Collector. The unidentified balances in the mail accounts is interest that has not been transferred to the main account. Some banks require that you keep a balance thru out the year. Sur Tax & Assessor Fund monies accumulate monthly and are disbursed 1 time a year.

> The Collector's office has been allowing up to 5 years for the deposit of outstanding checks and managing accounts based upon the operating convenience of the taxpayer community to pay tax bills at their local bank. We have a process in place of accumulating these monies back to the primary account following the reconciliation of the individual bank account. (see 2.4)

> In addition, individual bank accounts for TIF, SurTax, Assessor's Fund and other special funds have been created to segregate these monies from other funds and for more accurate reconciliations.

Regarding the timeliness of Disbursements in Section 2.3, the Collector's Office did disburse monies in accordance with state law except in those circumstances where local ordinance provided additional requirements that made this impractical to meet. TIF payments, as stated above, require a third party review prior to disbursement. In addition, protested funds are not distributed until such time as the protest is resolved. The only other period where disbursements have been delayed are during the December close-out where additional time is required to process the influx of tax payments received prior to the start of the new year. In regards to the distribution error, this has been rectified and additional steps have been put into place to verify and substantiate data entry to prevent any future issues from occurring.

Regarding Outstanding Checks as highlighted in Section 2.4; as stated above the Collector's office has been allowing 5 years for outstanding checks to be deposited. We are implementing steps to reduce this period to 1 year. Part of the new outstanding check procedures, if the check is still outstanding after 6 months, the check holder will be notified by phone or mail and a log will be kept to keep us compliant with the unclaimed property rules. If we are unable to contact payee, the monies will be handed over to the Unclaimed Property Divisionof the State Treasurer's Office.

Regarding the Transfers highlighted in Section 2.5, the Collector's office has implemented a process to transfer monies from the bank accounts to the primary bank account in a timely manner. However, we do have to balance the checking accounts before transferring monies. As stated above we have also opened special accounts for TIF, SurTax and other monies so as to allow for better audit and reconciliation processes.

Overall in response to Section2, we understand the recommendations from the Advisory Report and implementing many of those aspects into our systems and processes. At the current time, the Collector's Office does have protocols to balance each workstation daily to monies collected at the counter and the monies deposited. Reports and deposit slips are turned over to the Auditor's Office at that time. In addition, a monthly report is run of the transactions posted and balanced against money collected and deposited, the report of the monthly distributions is given to the Auditor, County Clerk and Treasurer. Our new system will have enhanced reports for tracking and verifying the collections and distributions for the annual settlement.

Along with the monthly reports of disbursements, the money collected for the TIF, SurTax, Assessor Fund, Railroad & Utilities monies are also reported, and the Auditor, County Clerk and Treasurer receive these reports after money has been disbursed. A copy of the bank reconciliations is also provided to the Auditors Office monthly.

Thank you,

Teresa Murray

CITIZENS SUMMARY

Findings in the audit of Camden County

County Management Procedures	Procedures related to procurement and disbursement of county funds need significant improvement. The county's procurement, disbursement, and reimbursement procedures do not always comply with the established purchasing manual and travel reimbursement policies. Controls over credit cards need improvement. The county has not adequately restricted access to the accounting and online purchasing systems, and logon credentials are shared among users. The Purchasing department does not ensure compliance with county policies and state law regarding competitive bidding requirements for purchases exceeding $6,000. The Juvenile Detention Center does not have written contracts with the 4 political subdivisions for which it houses juvenile detainees and the county does not always enter into written contracts when required. The county lacks adequate procedures to account for fuel used by county departments and fuel purchases using credit cards.
Payroll Controls and Procedures	County officials do not always follow personnel policies or update policies when related procedures change. The County Commission has not adequately segregated payroll duties and no one performs an independent or supervisory review of detailed payroll records. The County Clerk did not maintain documentation of approved pay rates and any changes to pay rates in employee personnel files.
Sunshine Law	The county's procedures for complying with the Sunshine Law and maintaining minutes of meetings need improvement. The County Clerk does not maintain a log of public record requests to ensure all requests are handled in compliance with state law. The county's written policy regarding public access to county records is not adequate. The County Commission does not ensure minutes of all County Commission meetings are prepared, approved timely, and posted to the county's website. Some redactions made to documents do not appear appropriate.
Salary Commission	The Camden County Salary Commission has not met since 2005; however, the salaries of some elected officials increased starting in 2006.
Sheriff's Controls and Procedures	The Sheriff's procedures for receipting, recording, depositing, and reconciling payments need improvement. The Detention Administrative Assistant does not prepare a monthly list of liabilities for the inmate account and consequently, liabilities are not agreed to the reconciled bank balance. The Sheriff has not established procedures to routinely follow up on outstanding checks for the inmate account. The Sheriff's office does not have adequate procedures to ensure all inmate monies are refunded upon release. The Sheriff's office does not maintain adequate records to account for e-cigarettes purchased and sold to inmates, and inventory remaining on hand, or conduct periodic physical inventory counts. The Sheriff's office does not charge or collect sales taxes on e-cigarettes sold to inmates, and no sales taxes are remitted to the Department of Revenue.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney's clerk did not prepare adequate bank reconciliations. Receipts are not always deposited timely and prior to disbursement. The Prosecuting Attorney has not established procedures to routinely follow up on outstanding checks for the restitution account.

Wastewater Department's Controls and Procedures	The County Commission and Wastewater Supervisor have not adequately segregated accounting duties and do not perform documented supervisory reviews of detailed accounting and transmittal records. Procedures for receipting, recording, and transmitting monies are not adequate.
Planning and Zoning Department's Controls and Procedures	The Planning and Zoning department has not established proper controls or procedures for receipting and transmitting monies.
Public Administrator's Controls and Procedures	Controls and procedures in the Public Administrator's office need improvement. The Public Administrator does not always file annual settlements timely and does not prepare bank reconciliations timely.
County Clerk's Controls and Procedures	The County Clerk has not adequately segregated accounting duties and does not perform a documented supervisory review of detailed accounting records and transmittals. The County Clerk has not established proper procedures for receipting and transmitting monies.
Recorder of Deeds' Controls and Procedures	The Recorder of Deeds has not adequately segregated accounting duties and does not perform a documented supervisory review of detailed accounting and bank records. The Recorder of Deeds did not prepare adequate bank reconciliations for January through November 2017. The Recorder of Deeds does not deposit monies timely.
GIS Department's Controls and Procedures	Controls and procedures in the Geographic Information System (GIS) department need improvement. The County Commission has not adequately segregated accounting duties and does not perform a supervisory review of detailed accounting records. The GIS department has not established proper controls or procedures for receipting and recording monies.
Senior Board's Depositing Procedures	The Senior Citizens' Services Tax Fund Board does not always deposit receipts timely.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 34

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Camden County

The State Auditor was requested under Section 50.057, RSMo, to audit Camden County. In addition, Daniel Jones & Associates, Certified Public Accountants, was engaged to audit the financial statements of Camden County for the year ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

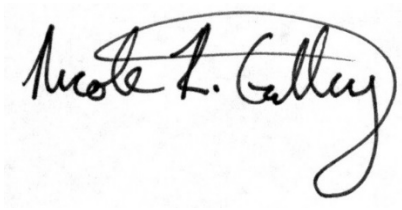
Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Camden County.

An additional report, No. 2019-069, *Camden County Collector and Property Tax System*, was issued in August 2019.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Regina Pruitt, CPA
Audit Manager:	Deborah Whitis, MBA, CPA, CIA, CFE
In-Charge Auditor:	Tina Disney, M.Acct., CFE
Audit Staff:	Charity Grotzinger, CGAP
	Devin Jackson
	John-Henry T. Jarwood, MBA
	Sheldon Hayes
	Sacha Tejan, CFE

1. County Management Procedures

Procedures related to procurement and disbursement of county funds need significant improvement.

The county's purchasing manual indicates the Purchasing department is responsible for purchasing all items necessary to conduct county business, including obtaining bids as required by state law, issuing purchase orders, and maintaining an inventory of supplies in the Central Supply department. The Central Supply department is open daily for county offices and departments to obtain necessary supplies. For services and goods not available in the Central Supply department, a purchase requisition must be submitted to the Purchasing department. The Purchasing department is then responsible for ensuring the required bids and approvals to award the bid are obtained prior to issuing the purchase order and ordering from the vendor. After the vendor delivers the goods or services to the applicable office or department, confirmation of receipt of goods or services is to be returned to the Purchasing department. Upon receipt of the vendor invoice, the Purchasing department pulls the requisition and purchase order, verifies prices, and attaches them to the confirmation of receipt and other pertinent paperwork. The Purchasing department then sends a batch of invoices ready for payment to the County Auditor for approval, after which the batch is sent to County Commission for final approval before being sent to the Accounts Payable department to process the payments.

1.1 Disbursement review and documentation

The county's procurement, disbursement, and reimbursement procedures do not always comply with the established purchasing manual and travel reimbursement policies. As a result, invoices and employee reimbursements are not always properly approved and adequately supported. In addition, the county has no policies or procedures to determine the most cost-effective method to provide or reimburse employees for cell phone service.

Approval and documentation

The Accounts Payable department does not always ensure officials or department heads have documented their review and approval of invoices and reimbursement request forms, and does not always ensure all required supporting documentation, including detailed invoices and acknowledgement of receipt of goods or services, is available prior to paying bills. We noted 14 of 82 disbursements reviewed did not contain the appropriate approvals. We also noted adequately detailed supporting documentation was not available for 21 of 82 disbursements reviewed.

Reimbursements

Employee reimbursements do not always comply with established travel reimbursement policies. In addition, the county reimburses some employees for purchases instead of requiring them to obtain these items from the Central Supply department or through the Purchasing department when items are not available at the Central Supply department. State sales tax was paid on several of these reimbursements. For example, in June 2017 an elected official untimely submitted a reimbursement claim form for 5 months of travel

expenses and was reimbursed $873 for 1,617 miles driven to "reviews, classes" between January 18 and May 26, 2017. The travel destinations were noted on the claim form, but no documentation was available to show the purpose of the trips or verify attendance at events. In addition, an employee was reimbursed $6,816 during 2017 for various items purchased outside the county's normal procurement process including ammunition, firearm accessories, a laptop, electronic storage devices, cell phone accessories, and supplies. These items were picked up by the employee or shipped to the employee's residence. The county paid $173 in state sales related to these reimbursements.

Cell phones

The county has no bid process for selecting a cell phone provider or analysis of costs to reimburse employees for use of their personal cell phones. In addition, the county does not have a process or criteria for determining which employees will be provided with county cell phones or reimbursed for use of their personal cell phone for county business. Each official or department determines which employees need a cell phone, whether to issue a county cell phone through a vendor, or the amount to reimburse employees for personal cell phone use. The county paid AT&T Mobility $18,792 and Verizon Wireless $52,028 during 2017 for cell phone services. The county also reimbursed some employees for using personal cell phones for county purposes. For example, a road and bridge department employee was reimbursed $40 per month and a circuit court judge was reimbursed $90 per month during 2017.

Conclusion

Requiring acknowledgement of the receipt of goods and services prior to payment helps ensure the county actually received all items. To ensure obligations were actually incurred and amounts paid were proper, all disbursements should be supported by paid receipts, itemized vendor invoices, or other detailed documentation with payment information clearly indicated. County policy requires employees to submit a form accompanied by receipts or other appropriate documentation for travel expenses within 30 days after travel is completed. In addition, Section 50.757, RSMo, requires the purchasing agent to purchase all supplies necessary for all county departments.

1.2 Credit card purchases

Controls over credit cards need improvement. Various county employees use credit cards instead of following the county's purchasing manual and obtaining purchase orders through the Purchasing department prior to purchasing equipment, supplies, and various other items. The county has 20 credit cards that can be checked out by employees and the Sheriff's office has 18 credit cards that are assigned to certain deputies. These cards are used to purchase fuel, supplies, equipment, and various other items. During the year ended December 31, 2017, credit card purchases by Sheriff's office employees and other county employees totaled $76,195 and $55,579, respectively. We identified the following problems.

- The County Commission and the Sheriff have not adopted formal policies and procedures documenting who should be assigned a credit card, appropriate usage for the credit cards, and required documentation to support credit card purchases.

  Complete and detailed written credit card policies and procedures are necessary to provide guidance to employees. The County Commission and the Sheriff should develop policies that indicate who should be assigned a credit card and appropriate usage of credit cards and require all invoices to be submitted prior to payment of credit card billing statements.

- County officials do not ensure employees comply with the county's meal reimbursement policy. For example our review of the Sheriff's office credit card purchases made during 2017 identified 25 transactions totaling $1,624 for food and drink purchases at local restaurants or stores (within the county) for the Sheriff and his employees, although county policy only allows for such reimbursements for travel outside the county. None of these transactions were supported by information demonstrating how the purchase related to the operation of the Sheriff's office or detailing the persons in attendance to ensure the transaction was a reasonable and prudent use of public funds.

  In addition, these payments were not added to employee W-2 forms as a taxable benefit as required by Internal Revenue Service (IRS) regulations. This problem continued even though the county was notified after an IRS examination of concerns with reimbursement for daytime meals. In an IRS notice dated September 9, 2015, the IRS instructed the county to include in employees' wages the value of meals reimbursed during travel that is not overnight or change procedures to reimburse meals only when an overnight stay is required.

  According to IRS Publication 463, Travel, Entertainment, Gift, and Car Expenses, the cost of business meals that does not involve overnight travel or travel long enough for the employees to stop for sleep or rest to properly perform their duties is a personal expense, and therefore is not deductible as a business expense. In addition, IRS Publication 15-B states that any fringe benefit provided by an employer is taxable and must be included in the employee's pay unless excluded by law.

- The Sheriff does not require an independent review and approval of all purchases made using credit cards. The Sheriff has the Chief Deputy and 2 Captains approve all credit card purchases including their own with no independent review.

To ensure expenditures are an appropriate use of public funds, the Sheriff should ensure an adequate independent review of all purchases is performed.

Credit card purchases are inherently more risky than other purchases because these purchases are or can be made prior to proper approval. That risk and the potential for fraud or misuse increases even more when internal controls and proper procedures are lacking. Credit card policies and procedures are necessary to ensure all credit card purchases are appropriate and in compliance with county purchasing and meal reimbursement policies, and to reduce the risk of unauthorized purchases occurring. Meal purchases without overnight travel should be monitored and properly reported on W-2 forms.

1.3 User access, identifications, and passwords

The county has not adequately restricted access to the accounting and online purchasing systems, and logon credentials are shared among users. Accounts Payable department personnel have access rights in the accounting system allowing them to create new vendors based on invoices they receive. Because that department is responsible for making disbursements, good internal controls require they not have access rights allowing alteration of the vendor list. Instead, any changes to the vendor list should be performed by the Purchasing department.

In addition, the County Auditor shares his user identification and password with the Purchasing department for the online purchasing system. The Purchasing Manager also shares her user identification and password with the Auditor's Clerk so he can transmit batches of approved purchase orders to the accounts payable system in her absence. The County Auditor is responsible for electronically approving purchase orders and initial approval of invoices submitted for payment. The County Commission performs final approval of invoices. While a user identification and password are required to authenticate access, the security of these logon credentials is dependent upon keeping them confidential. Allowing users to share logon credentials increases the risk of unsupported or unauthorized purchases being made and does not provide assurance access is limited to only those individuals who need access to perform their job responsibilities. User identifications should be unique to each person and passwords should be kept confidential to reduce these risks.

System controls would be improved by limiting users access in the accounting and online purchasing systems to only those functions necessary to perform their duties and ensuring all employees maintain confidential passwords.

1.4 Bidding procedures

The Purchasing department does not ensure compliance with county policies and state law regarding competitive bidding requirements for purchases exceeding $6,000. In addition, the county has not established policies and procedures for the selection of vendors providing professional services.

For 15 purchases reviewed (all exceeding $6,000) the Purchasing department could not provide documentation to demonstrate bids or requests for proposals had been solicited. The total annual payments to the vendors associated with these 15 purchases was $725,397 during 2017. The purchasing manual requires the Purchasing department to solicit sealed bids for purchases estimated to cost $6,000 or more to be submitted to the County Clerk to be opened and considered at a bid opening meeting. Purchasing department personnel said they do not enforce this policy and the County Auditor and County Commissioners approved these expenditures without the required bids or proposals.

Section 50.660, RSMo, addresses bidding requirements. Routine use of a competitive procurement process for major purchases ensures the county has made every effort to receive the best and lowest price and all interested parties are given an equal opportunity to participate in county business. Documentation of the various proposals received, the selection process, and criteria should be retained to demonstrate compliance with applicable laws or regulations and support decisions made. In addition, soliciting proposals for professional services is a good business practice, helps provide a range of possible choices, and allows the county to make better-informed decisions to ensure necessary services are obtained from the best qualified provider after taking expertise, experience, and cost into consideration.

1.5 Contracts

We noted the following issues regarding contracts:

- The Juvenile Detention Center does not have written contracts with the 4 political subdivisions for which it houses juvenile detainees. During the year ended December 31, 2017, payments from these political subdivisions totaled approximately $249,900.

- The county does not always enter into written contracts when required. Fifteen of the disbursements we reviewed required contracts; however, for 11 of them the county had not entered into a contract or did not have a current contract in place. For example, the county paid a law firm approximately $89,700 during 2017, but the contract on file with this firm had not been updated since March 2007.

Section 432.070, RSMo, requires government contracts be in writing. Clear, detailed, and timely written contracts are necessary to ensure all parties are aware of the services to be performed and the compensation to be paid for the services.

1.6 Fuel use

The county lacks adequate procedures to account for fuel used by county departments and fuel purchases using credit cards. During the year ended December 31, 2017, fuel purchases totaled approximately $376,100 for the

Road and Bridge department and approximately $141,500 for the Sheriff's office.

- Bulk fuel is stored in a fuel tank at the Road and Bridge department for use of all county vehicles, including the Sheriff's vehicles. This tank is metered and the Road and Bridge department maintains a computerized fuel system to track the date, time, mileage, and total fuel cost for all county vehicles. However, no one uses these records to reconcile fuel use with fuel purchases.

- The Sheriff's office does not have a procedure in place to ensure fuel purchases with credit cards are reasonable and necessary. Sheriff's office personnel purchased fuel with credit cards totaling $4,045 during the year ended December 31, 2017. Of this amount, $1,517 was fuel purchases within the county when fuel should have been obtained from the bulk tanks. The Sheriff should periodically review fuel usage for reasonableness and document his review.

Procedures for reconciling fuel use to fuel purchases are necessary to ensure vehicles and equipment are properly utilized; prevent paying vendors for improper amounts; and decrease the risk of loss, theft, or misuse of fuel occurring and going undetected.

Recommendations

The County Commission:

1.1 Ensure procurements, disbursements, and reimbursements comply with the established purchasing manual and travel reimbursement policies. Ensure invoices are adequately reviewed by officials, require documentation of receipt of goods and/or services prior to payment of invoices, and maintain adequate supporting documentation for all disbursements. Solicit bids for cell phone services and develop policies and procedures to determine the most cost-effective method to provide this service to employees.

1.2 Work with the Sheriff and other county officials to establish written credit card policies and procedures, ensure compliance with county purchasing policies, and ensure credit card purchases are properly approved. In addition, the County Commission should ensure employees comply with the county's meal reimbursement policy and ensure meal reimbursements without overnight travel are properly reported on W-2 forms.

1.3 Work with the County Auditor and County Clerk to ensure access to the accounting and purchasing systems is limited to only what is needed for users to perform their job duties and responsibilities, and require employees maintain confidential passwords.

1.4 Ensure bids and proposals are solicited for all applicable purchases of goods and services in accordance with state law. In addition, the County Commission should establish a policy to address the selection of professional services.

1.5 Enter into written agreements with vendors and political subdivisions as required by state law and ensure the contracts are periodically updated.

1.6 Ensure fuel logs are reviewed for accuracy and reconciled to fuel purchases. In addition, the Sheriff should periodically review fuel usage from credit card purchases for reasonableness and document his review.

Auditee's Response

The County Commission provided the following responses:

1.1 The current software used to track and manage procurements and disbursements is 30 years old and incapable of managing everything necessary for all steps required. New software being installed during 2019 will have a comprehensive method of tracking and attaching all documentation with an entry that will allow sufficient review and approval for all purchases and expenses. In the meantime, we will work with county officials and department supervisors to ensure compliance with the established purchasing manual and travel reimbursement policies, invoices are properly reviewed, and adequate supporting documentation is maintained for all disbursements.

Effective July 1, 2019, the county developed a cell phone policy for providing certain county offices cell phones and restricting/limiting employee reimbursement for using personal cell phones. In February 2019, the county entered into a 2-year contract with Verizon Wireless under the U.S. General Services Administration (GSA) IT Schedule 70 contract, a federal cooperative purchasing program that allows state and local governments to purchase IT products and services. The county plans to utilize the GSA cooperative purchasing program for all wireless services in the future.

1.2 A new written credit card policy was developed by the County Commission in connection with all other elected officials. This policy was approved by the Commission and went into effect on July 1, 2019. The Sheriff developed his own credit card policy which was incorporated into the county policy. It is the intent that this new policy will alleviate the concerns expressed in the audit. In addition the County Auditor and the County Commission are writing a new

policy to address the addition of meal reimbursements without overnight travel to W-2 forms.

1.3 In the County Commission office no one shares passwords. In addition, commissioners only have access to the purchasing system and the accounting system areas necessary for them to perform their duties. We are currently working with the new system developer to ensure user access is adequately restricted. In addition, the new software system being installed includes tracked access to data input and retrieval. Training on the new software is to be implemented at the end of 2019 and into 2020. It is anticipated that this training will cover password confidentiality for all county employees.

1.4 Bids and proposals are generally solicited as required by state statute. In addition, an email was sent to all offices restating the need to comply with the state statutes on bidding procedures and was accompanied by a copy of all state statutes pertaining to bidding. The County Commission will work with the Purchasing department and the County Auditor to ensure compliance with statutory bidding requirements. We are developing an "agreement" process to ensure that bid acceptances are fully executed, signed, and documented with all documentation retained as required.

1.5 Intergovernmental agreements are typically done as required. The one that was noted as missing was the Juvenile Justice System. However, four requests were sent to this facility requesting intergovernmental agreements with all the counties concerned over a six month time period. No agreements were ever provided. New legal contracts were obtained with all law firms except one, which was requested 2 times and not received.

The county intends to obtain written agreements with vendors going forward. We will continue to work with all political subdivisions to obtain or update intergovernmental agreements and to obtain or update all contracts as required.

1.6 A new fuel policy was developed by the County Commission in connection with all other elected officials. This policy was approved by the County Commission and went into effect on July 1, 2019. The Sheriff developed his own additional fuel policy to coincide with his credit card policy. The Road and Bridge department has developed an extensive fuel policy to control and review use of the county bulk fuel tanks. A copy of this policy is available upon request. Each user has an individual identification number that must be utilized to obtain fuel. All documentation is required to be retained and submitted timely to the Road and Bridge department. The Road and Bridge

department will submit all fuel usage reports to the County Auditor's office on a monthly basis for review.

The Sheriff provided the following responses:

1.2 A policy is being implemented for command staff to authorize and approve credit card purchases. For online purchases, the Purchasing department must approve items based on lowest cost. The Sheriff's office will no longer provide meals for employees on daily travel. The Sheriff's office will document reasons for any in-county meals for special purpose events, including names of attendees.

1.6 A copy of the fuel charge statement will be given to the Sheriff for his review on a monthly basis.

The County Auditor provided the following responses:

1.3 The County Auditor's office upon discovery of problems made immediate corrections on April 4, 2018. The County Auditor's office also educated its staff that sharing user identifications and passwords is not allowed.

1.4 The County Auditor's office will develop internal control procedures to ensure compliance with federal and state laws and county policy for bids and contracts for purchases of goods and services. This will be done in conjunction with the development of our new financial software tentatively planned to be implemented by December 2019.

2. Payroll Controls and Procedures

Controls and procedures over payroll need improvement. The county paid personnel salaries and wages totaling approximately $9.4 million during the year ended December 31, 2017.

2.1 Personnel policies and procedures

County officials do not always follow personnel policies or update policies when related procedures change. As a result, the county may be providing more compensatory, vacation, and military leave compensation than required resulting in a greater financial burden. In addition, procedures to monitor leave balances are not sufficient.

- County and Sheriff's office policies regarding law enforcement compensatory time accruals and overtime pay do not match and actual compensation awarded is not consistent with either policy. The county's personnel policy provides for law enforcement personnel to accrue compensatory time or receive overtime pay for any time worked over 168 hours during a 28 consecutive day period. The Sheriff's office policy provides for traditional and non-traditional law enforcement personnel to accrue compensatory time or receive overtime pay for any hours worked

over 168 and 160, respectively, in a 28-day period. The county currently awards compensatory time or overtime pay to traditional and non-traditional law enforcement personnel who work more than 84 and 80 hours, respectively, in a 14-day period.

- County employees were allowed to accrue vacation and compensatory leave in excess of the maximum allowed per county policy and military leave was paid out in excess of amount allowed per county policy. During our review of 10 employees' payroll records for the pay period ended February 10, 2018, we noted 5 employees' accrued vacation balances exceeded the maximum allowed by amounts ranging from 2.6 hours to 6.2 hours and 1 employee's accrued compensatory balance exceeded the maximum allowed by 89.5 hours. In addition, our review of 3 employees' military leave for the pay period ended March 10, 2018, noted military leave was paid at their regular hourly rate instead of the difference between their regular compensation and their military pay per county policy.

- Leave balances in the new payroll system are not accurate. In January 2018, the County Commission moved payroll duties from the County Clerk's office to the Human Resources (HR) office and contracted with a new payroll processing provider. Our comparison of beginning leave balances in the new system to ending leave balances in the County Clerk's payroll system identified discrepancies. We noted sick and vacation leave balances for 6 employees were not carried over to the new system. In addition, we noted compensatory time balances within the new system for 59 employees differed from the County Clerk's payroll system balances. The HR Director indicated she did not use balances from the County Clerk's payroll system, but instead used balances from the various departments' tracking systems. We compared balances from the departments' tracking systems to the new system and noted 6 employees' compensatory time balances were short by 2 hours to 24 hours and 3 employees' compensatory time balances were high by 3 to 60 hours. The HR Director could not provide explanations for these discrepancies or documentation to demonstrate the correct beginning leave balances were entered into the new system.

Personnel policies should be updated to provide guidance to county employees, provide a basis for proper compensation, and avoid misunderstandings. By not following county policies, the county may be paying more overtime, compensatory time, and military compensation than required resulting in a greater financial burden. In addition, without adequate leave records, the county cannot ensure leave earned and taken by employees is properly documented. Leave records also aid in determining final compensation for employees leaving county employment.

2.2 Segregation of duties

The County Commission has not adequately segregated payroll duties and no one performs an independent or supervisory review of detailed payroll records. The HR Benefits Coordinator electronically submits the payroll expenditures to the county's contracted payroll provider. Provider personnel automatically withdraw payroll expenses from the county's bank account without any independent review. Because the HR department is responsible for entering approved pay rates and establishing/maintaining personnel records for county employees, HR personnel should not have access to or be responsible for entering payroll data and processing paychecks.

Proper segregation of duties is necessary to ensure payroll transactions are appropriate and accounted for properly. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed payroll records are essential. In addition, Section 55.160, RSMo, states no warrant shall be drawn or obligation incurred without the auditor's certification that an unencumbered balance, sufficient to pay the same, remain in the appropriate account or in the anticipated revenue fund against which such warrant or obligation is to be charged.

2.3 Approved pay rates

The County Clerk did not maintain documentation of approved pay rates and any changes to pay rates in employee personnel files. Documentation of approved pay rates, signed by the respective official, should be maintained for all county employees. Without documentation of approved pay rates, there is less assurance payments to employees are properly authorized.

Recommendations

The County Commission:

2.1 Review and update personnel policies, as necessary, and ensure compliance with the policies. In addition, the County Commission should ensure employee leave balances are properly tracked and monitored.

2.2 Segregate payroll duties or ensure documented supervisory reviews of detailed payroll records are performed. In addition, the County Auditor should review payroll expenses prior to disbursement as required by state law.

2.3 Ensure documented approvals of pay rates for all county employees are maintained.

Auditee's Response

The County Commission provided the following responses:

2.1 The County Commission has reviewed personnel policies and has made changes to the handbook as needed and this process will continue. In addition, the County Commission and the County Auditor will be working together to develop a new policy to address

compliance issues. Leave balances are tracked in payroll. The new software being installed at this time includes a payroll module that will automatically track leave time. It will then be reviewed by the Payroll Clerk and then sent to the County Auditor for final review and confirmation.

2.2 Pursuant to the state audit, all payroll is sent to the County Auditor's office for approval before it is sent to the payroll processor. Additionally, the HR Director and the HR Benefits Coordinator (Payroll Clerk) now perform separate functions. The HR Director will not process payroll in any form. The HR Director and the HR Benefits Coordinator will still work together to manage benefits and insurance, however they will both have separate jobs and responsibilities. The HR Director inputs new employees into the payroll system, manages personnel files, manages insurance, handles leaving employees, and employs best practices for Human Resources. The HR Benefits Coordinator handles benefits and handles payroll functions with a 3rd party payroll processor.

In addition, the new software that is being implemented by the county will include a payroll module which should make the separation easy and distinct. This system will continue to allow the County Auditor to review payroll before it is processed by the HR Benefits Coordinator. It should also give a better audit trail for all portions of the payroll function. This software is anticipated to "go live" with the payroll module sometime in September or October 2019.

2.3 All approved pay rates are now being retained in each employee file including any raises that are given.

The County Auditor provided the following response:

2.2 Complying currently in a limited capacity that is extremely labor intensive with authorization control and tracking in a manual form. Upon implementation of a new financial software system, tentatively by December 2019, the county will comply with Section 55.160, RSMo, by developing digital controls of authorization, including an audit trail for tracking.

3. Sunshine Law

The county's procedures for complying with the Sunshine Law and maintaining minutes of meetings need improvement.

3.1 Records requests

The County Clerk does not maintain a log of public record requests to ensure all requests are handled in compliance with state law. While the County Clerk indicated there were requests for records, neither the County Clerk nor the contracted legal counsel for responding to Sunshine Law requests maintain a

log or other record of public records requests to ensure all requests are handled in compliance with the Sunshine Law.

Section 610.023, RSMo, provides each request for access to public records shall be acted upon as soon as possible, but in no event later than the end of the third business day following the date the request is received. To ensure compliance with state law, the county should document adequate information in a log to determine if requests are completed timely and all requests are adequately filled. Necessary information includes, but is not limited to, the date of request, a brief description of the request, the date the request is completed or reason why the request cannot be completed, and any associated costs of filling the request.

3.2 Public access policy

The county's written policy regarding public access to county records is not adequate. The policy, effective March 28, 2017, does not identify a person to contact, provide an address to mail such requests, or establish fees that may be assessed for providing copies of public records. A written policy regarding public access to county records should establish guidelines for the county to make records available to the public.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the county to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law.

3.3 Meeting minutes

The County Commission does not ensure minutes of all County Commission meetings are prepared, approved timely, and posted to the county's website. Minutes were not available for 12 of 113 possible open meetings and 4 of the 14 closed meetings held during the year ended December 31, 2017. For 5 of the 12 open meetings with no minutes, the County Commission indicated no meetings were held. Our review of the related agendas and subsequent meeting minutes gave the appearance that meetings occurred. The agendas stated "No Official Business Requiring Voting Action" and did not clearly indicate that no meetings took place. Subsequent meeting minutes showed the County Commission took action regarding minutes for 2 of the 5 meetings, with the minutes approved for one meeting and the approval tabled for the other meeting.

In addition, for the majority of the available minutes, the preparer and the County Commission had not signed them and minutes for several open meetings were not approved timely. For example, minutes of the June 20, 2017, meeting were not approved until August 15, 2017. In addition, minutes for 25 open meetings were not posted to the county's website, which is the county's procedure.

The County Commissioners voted to change the responsibility for preparing meeting minutes from the County Clerk to the HR Benefits Coordinator on March 23, 2017. The HR Benefits Coordinator does not always prepare meeting minutes timely and present them to the County Commission for review and approval. Once the minutes have been approved, the HR Benefits Coordinator submits them to the County Clerk's office to file and the Information Technology department to post online.

Section 610.020.7, RSMo, requires minutes of open and closed meetings be maintained as a record of business conducted and to provide an official record of actions and decisions. The meeting minutes should be signed by the preparer and subsequently approved by the County Commission to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the meetings. Section 610.023.2, RSMo, requires the county make records available to the public for inspection and copying. Without timely County Commission approval of meeting minutes, the public records of open County Commission meetings cannot be made available to the public within a reasonable time period.

3.4 Redactions

Some redactions made to documents do not appear appropriate. The County Commission redacted information on legal bills prior to sending them to the Accounts Payable department for payment and the Custodian of Records to maintain as public records. We obtained original legal bills (unredacted) and compared them to the redacted copies. Based on our review, some of the information redacted was not confidential. Also, internal redactions of information that is not confidential from invoices submitted to the Accounts Payable department lessens the ability to perform adequate reviews and ensure the validity and appropriateness of billings.

Legal bills generally do not constitute privileged communications or a basis to close records under the Sunshine Law. Redacting non-confidential information from legal bills violates Section 610.023.2, RSMo, requiring county records to be made available for inspection and copying.

Recommendations

The County Commission:

3.1 Maintain a public request log to help ensure compliance with state law.

3.2 Update the written public access policy regarding procedures to obtain access to, or copies of, public records.

3.3 Ensure meeting minutes are prepared, approved timely, and maintained for all open and closed session meetings. Also ensure meeting minutes are signed by the preparer and the County Commission.

3.4 Ensure redactions to county documents are appropriate and in compliance with the Sunshine Law.

Auditee's Response

The County Commission provided the following responses:

3.1 &
3.2 The County Commission will comply with the state statute in regards to the Sunshine Law. The county has a Sunshine Law attorney who responds to requests. An amended Sunshine Law policy will be developed that complies with state statute. The County Clerk has stated that his office will retain a log of requests and documentation provided to the requestor.

3.3 The County Commission will ensure meeting minutes are prepared, approved timely, and maintained for all open and closed session meetings. We will have all minutes signed by the preparer and the County Commission.

3.4 The County Commission will ensure that redactions to county documents are appropriate and are in compliance with the Sunshine Law.

The County Clerk provided the following response:

3.1 Although a "log" was not maintained prior to the audit, each written request was "noted" with the date received, date fulfilled, fee charged, and a copy of what was provided was attached (unless it was too large). At the recommendation of the auditors, a "log" has now been created and is being used to record all pertinent Sunshine Law request information.

4. Salary Commission

The Camden County Salary Commission has not met since 2005, yet the salaries of some elected officials increased starting in 2006. The Salary Commission last met in November 2005 and established future salaries based on the county's assessed valuation.

Section 50.333.7, RSMo, states the Salary Commission shall meet at least once before November 30th of each odd-numbered year for the purpose of determining the amount of compensation to be paid for the next term of office for each county officer to be elected in the next general election. Section 50.333.9, RSMo, states the current compensation of each affected office or officer shall continue to be paid if the Salary Commission fails to meet or reach agreement. Salaries represent a significant disbursement for the county and, as a result, it is essential the Salary Commission meet regularly as required and document decisions.

Recommendation

The County Commission ensure the Salary Commission meets at least once prior to November 30th of each odd numbered year as required by state law.

Auditee's Response

The Salary Commission met on November 7, 2018, for a training session and on November 14, 2018, for a voting session. Minutes and agendas are available on request. The Salary Commission will continue to meet on a regular basis in compliance with state law.

5. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office processed inmate monies, paper service fees, concealed carry weapon (CCW) permit fees, bonds, and other miscellaneous receipts totaling approximately $778,200 during the year ended December 31, 2017.

5.1 Receipts and deposits

Procedures for receipting, recording, depositing, and reconciling payments need improvement.

- Sheriff's office staff issue generic unnumbered bond forms and do not issue receipt slips for bonds received. As a result, neither the Sheriff's Administrative Assistant nor the Sheriff can account for all bonds received and ensure bond monies are handled properly. The Sheriff's office collected approximately $702,400 in cash bonds during the year ended December 31, 2017.

- Sheriff's office staff do not issue receipt slips for garnishment fees and receipt slips are not always issued for civil fees. Our review of May 2017 records for civil fees identified checks and cash totaling $3,179 and $10, respectively, that were deposited but not receipted. The Sheriff's Administrative Assistant stated office personnel only issue receipt slips for check payments if the payor requests a receipt.

- The Sheriff's Administrative Assistant does not account for the numerical sequence of receipt slips or CCW permit numbers. As a result, there is no assurance all monies received are deposited and the composition of receipts is not reconciled to the composition of deposits.

- Monies received from the sale of deputies' firearms that are being replaced are not receipted or transmitted timely. For example, $1,500 (cash) received from the sale of firearms in December 2017, was originally transmitted to the County Treasurer on December 19, 2017; however the Sheriff's office requested the money back that same day and did not transmit it again until January 3, 2018.

Failure to implement adequate receipting, recording, transmitting, and reconciling procedures increases the risk that loss, theft, or misuse of monies received will occur and go undetected.

5.2 Liabilities

The Detention Administrative Assistant does not prepare a monthly list of liabilities for the inmate account and consequently, liabilities are not agreed to the reconciled bank balance. At our request, a list of liabilities was prepared for the inmate account. Identified liabilities totaled $22,894 at December 31, 2017. The reconciled bank balance was $23,589, resulting in an unidentified balance of $695.

Monthly lists of liabilities should be prepared and reconciled to the available cash balance to ensure sufficient cash is available for the payments of amounts due and all monies in the bank can be identified. Prompt follow up on discrepancies is necessary to resolve errors.

5.3 Outstanding checks

The Sheriff has not established procedures to routinely follow up on outstanding checks for the inmate account. As of December 31, 2017, 238 checks written to former inmates totaling $889 had been outstanding for more then a year, with 61 checks dating back to 2010.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of monies in the account and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law.

5.4 Inactive inmate account balances

The Sheriff's office does not have adequate procedures to ensure all inmate monies are refunded upon release. As of December 31, 2017, the Sheriff's office was holding $7,780 for 478 former inmates in the inmate account.

Follow up on inactive accounts is necessary to ensure monies are appropriately disbursed to former inmates or as otherwise provided by state law. In addition, establishing procedures to refund all inmate monies upon release will allow the Sheriff to more adequately safeguard any monies being held and reduce the risk of loss, theft, or misuse of funds.

5.5 E-cigarettes

The Sheriff's office does not maintain adequate records to account for e-cigarettes purchased and sold to inmates, and inventory remaining on hand, or conduct periodic physical inventory counts. E-cigarettes receipts indicate sales to inmates totaled approximately $17,500 or 1,750 e-cigarettes for the year ended December 31, 2017. As a result, records and procedures are not sufficient to account for e-cigarettes or monies collected, and loss, theft, or misuse may go undetected.

Adequate inventory records are necessary to account for e-cigarettes. Comparisons of e-cigarette purchases and sales to inventory records are necessary to ensure the e-cigarettes and associated monies are properly recorded and handled.

5.6 Sales tax

The Sheriff's office does not charge or collect sales taxes on e-cigarettes sold to inmates, and no sales taxes are remitted to the Department of Revenue

(DOR). 12 CSR 10-110.955(3)(B) provides that sales by the state of Missouri and its political subdivisions are subject to tax. Therefore, office personnel should be charging and collecting sales tax and remitting tax collections to the DOR.

Recommendations

The Sheriff:

5.1 Issue prenumbered receipt slips for all monies received, account for the numerical sequence of receipt slips, and reconcile the composition of receipts to the composition of deposits and transmittals. The Sheriff should also transmit monies timely and intact.

5.2 Prepare monthly lists of liabilities and reconcile the list to the reconciled bank balance monthly. Any differences should be promptly investigated and resolved. Any unidentified monies should be disposed of in accordance with state law.

5.3 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the monies should be disposed of in accordance with state law.

5.4 Refund all inmate monies to inmates upon release. In addition, the Sheriff should attempt to resolve unclaimed balances of inactive inmate accounts. If the payee cannot be located, the amount should be disbursed in accordance with state law.

5.5 Maintain accurate inventory records of e-cigarettes, reconcile these records to e-cigarettes purchased and sold, and perform periodic physical inventory counts.

5.6 Contact the DOR for guidance on establishing procedures for charging and collecting sales taxes on e-cigarette sales and ensure all future sales tax collections are remitted to the DOR.

Auditee's Response

5.1 The Corrections Supervisor is having staff complete sequentially numbered cash receipt slips for bond receipts. One copy will accompany the bond sheet, one copy is for the inmate, and one copy stays in book. This is a temporary process until we figure out and obtain sequentially numbered bond forms.

We began issuing receipt slips for all civil fee and garnishment fee transactions at the auditor's request in early 2018. The Administrative Assistant will be reviewing and initialing all receipts to match up civil paperwork.

We began issuing sequentially numbered receipt slips for CCW permits at the auditor's request in early 2018.

We will account for the numerical sequence of receipt slips, compare the composition of receipt slips to the composition of deposits and transmittals, and transmit monies timely and intact.

5.2 I have had an electronic report of liabilities made that will be run and used when doing the bank reconciliations every month. We will also investigate and resolve any differences monthly. Any unidentified monies will be disposed of per state law.

5.3 I have established procedures to periodically follow up on outstanding checks. We are reissuing checks to payees that can be located. For payees that cannot be located, the monies are turned over to the state's unclaimed property fund. Over $600 in outstanding check money was sent off last year to the Missouri State Treasurer's office. We are currently waiting on certified letters to come back and will be sending off the rest of the unclaimed money that is still in former inmate accounts. Once the letters are returned, that money will go to the Missouri State Treasurer's office.

5.4 We are currently refunding monies to inmates upon their release. As discussed in our response to 5.3, we are working to resolve unclaimed balances in former inmate accounts and sending all unclaimed funds to the state.

5.5 We are making a report that will tell how many e-cigarettes are sold each month. Corrections officers are now keeping track of how many e-cigarettes are ordered and on hand versus how many are sold to verify inventory, including damaged inventory.

5.6 We are currently working with the County Clerk's office to (1) set up an account with the DOR to pay the sales tax on e-cigarette sales, (2) determine what account that these fees will go through in the County Clerk's office, and (3) send in quarterly payments.

6. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected bad check restitution and fees, court-ordered restitution and fees, and delinquent tax fees totaling approximately $209,200 during the year ended December 31, 2017.

6.1 Bank reconciliations and liabilities

The Prosecuting Attorney's clerk did not prepare adequate bank reconciliations. In addition, a monthly list of liabilities is not prepared to reconcile to the account balance. The clerk's reconciliation process includes

documenting the transactions that have cleared the bank; however, a report of outstanding checks, deposits in transit, and other reconciling items is not prepared or reviewed. As of December 31, 2017, the bank balance was $26,489, which is less than the total outstanding checks of $26,946 documented in the Prosecuting Attorney's records. Thus, the account is showing a shortage of $457.

Performing adequate monthly bank reconciliations helps ensure accurate records are kept and increases the likelihood errors will be identified. Regular identification and comparison of liabilities to the available cash balance is necessary to ensure records are in balance and monies are available to satisfy all liabilities.

6.2 Deposits

Receipts are not always deposited timely and prior to disbursement. Monies received from November 9 to November 14, 2017, totaling $6,771, were not deposited until November 22, 2017, and monies received from December 6 to December 8, 2017, totaling $516, were not deposited until December 18, 2017. In addition, monies are sometimes disbursed prior to deposit of the corresponding receipts. For example, the Prosecuting Attorney issued checks totaling $6,461 to victims on November 16, 2017, and $516 on December 8, 2017. The deposits of the corresponding receipts were not made until November 22, 2017, and December 18, 2017. Old outstanding checks (see section 6.3) prevented the bank account from being overdrawn.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, deposits should be made timely and monies should not be disbursed prior to deposit of corresponding receipts.

6.3 Outstanding checks

The Prosecuting Attorney has not established procedures to routinely follow up on outstanding checks for the restitution account. As of December 31, 2017, 168 checks totaling $16,583 had been outstanding for over a year, with some checks dating back to 2003.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of monies in the account and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law.

Recommendations

The Prosecuting Attorney:

6.1 Ensure adequate monthly bank reconciliations are prepared that include lists of outstanding checks, deposits in transit, and other reconciling items. In addition, prepare a list of liabilities and reconcile it to the available cash balance. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

6.2 Ensure all monies are deposited timely and prior to related disbursements.

6.3 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the monies should be disposed of in accordance with state law.

Auditee's Response

6.1 Additional procedures have been implemented in reconciling the bank statements. The account shortage has been corrected and brought current. Old checks that were not cashed were either submitted to the state treasury as unclaimed property or the payee was contacted and a new check issued. The monthly reconciliation is performed on the bank form as suggested. The Quicken accounting program has been added to account for all deposits and checks issued. This is an extra step to assure accuracy. A second reconciliation is performed using the Quicken program.

6.2 Deposits are taken to the bank a minimum of twice a week. Checks are not mailed out until deposit has been made.

6.3 Payees are contacted for current checks that are not being cashed in a timely manner. A new check is issued if it has been lost or if check is older than 2 months. A stop payment is placed on the old check with the bank. If a check is returned because of a bad address, it is researched to locate the possible most current address.

7. Wastewater Department's Controls and Procedures

Controls and procedures in the Wastewater Department need improvement. The department collects monies for wastewater permit fees, installer/contractor registration fees, and sales of tracing dye, and transmitted $44,785 to the County Treasurer during the year ended December 31, 2017.

7.1 Segregation of duties

The County Commission and Wastewater Supervisor have not adequately segregated accounting duties and do not perform documented supervisory reviews of detailed accounting and transmittal records. The Clerical Staff/Field Inspector/Nuisance Officer, the department's only clerical employee, receives, records, and transmits monies to the County Treasurer.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and transmitting monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting

records are essential and should include comparing daily receipt activity to transmittals.

7.2 Receipting, recording, and transmitting

Procedures for receipting, recording, and transmitting monies are not adequate.

- The wastewater department does not issue receipt slips for all monies received, account for the numerical sequence of receipt slips, or restrictively endorse checks and money orders upon receipt. During a January 25, 2018, cash count we identified 10 checks, totaling $1,350, for permit application fees that were not receipted or restrictively endorsed. Department clerical staff indicated they only issue receipt slips for cash payments and upon customer request. The restrictive endorsement is applied by the County Treasurer following transmittal.

- Monies are not transmitted timely and intact. Department personnel indicated they hold receipts and do not transmit them to the County Treasurer for deposit until the related permit applications are approved. Our review of receipt and transmittal records for permit applications approved and permits issued in February 2017 identified a $150 check received for permit application number 6145 on December 19, 2016, had not been transmitted to the County Treasurer for deposit until after our inquiry in March 2018. This check was located in a folder along with the application. We also noted $150 in cash received on February 21, 2017, for permit number 6147 approved February 23, 2017, was not transmitted to the County Treasurer until March 9, 2017, while a $150 check received on February 24, 2017, for permit number 6149 approved February 28, 2017, was included in the March 3, 2017, transmittal.

Failure to implement adequate receipting, recording, and transmitting procedures increases the risk that loss, theft, or misuse of monies received will go occur and go undetected.

Recommendations

The County Commission work with the Wastewater Supervisor to:

7.1 Segregate accounting duties or ensure documented supervisory reviews of detailed accounting and transmittal records are performed.

7.2 Ensure prenumbered receipt slips are issued for all monies received, restrictively endorse checks and money orders upon receipt, and ensure receipts are transmitted intact and timely. In addition, the numerical sequence of receipt slips should be accounted for and the composition of receipts should be reconciled to the composition of transmittals.

Auditee's Response

7.1 Duties have now been segregated so that all transactions are performed by one individual and a documented review is done by a second individual.

7.2 All monies are now receipted into a 3-part prenumbered receipt book. A copy is issued to the customer, one kept in the application file, and one is kept with the transmittal. We now have a "For Deposit Only" stamp and all checks and money orders are stamped when received. All money is forwarded to the County Treasurer's office on a weekly basis, Fridays. Refunds must be requested through the purchase order process. It is then taken from the revenue line it was originally deposited into. We will also account for the numerical sequence of receipt slips issued and reconcile the composition of receipt to the composition of transmittals.

8. Planning and Zoning Department's Controls and Procedures

The Planning and Zoning department has not established proper controls or procedures for receipting and transmitting monies. The department collected permit, subdivision, and application fees, and other miscellaneous receipts totaling approximately $74,500 during the year ended December 31, 2017.

Our review of monies received during December 2017 identified various concerns.

- Monies are not transmitted to the County Treasurer intact or timely, and the department does not account for the numerical sequence of manual receipt slips. For example, $1,000 received on December 11 and 12, 2017, was held and not transmitted until January 1, 2018. This money was not transmitted although other money receipted from December 6 to December 13, 2017, totaling $2,025, was transmitted on December 18, 2017.

- Checks and money orders are not restrictively endorsed when received. The restrictive endorsement is applied by the County Treasurer following transmittal.

Failure to implement adequate receipting, recording, and transmitting procedures increases the risk of loss, theft, or misuse of monies received will occur and go undetected.

Recommendation

The County Commission work with the Planning and Zoning department to ensure receipts are transmitted intact and timely, and checks and money orders are restrictively endorsed upon receipt. In addition, the department should account for the numerical sequence of receipt slips issued.

Auditee's Response

All money is now forwarded to the County Treasurer's office on a weekly basis, Fridays. We now have a "For Deposit Only" stamp and all checks and

money orders are stamped when received. We will also account for the numerical sequence of receipt slips issued.

9. Public Administrator's Controls and Procedures

Controls and procedures in the Public Administrator's office need improvement. The Public Administrator is the court appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division, and was responsible for the financial activity of 68 wards and estates during the year ending December 31, 2017.

9.1 Annual settlements

The Public Administrator does not always file annual settlements timely. We reviewed 8 active cases and determined 3 cases did not have annual settlements filed timely. These settlements were filed from 26 to 82 days after the due date. The Public Administrator records the due dates for the annual settlements in her case management software. In addition, the Circuit Court, Probate Division Clerk sends a notice to the Public Administrator when the annual settlement is due. Despite these procedures, annual settlements have been filed late.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate. Timely settlements are necessary for the court to properly oversee the administration of cases and reduce the possibility that loss, theft, or misuse of funds will occur and go undetected.

9.2 Bank reconciliations

Public Administrator staff do not prepare bank reconciliations timely. They typically perform reconciliations as time allows. We reviewed 8 active cases, and noted 2 to 4 months of bank reconciliations were performed at one time for each ward. For example, one ward's bank reconciliations for the months of January through April 2017 were not completed until June 13, 2017. Performing bank reconciliations on a monthly basis helps ensure records are accurate and increases the likelihood errors will be identified and corrected timely.

Recommendations

The Public Administrator:

9.1 Ensure annual settlements are filed timely.

9.2 Perform bank reconciliations monthly. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

Auditee's Response

9.1 My office will work with the Probate Clerk and Judge to file our settlements in a more timely manner.

9.2 My office has changed our procedure of processing and reconciling our monthly bank statements to ensure they are done in a timely order.

10. County Clerk's Controls and Procedures

Controls and procedures in the County Clerk's office need improvement. The County Clerk's office collected approximately $96,300 for liquor licenses, notary fees, and other miscellaneous fees during the year ended December 31, 2017.

10.1 Segregation of duties

The County Clerk has not adequately segregated accounting duties and does not perform a documented supervisory review of detailed accounting records and transmittals. The Chief Deputy receives, records, and transmits monies for sunshine law and voter list requests, and two other deputies receive, record, and transmit monies for liquor and auctioneer licenses and notary and map fees. The County Clerk reviews and signs the main transmittal report for notaries, auctioneer, and map fees; however, he does not review detailed accounting records to ensure monies received for sunshine law and voter list requests and liquor licenses are properly recorded and transmitted to the County Treasurer.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and transmitting monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting records are essential and should include comparing daily receipt activity to transmittals.

10.2 Receipting and transmitting

The County Clerk has not established proper procedures for receipting and transmitting monies.

- Receipt slips are not issued for all monies collected and a comprehensive log of receipts is not maintained. The County Clerk issues receipt slips for notary and map fees, and records receipts for sunshine law and voter list requests and auctioneer and liquor licenses on printed forms that are not numbered.

- The method of payment (cash or check) is not always indicated or accurately recorded on receipt records. During our January 25, 2018, cash count we noted 2 receipt slips totaling $6 did not indicate the method of payment and 2 checks totaling $53 were improperly recorded as cash.

- The County Clerk does not transmit all fees timely and intact to the County Treasurer. Liquor license receipts collected from September 20 to October 18, 2017, totaling $270 ($260 cash and $10 check), were still

on hand at the time of our cash count on January 25, 2018. These fees were transmitted to the County Treasurer on January 30, 2018.

Failure to implement adequate receipting and transmitting procedures increases the risk that loss, theft, or misuse of monies received will occur and go undetected. In addition, Section 51.280, RSMo, requires the clerk to prepare and issue all county licenses established by law, and collect the county fees therefor and remit the same to the county treasury.

Recommendations

The County Clerk:

10.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and transmittal records are performed and documented.

10.2 Issue prenumbered receipt slips for all monies received, indicate the method of payment on all receipt slips, and transmit receipts intact and timely. In addition, the numerical sequence of receipt slips should be accounted for and the composition of receipts should be reconciled to the composition of amounts transmitted.

Auditee's Response

10.1 Concerning liquor license receiving, a detailed spreadsheet has always been maintained. However, at the recommendation of the auditors, the receipt number has been added to the spreadsheet; and the County Clerk compares receipts to transmittals before approving for release to the County Treasurer.

10.2 At the recommendation of the auditors, new numbered receipt books (3 copy) are now being used to record all payments made and the method of payment, business name, and liquor license number is noted on each receipt slip. The clerk taking the payment signs the receipt slip and the County Clerk signs the license. The customer is given the white copy with their license. All payment information is added to the spreadsheet daily. At the end of each week, all checks and cash totals are matched to the spreadsheet and the yellow copy of the receipt slips are attached. The County Clerk signs and dates his verification of the spreadsheet which goes to the County Auditor and a copy goes to the County Treasurer with the money. A copy of the spreadsheet is kept with the pink copies of the receipts. New policies have been put into place to assure timely transmittal of funds.

11. Recorder of Deeds' Controls and Procedures

Controls and procedures in the Recorder of Deeds' office need improvement. The office collected approximately $763,000 for recording documents, such as marriage licenses and deeds, and other miscellaneous receipts during the year ended December 31, 2017.

11.1 Segregation of duties

The Recorder of Deeds has not adequately segregated accounting duties and does not perform a documented supervisory review of detailed accounting and bank records. The Chief Deputy is primarily responsible for receiving, recording, and depositing monies. The Recorder of Deeds does not review accounting records to ensure monies received are properly recorded and deposited.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting records are essential and should include comparing daily receipt activity to deposits.

11.2 Bank reconciliations

The Recorder of Deeds did not prepare adequate bank reconciliations for January through November 2017. The reconciliation process included documenting the deposit and disbursement transactions for the month and ensuring the total deposits equaled the total disbursements. However, lists of outstanding checks, deposits in transit, or other reconciling items were not prepared or reviewed.

Performing adequate monthly bank reconciliations helps ensure records are accurate and increases the likelihood errors will be identified.

11.3 Deposits

The Recorder of Deeds does not make deposits timely. For example, monies totaling $19,177 receipted from December 1 through 13, 2017, were deposited on December 14, 2017. In addition, monies totaling $10,408 receipted from December 14 to December 20, 2017, were deposited on December 21, 2017.

Failure to implement adequate depositing procedures increases the risk that loss, theft, or misuse of monies could occur and go undetected.

Recommendations

The Recorder of Deeds:

11.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and bank records are performed and documented.

11.2 Ensure adequate monthly bank reconciliations are prepared that include lists of outstanding checks, deposits in transit, and other reconciling items. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

11.3 Ensure monies received are deposited timely.

Auditee's Response

11.1 Effective June 18, 2019, I implemented written policies and procedures to segregate receipting and depositing duties. Also, there will be at least one additional employee performing documented reviews of detailed accounting and bank records.

11.2 During 2018, my office began using an accounting software program to prepare and generate monthly bank reconciliations which include lists of outstanding checks, deposits in transit, and other reconciling items. Any differences identified are promptly investigated and resolved. Effective June 18, 2019, I implemented written policies and procedures to ensure monthly bank reconciliations are reviewed by at least one additional employee and delivered to the County Auditor for review.

11.3 Effective June 18, 2019, I implemented written policies and procedures to ensure each day's receipts are deposited the next business day.

12. GIS Department's Controls and Procedures

Controls and procedures in the Geographic Information System (GIS) department need improvement. The department collected approximately $2,900 for printed and digital map fees during the year ended December 31, 2017.

12.1 Segregation of duties

The County Commission has not adequately segregated accounting duties and does not perform a supervisory review of detailed accounting records. The GIS Coordinator receives, records, and transmits monies to the County Treasurer. The County Commission does not review accounting records to ensure monies received have been properly recorded and transmitted.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and transmitting monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting records are essential and should include comparing daily receipt activity to transmittals.

12.2 Receipting and recording

The GIS department has not established proper controls or procedures for receipting and recording monies.

- Prenumbered receipt slips are not issued for monies collected and the method of payment (cash or check) is not recorded. The GIS Coordinator creates invoices on her computer, manually assigns a number to each invoice, and uses these as receipt slips. During our review of invoices

created for year ended December 31, 2017, we noted the GIS Coordinator created 32 invoices of which 1 invoice number was used twice. In addition, we noted only 5 of 28 paid invoices identified the composition of the monies received.

- Checks and money orders are not restrictively endorsed when received. The restrictive endorsement is applied by the County Treasurer after transmittal.

Failure to implement adequate receipting and recording procedures increase the risk that loss, theft, or misuse of monies received will occur and go undetected.

Recommendations

The County Commission work with the GIS department to:

12.1 Segregate accounting duties or ensure documented supervisory reviews of detailed accounting and transmittal records are performed.

12.2 Issue prenumbered receipt slips for all monies received, indicate the method of payment on all receipt slips, and restrictively endorse checks and money orders upon receipt. In addition, the numerical sequence of receipt slips should be accounted for and the composition of receipts should be reconciled to the composition of amounts transmitted.

Auditee's Response

The County Assessor provided the following responses:

12.1 &
12.2 On October 1, 2018, the GIS department began operations under the direction of the County Assessor's office. Upon meeting with the State Auditor's Office personnel on June 19, 2019, and discussing the recommendations, the following procedures will be implemented:

We have ordered new order/receipt forms containing sequential numbers, the fund account number for the GIS department, and space to record the date payment was received. The new forms will also contain information regarding the method of payment, whether it is in the form of check, money order, or cashier's check, as no cash will be received through this office. The GIS Coordinator will indicate when paid, the method of payment, initial the form, and endorse said check or money order immediately. A copy of the order/receipt form will be given to the customer at that time along with the product. The endorsed check will be taken to the County Treasurer's Office along with said order/receipt form on a daily basis, or when it is feasible. The County Treasurer's office will sign that payment was received

and keep the original order/receipt form; another copy will be kept by the GIS department containing signature of the County Treasurer.

The GIS Coordinator will further keep a detailed ledger of all transactions for any invoiced data, containing, but not limited to, the invoice/receipt number, date, method of payment, and the fund account number for the GIS department. On a monthly basis, the ledger will be reviewed by the County Assessor, then dated and signed once verified with the County Auditor's office. This monthly review will include accounting for the numerical sequence of the order/receipt forms and reconciling them to the transmittal records.

13. Senior Board's Depositing Procedures

The Senior Citizens' Services Tax Fund Board does not always deposit receipts timely. The Board received property taxes totaling approximately $888,080 during the year ended December 31, 2017.

During November 2017, the County Treasurer disbursed property taxes collected in October totaling $4,292 to the Board; however these monies were never deposited into the Board's bank account. At our request, the County Treasurer investigated this check and determined it remained outstanding as of March 21, 2018. The County Treasurer stopped payment on this check and reissued it. The Board's Treasurer indicated he had misplaced the check.

To safeguard receipts and reduce the risk of loss, theft, or misuse of monies received, procedures should be established to ensure all monies received are deposited timely.

Recommendation

The Senior Citizens' Services Tax Fund Board establish procedures to ensure all monies received are deposited timely.

Auditee's Response

The County Treasurer will email each Senior Citizens' Services Tax Fund Board member when a check is issued by the Treasurer for the Board. The checks will then be reconciled against the bank statement during each Board meeting. Furthermore, once the county is able to make direct deposits to the Board's bank account, the County Treasurer will continue to send an email to each Board member in the event of an electronic glitch when making a direct deposit to the Board's bank account to make certain no funds go astray.

Camden County
Organization and Statistical Information

Camden County is a county-organized, first-class county. The county seat is Camdenton.

Camden County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 291 full-time employees and 5 part-time employees on December 31, 2017.

In addition, county operations include the Senior Citizens' Services Tax Fund Board and the Senate Bill 40 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2018	2017
Greg Hasty, Presiding Commissioner	$	61,000
Beverly Thomas, Associate Commissioner		59,000
Don Williams, Associate Commissioner		59,000
Jimmy Laughlin, County Auditor (1)		32,813
Ronald Capps, County Auditor (1)		28,125
Donnie Snelling, Recorder of Deeds		61,000
Rowland A. Todd, County Clerk		61,000
Michael J. Gilley, Prosecuting Attorney		138,459
Tony Helms, Sheriff		64,000
Elaine Gilley, County Treasurer		61,000
Nancy A. Douglas, Public Administrator		61,000
Teresa Murray, County Collector (2), year ended February 28,	44,531	
Vicky Burns, County Collector (2), year ended February 28,	16,406	
Kayla Henry, County Assessor, year ended August 31,		61,002

(1) Ronald Capps resigned as County Auditor effective May 5, 2017. Jimmy Laughlin was appointed by the Governor and sworn into office on June 12, 2017.

(2) Vicky Burns resigned as County Collector effective May 31, 2017. Teresa Murray was appointed by the Governor and sworn into office on June 12, 2017.

Missouri State Auditor

Department of Revenue

Sales and Use Tax

Report No. 2019-067

August 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Department of Revenue Sales and Use Tax

Sales and use tax exemptions	The Department of Revenue (DOR) does not adequately capture and track information regarding some sales and use tax exemptions. According to DOR records, as of June 30, 2018, state law provided for 214 sales and use tax exemptions. The DOR only tracks the 3 percent state general revenue sales tax reduction on food sales, the textbook sales tax exemption, and the manufacturing sales tax exemption.
Timely sales and use tax discounts	State laws allowing retailers to retain a portion of sales and use taxes collected if they remit the taxes to the DOR timely result in the state and local governments forgoing significant revenues. Missouri's timely sales and use tax discount is the second most generous discount in the nation and significantly benefits the state's largest retailers. Changing state law to include a monthly cap on the amount of timely discount eligible to be retained would significantly increase state and local revenues. The DOR is not required to report, and does not routinely report the amount of timely discounts retained by businesses to the General Assembly, local governments impacted, or the general public.
Internet Sales	The General Assembly has not passed legislation to allow Missouri to charge tax on online purchases made from out-of-state sellers or to participate in the Streamlined Sales and Use Tax Agreement (SSUTA), costing the state millions in potential sales tax revenue. With the increasing popularity and usage of online shopping, e-commerce sales have grown significantly in recent years. The SSUTA, adopted in November 2002, is a cooperative effort among states, local governments, and businesses to simplify and make more uniform the sales and use tax collection and administration for retailers and states. Bills introduced in Missouri during the 2019 legislative session to expand the collection of taxes on internet sales failed to become law.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Kenneth J. Zellers, Acting Director
Department of Revenue
Jefferson City, Missouri

We have audited certain operations of the Department of Revenue, sales and use tax collections, as required by Section 32.087, RSMo, and in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2018. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.

2. Evaluate the department's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; analysis of comparative data obtained from internal sources; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Except as discussed in the following paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Government Auditing Standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Due to the nature of this report, and due to the findings being legislative in nature, we were unable to obtain views of responsible officials for the findings, conclusions, and recommendations outlined in the Management Advisory Report. The views of responsible Department of Revenue officials were obtained and included where appropriate.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our finding arising from our audit of the Department of Revenue, sales and use tax collections.

Department of Revenue
Sales and Use Tax
Introduction

Background

The state's sales tax is imposed on the purchase price of tangible personal property or taxable service sold at retail. Use tax is imposed on the storage, use, or consumption of tangible personal property in this state. Cities and counties may impose a local sales and use tax. Special taxing districts (such as fire districts) may also impose additional sales taxes. State and local sales and use taxes are collected by the Department of Revenue (DOR). The DOR then distributes the local sales and use taxes to the cities, counties, and districts.

Sales and use tax receipts collected from businesses and motor vehicle sales tax receipts collected from businesses and individuals are deposited into various state and local funds. Marine and ATV sales and use tax collections are deposited into the same funds as state sales and use tax. Motor vehicle leasing sales tax collections are deposited into the same funds as motor vehicle sales tax.

For operating purposes, the DOR has been charged with the responsibility of administering transactions in the following funds and accounts.

State Funds

The State Treasurer, as fund custodian, and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly for all state funds.

General Revenue Fund: This fund, authorized by Section 144.700, RSMo, receives collections from a general 3 percent state sales and use tax. State sales tax is collected pursuant to Section 144.020, RSMo, and state use tax is collected pursuant to Section 144.610, RSMo. Retail sales of food are not subject to the 3 percent tax as provided by Section 144.014, RSMo. This fund also receives payments from common carriers in interstate air transportation, as authorized by Section 144.807, RSMo. In addition, the General Revenue Fund pays all motor vehicle sales tax refunds and receives motor vehicle sales tax collections as reimbursement from other state funds for their applicable share of the refunds.

Aviation Trust Fund: This fund, authorized by Section 144.805, RSMo, receives collection from a sales and use tax on aviation jet fuel from common carriers. These taxes are paid as a result of exemptions to General Revenue sales tax. The exemptions are a result of direct-pay agreements between common carriers and the DOR.

Conservation Commission Fund: This fund, authorized by Section 254.020, RSMo, receives collections of the 0.125 percent state sales and use tax, motor vehicle sales tax, and highway use tax provided for in Article IV, Section 43(a), Missouri Constitution.

State Highways and Transportation Department Fund: This fund received 75 percent of the collections from the 4 percent highway use tax during fiscal years 2013 and 2012. Effective July 5, 2013, the highway use tax was repealed and all motor vehicle transactions are now assessed a sales tax as authorized by Section 144.020, RSMo, which goes into the State Road Fund and the State Road Bond Fund. This fund continues to receive some residual highway use tax collections.

Parks Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax, motor vehicle sales tax, and highway use tax.

School District Trust Fund: This fund, authorized by Section 144.701, RSMo, receives collections from a 1 percent state sales and use tax pursuant to Section 144.701, RSMo. Retail sales of food are subject to a 1 percent tax to be deposited into this fund as provided by Section 144.014, RSMo. In addition, this fund receives 12.5 percent of collections from the 4 percent motor vehicle sales tax pursuant to Article IV, Section 30(b)2, Missouri Constitution.

Soil and Water Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax, motor vehicle sales tax, and highway use tax.

State Road Bond Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution (Amendment 3), receives 37.5 percent of the collections from the 4 percent motor vehicle sales tax.

State Road Fund and State Transportation Fund: These funds, authorized by Article IV, Section 30(b), Missouri Constitution, receive 37.5 percent of the collections from the 4 percent motor vehicle sales tax, which is deposited 36.5 percent to the State Road Fund and 1 percent to the State Transportation Fund.

Local Funds

Actual tax proceeds for local funds are deposited into interest-bearing bank accounts until distributed. Subsequently 99 percent of the collections and earned interest are distributed to the various political subdivisions with the remaining 1 percent going to the General Revenue Fund for a collection fee, except for the Local Fuel Tax and Bond Trust Fund, which has no collection fee withheld from distributions to the fund. The DOR has sole responsibility for maintaining and disbursing fund resources for all local funds.

Local Fuel Tax and Bond Trust Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution, receives 12.5 percent of the collections from the 4 percent motor vehicle sales tax. In addition, this fund receives collections from the motor fuel tax authorized by Section 142.803, RSMo.

Local Sales and Use Tax Trust Fund: This fund receives collections generated from local sales taxes imposed by local political subdivisions, as authorized by Chapters 66, 67, 70, 92, 94, 162, 190, 238, 321, and 644, RSMo. In addition, this fund receives collections generated by a use tax, authorized by Section 144.757, RSMo, based on the local sales tax in effect, upon all transactions subject to taxes imposed under Sections 144.600 to 144.745, RSMo, except as otherwise provided. Net taxes and interest are subsequently distributed to the counties and cities.

Custodial Accounts

The DOR has been charged with the responsibility of administering transactions in the custodial accounts. Except for the Protested Sales Tax General Revenue Account and Sales Tax Bond Account held by the State Treasurer, actual custody of the resources in the accounts rests with the DOR. Collections for the custodial accounts held by the DOR are deposited in interest-bearing bank accounts.

Compliance Clearing Account: This account receives tax payments from taxpayer audits. The DOR holds these payments in this account pending final audit review. Depending on the results of the audit review, the DOR transfers the tax payment to the appropriate state and local funds or issues a refund to the taxpayer.

Motor Vehicle Clearing Account: This account receives collections from motor vehicle agent offices and the central office for various taxes and fees. These receipts are subsequently transferred to various state and local funds.

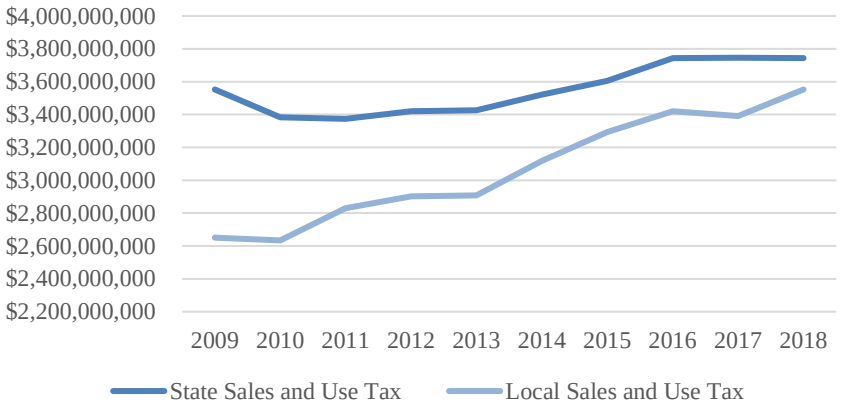
Protested Sales Tax General Revenue Account: This account receives the 4.225 percent state portion of sales taxes paid under protest. These payments are deposited in the General Revenue Fund and reported by the DOR in this account.

Sales Tax Bond Account: The DOR receives cash bonds posted by taxpayers as authorized by Section 144.087, RSMo. All bond collections are deposited in the General Revenue Fund and reported by the DOR in this account. Cash bonds and related interest are to be refunded to the taxpayer after 1 year if the taxpayer is determined to have satisfactory tax compliance and if the bond was posted before January 1, 1984. If the bond was posted on or after January 1, 1984, the Attorney General has determined that no interest should be refunded. In the event of uncollectible sales tax liabilities, the bonds and related interest, if any, are forfeited to the DOR. The department subsequently distributes the monies to the state and the appropriate political subdivisions.

Historical sales and use tax trends and information

As shown in Figure 1, when adjusted for inflation, state and local sales and use tax collections have increased for most years between fiscal year 2009 and fiscal year 2018. Adjusted state sales and use tax collections increased from $3.55 billion to $3.74 billion (5 percent), while adjusted local sales and use tax collections increased from $2.65 billion to $3.55 billion (34 percent) during this time period.

Figure 1: State and local sales and use tax collections, 2009-2018, by fiscal year, adjusted for inflation

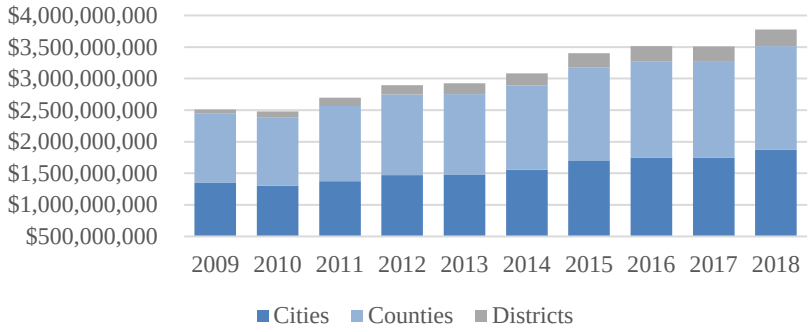


Source: DOR records, SAO analysis of Consumer Price Index data from <https://fred.stlouisfed.org/series/CPIAUCSL>, and Appendix G.

The state sales and use tax rate has remained at 4.225 percent during these 10 years. In comparison, local sales and use tax rates imposed by local political subdivisions are continuously changing as local taxing jurisdictions impose new tax rates and others expire. In addition, the increasing number of districts has contributed to the total increase in local sales tax collections. The total number of districts increased from approximately 170 in fiscal year 2009 to approximately 620 in fiscal year 2018 (265 percent).

Local sales and use tax collections are distributed by the DOR to cities, counties, and districts. As shown above in Figure 1, and as further illustrated in Figure 2, local sales and use tax collections and subsequent distributions have increased for most years between fiscal year 2009 and fiscal year 2018.[1]

Figure 2: Local sales and use tax distributions by political subdivision type, 2009-2018, by fiscal year



Source: Appendix H

[1] For more detail on local sales and use tax distribution amounts, see Appendix H.

1. Ongoing Sales and Use Tax Issues

Several previous audit reports[2] have included concerns and recommendations relating to sales and use tax exemptions, timely sales and use tax discounts, and internet sales. These sales and use tax issues continue to be ongoing concerns.

1.1 Sales and use tax exemptions

The Department of Revenue (DOR) does not adequately capture and track information regarding some sales and use tax exemptions. As a result, the fiscal impact of each exemption and the cumulative fiscal impact of all exemptions on state and local revenues cannot be determined.

According to DOR records, as of June 30, 2018, state law provided for 214 sales and use tax exemptions. The DOR only tracks the 3 percent state general revenue sales tax reduction on food sales, the textbook sales tax exemption, and the manufacturing sales tax exemption.

Vendors remit monthly, quarterly, or annual sales and use tax returns to the DOR. The returns include gross sales receipts, adjustments to gross sales receipts, and taxable sales. The adjustment amounts include, but are not limited to, exempt sales for the period of the sales tax return (filing period), and corrections of errors from previous filing periods.

The DOR has responded in previous audits[2] that reporting exemptions would substantially increase the burden on businesses and based on prior attempts to track limited exemptions, the data collected is likely to be highly inaccurate due to reporting errors by businesses. However, by not requiring businesses to track these adjustments, the DOR is unable to determine the cost of the various sales tax exemptions. Without this information the legislature cannot make informed decisions regarding the effectiveness and cost of the various exemptions.

1.2 Timely sales and use tax discounts

State laws allowing retailers to retain a portion of sales and use taxes collected if they remit the taxes to the DOR timely result in the state and local governments forgoing significant revenues. Missouri's timely sales and use tax discount is among the most generous such discounts in the nation, and significantly benefits the state's largest retailers. In addition, the DOR does not routinely report to the General Assembly (GA) the amount of timely sales and use tax discounts retained by businesses.

Generous discounts

Missouri's timely sales and use tax discount is the second most generous discount in the nation.[3] Sections 144.140 and 144.710, RSMo, allow

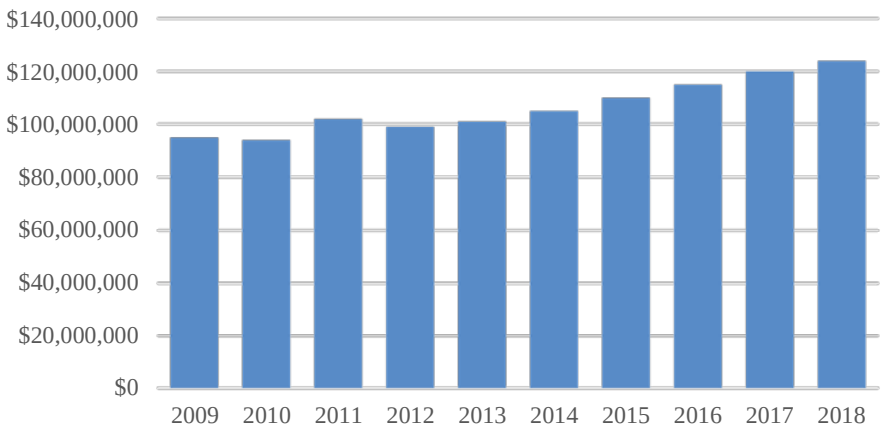
[2] Report No. 2017-113, *Cost of Tax Incentives and Exemptions*, issued in October 2017; Report No. 2015-080, *Sales and Use Tax*, issued in September 2015; and Report No. 2013-015, *Sales and Use Tax*, issued in February 2013.

[3] Colorado's uncapped discount of 3.33 percent is the most generous.

businesses remitting sales and use taxes to retain 2 percent of taxes payable to the DOR if the business remits payments in a timely manner.[4] The amount of the discount is not capped.

As shown in Figure 3, the amount of sales and use tax revenues foregone as a result of the timely discount retained has increased relatively steadily from fiscal year 2009 to fiscal year 2018. State and local sales tax revenues of approximately $120 million and $124 million were collected from purchasers, but retained as discounts by businesses remitting sales and use taxes in fiscal years 2017 and 2018, respectively.

Figure 3: Timely discount totals, 2009-2018, by fiscal year



Source: DOR records

In fiscal year 2018, sales and use taxes comprised approximately 20 percent of the state's general revenue. With sales and use tax revenues being used to fund significant portions of state and local government budgets, such large discounts are significant.

According to the Federation of Tax Administrators,[5] 27 other states offer similar vendor discounts; however, 16 of the state's offering discounts have established ceilings to limit the amount of discount and/or compensation retained by businesses. In addition, 10 of the remaining 11 states either have a lower discount rate than Missouri or only apply the highest discount rate to

[4] Per Section 144.080, RSMo, if filing annually applicable taxes are due by January 31 of the following year, if filing quarterly applicable taxes are due the last day of the month following the completed quarter, and if filing monthly applicable taxes are due the 20th of the following month. Per Section 144.081, RSMo, if filing quarter-monthly applicable taxes are due within 3 business days following the completed quarter-monthly period.

[5] "State Sales Tax Rates and Vendor Discounts (January 1, 2019)," <https://www.taxadmin.org/assets/docs/Research/Rates/vendors.pdf>, accessed on July 10, 2019.

a limited dollar amount of sales tax collected (e.g., the first $3,000, then a lower rate applies).

Cap on discount would result in increased revenue

Changing state law to include a monthly cap on the amount of timely discount eligible to be retained would significantly increase state and local revenues. For example, as reported in our audit of state tax incentives and exemptions,[6] applying Oklahoma's cap of $2,500 per month (the largest cap of contiguous states) to Missouri would have resulted in approximately $52 million in additional state and local sales tax revenue in fiscal year 2016.

Cap on discount would only impact the state's largest retailers

As further discussed in the audit of state tax incentives and exemptions, a monthly timely discount cap similar to Oklahoma's would not affect the majority of sales tax filers. Based on the state's average sales tax rate of 7.86 percent,[7] only businesses with monthly taxable sales of approximately $1.6 million would have their timely discount capped. Retailers with less than $1.6 million in monthly taxable sales would continue to receive the full 2 percent timely discount. In fiscal year 2016, the 50 largest sales tax collecting businesses retained approximately 72 percent of timely discounts exceeding $2,500, with the single largest sales tax collecting business receiving $10 million in discounts.

The timely sales tax discount was established for businesses to recover a portion of their costs for compliance with state sales tax laws and to encourage timely remittance of sales and use taxes. With increased use of electronic systems to calculate and remit sales tax collections, it is not clear if the continued use of such a discount is necessary to achieve these objectives.[8] The current law allowing uncapped timely discounts results in the state and local governments providing a sizable subsidy to the largest retailers in the state, and is more generous than all but one other state. Implementing a cap on timely discounts would result in additional revenues to the state and local governments without increasing taxes on consumers.

Amounts of timely discounts are not routinely reported

The DOR is not required to report, and does not routinely report the amount of timely discounts retained by businesses to the GA, local governments impacted, or the general public. DOR officials have stated this data is provided upon request. However, this information could be useful to the GA when making various budget decisions and ensuring the state and local policymakers and the general public are informed of the continuous cost of these discounts.

[6] Report No. 2017-113, *Cost of Tax Incentives and Exemptions*, issued in October 2017.

[7] Scott Drenkard and Nicole Kaeding, "State and Local Sales Tax Rates in 2016," <https://taxfoundation.org/state-and-local-sales-tax-rates-2016/>, (March 2016), accessed on June 7, 2017. Calculation regarding the estimated monthly taxable sales was based on this estimated average sales tax rate.

[8] "Timely Filing Discount Costs Missourians Millions," <http://www.mobudget.org/timely-filing-discount/>, (October 2016), accessed on September 18, 2017.

1.3 Internet sales

The GA has not passed legislation to allow Missouri to charge tax on online purchases made from out-of-state sellers or to participate in the Streamlined Sales and Use Tax Agreement (SSUTA), costing the state millions in potential sales tax revenue.

State law currently requires Missouri businesses to collect use tax on online sales only if the business has a physical presence in the state. On June 21, 2018, the United States Supreme Court ruled in *South Dakota v. Wayfair, Inc.*, 585 U.S. (2018), that states may charge tax on purchases made from out-of-state sellers, even if the seller does not have a physical presence in the taxing state. This decision overturned *Quill Corp. v. North Dakota*, 504 U.S. 298 (1992), which restricted state taxation of interstate commerce.

Online sales increasing

With the increasing popularity and usage of online shopping, e-commerce sales have grown significantly in recent years. As reported in our audit of state tax incentives and exemptions, estimates from the U.S. Census Bureau[9] show e-commerce sales for the first quarter 2017 now account for approximately $100 billion of $1.25 trillion in total retail sales (approximately 8 percent), up from approximately $36 billion in the second quarter 2008. Several studies[10], [11] have estimated the state is forgoing sales tax revenues in the hundreds of millions of dollars by not consistently collecting sales tax revenue on out of state internet sales. These studies also noted local vendors face a competitive disadvantage because consumers who make purchases online avoid paying sales/use taxes.

Streamlined Sales and Use Tax Agreement

The SSUTA, adopted in November 2002, is a cooperative effort among states, local governments, and businesses to simplify and make more uniform the sales and use tax collection and administration for retailers and states. The SSUTA aims to minimize costs and administrative burdens on retailers that collect sales tax, while also encouraging out-of-state sellers to collect tax on sales to customers in member states. Forty-four states, including Missouri, participated in the Streamline Sales Tax project. However, only 24 of these states (member states) have enacted legislation to conform to at least part of the SSUTA, which allows them to collect sales taxes from vendors in other states.

State legislation

Bills introduced during the state's 2019 legislative session to expand the collection of taxes on internet sales failed to become law. The state will forgo significant revenue from online sales, if future attempts to pass similar legislation remain unsuccessful.

Recommendations

The General Assembly:

1.1 Consider changes to current state laws to require the DOR begin tracking exemption information so the reductions of state revenue related to each exemption can be quantified and reported to the General Assembly.

1.2 Evaluate the necessity of a timely sales tax discount. If such a discount is deemed necessary, consider the implementation of a monthly cap on the amount of discount retained, and also consider changes to current state laws to require the DOR annually report the reduction of state revenue related to the timely discount to the General Assembly, applicable political subdivisions, and to the general public.

1.3 Evaluate the impact of the *South Dakota v. Wayfair, Inc.* decision and continue to pursue legislation to collect taxes from out-of-state sellers.

Auditee's Response

Due to these recommendations being legislative in nature, no management response can be obtained. While the recommendations are not addressed to the DOR, department officials provided a written response. That response is included at Appendix A.

Department of Revenue
Sales and Use Tax
Organization and Statistical Information

The Department of Revenue (DOR) was created by Article IV, Section 12, Missouri Constitution as the central collection agency for state revenues. The Director of Revenue is appointed by the Governor, with the advice and consent of the Senate, and is responsible for all operations and policies. DOR responsibilities include:

1) Administering and collecting state taxes and fees, including sales and use tax, motor vehicle sales tax, and highway use tax.
2) Collecting certain taxes and fees for local governments, including local sales and use tax.
3) Titling and licensing motor vehicles, trailers, and boats.
4) Licensing motor vehicle operators.

The DOR consists of 3 divisions, the General Counsel's office, and the Director's office.

Motor Vehicle and Driver Licensing Division: This division collects motor vehicle sales and use taxes and consists of 3 bureaus. (1) The Motor Vehicle Bureau issues titles and registers motor vehicles, trailers, all-terrain vehicles, manufactured homes, and marine craft. The bureau also issues registration certificates to motor vehicle and salvage dealers and leasing companies. (2) The Driver License Bureau issues, renews, suspends, revokes, and reinstates driver and nondriver licenses and driving permits. The bureau processes and maintains records relating to license issuance, traffic violation point assessments, failure to appear in court for traffic violations, and administers the alcohol and abuse laws for alcohol/drug offenders. (3) The License Offices Bureau manages the operations of the contract license offices throughout the state. These local offices provide driver licensing and motor vehicle services and are operated by individuals or businesses approved through the state of Missouri bid process.

Taxation Division: This division consists of 4 bureaus that collect taxes and administer state tax law. (1) The Business Tax Bureau administers sales and use, financial institutions, insurance premiums, franchise, excise, cigarette and other tobacco products, motor fuel, corporate income, withholding, and county taxes and fees. (2) The Personal Tax Bureau administers individual income, partnership, fiduciary, and estate taxes. (3) The Collections and Tax Assistance Bureau provides tax assistance to individuals and businesses and performs appropriate procedures for unpaid tax liabilities. (4) The Field Compliance Bureau audits businesses both in-state and out-of-state to ensure compliance with Missouri's tax laws.

Administration Division: This division provides administrative support to all other areas of the DOR and consists of 2 bureaus. (1) The Human Resources and Total Rewards Bureau is responsible for the DOR's personnel matters, process improvements, and training. (2) The Financial and General Services

Bureau is responsible for all accounting, procurement, banking, and general service matters. This bureau is also responsible for coordinating space and location needs, telecommunications, safety issues, maintenance, and improvement of the work environment within the DOR.

General Counsel's Office: This office ensures the DOR's compliance with law and internal policies, advises the director and divisions on legal matters relative to the DOR, and represents the DOR in courts and administrative tribunals. This office also consists of 2 investigation bureaus. (1) The Criminal Tax Investigation Bureau investigates and develops information leading to local prosecution of individuals and businesses suspected of violating state statutes related to sales, withholding, and income tax. (2) The Compliance and Investigation Bureau conducts investigations involving allegations of fraud relating to motor vehicle sales tax, titling and registration, odometer, and motor fuel sales tax as well as cigarette tax fraud, driver's license fraud and license plate fraud. The bureau also ensures the compliance of motor vehicle dealers, salvage businesses, and marine dealers with statutes and licensure regulations. In addition to external investigations, the bureau conducts internal audits and investigations of the DOR and contract license offices.

Director's Office: This office includes the Director, Chief Operating Officer, and key administrative staff responsible for the overall guidance and direction of the DOR. The office also includes the Public Information Office, the Legislative Office, and the Communications Office. The Public Information Office develops and maintains positive media and public relations for the DOR. The Legislative Office serves as the DOR's liaison to the General Assembly. The office provides technical assistance, develops fiscal and revenue estimates on proposed legislation, and monitors the progress of bills through the Legislature. The Communications Office develops and maintains department forms, policies, and procedures. The office also maintains the public and internal website, as well as manages the DOR's social media accounts.

Joel W. Walters served as Director of Revenue from April 2017 through March 22, 2019. On March 22, 2019, Kenneth J. Zellers was appointed as Acting Director of Revenue.

Robyn Vogt, CPA
Audit Manager
Missouri State Auditor's Office
HSTOB, Room 880
Jefferson City, MO 65 102

Dear Robyn:

The Department of Revenue acknowledges the recommendations of the Missouri State Auditor's report on Sales and Use Tax Collections Audit.

Recommendation 1.1 — The General Assembly consider changes to current state laws to require the DOR begin tracking exemption information so the reductions of state revenue related to each exemption can be quantified and reported to the General Assembly.

Recommendation 1.2 — The General Assembly evaluate the necessity of a timely sales tax discount. If such a discount is deemed necessary, consider the implementation of a monthly cap on the amount of discount retained, and also consider changes to current state laws to require the DOR annually report the reduction of state revenue related to the timely discount to the General Assembly, applicable political subdivisions, and to the general public.

Recommendation 1.3 — The General Assembly evaluate the impact of the South Dakota v. Wayfair, Inc. decision and continue to pursue legislation to collect taxes from out-of-state sellers.

DOR Response — If the General Assembly passes legislation that requires action, the Department of Revenue will incorporate those provisions into our processes and comply with any state laws regarding these recommendations.

If you have any questions, please contact me at 751-7429, or Lynn.Bexten@dor.mo.gov.

Sincerely,

Ken Zellers

Ken Zellers

[1] Local sales and use tax distributions by political subdivision are available in the Department of Revenue's annual Financial and Statistical Report. However, the Department of Revenue does not report distributions for political subdivisions with less than 6 taxpayers. For this schedule, all local sales and use tax distributions have been included in the amounts reported. The Department of Revenue's annual Financial and Statistical Report is accessible through the Department of Revenue's website at http://www.dor.mo.gov.

[2] In fiscal year 2018, the Department of Revenue combined Community Development Districts with Community Improvement Districts.

[1] For fiscal years prior to fiscal year 2015, sales and use tax distributions for political subdivisions with less than 6 taxpayers are not included in the amounts reported.
[2] In fiscal year 2018, the Department of Revenue combined Community Development Districts with Community Improvement Districts.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Holt County, Missouri

The Office of the State Auditor contracted for an audit of Holt County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Holt County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Holt County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Holt County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Holt County, Missouri, as of December 31, 2017 and 2018, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Holt County, Missouri, as of December 31, 2017 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Holt County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated July 5, 2019, on our consideration of Holt County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Holt County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Holt County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk and ex officio Recorder of Deeds, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Holt County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from

accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation were:

	2018	2017
Real Estate	$ 70,400,122	$ 69,820,529
Personal Property	35,928,973	34,839,226
Railroad and Utilities	40,997,204	38,900,319
Total	$ 147,326,299	$ 143,560,074

For calendar years 2018 and 2017, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2018	2017
General Revenue	$ 0.3384	$ 0.3546
Special Road & Bridge	0.4066	0.4066
Johnson Grass	0.0369	0.0369
Senior Citizen's Services	0.0461	0.0461

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are

less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018 and 2017, the carrying amounts of the County's deposits were $2,602,416 and $2,121,785, respectively, and the bank balances were $2,842,574 and $2,284,546, respectively. Of the bank balances, $279,119 and $278,929 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2018 and 2017, County officeholders held, in addition to the cash and investments listed above, cash held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018 and 2017, the carrying amounts of the County's custodial funds were $10,882,814 and $11,034,703, respectively, and the bank balances were $8,709,067 and $8,028,367, respectively. Of the bank balances, $534,779 and $1,009,174 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Holt County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Holt County do not contribute to the pension plan. The June 30th statutorily required contribution rates were 0.3% and 1.5% (General), and 0.5% and 0.5% (Police) of annual covered payroll for 2018 and 2017 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2018 and 2017, the County contributed $41,866 and $38,784 to LAGERS.

4) Funding Status

As of February 28, 2018, the actuarial value of assets exceeded the accrued liabilities of the plan by $388,002 for the General division, and by $121,039 for the Police division. As of February 29, 2017, the actuarial value of accrued liabilities exceeded the assets of the plan by $471,725 for the General division, and the actuarial value of assets exceeded the accrued liabilities of the plan by $139,219 for the Police division. These net pension assets are not recognized in the cash basis financial statements of the County.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2018 and 2017, the County collected and remitted to CERF employee withholdings and fees collected of $86,198 and $65,803, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $4,208 and $1,683, respectively, for the years ended December 31, 2018 and 2017.

D. Other Retirement Plan

Holt County has a voluntary 457(b) plan which is paid by a deduction from employee’s salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions qualify collected and remitted by the County for the years ended December 31, 2018 and 2017 were $15,110 and $11,842, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are

fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time and part-time employees who receive benefits with four hours of sick leave on the first day of each month, up to a maximum of 30 days. Twenty-four hours of sick leave is accrued on January 1 of each year. Upon termination, employees will not be compensated for any unused sick time.

Vacation time is made available in whole on the employee's anniversary date. Vacation time is five days for employees with one year of service; ten days for employees with two to 19 years of service; and 15 days for employees with 20 or more years of service. Employees are allowed to carry over a maximum of 15 days of vacation into a new employment year. Upon termination, employees are compensated for any unused vacation time.

Three days of personal time is provided for full-time employees. Personal time not used within the anniversary year is lost at year end. Upon termination, employees will not be compensated for any unused personal time.

Full-time employees earn overtime or compensatory time credits based on department assignment. Overtime and Compensatory Time credits are earned at 1.5 times the regular hourly rate of the employee for work hours accumulated over 40 hours in a work week and 80 hours in a two-week pay period. Upon termination, employees are compensated for any compensatory time credits.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Rural Services Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $1,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2018:

A. In January 2015, the County entered into a $184,500, four-year capital lease for a 2015 John Deere 770G Motor Grader for the Road & Bridge department. The lease called for annual payments of $48,274 through March 2018. The last annual payment was made in March 2018. The payments include interest of 2.76%.

B. In March 2015, the County entered into a $14,250, three-year capital lease for a 2011 Crown Victoria for the Sheriff's Office. The last annual payment was made in June 2017 in the amount of $4,925. The payment included interest of 3.00%.

C. In April 2015, the County entered into a $193,795, five-year capital lease for two 2016 Mack Trucks for the Road & Bridge department. The lease calls for annual payments of $41,099 through April 2019. The payments include interest of 2.97%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 39,894	$ 1,205	$ 41,099
Totals	$ 39,894	$ 1,205	$ 41,099

D. In April 2016, the County entered into a $170,264, seven-year capital lease for a 2016 John Deere 770GXT Motor Grader for the Road & Bridge department. The lease calls for annual payments of $27,637 through May 2023. The payments include interest of 3.25%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 23,497	$ 4,140	$ 27,637
2020	24,272	3,365	27,637
2021	25,073	2,564	27,637
2022	25,900	1,737	27,637
2023	26,755	883	27,638
Totals	$ 125,497	$ 12,689	$ 138,186

E. In June 2016, the County entered into a $68,800, three-year capital lease for a 2016 Dodge Ram and Dodge Durango for the Sheriff's Office. The lease calls for annual payments of $24,314 through April 2019. The payments include interest of 2.98%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 23,610	$ 704	$ 24,314
Totals	$ 23,610	$ 704	$ 24,314

F. In September 2016, the County entered into a $125,361, four-year capital lease for a 2016 John Deere 6110ML Tractor and a 2016 Diamond DBM-C-N 50 Mower for the Road & Bridge department. A $50,000 advance lease payment was required at signing and was paid in September 2016. The lease calls for annual payments of $26,795 through September 2020. The payments include interest of 3.25%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 25,940	$ 855	$ 26,795
2020	1	-	1
Totals	$ 25,941	$ 855	$ 26,796

G. In April 2018, the County entered into a $32,050, three-year capital lease for a 2017 Ford Explorer for the Sheriff's Office. The lease calls for annual payments of $11,059 through April 2020. The payments include interest of 3.48%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	10,327	732	11,059
2020	10,686	373	11,059
Totals	$ 21,013	$ 1,105	$ 22,118

The following schedule shows changes in long-term debt during the year ended December 31, 2017:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid
2015 John Deere Grader 770G	$ 92,660	$ -	$ (45,693)	$ 46,967	$ 2,581
2011 Ford Crown Victoria	4,782	-	(4,782)	-	143
Two 2016 Mack Trucks	116,208	-	(37,590)	78,618	3,509
2016 John Deere Grader 770G	170,264	-	(22,020)	148,244	5,617
2016 Dodge Ram and Durango	68,800	-	(22,263)	46,537	2,051
2016 John Deere Tractor & Mower	75,361	-	(24,309)	51,052	2,486

The following schedule shows changes in long-term debt during the year ended December 31, 2018:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
2015 John Deere Grader 770G	$ 46,967	$ -	$ (46,967)	$ -	$ 1,308
Two 2016 Mack Trucks	78,618	-	(38,724)	39,894	2,375
2016 John Deere Grader 770G	148,244	-	(22,747)	125,497	4,890
2016 Dodge Ram and Durango	46,537	-	(22,927)	23,610	1,387
2016 John Deere Tractor & Mower	51,052	-	(25,111)	25,941	1,684
2017 Ford Explorer	-	32,050	(11,037)	21,013	22

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 5, 2019, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Holt County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Holt County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Holt County, Missouri's basic financial statements and have issued our report thereon dated July 5, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Holt County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Holt County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Holt County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Holt County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and questioned costs as item 2018-001.

Holt County, Missouri's Response to Finding

Holt County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Holt County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Holt County, Missouri

Report on Compliance for Each Major Federal Program

We have audited Holt County, Missouri's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Holt County, Missouri's major federal programs for the years ended December 31, 2017 and 2018. Holt County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Holt County, Missouri's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Holt County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Holt County, Missouri's compliance.

Opinion on Each Major Federal Program

In our opinion, Holt County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2017 and 2018.

Report on Internal Control over Compliance

Management of Holt County, Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Holt County, Missouri's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Holt County, Missouri's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2018-002 and 2018-003, that we consider to be significant deficiencies.

Holt County, Missouri's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Holt County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purposes.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

HOLT COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2018 AND 2017

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal award activity of Holt County, Missouri for the years ended December 31, 2018 and 2017. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2018 and 2017.

HOLT COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2018 AND 2017

SECTION I – SUMMARY OF AUDITOR'S RESULTS

Financial Statements:

Type of Auditor's Report Issued:	Unmodified
Internal Control Over Financial Reporting:	
- Material weakness(es) identified?	___ Yes __X__ No
- Significant deficiencies identified that are not considered to be material weaknesses?	___ Yes __X__ None Reported
- Noncompliance material to financial statements noted?	__X__ Yes ___ No

Federal Awards:

Internal Control Over Major Programs:	
- Material weakness(es) identified?	___ Yes __X__ No
- Significant deficiencies identified that are not considered to be material weaknesses?	__X__ Yes ___ None Reported
Type of Auditor's Report Issued on Compliance For Major Programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516?	__X__ Yes ___ No

Identification of Major Programs:

CFDA Number(s)	Name of Federal Program or Cluster
20.205	Highway Planning and Construction Cluster

Dollar Threshold Used to Distinguish Between Type A and Type B Programs:	$750,000
Auditee Qualified as low-risk:	___ Yes __X__ No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

2018-001. Timely Filing of the Collector's Settlement

Criteria: 139.160 of RSMo requires County Collectors to settle accounts with the County Commission and file the Collector's Annual Settlement by the first Monday of March.

Condition: The County Collector did not file an annual settlement for the period ending February 28, 2019 as of the first Monday in March. The settlement had not been completed as of the date of audit fieldwork. The settlement was subsequently completed and dated June 10, 2019.

Cause: The County's prior collector was appointed to the position in May 2018. The County Collector ended her term in March 2019. The Collector did not file her annual settlement prior to her term ending.

Effect: Timely filing of the Collector's settlement with the County Clerk allows for the independent verification of the Collector's accounts with the records maintained by the County Clerk.

Recommendation: We recommend that the County Collector file the Collector's Annual Settlement for the year ended February 28, 2019 and establish procedures to ensure that future settlements are submitted by the required date. We recommend that the County Clerk provide a certification of the Collector's accounts or obtain from the Collector a rationale of the basis for untimely filings.

County's Response: The County recognizes that the 2019 Collector's Annual Settlement was not completed on time due to the change of elected officials. The County will continue to make every effort to comply with reporting deadlines.

Auditor's Evaluation: The response is appropriate to correct the concern.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2018-002. Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Agriculture; U.S. Department of the Interior; U.S. Department of Justice; U.S. Department of Transportation; U.S. Department of Health and Human Services

Pass-Through Grantor: Missouri Department of Public Safety; Missouri Department of Transportation; Missouri Department of Health and Senior Services

Federal CFDA Number: 10.557; 15.659; 16.738; 20.205; 93.069, 93.575, 93.994, 93.767

Program Title: Special Supplemental Nutrition Program for Women, Infants, and Children; Fish and Wildlife Refuge Fund; Edward Byrne Memorial Justice Assistance Grant Program; Highway Planning and Construction; Public Health Emergency Preparedness, Child Care and Development Block Grant, Maternal and Child Health Services Block Grant, Participation Agreement for State Investment in Local Public Health Services

Pass-through Entity Identifying Number: 17WIC, 18WIC, 19WIC; 2017-LLEBG-034; BRO-B044(32), BRO-B044(33), BRO-B044(34); TP000531-05Z, TP171701-01Z, TP171701-02Z, 17CCDF, 18CCDF, 19CCDF, 16MCH, 17MCH, 18MCH, 19MCH, 17LPHAMEDEAR, 18LPHAMEDEAR, 19LPHAMEDEAR

Award Year: 2017 and 2018

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The schedules of expenditures of federal awards (SEFA) reported by the County in the 2017 and 2018 annual budget documents contained errors in amounts of federal expenditures reported. Expenditures by the county were understated by $17,712 in 2017 and $52,756 in 2018.

Cause: The County reported Highway Planning and Construction receipts rather than expenditures in 2017 and 2018. The County only reported Health and Human Services grant expenditures which they received reimbursements for, and not the entire amount received and expended. The County Clerk did not include a federal award related to the purchase of the security cameras that the Sheriff received. The County Clerk was not aware that the Wildlife Refuge Funds were federal funds required to be reported on the SEFA.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2018 and 2017.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: The County understands that Federal Awards are to be reported on the SEFA accurately. Wildlife Refuge Funds were previously considered Payment in Lieu of Tax monies which were considered property taxes instead of Federal Grant Awards but will be included on the SEFA. The County will continue to make every effort to comply and accurately report all Federal Grant Awards on SEFA.

Auditor's Evaluation: The response is appropriate to correct the concern.

2018-003: Cash Management Procedures

Federal Grantor: U.S. Department of Transportation

Pass-Through Grantor: Missouri Department of Transportation

Federal CFDA Number: 20.205

Program Title: Highway Planning and Construction

Pass-through Entity Identifying Number: BRO-B044(33)

Award Year: 2017 and 2018

Questioned Costs: None

Criteria: Federal award requirements state that recipients receiving advances of federal funds must implement procedures to minimize the time elapsing between the receipt of federal funds and the disbursement of the funds. BRO program regulations state that Local Public Agencies (Holt County) must "develop cash management procedures to ensure payment is made to the contractor/consultant within two (2) business days of receipt of funds from MoDOT."

Condition: There were 2 instances where the County wrote checks to the consulting engineers or construction contractors on a BRO project more than two days after receiving the reimbursement from MoDOT into the County's bank account. The County typically submitted invoices to MoDOT for reimbursement prior to making the payment to the consulting engineer or construction contractor.

One transaction ($24,280) was received on September 18, 2017 and the date paid per the check was September 25, 2017, which was the fifth business day. The second transaction ($3,000) was received on January 8, 2018 and was paid on January 12, 2018 which was the fourth business day.

Cause: The County commissioners meet on Mondays. Both deposits were received on a Monday. The checks were not written until preparation for the following Monday's County Commissioner meeting.

Effect: The grant is intended to be a reimbursement type grant, however, the County may have inappropriately earned interest on the federal funds due to the delay in payments.

Recommendation: We recommend that the County implement internal controls to ensure that federal funds are disbursed in a timely manner in accordance with federal regulations and the terms and conditions of federal awards.

County's Response: The County understands BRO payments must be issued within two business days of receipt of funds from MODOT and have already put measures in place to correct this. The County will continue to make every effort to comply while working with the numerous transactions that occur every year.

Auditor's Evaluation: The response is appropriate to correct the concern.

To the County Commission and
Officeholders of Holt County, Missouri

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2018, we considered Holt County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated July 5, 2019. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Collector Bank Reconciliations

There were no formally documented bank reconciliations on the County Collector's office accounts after October 2018. The interim County Collector took office in May 2018 and left office in February 2019. The interim County Collector prepared and documented bank reconciliations for May 2018 through October 2018. After the October 2018 bank reconciliation, the County was not able to locate a documented bank reconciliation. However, sufficient alternative documentation was maintained to show that a reconciliation of the account was being performed. Bank reconciliations not being formally documented may cause discrepancies to go uncorrected. We recommend that the County Collector ensure that bank reconciliations are formally performed and documented for all accounts each month.

CITIZENS SUMMARY

Findings in the audit of the Missouri State Lottery Commission

Findings

The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, and no significant deficiencies in management practices and procedures. No findings resulted from the audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Missouri State Lottery Commission
and
May Scheve Reardon, Executive Director
Missouri State Lottery Commission
Jefferson City, Missouri

The State Auditor is required under Section 313.315.1, RSMo, to audit the Missouri State Lottery Commission. The Lottery engaged CliftonLarsonAllen LLP, Certified Public Accountants (CPAs), to audit the Lottery's financial statements for the years ended June 30, 2018 and 2017. To satisfy our statutory obligation and minimize duplication of effort, the State Auditor has used the work of the CPA firm. We reviewed the reports and substantiating working papers of the CPA firm to satisfy ourselves as to the appropriateness of using the reports, and we accept them in partial fulfillment of our duties. We have also audited certain operations of the Lottery in fulfillment of our duties under Section 313.315.1, RSMo. The scope of our audit included, but was not necessarily limited to, the years ended June 30, 2018 and 2017. The additional objectives of our audit were to:

1. Evaluate the Lottery's internal controls over significant management and financial functions.

2. Evaluate the Lottery's compliance with certain legal provisions.

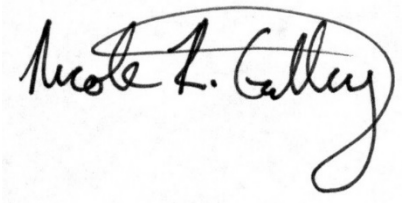
3. Evaluate the economy and efficiency of certain management practices and procedures.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the Lottery, analysis of comparative data obtained from external and/or internal sources; review of contracts that are specific to the auditee's operations and significant within the context of the audit objectives; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the Lottery's management and was not subjected to the procedures applied in our audit of the Lottery.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. No findings resulted from our audit of the Missouri State Lottery Commission.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kim Spraggs, CPA, CGAP
Audit Manager:	Josh Allen, CPA, CFE, CGAP
In-Charge Auditor:	James M. Applegate, MBA
Audit Staff:	Scott Davis, MAc, CPA
	Joel Stucky
	Emmett Spradlin

Pursuant to Sections 313.200 to 313.350, RSMo, the Missouri State Lottery Commission (Lottery) was created in June 1985. That action followed voter approval of a lottery amendment to the Missouri Constitution at the November 1984 general election. The Lottery began selling instant game tickets on January 20, 1986. From 1986 to 1993, lottery proceeds less prizes and expenses were transferred to the General Revenue Fund for appropriation by the General Assembly. Effective July 1, 1993, pursuant to a voter approved lottery amendment to Article III, Section 39(b), Missouri Constitution, lottery proceeds are transferred to the Lottery Proceeds Fund for appropriation by the General Assembly for educational purposes.

Section 313.321 RSMo, provides that all monies received from the sale of Missouri lottery tickets and all other sources shall be deposited in the State Lottery Fund (SLF), and at least 45 percent of monies from ticket sales shall be used to fund lottery prizes. The General Assembly may appropriate SLF monies to the Lottery for expenses related to administration, advertising, promotion, and retailer compensation.

Traditionally, the Lottery has paid out more than the minimum 45 percent of sales as prizes. The pay-out percentage has averaged 62.43 percent from 1986 to 2018. The prize percentage fluctuates each year based on factors such as the type of scratcher tickets sold (each game has a different prize structure) and the timing of payouts related to draw game sales such as the Powerball and Mega Millions games. Lottery officials believe that more people will play if there are more prizes to receive.

Lottery retailers are authorized to redeem prizes up to $600, or players may claim any prizes in person at any of the Lottery offices. Prizes paid by the Lottery are paid from an imprest checking account that is reimbursed from the SLF. Prior to July 1, 2016, net sales due from retailers were deposited into the Lottery Enterprise Fund (LEF) and used to reimburse the imprest checking account. Beginning July 1, 2016, the SLF began receiving the net sales due from retailers. Monies are transferred from the SLF to the LEF for lottery operational costs.

Estimated Transfers of Profits

Article III, Section 39(b), of the Missouri Constitution requires Lottery profits be transferred to the Lottery Proceeds Fund to be appropriated solely for public institutions of elementary, secondary and higher education. In September each year, as part of the state budget process, the Lottery develops estimates of the transfer for the subsequent fiscal year in its budget request submitted to the Office of Administration and Governor. For example, the estimate for fiscal year 2018 (which began July 2017) was developed by the Lottery in September 2016. The Lottery's estimates provide a basis from which the Governor incorporates estimates into the budget submitted to the General Assembly for determining appropriations to schools from the Lottery Proceeds Fund.

Estimated and actual transfers for the last 4 fiscal years were as follows:

Estimated and actual transfers to the Lottery Proceeds Fund

		Year Ended June 30,			
		2018	2017	2016	2015
Lottery estimate	$	286,004,759	278,794,691	278,723,574	298,563,213
Actual cash transfer		306,072,098	297,874,417	308,993,403	270,701,018
Actual over (under) estimate	$	20,067,339	19,079,726	30,269,829	(27,862,195)
Variance from estimate		7.0%	6.8%	10.9%	(9.4%)

Beginning with fiscal year 2017, the Lottery estimates transfers using the average of the total actual transfers for the preceding 5 fiscal years plus 1 percent. The Lottery's estimated transfers were $289.6 million and $293.1 million for the fiscal year 2019 and 2020 budgets, respectively.

Commission

A five-member Lottery commission is appointed by the Governor with the advice and consent of the Senate. The commission must meet at least quarterly. The commission has the authority to promulgate rules as it deems necessary and desirable to fully implement the Lottery as mandated by the people in Article III, Missouri Constitution. The commission appoints an executive director to act as secretary of the commission and keep all books and records of the commission. The executive director oversees the commission's operation and administration. At June 30, 2018, May Scheve Reardon served as Executive Director, and members of the commission were:

Commissioner	Term Expiration
John (Mike) Hannegan	September 2018
Paul K. Kincaid, Chairman	September 2017
Dr. Judene Blackburn	September 2016
Michael Grewe, Vice-Chairman	September 2020
Robin Simpson	September 2019

Section 313.215, RSMo, requires appointments to be made within 30 days of the expiration of a term. However, the current practice is for the expired member to serve until reappointed or a new member is appointed.

The Lottery is organized into four divisions: Executive, Sales, Marketing, and Operations. Each division is headed by a director who coordinates activities to meet the commission's objectives. At June 30, 2018, the Missouri State Lottery Commission employed 153 individuals.

Financial Activity

A summary of the Lottery's operating financial activity is presented in the following Appendixes.

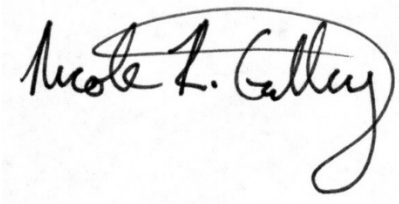
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 1481 political subdivisions required to file a financial report by June 30, 2019, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in June 2019, after their filing deadline. The filing status for these 3 entities is presented in summary on page 3 and by individual entity in Appendix B-C.



Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 1,481 political subdivisions, other than cities, towns, and villages, with a fiscal year end of December 31, 2018. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 1,481 political subdivisions, 1,083 filed an annual financial report timely.

This report also includes the filing status for 3 political subdivisions, other than cities, towns, and villages, that filed their financial report in June 2019, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

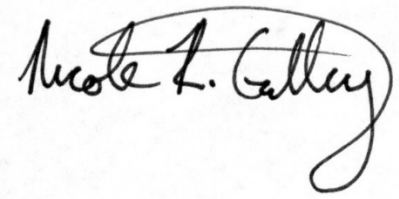
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the counties and municipalities required to file a financial report by June 30, 2019, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 257 cities, 11 towns, and 134 villages is presented in summary on page 3 and by individual entity in Appendix A. The filing status for 5 counties is presented in summary on page 4 and by individual entity in Appendix B. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in June 2019, after their filing deadline. The filing status for these 7 cities is presented in summary on pages 4 and by individual entity in Appendixes C to D.



Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 257 cities, 11 towns, and 134 villages with a fiscal year end of December 31, 2018, whose financial reports, addendums, or certifications were due by June 30, 2019. Of the 402 municipalities required to file an annual financial report, 268 filed the report timely, and 2 filed financial report for a partial fiscal year. Of the 216 municipalities required to file an addendum, 78 filed an addendum timely. Of the 114 municipalities required to file a certification, 62 filed a certification timely.

This report includes the filing status for the 5 counties, with a fiscal year end of December 31, 2018, whose addendum and certification was due by June 30, 2019. Of these entities, 3 filed their addendum timely, and 3 filed their certification timely.

This report includes the filing status for 7 cities that filed at least one of the items (financial report, addendum, or certification) in June 2019, after their filing deadline. Of these entities, 1 filed an annual financial report, 7 filed an addendum, and 2 filed a certification.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
County Collector
Callaway County, Missouri

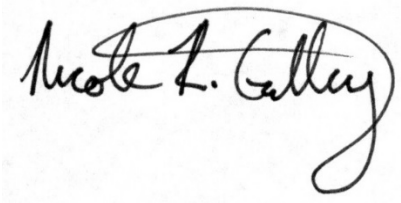
We have conducted follow-up work on audit report findings contained in Report No. 2018-097, *Callaway County Collector and Property Tax System* (rated as Poor), issued in September 2018, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the county about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by county officials and held discussions with county officials to verify the status of implementation for the recommendations. Documentation provided by the county included bank records, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during May 2019.



Nicole R. Galloway, CPA
State Auditor

Callaway County Collector and Property Tax System
Follow-Up Report on Audit Findings
Status of Findings

1. Misappropriated Monies

The audit identified misappropriated monies totaling at least $316,758 between January 1, 2016, and March 15, 2018.

Recommendation

The County Commission and the County Collector work with law enforcement officials regarding criminal prosecution related to the misappropriated monies and take the necessary actions to obtain restitution.

Status

Implemented

In March 2019, the former County Collector was sentenced to 30 months in prison and ordered to pay approximately $380,000 in restitution. The County Commission filed a claim against the County Collector's surety bond and received a payment for $316,758 in November 2018.

2. Questionable Transactions

The County Collector made questionable disbursements totaling $8,414 from the County Collector's general operating account (general account). No documentation could be provided by County Collector's office personnel to support the purpose of these checks. In addition, each of these checks was subsequently redeposited into the general account and used to substitute for cash shortages in deposits made to the general account. The County Collector also improperly abated a protested tax bill for $7,208 after the appeal had been dismissed and the monies distributed. No documentation could be provided by County Collector's office personnel to support why the abatement occurred and why the County Collector had marked the tax payment for refund, or if a refund for this tax payment had been paid.

Recommendation

The County Collector should review the questionable transactions to ensure they were appropriately handled and should also ensure sufficient documentation is maintained to support all transactions.

Status

Implemented

The County Collector reviewed the questionable disbursements. She agreed they were improper and resulted in cash deposit shortages. With the surety bond proceeds received as discussed in the status comments of finding number 1, the County Collector determined no additional action was necessary regarding these disbursements. The County Collector is working to determine how to resolve the improperly abated protested tax bill. The County Collector indicated she is now ensuring sufficient documentation is maintained to support all transactions.

3. Property Tax System Controls and Procedures

We noted significant weaknesses in controls and procedures over the county's property tax system.

3.1 Annual settlements

The County Collector's annual settlements for the years ended February 28, 2018, and 2017, were not complete and accurate.

Recommendation

The County Collector prepare complete and accurate annual settlements.

Status

Implemented

The County Collector filed an annual settlement for the year ended February 28, 2019, on March 21, 2019. However, she said she subsequently determined the settlement was not accurate and prepared an amended annual settlement. We reviewed a draft of the amended settlement and determined delinquent railroad charges of approximately $30,000 for 2016 and 2017 were omitted. The County Collector made the necessary corrections for these unreported charges and filed the amended annual settlement on June 5, 2019.

3.2 Tax books

The County Clerk did not prepare the current tax books and did not verify the accuracy of the current tax books.

Recommendation

The County Clerk prepare the current tax books, or at a minimum, verify the accuracy of the tax books prior to charging the County Collector with the property tax amounts to be collected. Procedures performed should be adequately documented.

Status

In Progress

The former County Clerk did not prepare or verify the accuracy of the tax books prior to charging the County Collector with the property tax amounts to be collected for the 2018 tax year. The current County Clerk took office January 1, 2019. She indicated she plans to verify the accuracy of the tax books for the 2019 tax year by selecting at least one personal property tax bill and one real estate property tax bill for each taxing authority and manually recalculating the tax bills to ensure each tax levy is calculating correctly. In addition, the County Clerk and the County Auditor indicated they will recalculate the tax books in total by aggregating the total due for each taxing authority.

3.3 Review of property taxes

The financial activities of the County Collector were not adequately reviewed by the County Clerk, the County Auditor, or the County Commission. Neither the County Clerk nor the County Auditor maintained an account book or other records summarizing property tax charges, transactions, and changes as required by state law. In addition, the County Clerk, the County Auditor, and

the County Commission did not perform procedures to verify the accuracy and completeness of the County Collector's annual settlements.

Recommendation

The County Clerk and the County Auditor work together to maintain an account book with the County Collector. In addition, the County Clerk, the County Auditor, and the County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.

Status

In Progress

The County Auditor is currently in the process of creating an account book with the County Collector. The County Auditor indicated the account book will be used to compile information for the 2019 tax year, and available for use by herself, the County Clerk, and the County Commission to verify the accuracy and completeness of the County Collector's next annual settlement.

3.4 Property tax system changes

The County Commission and the County Clerk do not adequately review changes (e.g., additions, abatements, and deletions) entered into the property tax system. In addition to the County Collector having access in the property tax system to make changes such as additions, abatements, and deletions, she could also make corrections or changes to information entered into the property tax system.

Recommendation

The County Commission and the County Clerk develop procedures to ensure all property tax changes are properly approved and monitored. In addition, the County Collector should ensure property tax system access rights are limited to only what is needed for the users to perform their job duties and responsibilities.

Status

Implemented

The County Commission purchased a new property tax system for the County Collector's office. The system was implemented on June 1, 2019. For personal property, this system is now integrated with the County Assessor's system and all personal property tax changes are completed by the County Assessor's office. The County Collector's office no longer has access rights to make personal property tax changes to the property tax system. However, for real estate property, the new system is not integrated with the County Assessor's system and all real estate property tax changes are still entered by the County Collector's office. Since implementation of the new property tax system, the County Clerk is reconciling real estate property tax changes made by the County Collector's office in it with changes recorded in the County Assessor's system. In addition, the County Commission reviews and approves a monthly report of personal property tax changes and real estate property tax changes.

4. County Collector's Controls and Procedures

Significant weaknesses existed in the County Collector's accounting controls and procedures.

4.1 Segregation of duties

Accounting duties were not adequately segregated and independent reviews of accounting and bank records were not performed.

Recommendation

The County Collector segregate accounting duties and ensure documented independent reviews of detailed accounting and bank records are performed.

Status

In Progress

The County Collector has segregated some accounting duties but is currently responsible for preparing all monthly bank reconciliations and disbursements and reviewing the work performed by other office personnel. The County Collector indicated with the recent implementation of the new property tax system, she intends to train staff to prepare and process monthly electronic disbursements and perform monthly bank reconciliations which she will then review and approve.

4.2 Unrecorded property tax collections

The County Collector did not record property tax collections totaling $217,936, in the property tax records. These monies were also not subsequently disbursed in accordance with state law and the various political subdivisions did not receive their share of these tax collections. In addition, because these property tax collections were not recorded in the property tax records, some taxpayers did not receive credit for their tax payments.

Recommendation

The County Collector ensure all property tax collections are promptly and accurately recorded in the property tax records and disbursed in accordance with state law. In addition, the property tax accounts relating to the taxpayers with the unrecorded collections should be reviewed to ensure taxpayer balances are accurate.

Status

Implemented

The County Collector has now recorded the property tax collections not recorded by the former County Collector, and used surety bond proceeds to disburse these collections to the appropriate political subdivisions. The County Collector also made corrections to the property tax accounts of affected taxpayers as needed to ensure accurate balances. In addition, we reviewed the tax distribution of all railroad and utility tax collections for the 2018 tax year and noted no problems. The County Collector indicated all property tax collections are now promptly and accurately recorded in the property tax records and disbursed in accordance with state law.

4.3 Unsupported transfers

The County Collector made unsupported transfers totaling $76,778 from the general account to the County Collector's installment payment plan bank account between January 2018 and March 2018. These transfers were electronically processed from the general account to the installment account, and no independent review or approval was required for these transfers. The County Collector's office had not established procedures for electronic transfers and office personnel could not provide an explanation as to why these transfers were made.

Recommendation

The County Collector establish review and approval procedures to ensure transfers are necessary and adequately documented.

Status

In Progress

The County Collector completes all transfers and provides supporting documentation to the County Auditor. The County Collector plans to train office personnel to prepare transfers now that the new property tax system has been implemented. The County Collector indicated she will review and approve all transfers made by office personnel. We reviewed the March and April 2019 electronic disbursement transfers and a transfer by check from the installment account to the general account for disbursement of taxes and found no problems. The records indicated the County Collector completed all of the transfers reviewed and provided the documentation to the County Auditor. In addition, the County Auditor now compares online bank activity to County Collector's office documentation to ensure all transfers are necessary and adequately documented.

4.4 Receipting and cash controls

Receipt slips were not issued for railroad and utility property tax collections; and bankruptcy, installment, or partial payments. Payments received were often not deposited intact and the County Collector's office frequently cashed personal checks for county employees and other individuals. The method of payment was not always accurately recorded in the property tax system and the composition of receipts recorded in the property tax system was not reconciled to the composition of deposits. The change fund was not maintained at a constant amount and no records were maintained to support the use of the long/short fund. Employees shared multiple cash drawers during the busy tax season and one cash drawer the rest of the year.

Recommendation

The County Collector ensure all monies collected are properly receipted, record the method of payment accurately, and reconcile the composition of receipts to the composition of deposits. In addition, the County Collector should discontinue the practice of cashing personal checks, and improve cash handling procedures by maintaining the change fund at a constant amount, documenting the activity of the long/short fund, and limiting access to the cash drawers.

Status

Partially Implemented

The County Collector discontinued the practice of cashing personal checks and each employee now has a separate assigned cash drawer that is balanced daily. However, office personnel are not always accurately recording the method of payment and do not reconcile the composition of receipts to the composition of deposits. We reviewed the composition of receipts and deposits for 5 days in April 2019 and found composition differences had not been reviewed or documented. For example, in one instance a check totaling $8,250 was recorded as cash in the property tax system, and in another instance, $190 paid with a combination of cash and check was recorded only as a check payment. In addition, while the change fund balance was set at $850, the fund was not maintained at this amount. The County Collector used $56 from the change fund to replace a cash shortage in a cash drawer that could not be identified; however, the balance of the change fund was not replenished. Also, while the activity of the long/short fund is now documented, some collections of copy monies and duplicate receipt fees were added to the long/short fund, rather than being deposited with other receipts. The County Collector indicated she plans to ensure the composition of receipts is reconciled to the composition of deposits in the future and any differences will be reviewed and documented.

4.5 Bank reconciliations

Bank reconciliations prepared by the County Collector for the general account were not always complete and accurate, and bank reconciliations for the installment account were not always complete, accurate or timely prepared. The book balance maintained for the general account combined the balance of the general account, the balance of a bank account used to record tax collections for a local city, and all protested tax certificates of deposit. Because the actual book balance of the general account was not tracked separately, this balance was not readily available and it was difficult to determine whether the available cash balance was sufficient to cover liabilities.

Recommendation

The County Collector prepare accurate and timely bank reconciliations and maintain an appropriate book balance for each bank account. Any differences should be investigated and promptly resolved.

Status

Implemented

The County Collector now prepares complete and accurate monthly bank reconciliations. We reviewed the April 30, 2019, bank reconciliations for the general and installment accounts and noted no significant differences. The general account book balance has been separated from the local city account book balance and the protested tax certificates of deposit, and the balances of the general account and the local city account are now reconciled independently.

4.6 Liabilities

The lists of liabilities prepared by the County Collector for the general and installment accounts were not complete and accurate. In addition, the lists included unsupported reconciling items.

Recommendation

The County Collector prepare accurate lists of liabilities monthly and agree the reconciled bank balances to the liabilities lists. Any differences should be investigated and promptly resolved.

Status

In Progress

The County Collector prepares monthly lists of liabilities and has identified and resolved some old, unsupported reconciling items from the general account list of liabilities. At April 30, 2019, the available cash balance exceeded liabilities by approximately $33,600 for the general account and liabilities exceeded the available cash balance by approximately $16,000 for the installment account. The County Collector indicated she had not transferred restitution money from the general account to the installment account to replace the shortage created by the former County Collector. This transfer will primarily resolve the difference in the installment account. The County Collector is also continuing the process of investigating and identifying the remaining differences between the lists of liabilities and the cash balances for the general account.

4.7 Numerical sequence of checks

The County Collector did not issue checks in numerical sequence for the installment account.

Recommendation

The County Collector issue checks in numerical sequence and account for the numerical sequence of checks issued.

Status

Implemented

The County Collector has limited access to blank checks for the general and installment accounts to ensure checks are issued in numerical sequence. In addition, all checks issued by the County Collector's office are now also signed by the County Auditor, and the County Auditor is tracking the numerical sequence of checks issued for each account.

Missouri State Auditor

Department of Public Safety - Administrative Practices

Report No. 2019-061

July 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Department of Public Safety - Administrative Practices

Equipment, Contracts, and Payment for Services	Under the former Director's administration, the Department of Public Safety (DPS) - Office of the Director (OD) abused the Office of Administration's (OA) single feasible source process in order to award a project management services contract to the Missouri Police Chiefs Charitable Foundation (MPCCF), an organization the former Director had been associated with prior to becoming the Director of the DPS. The services contracted had previously been provided, in part, by the Missouri State Highway Patrol at no cost to the state. The request to OA to designate this organization a single feasible source contained false information that would have had a material impact on the OA's decision to approve the single feasible source request. In addition, the DPS-OD paid $1.25 million to that organization without a contractual agreement in place in order to circumvent the appropriation process. The MPCCF was allowed to hold $1.25 million in state funds for approximately 8 months before being disbursed, resulting in a benefit to the organization and lost interest revenue to the state. The DPS-OD was able to make these payments as a result of an appropriation that was moved from the control of the MSHP to the DPS-OD at the request of MPCCF. The DPS-OD did not object to the change in appropriation and helped facilitate the change.
Administrative Practices	The former Director of the DPS did not comply with all administrative DPS policies regarding annual leave and assigned state vehicle usage. The former Director did not claim any annual leave during his time as Director despite the appearance of taking multiple personal vacations over this time. The former Director and Deputy Director did not follow DPS vehicle usage policies and procedures.

Due to the limited scope of the audit, no rating will be given.

B Governor's Request Letter 18

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Sandra K. Karsten, Director
Department of Public Safety
Jefferson City, Missouri

The State Auditor was requested by the Governor, under Section 26.060, RSMo, to audit the Department of Public Safety, Office of the Director. We have audited certain operations of the agency in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017, and the period from January 1 through August 31, 2018. The objectives of our audit were to:

1. Evaluate the agency's internal controls over significant management and financial functions.

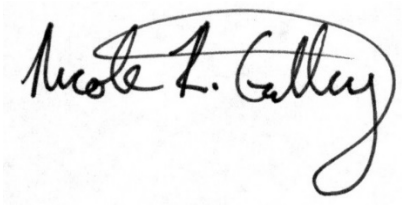
2. Evaluate the agency's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain transactions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we (1) identified deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and operations.

The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Public Safety, Office of the Director.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Robert E. Showers, CPA, CGAP
Audit Manager:	Wayne T. Kauffman, MBA, CPA, CFE, CGAP
In-Charge Auditor:	Alex Bruner, MBA, CFE
Audit Staff:	Troy Tallman, CFE

Department of Public Safety - Administrative Practices Introduction

Background

The Department of Public Safety (DPS) comprises eight different agencies (including two commissions) and six separate programs all committed to ensuring the safety of the citizens of Missouri. In addition, the Office of the Director (OD) administers the Homeland Security Program and state and federal grant funding for juvenile justice, victims' assistance, law enforcement and narcotics control. Other programs in the OD provide support services and resources to assist local law enforcement agencies and to provide training criteria and licensing for law enforcement officers.

The State Auditor was requested by the DPS, through the Governor, under Section 26.060, RSMo, to audit the DPS-OD. The Governor's request letter is included in this report at Appendix B. The following events are significant to our review and are discussed further in the findings reported in the accompanying Management Advisory Report - State Auditor's findings.

DPS management

On January 2, 2017, former Governor Eric Greitens appointed Sikeston Director of Public Safety and Police Chief Charles "Drew" Juden as the Director of the DPS. For 2016, Juden also served on the Board of Directors for the Missouri Police Chiefs Association (MOPCA) and as Chairman of the Board of Directors for the Missouri Police Chiefs Charitable Foundation (MPCCF).[1] In addition, St. Louis Fire Department Captain Greggory Favre was named Deputy Director of the DPS. Both positions were effective January 9, 2017.

Director Drew Juden's appointment as Director of the DPS ended on August 31, 2018. Governor Mike Parson appointed Sandra Karsten, Superintendent of the Missouri State Highway Patrol (MSHP), to the Director of the DPS on August 27, 2018. Karsten assumed the post on September 1, 2018 and was confirmed by the Missouri Senate on September 14, 2018.

On November 1, 2018, Deputy Director Greggory Favre resigned as Deputy Director of DPS.

On November 27, 2018, Governor Michael Parson requested the State Auditor conduct an audit of the DPS-OD following the conclusion of an internal review conducted at the request of Director Karsten that raised concerns of questionable past administrative practices.

Pursuant to the Governor's request the State Auditor initiated an audit of the DPS-OD, in December 2018.

[1] The MPCCF was formed and incorporated in 1996 as a charitable foundation. The foundation is a not-for-profit 501(c)(3) corporation.

Equipment contract

In August 2015, the MSHP entered into a contractual agreement with MorphoTrak, LLC, for the purchasing and maintenance of LiveScan and Rapid "Fast" ID equipment for both the MSHP and local law enforcement agencies. The contract has been extended several times with the current contract period ending on June 30, 2020. All equipment purchases by the MSHP for local agencies were paid directly from MSHP to MorphoTrak, LLC, utilizing federal grant funding. No state funds were used to purchase equipment for local law enforcement agencies until the appropriation was moved to the DPS-OD in fiscal year 2018.

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017, and the period from January 1 through August 31, 2018. Our methodology included gathering information regarding the purchase of LiveScan and Rapid "Fast" ID devices for local agencies through discussions with various officials from the DPS-OD, MSHP, Office of Administration (OA), and MPCCF; and reviewing information maintained by those entities.

We obtained an understanding of the applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

To gain an understanding of legal requirements governing the awarding of a single feasible source contract, we reviewed applicable state laws and interviewed individuals from the DPS-OD and the OA. We also reviewed certain contracts entered into by the DPS for equipment purchases and project management services.

We also reviewed the former Director and Deputy Director's use of annual leave and assigned state vehicles. During our review of these former officials' use of annual leave and assigned state vehicles, our methodology included reviewing timesheets, personal calendars, financial records, vehicle logs, and other pertinent documents; interviewing various current and past personnel of the DPS-OD; as well as certain external parties, including former Director Juden; and testing selected transactions. Additionally, we reviewed travel expenses for overnight trips incurred by the DPS-OD.

1. Equipment, Contracts, and Payment for Services

Under the former Director's administration, the Department of Public Safety (DPS) - Office of the Director (OD) abused the Office of Administration's (OA) single feasible source process in order to award a project management services contract to an organization the former Director had been associated with prior to becoming the Director of the DPS. The services contracted for had previously been provided, in part, by the Missouri State Highway Patrol (MSHP) at no cost to the state. The request to OA to designate this organization a single feasible source contained false information that would have had a material impact on the OA's decision to approve the single feasible source request. In addition, the DPS-OD paid $1.25 million to that organization without a contractual agreement in place in order to circumvent the appropriation process. The organization was allowed to hold $1.25 million in state funds for approximately 8 months before being disbursed, resulting in a benefit to the organization and lost interest revenue to the state. The DPS-OD was able to make these payments as a result of an appropriation that was moved from the control of the MSHP to the DPS-OD at the request of the organization receiving the payments. The DPS-OD did not object to the change in appropriation and helped facilitate the change.

1.1 Single feasible source request

The DPS-OD provided false assertions to the OA Division of Purchasing in its request to have the Missouri Police Chiefs Charitable Foundation (MPCCF) designated a single feasible source vendor. The request was approved based on the information provided. The DPS-OD then entered into a contractual agreement with the MPCCF for project management services for the coordination and installation of fingerprint technology at local law enforcement agencies. The contract period was from June 1, 2018, through May 31, 2019, and allowed the MPCCF to bill the DPS-OD for approximately 3 percent of program costs for coordination despite these services previously being provided by the MSHP at no additional cost to the state. The former Director's prior affiliation with the MPCCF gives this contract the appearance of a conflict of interest.

False assertions used to justify single feasible source award

The DPS-OD single feasible source request contained several false assertions that were material to commissioner of administration's determination to approve the request.[2] According to the DPS-OD's single feasible source request, the MPCCF had previously received a 5 percent administration fee from the state for providing project management services related to using federal grant funding to purchase equipment for local law enforcement agencies. Representatives from both the MPCCF and the MSHP indicated this information was inaccurate and the MPCCF had never received any administration fee for any such services provided. In addition, former DPS-

[2] Before a single feasible source request is approved by the commissioner of administration, justification must be submitted to the OA explaining how the product or service that is considered a single feasible source meets the requirements outlined in Section 34.044, RSMo.

OD personnel indicated in the single feasible source request the $1.945 million appropriation the contract was to be paid from was "appropriated as a local initiative and as such the locals, through the MPCCF (representing all Local Law Enforcement) have a vested interest in managing the project." However, the appropriation for the funds directly conflicts with this statement. House Bill No. 8, 99th General Assembly, 2017, states the $1.945 million appropriated to the DPS-OD was for "providing information technology services and criminal records services to the Highway Patrol and local law enforcement." A representative of the MPCCF indicated the MSHP could have also spent from this appropriation. Therefore, the assertion made by the DPS-OD that this was strictly a "local initiative" was not accurate.

Previous provider not contacted regarding single feasible source

The DPS-OD did not contact the MSHP about providing coordination services even though the MSHP had previously provided such services to local law enforcement agencies at no charge. The DPS-OD asserted to the OA the only other entity the DPS-OD was aware of that would have the knowledge and ability to provide the project management services was the MSHP. However, the justification provided by the DPS-OD to the OA for not considering the MSHP was that the funding being appropriated was a "local initiative," and the MPCCF, who represents all local law enforcement, had a vested interest in managing the project.

An OA Division of Purchasing official stated that the division understood the representations made by the DPS-OD to mean that because the funding had been appropriated directly to DPS-OD to provide the services to local law enforcement instead of how the funding was handled in the past, the MSHP was no longer going to be providing these services as the agency had in the past and consequently was no longer a source for the services to be provided by the MPCCF. Representatives from the MSHP indicated this was not accurate because the MSHP has continued to provide support for LiveScan services for maintenance and LiveScan training even after the appropriation was moved to the DPS-OD.

The OA Division of Purchasing official also stated they were unaware of any objection from the MSHP in proceeding with the DPS-OD's single feasible source request for these services. Representatives from the MSHP stated they could not object because no one in the MSHP's Budget and Procurement Division or Criminal Justice Information Services Division was contacted by the DPS or the OA regarding the proposed single feasible source contract. The MSHP was unaware of the potential single feasible source selection, and as a result had no reason to search for the related advertisements, which were placed only in the Kansas City and St. Louis regions, and not in the Jefferson City region.

Providing accurate information to the OA to justify the awarding of a contract as a single feasible source would help ensure the selection of the vendor is in

the best interest of the state as well as provide the transparency necessary to mitigate the appearance of a conflict of interest.

Based on the information provided to the OA by the DPS-OD, the initial determination by the OA to designate the MPCCF a single feasible source is reasonable. However, in light of the false assertions made to the OA by the DPS-OD in its request, the statutory criteria for establishing a single feasible source have not been met.[3]

1.2 Equipment purchases circumvented appropriations process, and made without a contract

On June 25, 2018, the DPS-OD paid approximately $1.25 million to the MPCCF for goods[4] that were not received until November and December of the same year. This payment circumvented the appropriations process, violated contracts with multiple parties, and was made without a contract with the MPCCF. The payment in question was made possible by the appropriation for the equipment being moved from the control of the MSHP to the DPS-OD. The change in appropriation was made at the request of the Missouri Police Chiefs Association (MOPCA) and was not objected to by the DPS.

Payment made before goods were received

The DPS-OD made the payments to the MPCCF for the equipment provided by MorphoTrak, LLC,[5] 5 to 6 months before the equipment was received by the local law enforcement agencies. The timeline of the payment and receipt of goods is outlined in Table 1.1:

[3] Section 34.044, RSMo, states that a single feasible source exists when (1) supplies are proprietary and only available from the manufacturer or a single distributor; (2) based on past procurement experience, it is determined that only one distributor services the region in which the supplies are needed; or (3) supplies are available at a discount from a single distributor for a limited period of time. The definition of "supplies" in Section 34.010.6, RSMo, includes contractual services.

[4] 29 LiveScan devices for $525,625 and 546 Rapid ID devices for $723,450.

[5] Effective July 1, 2018, MorphoTrak, LLC, became IDEMIA Identity & Security USA, LLC, due to a merger.

Table 1.1: Timeline of payments and delivery of equipment

Date	Event
June 11, 2018	The Executive Director of the MPCCF requests an invoice from IDEMIA for $1.25 million
June 11, 2018	IDEMIA invoices the MPCCF for $1.25 million for LiveScan and Rapid "Fast" ID devices
June 11, 2018	The MPCCF invoices the DPS-OD for $1.25 million
June 25, 2018	The DPS-OD pays the MPCCF $1.25 million
November 6, 2018 - December 26, 2018	LiveScans are received by local law enforcement agencies
December 19, 2018 - December 26, 2018	Rapid "Fast" ID devices are received by the local law enforcement agencies
December 28, 2018	IDEMIA again invoices the MPCCF $525,625 for LiveScans devices
December 29, 2018	IDEMIA again invoices the MPCCF $723,450 for Rapid "Fast" ID devices
February 4, 2019	Check #4346 issued to IDEMIA from the MPCCF for $525,625
February 4, 2019	Check #4347 issued to IDEMIA from the MPCCF for $723,450
February 25, 2019	Checks #4346 & #4347 issued to IDEMIA by the MPCCF cleared the bank

The invoices from IDEMIA to the MPCCF were due by January 27, 2019, and January 28, 2019. The MPCCF did not pay these invoices until February 4, 2019. It is unclear why the MPCCF paid the vendor after the due date when the MPCCF was provided the funds to pay the vendor more than 7 months prior.

Representatives from the DPS-OD and the MPCCF indicated they believed the main reason for passing the $1.25 million through the MPCCF before the goods were received rather than paying IDEMIA directly after the goods were received had been to prevent $1.25 million of the $1.945 million appropriation from going unspent from the fiscal year 2018 appropriation.

Allowing the MPCCF to maintain the $1.25 million in its bank accounts for approximately 8 months provided an unnecessary benefit to the organization of potential interest earned or improved cash flows. Removing these funds from the state treasury harmed the state for similar reasons. Based on

information provided by the State Treasurer's Office, the state treasury did not earn approximately $16,000 in interest as a result of the premature removal of these funds from state accounts.

Paying vendors for equipment after it is received helps safeguard against possible loss or misuse of funds. In addition, good cash management practices dictate the state only advance funds when it is prudent to do so and in the best interest of the state. Proper cash management practices allow the state to maximize interest revenues.

Payment was made without written contract and violated other existing contracts

The DPS-OD payment to MPCCF for equipment occurred without a written contract in place for that purpose. The payment also violated two existing contracts related to the transaction.

- The contract between the MSHP and MorphoTrak, LLC, that establishes the prices paid by the MPCCF requires the equipment be received before payment is made.

- The project management services contract between the MPCCF and the DPS states that other than the payments for services, "…no other payments or reimbursements shall be made to the contractor for any reason whatsoever."

The establishment and use of written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to provide protection to all parties involved.

Appropriation change

The transaction for equipment described above was made possible by a change in the DPS-OD appropriation for the fiscal year 2018 budget. The General Assembly added $1.945 million for equipment expenses to the DPS-OD appropriation for providing information technology services and criminal records services from the Criminal Record System Fund.[6] Prior to fiscal year 2018, this $1.945 million was included in the MSHP's appropriation for expense and equipment related to technical services and all equipment purchases were coordinated by the MSHP. The change was initiated in the House Subcommittee on Appropriations - Public Safety, Corrections, Transportation, and Revenue. According to discussions with Representative Kathie Conway, Chairman of the subcommittee, the change was initiated by the MOPCA, which is affiliated with the MPCCF, via Sheldon Lineback, Executive Director, and later via David McCracken who represents the MOPCA as a lobbyist. The Missouri Sheriff's Association also initiated the change in the appropriation. Sheldon Lineback confirmed the MOPCA and the MPCCF, as well as DPS-OD, were supportive of the move, while the

[6] Fund 0671 in the Statewide Advantage for Missouri accounting system.

MSHP objected. Former Director Juden claimed no knowledge of who initiated the appropriation change.

1.3 Services paid in advance

The DPS-OD paid the MPCCF in advance for services not provided, which was not in accordance with the written contract between the two parties.

The contract between DPS-OD and the MPCCF for contract management services allows the MPCCF to bill the DPS-OD $58,000 for the services provided by the MPCCF, but also requires the MPCCF to submit monthly invoices. However, on June 5, just 4 days after the contract went into effect, the MPCCF billed the DPS-OD for half of the contract amount ($29,000) for services to be provided. On June 22, 2018 the DPS-OD paid the MPCCF the full $29,000 billed.

MPCCF did not provide the DPS-OD with monthly invoices as required by the contract, and has only provided the one invoice (June 5) to the DPS-OD.

Paying vendors in accordance with signed contracts helps safeguard against possible loss or misuse of funds. In addition, paying vendors for services after the services have been performed helps ensure services are performed in accordance with the contract.

Conclusion

Under the former Director's administration, the DPS-OD abused the state's single feasible source purchasing process and made multiple improper and questionable payments to benefit an organization the former Director was affiliated with prior to becoming the Director of DPS. The related transactions circumvented the appropriation process and were not in the best interest of the Department of Public Safety or the state.

Recommendations

The DPS-OD:

1.1 Ensure all information given to the OA regarding the justification to award a single feasible source contract is accurate. In addition, ensure the appropriate due diligence is performed before seeking a single feasible source award from the OA. Also, refrain from entering into business transactions that do not have a clear purpose or benefit to the state.

1.2 Ensure all contracts are complied with and payments to vendors are not passed through a third party without a legitimate business purpose. In addition, ensure all payments to vendors are made pursuant to a written contract and require documentation of receipt of goods and/or services prior to payment of invoices.

1.3 Require documentation of receipt of goods and/or services prior to payment of invoices. In addition, ensure contract terms are followed

by all parties involved in the contract and refrain from making payments for services not substantially rendered.

Auditee's Response

The DPS-OD's written response is included at Appendix A.

2. Administrative Practices

The former Director of the DPS did not comply with all administrative DPS policies regarding annual leave and assigned state vehicle usage. The former Director submitted multiple timesheets claiming he was working for the DPS while department calendar entries show he was on several personal vacations. In addition, the former Director utilized his assigned state vehicle significantly more than his predecessors, both he and the Deputy Director were not in compliance with DPS policies regarding vehicle usage logs, and the agency did not report all taxable income on their W-2 forms.

2.1 Annual leave usage

The former Director did not claim any annual leave during his time as Director despite the appearance of taking multiple personal vacations over this time.[7] As a result, the former Director may have been overpaid for unused annual leave at the time his appointment ended. DPS officials provided us with all of the former Director's timesheets and monthly calendars during his employment with the DPS.[8] Employee timesheets show the breakdown of hours charged to the various job codes at the DPS in addition to any annual or sick leave used by the employee during each bi-monthly pay period. The former Director's monthly calendar showed various work-related appointments and entries of when he was to be out of the office for non-work related events and trips.

For example, in several instances the former Director's personal monthly calendar indicated the former Director was in Florida while the former Director's timesheet indicated he was working for the DPS. This occurred for 15 working days during the former Director's employment. The DPS employee responsible for keeping the former Director's calendar indicated the trips to Florida were for personal reasons, such as attending the 2017 and 2018 Daytona 500 NASCAR races. Instead of using annual leave, the former Director certified on his timesheet that he worked full 8 hour days for the department on those days.[9] When asked why he reported his time in this way, the former Director stated that as long as he had access to telephone or email, he considered himself to be working.

[7] The former Director only used annual leave between the day he was informed he would not be retained as the Director of DPS on August 16, 2018, and his official end of appointment date on August 31, 2018.

[8] The former Director was employed at the DPS from January 9, 2017, through August 31, 2018

[9] Employees certify their time by signing their timesheet. The former Director signed the timesheets for 14 of the 15 days in question. The timesheet for 1 of the 15 days in question was not signed.

Upon the end of his employment in August 2018, the former Director was compensated $6,864 for his remaining 115 hours of annual leave. The information obtained brings into question the accuracy of the former Director's timesheets. Based on that, it is likely the former Director was overpaid for his unused annual leave, however, due to a lack of documentation we cannot determine the amount overpaid. According to discussions with the former Director, he does not agree with DPS time policies and does not feel the time tracking system accurately reflects the amount of hours he worked. The former Director also stated he maintained a daily journal that contained information on his work schedule, but declined to provide that to us.

The director of the DPS is an administrative position. As such, DPS policies regarding leave accrual and usage apply. Ensuring timesheets for all employees are accurate and reflect the actual time worked will provide assurance that all leave balances are accurate and help ensure employees are not overpaid for leave balances when they terminate state employment.

2.2 Vehicle logs and usage

The former Director and Deputy Director did not follow DPS vehicle usage policies and procedures. The former Director also utilized his assigned state vehicle significantly more than other DPS directors. In addition, the DPS-OD did not report the value of the former Director or Deputy Director's personal use of an assigned state vehicle on W-2 forms as required by the Internal Revenue Service (IRS).

Vehicle usage logs

The former Director and Deputy Director did not maintain vehicle usage logs as required by DPS policy. The former Director and Deputy Director were assigned full-time department vehicles. They used the vehicles to commute from their homes in Sikeston and St. Louis, respectively. The former Director did not keep track of odometer readings, destinations, or the purpose of trips in his assigned state vehicle as required by DPS policy. The former Deputy Director kept odometer readings; however, he did not keep records for the destinations traveled or the purpose of trips.

Vehicle usage

Vehicle usage by former Director Juden was approximately 44 percent higher than DPS directors both prior to and after his administration. We acquired the beginning and ending monthly odometer readings for all former Directors' assigned vehicles from July 2013 through December 2018.[10]

All DPS Directors during the 46 months of July 2013 through December 2016, and September 2018 through December 2018, which excludes former

[10] As previously indicated, the former Director did not keep vehicle usage logs as required by DPS policy; however, when refueling vehicles, odometer readings were required before using the DPS WEX card. Monthly odometer readings from the WEX invoices were then compiled by DPS accounting personnel.

Director Drew Juden's administration, drove an average of 2,052 miles per month. During the 20 months former Director Drew Juden was with DPS, from January 2017 through August 2018, he drove his assigned vehicle an average of 2,956 miles per month, which is a 44 percent increase from other directors.

DPS Policy F-7 states "Vehicle usage logs must be maintained for each DPS vehicle and include the following information: name of driver, date(s) used, beginning and ending odometer readings, destination and purpose of each trip."

Taxable fringe benefit

The value of the former Director's and Deputy Director's personal use of the assigned state vehicles was not reported to the IRS on their W-2 forms because the DPS-OD considers the director and deputy director positions to be always on call. However, DPS-OD personnel also indicated the department does not require employees in either position to use their vehicles for commuting and the assigned vehicles were not clearly marked as public safety vehicles.

IRS reporting guidelines indicate that use of a qualified non-personal use vehicle (including commuting) is required to be included in gross income as a working condition fringe benefit unless specific requirements are met. These requirements include:

- The employee must be required by the employer to use the vehicle for commuting.
- It is readily apparent, by words or painted insignia, that the vehicle is a public safety vehicle. A marking on a license plate is not a clear marking for this purpose.

The vehicle driven by the former Director and Deputy Director did not meet the above requirements. As a result, any personal use of these vehicles should have been included as gross income. However, due to proper vehicle usage logs not being maintained, the taxable portion of the former Director and former Deputy Director's vehicle usage could not be determined.

Recommendations

The DPS-OD:

2.1 Ensure timesheets for all employees are accurate and reflect the actual time worked on DPS related matters.

2.2 Ensure DPS policies regarding vehicle usage logs are followed. In addition, the DPS-OD should refer to IRS guidelines regarding use of employer-provided vehicles and adopt appropriate policies and requirements. The DPS-OD should also ensure all compensation is

properly reported on W-2 forms, and amend W-2 forms for unreported compensation, as appropriate.

Auditee's Response

The DPS-OD's written response is included at Appendix A.

STATE OF MISSOURI
DEPARTMENT OF PUBLIC SAFETY
OFFICE OF THE DIRECTOR

July 10, 2019

The Honorable Nicole R. Galloway, CPA
Missouri State Auditor
P.O. Box 809
Jefferson City, MO 65102

Dear Auditor Galloway:

We are providing this letter in response to the recommendations in the audit of the Department of Public Safety – Administrative Practices.

1.1 Ensure all information given to the OA regarding the justification to award a single feasible source contract is accurate. In addition, ensure the appropriate due diligence is performed before seeking a single feasible source award from the OA. Lastly refrain from entering into business transactions that do not have a clear purpose or benefit to the state.

1.1 *We agree with the recommendation. We have already, and will continue, to take the necessary steps to implement the recommendation.*

1.2 Ensure that all contracts are complied with and payments to vendors are not passed through a third party without a legitimate business purpose. In addition, ensure all payments to vendors are made pursuant to a written contract and require documentation of receipt of goods and/or services prior to payment of invoices.

1.2 *We agree with the recommendation. We have already, and will continue, to take the necessary steps to implement the recommendation.*

1.3 Require documentation of receipt of goods and/or services prior to payment of invoices. In addition, ensure contract terms are followed by all parties involved in the contract and refrain from making payments for services not substantially rendered.

1.3 *We agree with the recommendation. We have already, and will continue, to take the necessary steps to implement the recommendation.*

2.1 Ensure timesheets for all employees are accurate and reflect the actual time worked on DPS related matters.

2.1 *We agree with the recommendation. We have already, and will continue, to take the necessary steps to implement the recommendation.*

2.2 Ensure DPS policies regarding vehicle usage logs are followed. In addition, the DPS-OD should refer to IRS guidelines regarding use of employer-provided vehicles and adopt appropriate policies and requirements. The DPS-OD should also ensure all compensation is properly reported on W-2 forms, and amend W-2 forms for unreported compensation, as appropriate.

2.2 *We agree with the recommendation related to the following of policies. All DPS-OD policies are currently being followed and will continue to be followed. We will take the necessary steps to ensure IRS guidelines are followed going forward, and will seek the advice of legal and accounting professionals regarding the amending of previously issued W-2 forms.*

If you have any questions regarding DPS's responses, please contact myself at 751-5432 or Tracy McGinnis at 526-9011.

Sincerely,

Sandra K. Karsten

Michael L. Parson
GOVERNOR
STATE OF MISSOURI

November 27, 2018

Auditor Nicole Galloway
Missouri State Auditor
Missouri State Capitol
201 West Capitol Avenue, Room 121
PO Box 869
Jefferson City, MO 65102

Dear Auditor Nicole Galloway,

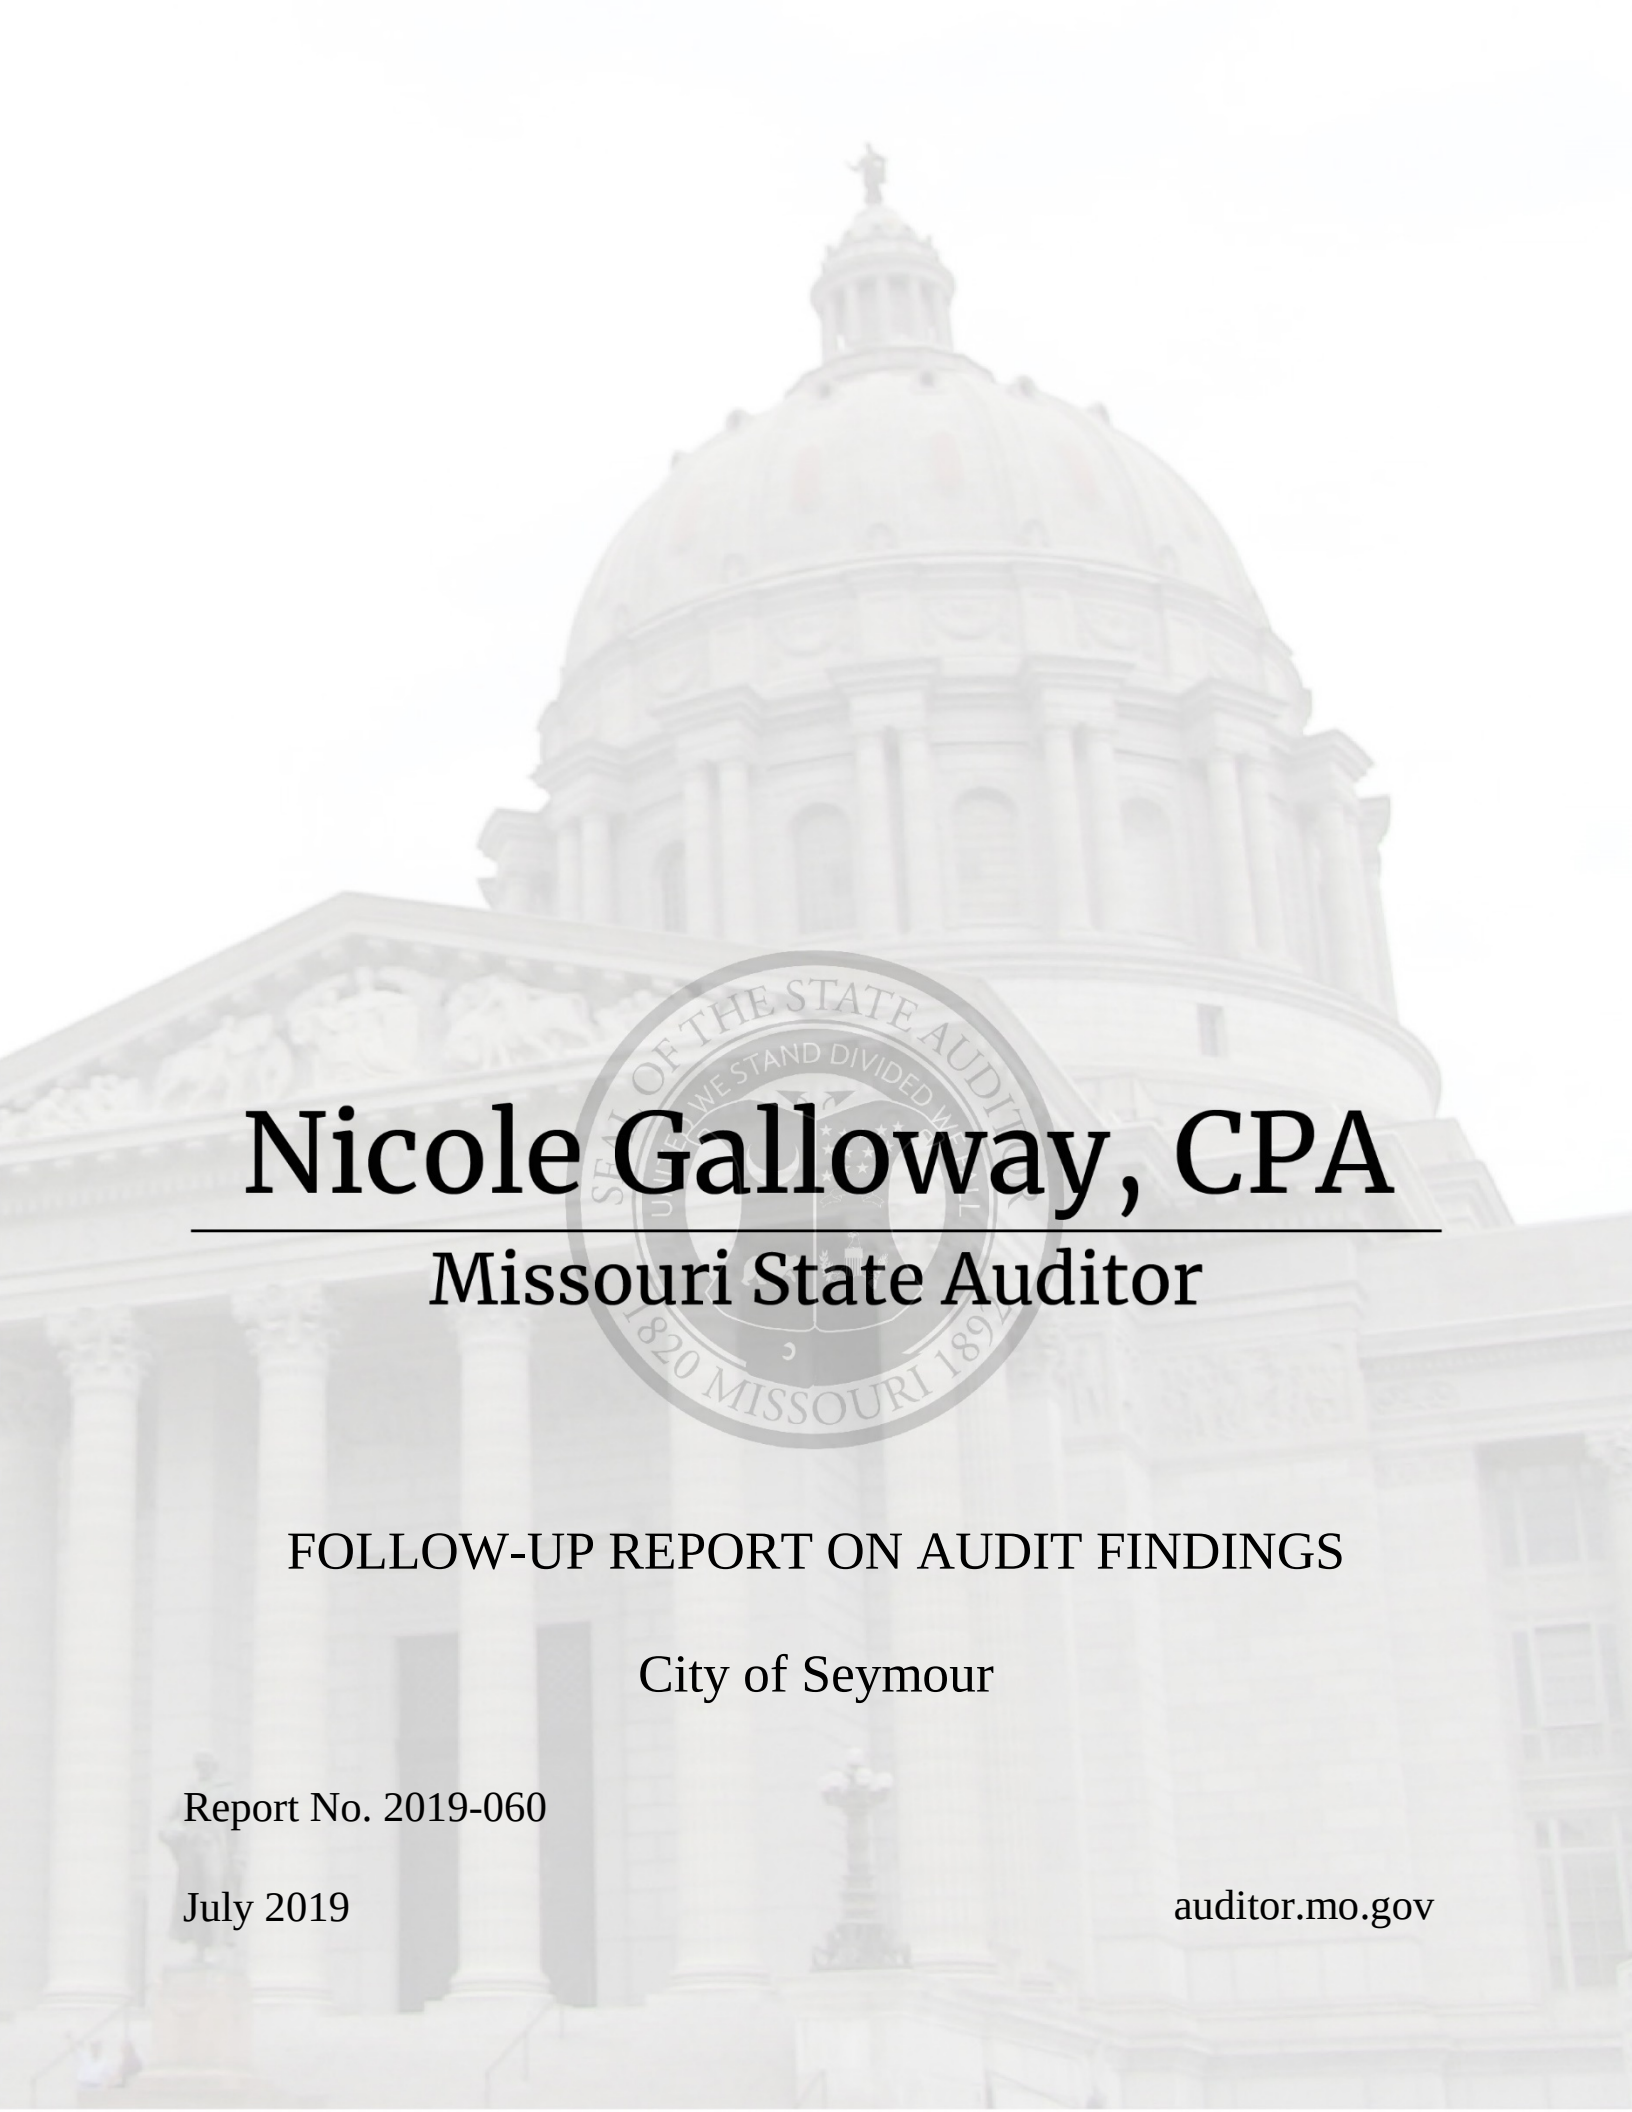
Public Safety Director Karsten recently concluded an internal review of the DPS Director's Office as part of her proactive approach to establishing a clean bill of financial health.

The internal review raised concerns about questionable use of taxpayer dollars. These concerns warranted her recommendation that the State Auditor conduct an independent review of DPS at the administrative level.

Since 2013 was the last time an audit of the DPS Director's Office was completed, now is a prudent time to follow the advice of the Director in this formal request that a state audit be completed.

Sincerely,

Michael L. Parson
Governor



Nicole Galloway, CPA

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
Seymour, Missouri

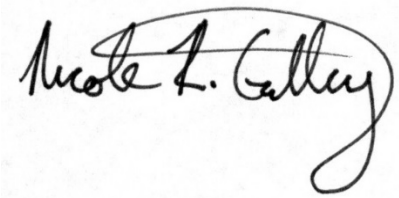
We have conducted follow-up work on certain audit report findings contained in Report No. 2018-124, *City of Seymour* (rated as Poor), issued in December 2018, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by city officials and held discussion with city officials to verify the status of implementation for the recommendations. Documentation provided by the city included minutes of meetings, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during May and June 2019.



Nicole R. Galloway, CPA
State Auditor

City of Seymour
Follow-Up Report on Audit Findings
Status of Findings

1. Utility System Controls and Procedures

There were significant weaknesses in the city's utility operations. The city provided electric, water, and sewer services, and accounted for the financial activity of each service in a separate fund.

1.1 Utility transfers

The Board of Aldermen had no documentation of any discussions held or the basis for determining the amounts to be transferred from each of the city's three utility funds to the General Fund. The city historically had transferred substantial amounts of money from the Electric Fund, and more recently from the Water Fund and Sewer Fund, to help finance the operations and activities of the General Fund. The percentage of utility revenues transferred was significantly higher than the other cities surveyed, and the average transfer amount per capita was also significantly higher.

Recommendation

The Board of Aldermen determine the value of government services being offset by the utility transfers, maintain documentation to support the amounts transferred, and evaluate the effect on the General Fund.

Status

Not Implemented

The Board has not determined the value of government services being offset by the utility transfers. In addition, the Board did not maintain documentation when determining the transfer percentage to support the amounts transferred, or perform a formal evaluation to determine the effect on the General Fund.

1.2 Utility rates

Periodic formal cost studies of utility rates were not performed and rates were not increased or decreased for any utility services for the past several years. Although utility rates were not changed, some utility funds subsidized other city funds, and heavily subsidized the General Fund.

Recommendation

The Board of Aldermen ensure formal reviews of utility rates are performed periodically to ensure revenues are sufficient to cover all costs of providing the service without generating excessive profits.

Status

Implemented

The Board hired a consulting firm that specializes in rate studies to perform rate studies for electric and water. The firm proposed various changes to the previous electric and water rate structures that resulted in rate increases for the majority of customers. The firm recommended electric rates more closely represent the cost incurred by the city, and recommended water rates provide a reasonable operating margin. The Board passed two ordinances in October 2018 to implement the changes as proposed in the rate studies. The City Clerk indicated the Board has not pursued a new study of sewer rates because the most recent rate adjustments were based on recommendations from the Missouri Department of Natural Resources and operating revenues and expenses have not changed significantly since that time.

1.3 Utility deposits

The city did not reconcile customer utility deposit balances reported in the utility system to the city's accounting records.

Recommendation

The Board of Aldermen periodically reconcile customer utility deposits per the utility system to accounting records and promptly investigate any differences.

Status

Partially Implemented

The City Clerk indicated employees performed a reconciliation of customer utility deposits per the utility system to the city's accounting records but could not identify the cause of the differences. We reviewed the April 2019 reports and noted electric deposits were $352 less than the city's accounting records and water deposits were $396 greater than the city's accounting records. City officials said they have no specific plans to continue this reconciliation process or investigate and correct differences.

1.4 Utility billing

The city's utility customers that qualify as tax-exempt entities under Section 501(c)(3) of the Internal Revenue Code (i.e., nonprofit entities) were not billed for sewer service. Additionally, the Board did not discuss or approve economic incentives, and as a result, the city was not open and/or transparent when awarding certain economic incentives in the form of reduced or waived electric charges.

Recommendation

The Board of Aldermen ensure all sewer charges are assessed and paid, and determine whether the city should seek reimbursement of sewer charges not paid. Also, the Board should review and approve any economic incentives offered by the city.

Status

Implemented

The Board passed two ordinances in October 2018 to eliminate any exemptions or other preferential treatment for nonprofit entities. We reviewed the utility billing history of 11 accounts previously classified as exempt from sewer charges and found each was billed for monthly sewer services beginning November 2018.

The Board determined to not seek reimbursement of sewer charges previously not billed because it would place a financial hardship on the nonprofit entities. The City Clerk indicated any future economic incentive offers will require Board approval, and the city has not offered any additional economic incentives.

1.5 Non-monetary adjustments

Controls over non-monetary adjustments posted to customer utility accounts needed improvement. Non-monetary adjustments posted to the system were

not reviewed and approved by an independent person and documentation of the reasons why these adjustments were necessary were not always retained.

Recommendation

The Board of Aldermen ensure all non-monetary adjustments are properly approved and compared to actual changes posted to the computer system. Documentation of all non-monetary adjustments should be retained.

Status

Implemented

The city implemented revised procedures to ensure non-monetary adjustments are properly approved and compared to actual changes posted in the computer system and documentation of all non-monetary adjustments is retained. The Municipal Court Clerk enters each adjustment and documents the reason, and the Utility Clerk reviews and approves each adjustment by reviewing and initialing the documentation.

We reviewed the Board packet for the April 11, 2019, meeting and noted the packet included a system generated report of all utility adjustments completed for the months of February and March 2019. Adequate documentation of each adjustment made during this period was retained.

1.6 Accounts receivable reconciliations

The city did not perform monthly reconciliations of total amounts billed, payments received, and amounts unpaid for any of the city's utility services.

Recommendation

The Board of Aldermen ensure monthly reconciliations of amounts billed to amounts collected and delinquent accounts are performed.

Status

Not Implemented

The Board has taken no actions to implement this recommendation. The Board now receives a monthly report of all delinquent utility accounts but without a proper reconciliation of amounts billed, payments received, and amounts unpaid, the Board has little assurance that this report is complete and accurate.

1.7 Utility loss

City officials did not have any procedures to determine electric losses, and did not review and investigate significant water losses.

Recommendation

The Board of Aldermen prepare a monthly reconciliation of electric purchased to amounts billed and used by the city. Also, the Board should review the city's monthly water and electric loss reports and investigate significant differences.

Status

Not Implemented

City officials attempted to compile the information for a monthly electric loss reconciliation; however, we identified problems with the reconciliation process and the Board did not review this information. The Board also does not review the city's monthly water loss report and significant differences are not investigated.

2. Monitoring Financial Condition

The Board had not monitored the financial condition of the city, was not receiving detailed information showing cash balances for each fund, and had relied on transfers from utility funds to balance the city's budget.

Recommendation

The Board of Aldermen ensure monthly detailed financial data is provided to Board members, perform immediate and long-term planning, and closely monitor and take necessary steps to improve the financial condition of the various city funds. In addition, the Board should discontinue subsidizing city funds with utility monies.

Status

Partially Implemented

Board members are now provided detailed financial reports on a monthly basis. The Board is now reviewing a report of budget to actual revenues and expenditures by each fund and department. However, no information on the cash balance of each fund is provided. The Board has begun immediate and long-term planning and taken steps to improve the financial condition of the various city funds. The Board has started to build additional reserves for utilities maintenance by reducing the amount of utility revenues transferred to the General Fund. The financial condition of the Library Fund has also improved as a result of actions taken by the Board to reduce expenses. However, the Board continues to rely on utility transfers to subsidize the General Fund.

3.1 Budgets and Financial Reporting - Budgetary requirements

Annual budgets did not contain a budget message, the actual beginning and estimated ending cash balance for each fund, or a budget summary as required by state law. As a result of not having all information required to accurately prepare budgets, the Board unknowingly approved deficit budgets for the General Fund and Library Fund for the fiscal year ended June 30, 2017, in violation of state law. Deficit budgeting and/or negative fund balances were also noted as problems in the financial statement audit report.

Recommendation

The Board of Aldermen ensure annual budgets contain all information required by state law. In addition, the Board should not approve deficit budgets.

Status

Partially Implemented

The City Administrator now includes a budget message and budget summary with the budget submitted to the Board. However, this budget still does not include the actual beginning and ending cash balances for each fund. Without beginning and ending cash balances for each fund, Board members cannot ensure they are not approving deficit budgets.

3.2 Budgets and Financial Reporting - Budget monitoring

The Board did not adequately monitor budget-to-actual receipts and disbursements. The city's actual disbursements exceeded budgeted disbursements for the General, Library, Electric, and Water Funds prior to June 30, 2017; however, a budget amendment was not prepared or approved by the Board before the budget was overspent or before the fiscal year ended.

Recommendation

The Board of Aldermen periodically obtain and review reports of budgeted and actual disbursements to properly monitor the annual budget, ensure disbursements do not exceed budgeted appropriations, and prepare any necessary budget amendments timely.

Status

Partially Implemented

The Board now reviews monthly reports of budgeted and actual disbursements for each fund and department. On April 11, 2019, the Board received reports that indicated disbursements from the General Fund exceeded budgeted disbursements to date by approximately $123,000. City officials indicated no budget amendments were prepared or approved for the fiscal year ended June 30, 2019.

5.2 Disbursements - Written contracts

The city did not have written contracts with some service providers and certain outside parties. During the fiscal year ended June 30, 2017, the city paid for various services without a written contract including mowing ($28,400), consulting ($18,001), information technology ($10,057), legal ($38,214), and pest control ($1,450).

Recommendation

The Board of Aldermen enter into written contracts defining services provided and benefits received.

Status

Not Implemented

The city continues to pay existing vendors for various services without establishing a written contract. In addition, contracts have not been entered into with new service vendors including tree trimming and electric contractors hired to assist in restoring electrical power after a major winter ice storm damaged trees and power lines.

5.3 Disbursements - Bidding and documentation

The city did not always solicit competitive bids or proposals for goods and services as required by the city code. In addition, city personnel did not document the reasons when rejecting the lowest bid.

Recommendation

The Board of Aldermen solicit bids and proposals for all applicable purchases and clarify city code to include the requirements for soliciting and/or advertising bids. In addition, document the reasons when the lowest bid is not accepted.

Status

Partially Implemented

The Board documented reasons for not accepting the lowest bid on a recent construction project. While the Board has solicited bids and proposals for some applicable purchases, they did not solicit bids for ongoing services such as legal, accounting, information technology, and surveying. Also, the Board has not revised the city code to include requirements for soliciting and/or advertising bids.

5.4 Disbursements - Approval process

The city did not require documented supervisory approval for purchases. Although the city had adopted a purchase order form to document supervisory approval prior to payment, the purchase order procedure had not been added to the city code and was not consistently followed.

Recommendation

The Board of Aldermen establish formal policies and procedures to ensure the proper use, accountability, and review and approval of purchase orders and invoices prior to payment.

Status

Not Implemented

The Board has not established formal policies and procedures to ensure the proper use, accountability, and review and approval of the purchase order form and purchase order procedures. The city did not have documented supervisory approval for 9 of 11 purchases made from 5 vendors during April 2019.

5.5 Disbursements - Mileage records and fuel

Mileage records were not reviewed for reasonableness and bulk fuel purchases were not reconciled to bulk fuel dispensed.

Recommendation

The Board of Aldermen reconcile fuel billings to fuel use records, promptly investigate any discrepancies, and periodically review fuel usage for reasonableness.

Status	**In Progress** City personnel reconcile monthly fuel billings to fuel use records and review fuel usage for reasonableness for fleet card purchases. City officials indicated monthly reconciliations of bulk fuel billings to fuel use records ended in October 2018 when an employee terminated employment, and this task was not assigned to another employee. City officials could not provide documentation of any reconciliations performed, and indicated this task will be reassigned to another employee immediately.
5.6 Disbursements - Questionable use of city resources	The Board was aware of two planned projects that resulted in the city using public resources for private gain, but it took no action to stop these projects. The Board did not discuss or approve the projects, and the city did not seek to recover any of the expenses incurred for working on or making improvements to private land.
Recommendation	The Board of Aldermen prohibit the use of public resources for private gain and consult with legal counsel to determine whether the value of services provided to private citizens should be recovered.
Status	**Partially Implemented** The Board indicated this practice has been discontinued, and we did not identify any instances of city resources being expended on a private citizen's property. The Board did not consult with legal counsel to determine whether the value of services previously provided to private citizens should be recovered.
6. Closed Meetings	Some topics discussed and voted on in closed meetings by the Board were not related to the reasons cited for closing the meeting listed in the open meeting minutes. In addition, the Board discussed some items in closed meetings that were not allowable under the Sunshine Law.
Recommendation	The Board of Aldermen ensure only allowable topics cited in the open minutes as the reason for closing the meeting are discussed in closed meetings.
Status	**Not Implemented** The Board held 8 closed meetings from December 2018 through May 2019. Topics discussed were not related to the section cited in the open minutes for 5 of the 8 meetings, and 5 of these meetings discussed topics not allowed for in a closed meeting. In addition, some topics cited in the open minutes were either not discussed in the closed meeting or were not documented in the closed minutes.

7.2 Payroll Controls and Procedures - Time records

The city did not require time records be prepared or maintained for salaried employees, the city's procedures for calculating overtime were not compliant with city policies and federal regulations, and employees were paid based on estimated instead of actual hours. We identified errors in the processing of time and leave records and the accuracy of documentation to support payroll transactions.

Salaried employees were not required to submit documentation of hours worked and/or tasks performed. Also, of the 6 hourly employee time records we reviewed, 4 were not signed or approved by a supervisor.

Hourly employees did not always record overtime worked on time records and/or submit separate overtime requests for overtime worked, and overtime and compensatory time accruals were not always recorded on an employee's weekly time record. In addition, the city's method of calculating overtime was not consistent with the Fair Labor Standards Act (FLSA) or city personnel policies, resulting in increased and unnecessary costs to the city.

The city distributed payroll for all employees every other Friday. Time records were prepared and submitted approximately 2 days in advance of the payroll distributions, and as a result, were not accurate because they reflected the employee's scheduled hours instead of actual hours worked. The city had not established an official policy or provided employees with guidance on how to report unanticipated changes such as unplanned vacation leave or sick leave taken on the days that were paid based on estimates.

Recommendation

The Board of Aldermen ensure daily time records are prepared, properly signed, approved, and retained for all employees, and the information should be reviewed for accuracy prior to entry into the accounting system. In addition, ensure overtime and compensatory time accruals comply with established city policies and the FLSA, ensure controls are in place to make sure employees are not over/under paid based on the payment of estimated hours, and ensure personnel policies contain adequate detail.

Status

In Progress

The Board has made significant improvements in controls over payroll. Time records are required for all employees, payroll is prepared in compliance with city policy and the FLSA, and payroll is no longer based on estimated hours. We reviewed April 2019 payroll records for 3 haphazardly selected employees and noted the records were signed by the employee and retained; however, only 2 records were approved by a supervisor. In addition, the Board revised the personnel policy to include adequate detail of required procedures.

7.3 Payroll Controls and Procedures - Leave accruals

The city's computerized system only allowed employees to accrue 200 hours of vacation leave instead of the maximum of 320 hours allowed by the personnel policy due to a programming error. In addition, employees accrued 10 hours of sick leave monthly instead of 3.69 hours per bi-weekly pay period established by the personnel policy.

Recommendation

The Board of Aldermen ensure vacation and sick leave accruals are in compliance with personnel policies.

Status

Implemented

The Board revised the personnel policy to reflect actual procedures used. For April 2019, we reviewed leave requests, leave accruals, and time records for 3 employees. The records reviewed complied with the current personnel policies.

7.4 Payroll Controls and Procedures - Independent contractor

At the Emergency Services Coordinator's request, the city changed the Coordinator from an independent contractor to an employee starting in January 2016. City officials did not document the reasons for the change or document how they determined what the proper classification was for this position. In addition, the Coordinator did not submit a log or other records to document hours worked.

Recommendation

The Board of Aldermen determine the proper classification for the Emergency Services Coordinator. In addition, proper supporting documentation indicating hours worked should be obtained.

Status

Implemented

The Board has determined the Emergency Services Coordinator should be classified as an employee and he must comply with all policies applicable to other city employees, including submitting weekly time records.

7.5 Payroll Controls and Procedures - Compensation ordinance

The city did not have ordinances establishing the compensation of city officials and employees as required by city code. City personnel policy 3-1 indicated the employee pay rate is established by the pay plan. However, the city was unable to provide a pay plan.

Recommendation

The Board of Aldermen establish the compensation of all city officials and employees by ordinance, and ensure city code and city personnel policies reflect current procedures.

Status	**In Progress** The Board has approved and implemented a pay plan that sets the compensation structure for all city employees and revised city personnel policies to reflect current procedures. However, the Board has not amended or passed an ordinance as required by city code. The City Clerk indicated she is in the process of drafting a compensation ordinance to present to the Board.
7.6 Payroll Controls and Procedures - Pay raises and performance appraisals	The city was not complying with city code or personnel policy when giving pay raises to appointed officers. Additionally, the city did not conduct documented performance reviews or appraisals of employees as required by the city personnel policy, though various pay increases were given including, but not limited to, successful completion of job specific certifications, successful completion of a probationary period, and promotions.
Recommendation	The Board of Aldermen ensure compensation for appointed officials does not increase during the time for which he/she was elected or appointed in compliance with city code. In addition, ensure documented performance reviews are performed in conjunction with pay raises and promotions.
Status	**Implemented** The Board entered into a 2 year employment contract with the former City Administrator. He retired on June 30, 2019, and the Board selected a replacement who received a one year employment contract. Also, the Board revised the ordinance to change the term of the City Clerk to an annual appointment, and implemented annual performance reviews. We reviewed all pay raises issued since December 2018 and found no instances where elected or appointed officials received a pay increase during the time for which they were elected or appointed. Annual appraisals for fiscal year 2019 are currently being conducted and finalized.
8.1 Accounting Controls and Procedures - Segregation of duties	The Board had not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work completed by city office personnel were performed.
Recommendation	The Board of Aldermen segregate the accounting duties of the city office personnel. If proper segregation cannot be achieved, ensure a documented independent or supervisory review of detailed accounting and bank records is performed.
Status	**Implemented** The Board has hired additional administrative and accounting personnel and has adequately segregated accounting duties.

8.4 Accounting Controls and Procedures - Bonding

The Board members, who sign checks and have access to monies held in bank accounts, were not covered by a bond. Also, the Utility Clerk's bond did not provide adequate coverage since it was significantly less than other personnel.

Recommendation

The Board of Aldermen obtain bond coverage for all personnel with access to city monies, and ensure the bond amount for the Utility Clerk is comparable to other personnel.

Status

Implemented

City officials indicated they consulted with the city's insurance company and determined the city already has insurance that provides for employee theft coverage, limited to $100,000 per occurrence. For purposes of this policy, Board members are also considered employees.

9. Planning and Zoning

The City of Seymour did not have a city plan or comprehensive plan to guide planning and zoning activities.

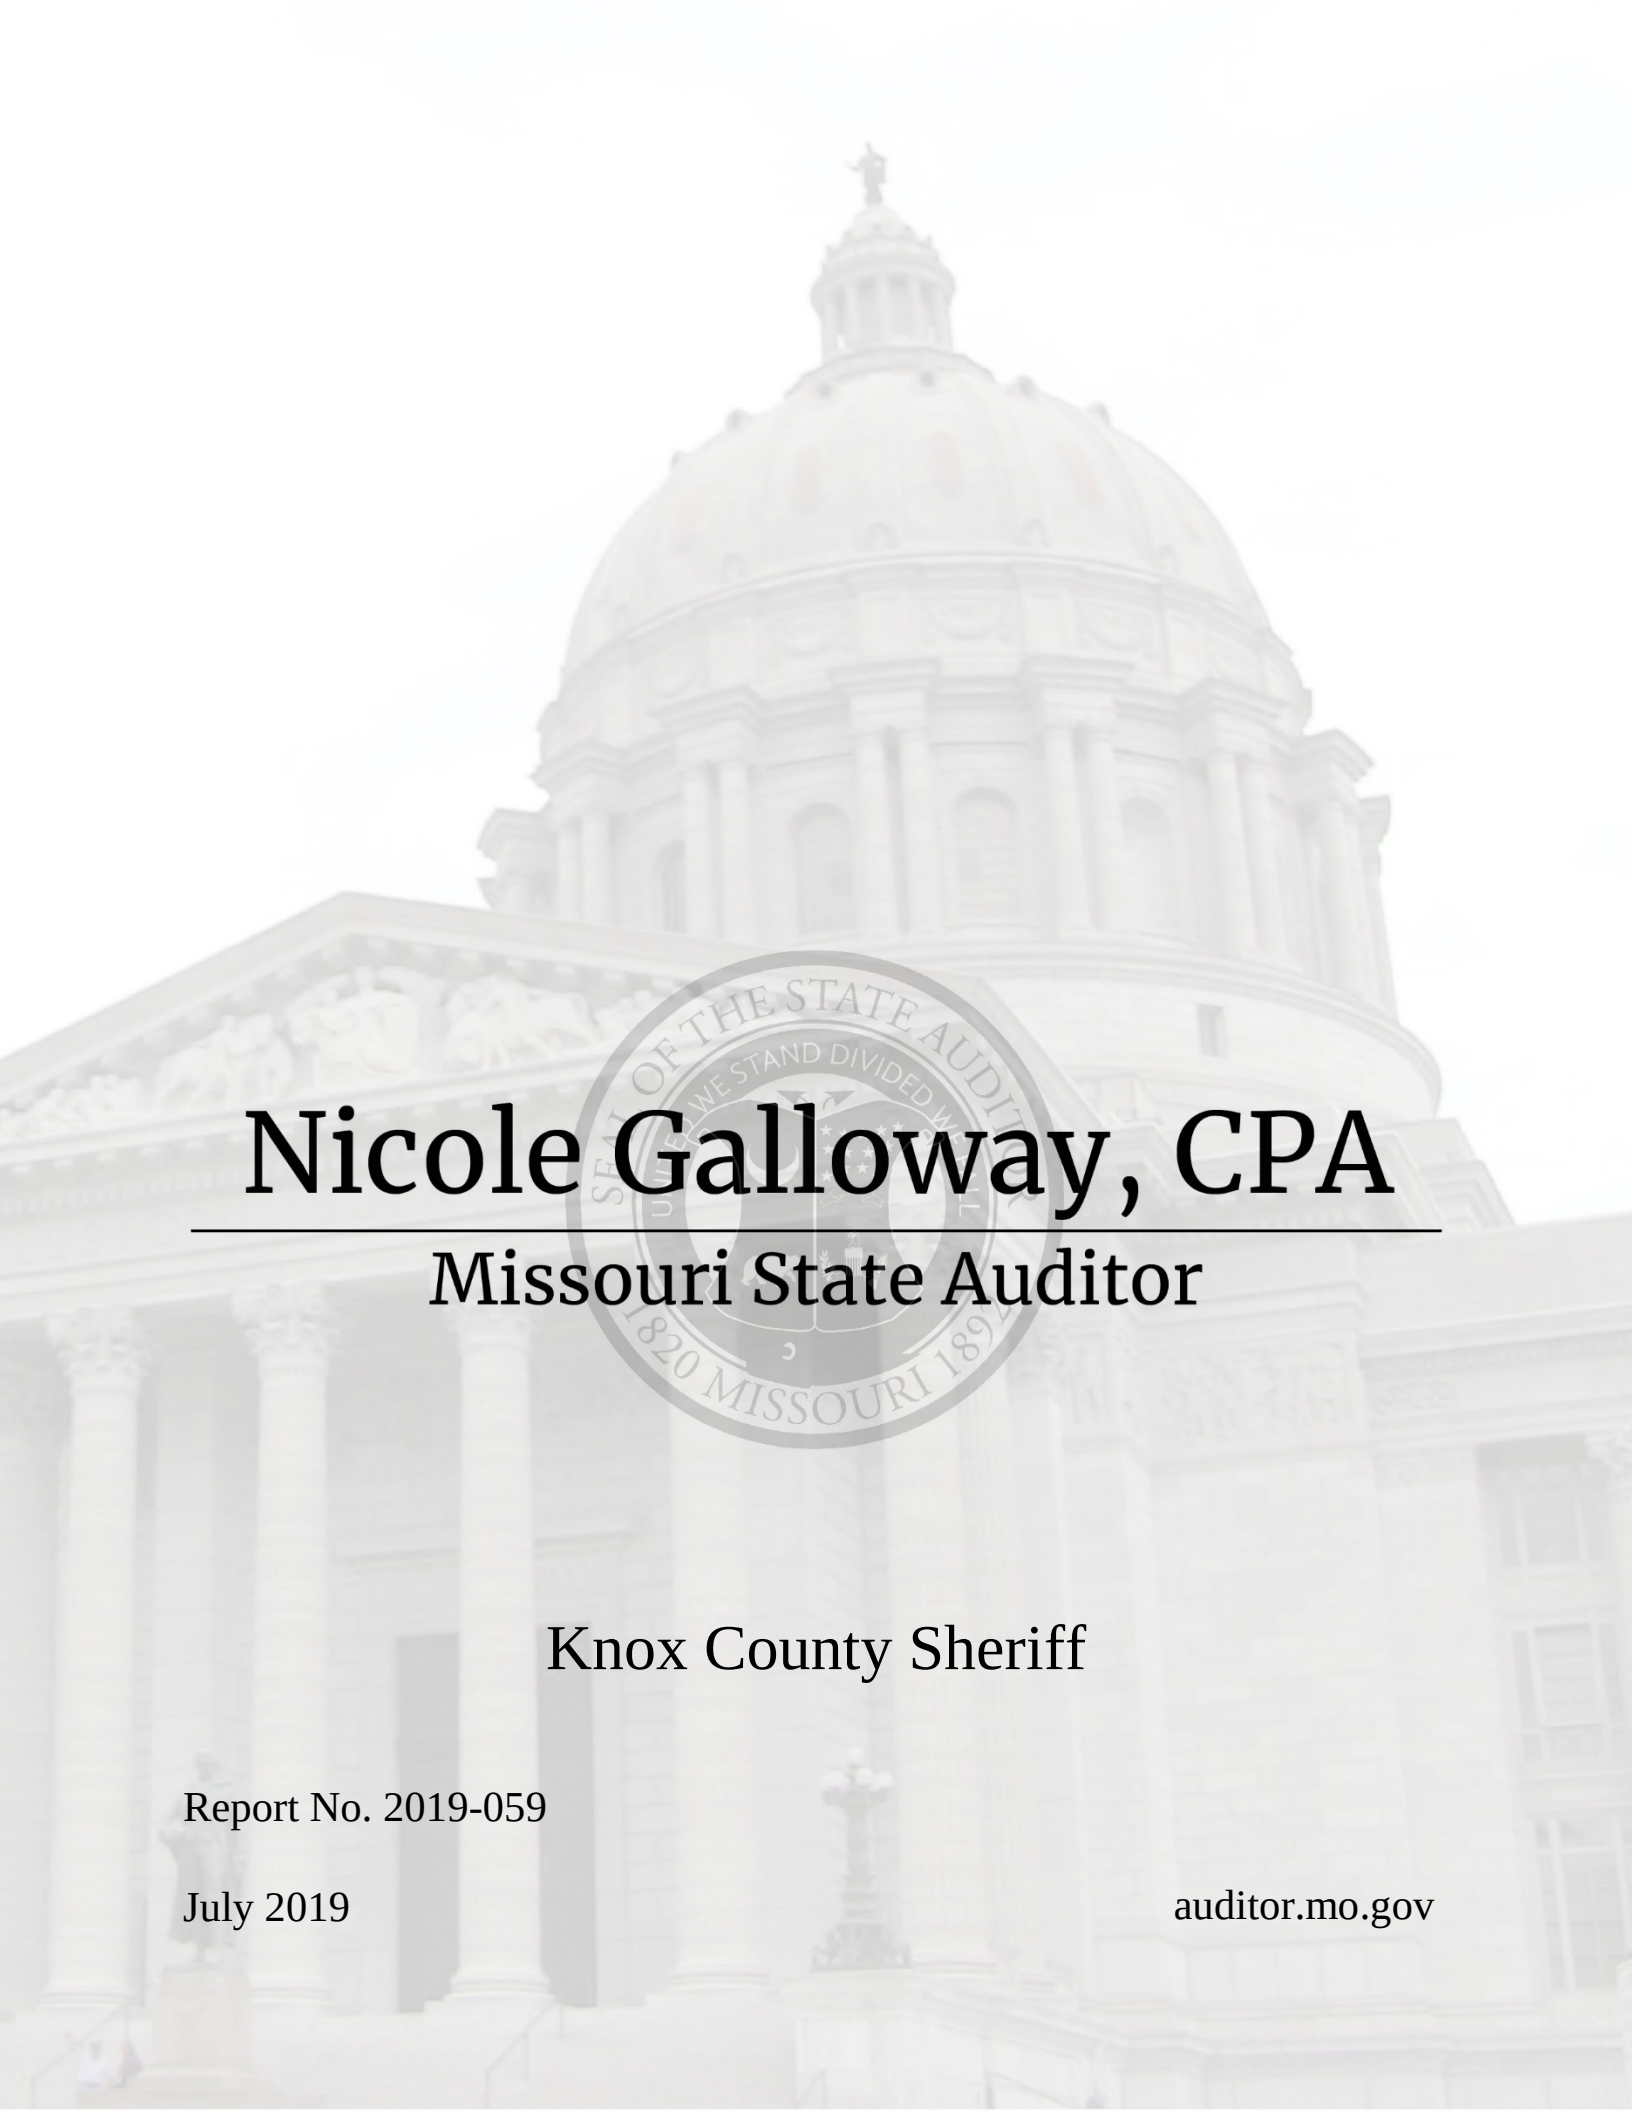
Recommendation

The Board of Aldermen and/or the Planning and Zoning Board create and adopt a city plan and comprehensive plan to help guide future decisions regarding development of the municipality.

Status

In Progress

A new Planning and Zoning Board has been seated and is tasked with implementing this recommendation. City officials indicated they obtained information from the Missouri Department of Economic Development about agencies to contact regarding receiving assistance in creating a comprehensive plan at no charge to the city.



Nicole Galloway, CPA

Missouri State Auditor

Knox County Sheriff

Report No. 2019-059

July 2019

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Knox County Sheriff

Sheriff's Controls and Procedures	The Sheriff has not adequately segregated accounting duties and does not perform an adequate supervisory review of detailed accounting and bank records. The Sheriff's Administrative Assistant does not prepare adequate bank reconciliations for the Sheriff's bank account. The former Sheriff received a grant that was not used and now must be returned.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

State Auditor's Report 2

Management Advisory Report - State Auditor's Findings
1. Sheriff's Controls and Procedures 4

Organization and Statistical Information 6

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Sheriff of Knox County

We have audited certain operations of the Knox County Sheriff in fulfillment of our duties under Sections 29.200.3 and 29.230, RSMo. In addition, we performed the audit at the request of the Knox County Commission. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the Sheriff's internal controls over significant management and financial functions.

2. Evaluate the Sheriff's compliance with certain legal provisions.

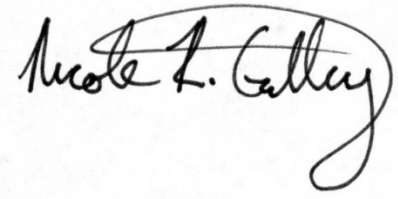
3. Evaluate the economy and efficiency of the Sheriff's management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the Knox County Sheriff and the county's management and was not subjected to the procedures applied in our audit of the office.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Sheriff of Knox County.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kelly Davis, M.Acct., CPA, CFE
Audit Manager:	Travis Owens, MBA, CPA, CFE, CGAP
In-Charge Auditor:	James M. Applegate, MBA

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The Sheriff's office processed receipts for civil paper service fees and mileage, bonds, and other miscellaneous receipts totaling approximately $23,600 for the year ended December 31, 2018.

1.1 Segregation of duties and supervisory review

The Sheriff has not adequately segregated accounting duties and does not perform an adequate supervisory review of detailed accounting and bank records. The Sheriff's Administrative Assistant is responsible for receipting, recording, and depositing monies; making disbursements; and reviewing the monthly bank statements. While the Sheriff documents his review of the monthly bank statements, he does not review other accounting records to ensure monies received have been properly recorded, deposited, and disbursed.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing monies; making disbursements; and performing bank reconciliations. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential and should include comparing daily receipt activity to deposits.

1.2 Bank reconciliations

The Sheriff's Administrative Assistant does not prepare adequate bank reconciliations for the Sheriff's bank account. The reconciliation process includes documenting the transactions that have cleared the bank; however, lists of outstanding checks and deposits in transit are not prepared or reviewed. We determined the bank account's reconciled balance was $5 as of December 31, 2018.

Performing adequate monthly bank reconciliations helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely.

1.3 Sheriff's grant revenues

The former Sheriff received a grant that went unused and now must be returned.

In November 2018, the former Sheriff received a Local Law Enforcement Block Grant (LLEBG) totaling $3,719 from the Missouri Department of Public Safety (DPS) for the purchase of safety equipment. The County Treasurer deposited this money in the Law Enforcement Fund and separately identified that it must be used for restricted purposes. However, the former Sheriff did not report any purchases to the County Clerk related to this money and the county's accounting system listed no disbursements of it.

The LLEBG award must be expended only for items approved in the budget submitted to and approved by the DPS. The submitted budget indicated the

award would be used to purchase body armor, medical kits, and other law enforcement related safety equipment. Due to the prior Sheriff's failure to use this money as required, the current Sheriff must return it to the DPS, according to the terms of the grant. As a result, the Sheriff will have to use other county funds to purchase these items, find other grant funding, or forego making the purchases.

To ensure efficient use of the Sheriff's office resources, grant funding should be used as allowed and closely monitored.

Recommendations

The Sheriff:

1.1 Segregate accounting duties or ensure documented supervisory reviews of detailed accounting and bank records are performed.

1.2 Ensure adequate monthly bank reconciliations are prepared, and lists of outstanding checks and deposits in transit are prepared. Any differences between the accounting records and reconciliations should be promptly investigated and resolved.

1.3 Ensure future grant monies are monitored and utilized as allowed.

Auditee's Response

1.1 Accounting duties cannot be segregated due to lack of personnel; however, I will begin performing a documented supervisory review of detailed accounting and bank records. I will periodically review receipt slips and compare the receipt slips to deposit records, as well as review monthly bank statements and bank reconciliations.

1.2 I have worked with my Administrative Assistant to implement this recommendation. She is now performing formal bank reconciliations monthly and comparing the reconciled bank balance to the checkbook balance to ensure agreement. I will ensure the reconciliations continue to be performed monthly.

1.3 This recommendation addresses the prior Sheriff's failure to properly monitor and utilize grant monies. After my appointment as Sheriff, I was never notified of the status of the grant monies and the grant term expired before I could expend the monies for their intended purpose. I am cooperating with the DPS and intend to repay the monies out of my 2019 budget. I will ensure that any future grant monies are adequately monitored and utilized in accordance with the grant terms and conditions.

Knox County Sheriff
Organization and Statistical Information

The Sheriff is the chief law enforcement officer of the county. The Sheriff's duties are defined in state law, and include transporting prisoners to state penitentiaries and other county jails and serving various legal papers and processes. The Sheriff's office collects monies for various fees, bonds, and other miscellaneous receipts.

Robert Becker was elected Knox County Sheriff in November 2016. As required by a condition of probation for criminal charges, he resigned from office on December 31, 2018. Also, 3 deputies and one clerical employee resigned in December 2018 prior to the former Sheriff's resignation. The County Commission appointed Allen Gudehus as Interim Sheriff effective January 1, 2019, and the county held a special election for Sheriff on February 26, 2019. Allen Gudehus won the special election and is now serving as Sheriff. During the year ended December 31, 2018, former Sheriff Robert Becker received a salary of $45,790. In addition to the Sheriff, the office employed 1 full-time employee on December 31, 2018.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Douglas County, Missouri

The Office of the State Auditor contracted for an audit of Douglas County's financial statements for the year ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Douglas County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Douglas County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2018, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Douglas County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Douglas County, Missouri, as of December 31, 2018, or the changes in financial position thereof for the year then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Douglas County, Missouri, as of December 31, 2018, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated June 25, 2019, on our consideration of Douglas County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Douglas County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Douglas County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Douglas County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, and other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from

accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied in September and tax bills are mailed to taxpayers in October, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar year 2018 for purposes of taxation were:

	2018
Real Estate	$ 106,460,106
Personal Property	47,473,408
Railroad and Utilities	3,146,150
Total	$ 157,079,664

For calendar year 2018, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2018
General Revenue	$0.1300
Special Road & Bridge	0.2127
Senate Bill 40 Board	0.0812

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents includes deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, the carrying amount of the County's deposits was $1,579,618, and the bank balance was $1,862,256. Of the bank balance, $371,531 was covered by federal depository insurance at December 31, 2018. The remainder of the balance at December 31, 2018 was covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2018, County officeholders held, in addition to the cash and cash equivalents listed above, cash held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018, the carrying amount of the County's custodial funds was $4,152,618, and the bank balance was $3,348,511. Of the bank balance, $421,537 was covered by federal depository insurance at December 31, 2018. The remainder of the balances at December 31, 2018 was covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2018, the County collected and remitted to CERF employee withholdings and fees collected of $150,924.

B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $11,628 for the year ended December 31, 2018.

C. Other Retirement Plan

Douglas County has voluntary 457 and 414(h) plans which are paid by deductions from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2018 for the 457 plan was $30,779. Employee contributions collected and remitted by the County for the year ended December 31, 2018 for the 414(h) plan was $9,693.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides employees with up to 120 hours (15 days) of paid vacation based upon the number of years of continuous service, and 24 hours of personal time. Vacation and personal time does not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation. Unused personal time is not reimbursable upon termination. Employees accrue 4 hours of sick time per month. The County allows employees to carry forward a maximum of 240 hours (30 days). Accumulated sick leave is paid out at 50% upon termination of employment for employees with a minimum of 5 years of continuous employment with the County.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2018:

A. In December 2009, the County entered into a cancelable lease purchase agreement to finance the purchase of a John Deere motor grader at a cost of $159,600. The agreement was refinanced with an additional $8,988 extended warranty in April 2015 and requires five annual payments of $20,515, which includes interest at 2.47% until 2020, plus one additional payment of $9,500 in 2020. Future payments under the lease are as follows:

Year	Principal	Interest
2019	$19,301	$1,214
2020	29,284	731
	$48,585	$1,945

B. In October 2013, the County entered into a lease purchase agreement to finance the purchase of a 2014 John Deere motor grader at a net cost of $173,890 after trade-in allowance. The agreement requires five annual payments of $16,900, which includes interest at 3.3% until 2018, plus one additional payment of $115,000 in 2018. The balance due of $115,360 was refinanced in February 2018 through Town & Country Bank for 5 years through December 2023. There are 5 fixed annual payments of $26,095, which includes interest at 4.25%. The first payment is due on December 31, 2019.

Year	Principal	Interest
2019	$ 21,193	$ 4,902
2020	22,093	4,002
2021	23,032	3,063
2022	24,011	2,084
2023	25,031	1,064
	$115,360	$15,115

C. In June 2016, the County entered into a $197,087 lease agreement for the acquisition of Six (6) 2016 Dodge Ram Trucks for the Sheriff's department. The lease is through Town & Country Bank for 5 years through June 2021. There are 5 fixed annual payments of $35,650, which includes interest at 2.39%.

Year	Principal	Interest
2019	$ 32,382	$3,268
2020	33,157	2,493
2021	33,950	1,700
2022	34,763	887
	$134,252	$8,348

D. In February 2018, the County entered into a lease purchase agreement to finance the purchase of a 2017 John Deere motor grader at a net cost of $163,067 after trade-in allowance. The lease is financed through Deere Credit through May 2023. There are 5 fixed annual payments of $13,347, which includes interest at 3.75%, and a residual payment of $125,500. The first payment is due on March 1, 2019.

Year	Principal	Interest
2019	$ 7,126	$ 6,221
2020	7,398	5,949
2021	7,680	5,667
2022	7,973	5,374
2023	132,890	5,459
	$163,067	$28,670

The following schedule shows changes in long-term debt during the year ended December 31, 2018:

Description	Beginning Balance	Additions	Payments	Ending Balance	Interest
2009 John Deere Motor Grader	$ 67,416	$ -	$ 18,831	$ 48,585	$ 1,684
2014 John Deere Motor Grader	127,669	115,360	127,669	115,360	4,653
2016 Dodge Ram Trucks	165,904	-	31,652	134,252	3,998
2017 John Deere Motor Grader	-	163,067	-	163,067	-
	$360,989	$278,427	$178,152	$461,264	$10,335

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through June 25, 2019, the date the financial statements were available to be issued.

In November 2018, voters in the County approved a .5% sales tax for the purpose of maintenance and improvements to county roads and bridges. The County will begin collecting this tax in 2019.

In February 2019, the County closed on $5,840,000 of Certificates of Participation for the construction of a new jail. The following schedule shows the County's future obligations under these Certificates:

Year	Coupon	Principal	Interest	Total
2019	3%	$ 110,000	$ 182,316	$ 292,316
2020	3%	140,000	219,944	359,944
2021	3%	145,000	215,744	360,744
2022	3%	150,000	211,394	361,394
2023	3%	155,000	206,894	361,894
2024-2028	3%-3.25%	840,000	962,168	1,802,168
2029-2033	3.25%-3.75%	985,000	815,231	1,800,231
2034-2038	3.75%-4.125%	1,185,000	611,950	1,796,950
2039-2043	4.125%-4.375%	1,455,000	343,431	1,798,431
2044-2045	4.375%	675,000	44,625	719,625
		$5,840,000	$3,813,697	$9,653,697

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Douglas County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Douglas County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2018, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Douglas County, Missouri's basic financial statements and have issued our report thereon dated June 25, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Douglas County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Douglas County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Douglas County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Douglas County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

DOUGLAS COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditor's follow-up on action taken by Douglas County, Missouri, on the applicable findings in the prior audit report issued for the years ended December 31, 2017 and 2016.

2017-001: The County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures in 2017: Assessment Fund. The following fund did not have a budget prepared for 2017 and 2016: Special Election Fund.

Status: Resolved.

Missouri State Auditor

Dent County

Report No. 2019-057

July 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Dent County

Sheriff's Controls and Procedures	The Sheriff has not adequately segregated accounting duties and does not ensure adequate supervisory review of detailed accounting and bank records are performed. The administrative clerks do not prepare adequate bank reconciliations for the bond, fee, and commissary bank accounts. The Sheriff does not disburse commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law. The Sheriff's office does not always make deposits timely or intact. The Sheriff does not have proper controls and procedures in place to ensure all unpaid costs for boarding prisoners and civil paper service fees are adequately identified and pursued.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney's office does not always timely disburse bad check payments to victims or fees received to the County Treasurer. The Prosecuting Attorney does not ensure a monthly list of liabilities for the office's main bank account is prepared and agreed to the reconciled bank balance.
Public Administrator's Annual Status Reports	The Public Administrator does not always file annual status reports timely or accurately.
Electronic Data Security	The County Assessor, County Collector, County Clerk, County Treasurer, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Security controls are not in place to lock computers in the office of the Recorder of Deeds after a specified number of incorrect logon attempts. The Public Administrator does not back up computer data leaving this office at risk if data is lost or destroyed.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Dent County

We have audited certain operations of Dent County in fulfillment of our duties under Section 29.230, RSMo. In addition, Stopp & VanHoy, Certified Public Accountants and Business Advisors, LLC, was engaged to audit the financial statements of Dent County for the 2 years ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

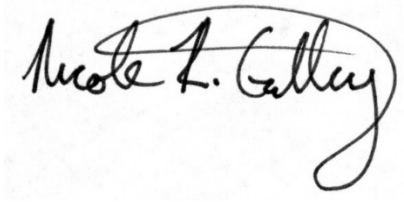
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Dent County.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Lori Melton, M.Acct., CPA
In-Charge Auditor:	Mackenzie J. Wooster
Audit Staff:	Albert Borde-Koufie, MBA
	Devin Jackson
	Jacob Thompson

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The Sheriff's office processed receipts for civil paper service, board bills, concealed carry weapon permits, and other miscellaneous receipts totaling approximately $74,000 through the fee account, bond receipts totaling approximately $71,000 through the bond account, inmate monies totaling approximately $78,000 through the commissary account, and fees from driving while intoxicated (DWI) charges totaling $879 through the DWI account, during the year ended December 31, 2018.

1.1 Segregation of duties

The Sheriff has not adequately segregated accounting duties and does not ensure adequate supervisory review of detailed accounting and bank records are performed. The Head Administrative Clerk is responsible for receipting payments received in the mail, writing checks, making deposits, and reconciling the fee and DWI bank accounts. Another clerk is responsible for the same duties for the bond and commissary accounts. The Sheriff does not review accounting records to ensure monies received have been properly recorded, deposited, and disbursed to the appropriate parties.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing payments; making disbursements; and reconciling bank accounts. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential and should include comparing daily receipt activity to deposits and disbursements to supporting documentation.

1.2 Bank reconciliations and liabilities

The administrative clerks do not prepare adequate bank reconciliations for the bond, fee, and commissary bank accounts. In addition, monthly lists of liabilities are not prepared to reconcile to the account balances.

The bank reconciliation process only includes documenting the transactions that have cleared the bank; however, reports of outstanding checks and deposits in transit are not prepared or reviewed. We determined the reconciled bank balances for the bond, fee, and commissary accounts as of October 31, 2018, were $512; $3,842; and $17,902 respectively. Office personnel did not prepare a list of liabilities for any of these accounts. The commissary system can generate a list of liabilities report indicating the inmate's individual account balances, but office personnel do not generate this report to reconcile the report to the commissary reconciled balance. The commissary bank account also contains commissary net proceeds that have not been turned over to the Inmate Prisoner Detainee Security Fund (see section 1.3).

Performing adequate monthly bank reconciliations helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular

identification and comparison of liabilities to the available cash balance is necessary to ensure records are in balance and monies are available to satisfy all liabilities.

1.3 Inmate Prisoner Detainee Security Fund

The Sheriff does not disburse commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law. Net proceeds from commissary sales, and commissions received from commissary vendors for purchases made by inmates are retained with the inmate monies in the commissary bank account. Any amount in the bank account exceeding the inmate monies is considered commissary net proceeds. The Sheriff's office does not track commissary net proceeds, but instead disburses most funds in the commissary bank account once or twice a year to the Inmate Prisoner Detainee Security Fund held by the County Treasurer, leaving a balance of approximately $10,000 to pay the commissary vendors. Without reviewing the vendor's inmate account balances and tracking commissary net proceeds, the Sheriff cannot ensure enough money is retained in the bank account to cover inmate account balances and pay the commissary vendors.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) of the commissary account into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer.

1.4 Deposits

The Sheriff's office does not always make deposits timely or intact. For example, $2,876 receipted from October 9, 2018, through October 15, 2018, was not deposited until October 23, 2018. In addition, $570 receipted on October 16, 2018, through October 23, 2018, was not deposited until a $718 deposit was made on October 26, 2018, even though a deposit was made on October 23, 2018.

Failure to deposit timely or intact increases the risk that loss, theft, or misuse of monies received will go undetected.

1.5 Receivables

The Sheriff does not have proper controls and procedures in place to ensure all unpaid costs for boarding prisoners and civil paper service fees are adequately identified and pursued. During 2018, the Sheriff's office did not track all board bills or civil paper service fees billed or payments received. As a result, office personnel cannot monitor amounts billed to ensure payments are received and transmitted to the County Treasurer. County records indicate amounts transmitted to the County Treasurer for board bills and civil paper service fees totaled approximately $51,300 and $1,300, respectively in 2018.

Procedures such as independent reconciliations of billing records to jail records or civil paper service records and payments received should be established to ensure prisoner housing and civil paper services are properly billed, collected, recorded, and transmitted to the County Treasurer. Proper records and follow-up procedures are also necessary to safeguard against possible loss, theft, or misuse of funds going undetected.

Similar conditions previously reported

Similar conditions to sections 1.1, 1.4, and 1.5 were noted in our 2 prior audit reports. In addition, similar conditions to sections 1.2 and 1.3 were noted in our prior audit report.

Recommendations

The Sheriff:

1.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and bank records are performed and documented.

1.2 Ensure adequate monthly bank reconciliations are prepared for all bank accounts, and lists of outstanding checks and deposits in transit are prepared. In addition, prepare monthly lists of liabilities and reconcile the lists to the available cash balances. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

1.3 Ensure existing and future commissary net proceeds not necessary to meet cash flow needs or current operating expenses are disbursed to the County Treasurer for deposit in the Inmate Prisoner Detainee Security Fund.

1.4 Deposit monies timely and intact.

1.5 Develop procedures to ensure collections of costs for boarding prisoners and for civil paper services and the proper recording and transmittal of payments received.

Auditee's Response

1.1 The Sheriff will ensure adequate supervisory reviews are conducted on all accounting/bank records and deposits. The Sheriff will review and sign all accounting/bank statements, deposits, and all checks.

1.2 Bank reconciliations are now being done monthly on the bank accounts. Our accounts are reconciling to zero, besides the commissary account. We now obtain/create a list of inmate monies and reconcile it to the commissary account.

1.3 A minimal account balance, as deemed appropriate by the Sheriff to ensure continuous operation of the jail's facilities (i.e. commissary

payments, inmate phone systems, and returned inmate funds), will be maintained in the commissary account. The commissary account will be reviewed for liabilities monthly. Net proceeds will be transferred from the commissary account to the Inmate Prisoner Detainee Security Fund quarterly.

1.4 The Sheriff's office will make deposits weekly and intact. All monies as they are received are kept in a lock box. The key to the lock box is kept in a safe in the Sheriff's office with limited access to the safe by the Sheriff, Administrative Clerk, and the Chief Deputy.

1.5 The Sheriff's office has established procedures to track civil service fees billed and payments received. The Civil Process Administrator will log all paper service requests into the Omnigo Public Safety Software with check number/receipt number. Once service is completed, papers will be processed for mileage and entered into the Omnigo program and the mileage will be billed. Once a month, on the first of the month, the Civil Process Administrator will reconcile the accounts and send out payment due reminders. Any accounts not paid within 90 days will be suspended until payment is received. Once the ledger is complete it will be sent to the Administrative Clerk, reviewed by the Sheriff, and the Administrative Clerk will make the deposits. The Sheriff's office has purchased QuickBooks to track board bills. Board billing is currently pending review until guidance is given by the Missouri courts and the state legislature.

2. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately $68,000 in bad check and court-ordered restitution and fees during the year ended December 31, 2018.

2.1 Disbursements

The Prosecuting Attorney's office does not always timely disburse bad check payments to victims or fees received to the County Treasurer. The Prosecuting Attorney's office did not disburse $3,610 in bad check payments received from May 2018 through September 2018 until October 15, 2018. The Prosecuting Attorney indicated during that period his office experienced several changes in office personnel, resulting in the disbursements being untimely.

To ensure all receipts are accounted for properly and reduce the risk of loss, theft, or misuse of funds, bad check payments and fees received should be disbursed timely. Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such monies monthly to the County Treasurer. In addition, pursuant to Section 50.380,

RSMo, the Prosecuting Attorney may be subject to penalties for failure to timely disburse fees to the County Treasurer.

2.2 Liabilities

The Prosecuting Attorney does not ensure a monthly list of liabilities for the office's main bank account is prepared and agreed to the reconciled bank balance. The liabilities for the Prosecuting Attorney's main bank account was $714 at December 31, 2018. The reconciled bank balance was $1,831 at that date, leaving an unidentified balance of $1,117.

Monthly lists of liabilities should be reconciled to the available cash balance to ensure sufficient cash is available for the payments of amounts due and all monies in the bank can be identified. Prompt follow up on discrepancies is necessary to resolve errors. Further, various statutory provisions provide for the disposition of unidentified monies.

Recommendations

The Prosecuting Attorney:

2.1 Disburse bad checks payments to victims timely and bad checks fees in accordance with state law.

2.2 Prepare a monthly list of liabilities and reconcile the list to the reconciled bank balance monthly. Any differences should be promptly investigated and resolved. Any unidentified monies should be disposed of in accordance with state law.

Auditee's Response

2.1 Although some fees were not distributed within 30 days, all fees and restitution were fully dispersed to the County Treasurer and to victims since taking office in 2013.

2.2 The Prosecuting Attorney has tasked a CPA with reconciliation of restitution and fees. All fees and restitution are fully dispersed to the County Treasurer and victims.

3. Public Administrator's Annual Status Reports

The Public Administrator does not always file annual status reports timely or accurately.

During our review of 53 cases with status reports due in 2018, status reports were not filed timely for 12 of the 36 (33 percent) cases submitted. These 12 status reports were filed up to 10 months after the due date. In addition, 15 (42 percent) status reports submitted were not accurate and the Public Administrator had to correct and resubmit them. For example, for one status report, the total obtained when adding the amounts on the list of disbursements did not agree to the disbursement total indicated on the report. The Probate Judge granted extensions for all 17 status reports not submitted with one extension 212 days after the original due date. The Public Administrator does not keep a record of when annual status reports are due to

the court. Instead, she relies on the Circuit Court, Probate Division Clerk to send her reminder notifications.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual status report with the court for each ward or estate. Timely filing of status reports is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

Recommendation

The Public Administrator ensure annual status reports are filed timely and accurately.

Auditee's Response

The Public Administrator agrees with the recommendation and will take steps to implement the recommendation. The Public Administrator has submitted all status reports that are currently due to the Circuit Court, Probate Division. The Public Administrator now keeps due dates on the calendar to help with timeliness, and will use the previous status report to ensure the accuracy of the starting balance of the current status report.

4. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

4.1 Passwords

The County Assessor, County Collector, County Clerk, County Treasurer, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to periodically change their passwords. In addition, the passwords used by employees in the office of the Recorder of Deeds are not required to have a minimum number of characters.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords do not have to be periodically changed in 5 offices and do not contain a minimum number of characters in one office there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should contain a minimum number of characters and be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

4.2 Security controls

Security controls are not in place to lock computers in the office of the Recorder of Deeds after a specified number of incorrect logon attempts.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive unsuccessful logon attempts and are

necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords.

4.3 Data backups

The Public Administrator does not back up computer data leaving the office at risk if data is lost or destroyed.

Preparation of backup data increases assurance data could be recovered if necessary. To help prevent loss of information and ensure essential information and computer systems can be recovered, computer data should be backed up periodically, tested on a regular basis, and stored at a secure off-site location.

Recommendations

The County Commission work with other county officials to:

4.1 Require each employee to have a confidential password with a minimum number of characters that is periodically changed.

4.2 Require each county computer to have security controls in place to lock it after a specified number of incorrect logon attempts.

4.3 Ensure computer data is backed up periodically and stored at a secure off-site location.

Auditee's Response

The County Commission will work with all county officials to implement these recommendations.

Dent County
Organization and Statistical Information

Dent County is a county-organized, third-class county. The county seat is Salem.

Dent County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 47 full-time employees and 20 part-time employees on December 31, 2018.

In addition, county operations include a Senate Bill 40 Board and Senior Citizens Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2019	2018
Darrell Skiles, Presiding Commissioner	$	29,060
Dennis Purcell, Associate Commissioner		27,060
Gary Larson, Associate Commissioner		27,060
Cindy Ard, Recorder of Deeds		41,000
Angie Curley, County Clerk		41,000
Andrew M. Curley, Prosecuting Attorney		139,693
Bob Wells, Sheriff		45,000
Denita Williams, County Treasurer		41,000
Gina White, County Coroner		13,000
Sherida Cook, Public Administrator		41,000
Dennis O. Medlock, County Collector (1), year ended February 28,	46,500	
Tina Whitaker, County Assessor, year ended August 31,		41,000
Craig Ruble, County Surveyor (2)		

(1) Includes $5,500 of commissions earned for collecting city property taxes.

(2) Compensation on a fee basis.

New sales taxes

In April 2017, voters approved 2 new 1/2-cent sales taxes for the county. A 1/2-cent sales tax expires in April 2038 and was approved for the purpose of the construction of a new jail for detention facilities, and to the extent funds are available, construction of law enforcement administrative space and an additional courtroom. The other 1/2-cent sales tax was approved for the purpose of the construction of a new jail for detention facilities, operations of the new facilities, and to the extent funds are available, construction of law enforcement administrative space and an additional courtroom. This sales tax has no expiration.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Anne L. Precythe, Director
Department of Corrections
and
Julie Kempker, Chief State Supervisor
Division of Probation and Parole
and
Sandra K. Karsten, Director
Department of Public Safety
and
Colonel Eric T. Olson, Superintendent
Missouri State Highway Patrol
Jefferson City, Missouri

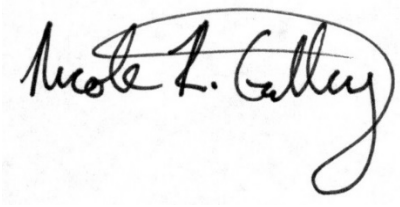
We have conducted follow-up work on certain audit report findings contained in Report No. 2018-106, *Sex Offender Registration*, issued in October 2018, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform government officials with sex offender registration responsibilities about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by MSHP officials and held discussions with these officials. Documentation provided by the MSHP included outstanding warrant data and sex offender registration data as of February 27, 2019, and the MSHP's internal operating procedures. This report is a summary of the results of this follow-up work, which was substantially completed during March and April 2019.



Nicole R. Galloway, CPA
State Auditor

Sex Offender Registration
Follow-Up Report on Audit Findings
Status of Findings

1. Weaknesses Exist in the Enforcement of Registry Requirements

Chief Law Enforcement Officials (CLEOs) did not adequately pursue noncompliant offenders. As a result, approximately 1,300 sex offenders, including approximately 800 of the most dangerous classification of sex offenders, were not in compliance with sex offender registration (SOR) reporting requirements and their locations were unknown. Arrest warrants were not issued for the majority of these noncompliant sex offenders. In addition, CLEOs did not always require sex offenders to register in intervals required by state law and CLEOs do not always properly update the SOR registration system to identify absconding offenders. These issues resulted in some sex offenders being incorrectly identified as compliant within the SOR management system and the Missouri State Highway Patrol's (MSHP) public website.

1.1 Inadequate enforcement of sex offender requirements

The enforcement of sex offender registration requirements by CLEOs was not adequate. According to the SOR database maintained by the MSHP, 1,259 (7.9 percent) registered sex offenders were noncompliant with SOR requirements as of February 14, 2018.

Arrest warrants not being issued

Arrest warrants were not issued for approximately 91 percent of noncompliant sex offenders. We obtained a listing of outstanding warrants in April 2018 from the MSHP's Missouri Uniform Law Enforcement System (MULES) and noted that only approximately 9 percent of offenders identified as noncompliant as of the data extraction date had an active arrest warrant for noncompliance with registry requirements.

Absconder status

CLEOs did not adequately update the status of noncompliant offenders as absconders in the SOR management system. Of the 1,259 noncompliant offenders, only 239 (19 percent) were classified as absconders. However, many of these offenders were listed as noncompliant for an extended period of time without their status being updated to absconder and/or an arrest warrant being obtained for their arrest.

Recommendation

To the Chief Law Enforcement Officials of counties and the City of St. Louis:

Ensure follow-up actions are taken when noncompliant sex offenders violate registration requirements and properly update the SOR management system. In addition, when follow-up actions are not successful, pursue arrest warrants to help apprehend noncompliant offenders.

Status

In Progress

The number of noncompliant sex offenders has decreased since the issuance of the audit report on October 1, 2018. We obtained the MSHP's SOR database as of February 27, 2019, and determined the number of noncompliant sex offenders had decreased by 259 (21 percent), to a total of

1,000[1] offenders. More than half of the decrease in noncompliant offenders can be attributed to reductions in Jackson County and St. Louis City. See Appendix A for a breakdown of noncompliant offenders by county. In addition, the numbers of offenders classified as absconders has also increased, which suggests CLEOs have increased follow-up efforts of noncompliant offenders and updated the SOR database. Noncompliant offenders classified as absconders totaled 389 as of February 27, 2019, which is an increase of 150 since February 14, 2018. The percentage of noncompliant offenders classified as absconders more than doubled during the same time period, increasing from 19 percent to 39 percent.

The number of outstanding arrest warrants for noncompliance with sex offender registration requirements has also increased. The audit report indicated approximately 9 percent of noncompliant sex offenders had an outstanding warrant for noncompliance with registry requirements as of April 2018. For comparison, we obtained an updated listing of outstanding warrants and compared this listing with MSHP's sex offender registration database as of February 27, 2019. We determined that 195 noncompliant sex offenders (20 percent) had an outstanding warrant for noncompliance with registration requirements as of February 27, 2019. Of these 195 outstanding warrants, 96 (49 percent) had a warrant issuance date after the release of our audit report on October 1, 2018.

1.2 Registration dates

CLEOs did not always schedule the next registration dates for sex offenders in accordance with state law. In addition, due to errors entered by CLEOs in the next registration date field, some sex offenders avoided registration requirements while being identified as compliant within the SOR management system and the MSHP's public notification website.

We reviewed the next scheduled registration dates and the most recent registration dates for offenders identified as compliant within the SOR management system and noted 266 offenders had a scheduled next registration date 30 days greater than the applicable 6 month or 90 day interval required by state law.

[1] The MSHP's SOR database vendor implemented changes to the SOR management system's method of reclassifying offenders from compliant status to noncompliant status on February 27, 2019, as described in the status comments of finding number 2.1. In order for the data to be in a format that is comparable to the data in the audit report, we used the methodology in the system prior to the system change to determine the number of noncompliant offenders (1,000 offenders). The total number of noncompliant sex offenders after the SOR system's modification was 1,234.

Recommendation

To the Chief Law Enforcement Officials of counties and the City of St. Louis:

Ensure sex offenders are scheduled for registration dates in accordance with statutorily required intervals.

Status

In Progress

Section 589.414, RSMo, was amended effective August 28, 2019, to modify the registration intervals to every 90 days, 6 months, or annually depending on the tier level assigned to the offender. We examined the next registration dates and most recent in-person registration dates for compliant offenders in the SOR management system as of February 27, 2019.

We determined 354 offenders had a scheduled next registration date 30 days greater than the applicable statutory interval, an increase of 33 percent from data in our audit report. This gives the appearance that the number of offenders listed as noncompliant may be understated. However, in some cases, it appears the most recent in-person registration dates have not been properly updated by CLEOs; therefore, no actual noncompliance with registration intervals occurred for those cases. In other cases, it appears the registering CLEO erroneously scheduled the next registration date in excess of the statutorily-required interval. For example, we noted a likely typographical error that caused an offender to be scheduled a next registration date in May 2109, instead of May 2019.

In addition, the database indicated 709 active sex offenders did not have a tier listed in the database as a result of some CLEOs not properly updating the database. For these offenders, a calculation of whether the CLEOs scheduled the offenders' next registration dates in compliance with state law could not be conducted because the proper registration intervals could not be readily determined.

While there has been no improvement in this area, as indicated by the MSHP's response to the audit report, the MSHP plans to include an edit check in the next SOR management system that will prevent CLEOs from scheduling registration dates greater than 30 days in excess of the statutory requirements.

2. Missouri State Highway Patrol Procedures

MSHP procedures for maintaining the SOR database and supporting CLEOs' efforts to enforce SOR requirements needed improvement.

2.1 MSHP database not updated timely

The MSHP did not always update the compliance status of offenders within the SOR management system in accordance with internal policies. The MSHP maintained the SOR management system and MSHP procedures indicated the system was to run a batch job once per day that updated the compliance status of an offender. This change of status was to occur if the offender had not

registered within 7 days of the offender's next scheduled registration date entered by CLEOs.

The MSHP's SOR database contained 342 individuals classified as compliant when they should have been listed as noncompliant.

Recommendation

To the Highway Patrol:

Ensure the SOR database is updated in accordance with internal policy to accurately reflect the compliance status of sex offenders.

Status

Implemented

The MSHP's SOR database vendor modified the SOR management system's business rules to require an offender listed as compliant to be switched to noncompliant if the offender did not check in within 7 days of the scheduled registration date. This change is in agreement with the MSHP's internal policies and resulted in 234 additional sex offenders being identified as noncompliant on February 27, 2019.

2.2 Data matches

The MSHP had not established agreements with other state agencies to perform batch data matches to assist CLEOs' enforcement of SOR requirements. Such data matches would have helped CLEOs locate noncompliant offenders and identify deceased offenders.

Recommendation

To the Highway Patrol:

Obtain agreements with other state agencies that allow for batch data-matching to assist CLEOs pursue noncompliant offenders.

Status

Partially Implemented

As indicated in the MSHP's response to the audit report, the MSHP entered into an agreement with the DHSS to perform batch data-matches against death records for internal use on June 22, 2018. The MSHP considers additional batch data-matching to be of limited usefulness and does not plan to pursue additional agreements to expand the agency's batch data-matching capabilities unless requested by local law enforcement agencies. The agency plans to continue using existing agreements with the Department of Labor and Industrial Relations, the Department of Revenue, and other sources to provide assistance locating noncompliant sex offenders when requested by CLEOs.

2.3 SOR management system edit checks

The SOR management system maintained by the MSHP did not utilize adequate edit checks to identify inaccurate or inappropriate information entered by the CLEOs. The lack of adequate edit checks contributed to the following errors within the SOR database:

- Due to typographical errors by CLEOs, the next registration dates for some offenders were scheduled far into the future. For instance, some next registration dates included the years 2105, 2104, 2022, 2108, and 2107. In one case, a sex offender was incorrectly identified as compliant for approximately 2.5 years due to a CLEO's likely typographical error in the next registration date field.

- The offenders' most recent registration dates were not always accurately entered by CLEOs. Our review noted that 16 of the 25 (64 percent) registration dates reviewed were incorrect based on documentation provided by the MSHP.

- Edit checks were not in place to prevent duplicate or invalid Social Security Number (SSN) sequences from being submitted by offenders and then entered by CLEOs into the SOR database. We noted two offenders were registered using the same SSN while other offenders were registered with invalid SSN sequences, including two offenders registered with the invalid sequence of "999-99-9999."

Recommendation

To the Highway Patrol:

Ensure the new sex offender system includes adequate edit-checks to limit the input of incorrect and/or inappropriate data.

Status

In progress

The MSHP is currently implementing a new sex offender registration system. The MSHP's new system requires all data fields to comply with MSHP specifications. As noted in the MSHP's response to the audit report, the MSHP plans to request edit checks to ensure properly formatted SSN submissions and require edit checks that will limit the entry of future registration dates exceeding thirty days outside the statutory registration intervals.

3.2 Weaknesses in State Laws - School volunteer background checks

State law did not require background checks for school volunteers. Section 168.133, RSMo, required background checks for school employees, but did not require background checks for school volunteers.

Recommendation

The General Assembly consider amending state law to require school volunteers with access to students to receive background checks that include a check against the sex offender registry database.

Status

Implemented

House Bill 604 , First Regular Session, 100th General Assembly (2019), was recently passed by the General Assembly and signed into law by the Governor on July 11, 2019. Effective August 28, 2019, Section 168.133, RSMo, will be amended to require school districts to ensure screened volunteers undergo criminal background checks. Screened volunteers include office or library assistants, student mentors or tutors, coaches, and supervisors of activities occurring before or after school. School districts will also be prohibited from allowing unscreened volunteers to be left alone with a student.

This data is from the sex offender registry database as of February 27, 2019. Totals are based on offender county of residence as recorded in the database and excludes offenders with no identified county of residence. See Appendixes B, C, and D for depictions of this data in map form. Comparable data from the previous audit report is presented at Appendix F.

[2] Due to the significant increase in noncompliant totals from the previous report, we contacted the Dallas County Sheriff's Office. Officials indicated the large increase was the result of technical difficulties regarding the sending of SOR forms to the MSHP. Officials indicated the issue was corrected in March 2019. As of June 10, 2019, the online database showed 5 noncompliant offenders.

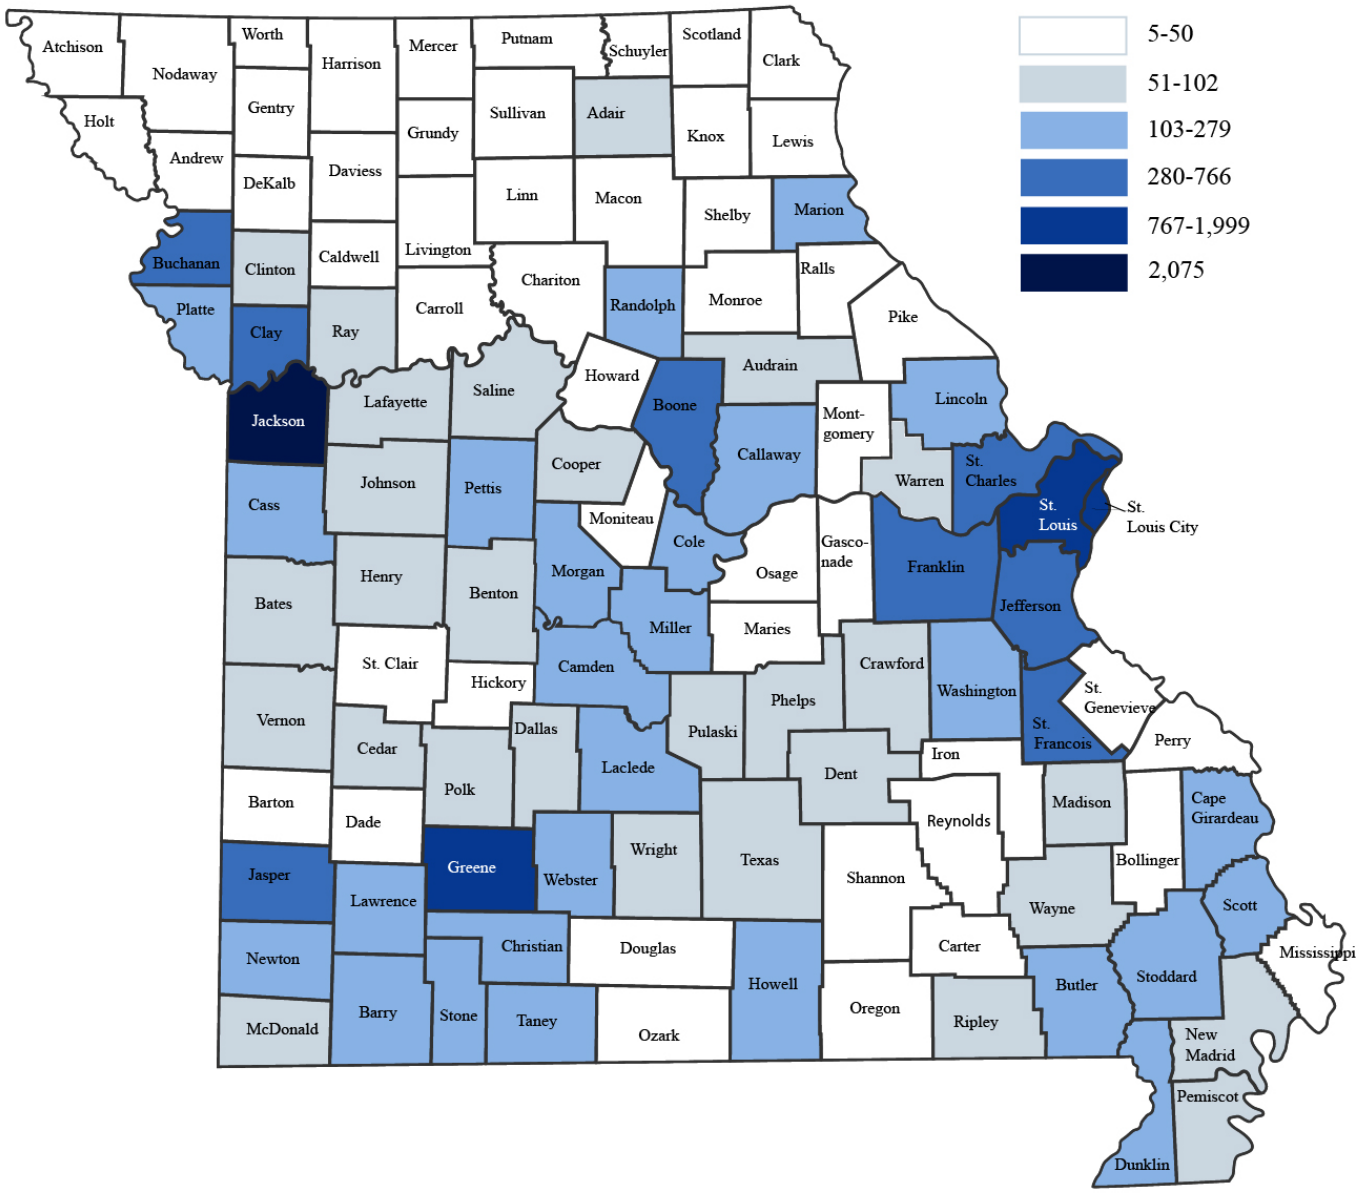
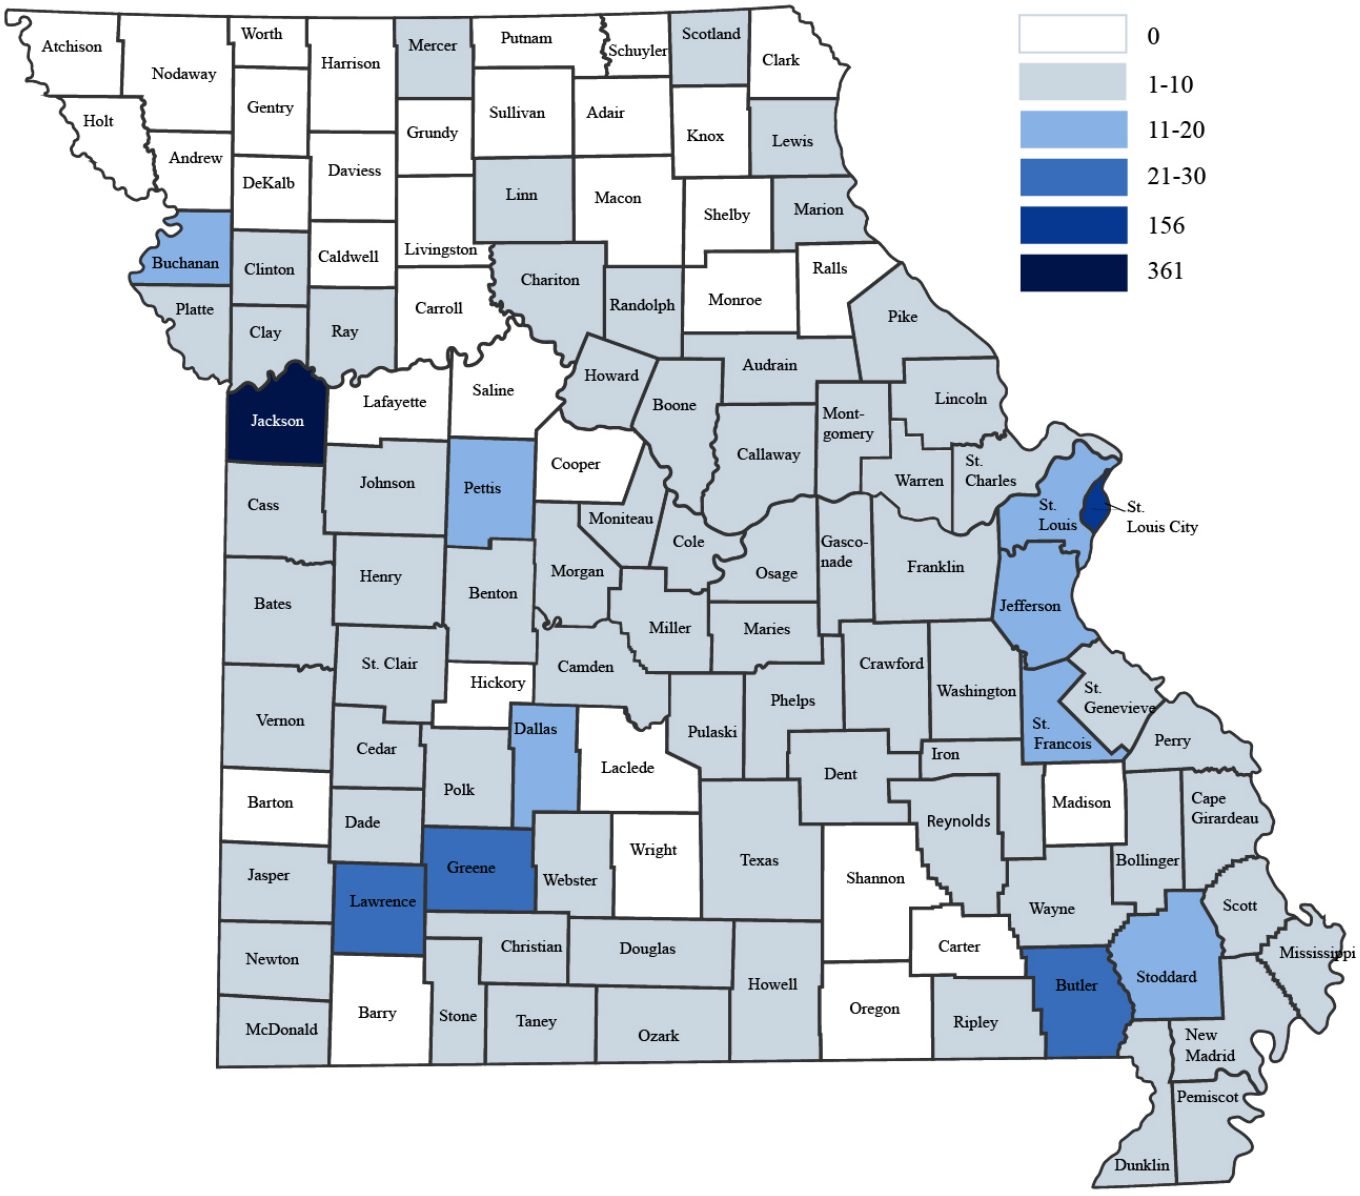
Appendix B
Follow-up Report on Audit Findings
Map of Registered Offenders by County

The map depicts the total number of registered sex offenders for each county and St. Louis City, based on the sex offender registry database as of February 27, 2019.



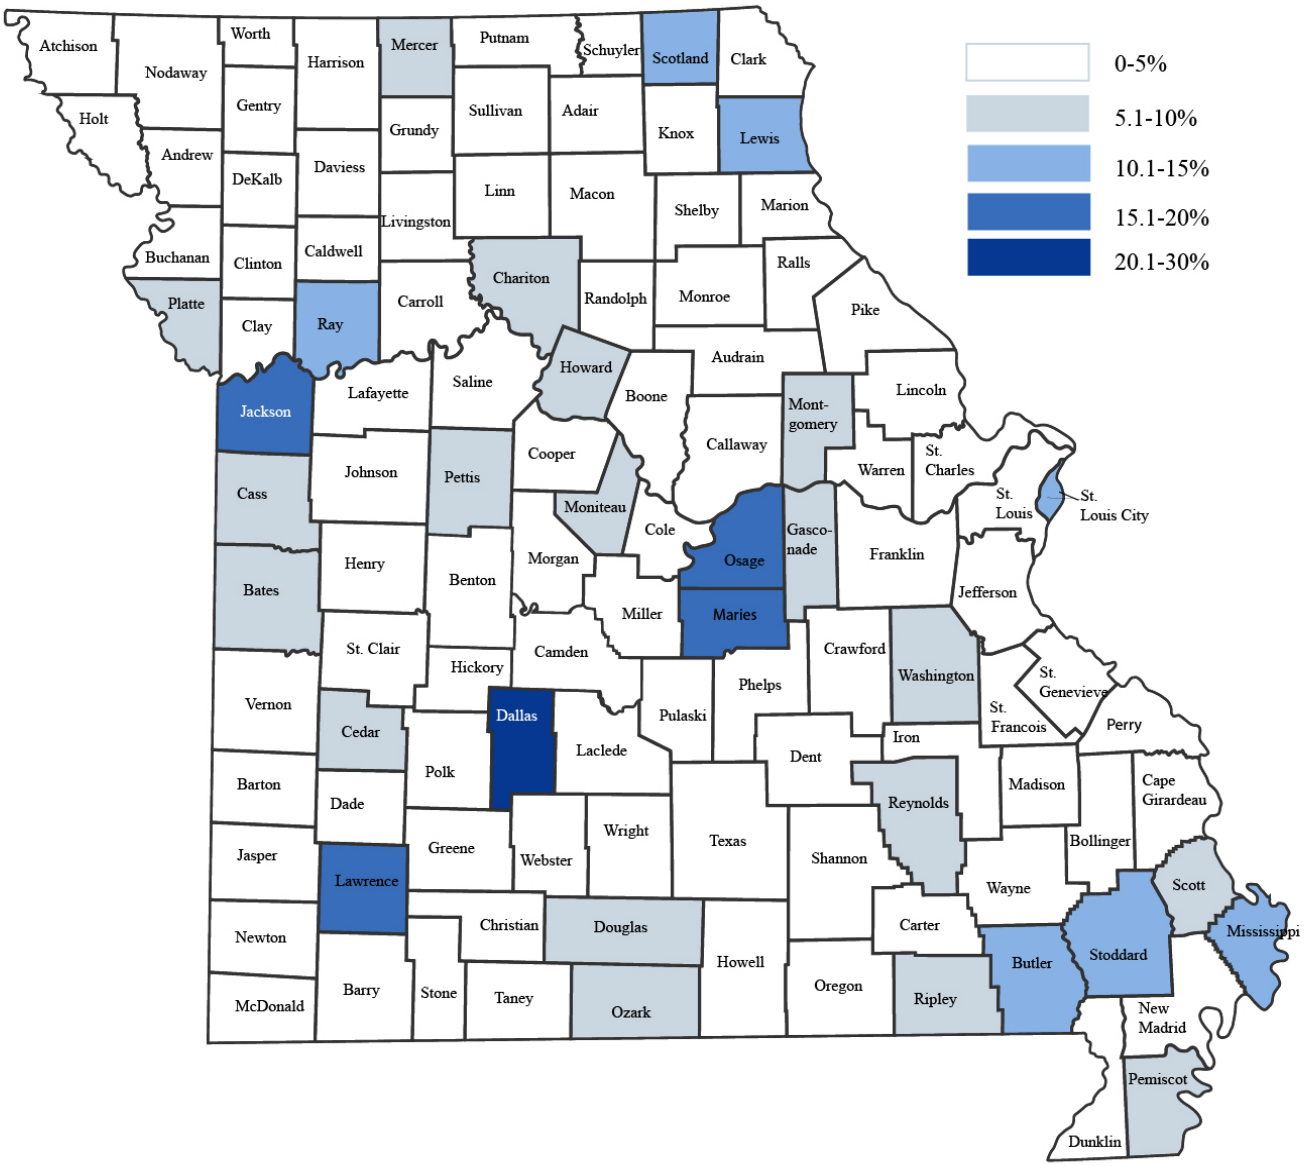
Appendix C
Follow-up Report on Audit Findings
Map of Noncompliant Offenders by County

The map depicts the number of noncompliant sex offenders for each county and St. Louis City, based on the sex offender registry database as of February 27, 2019.

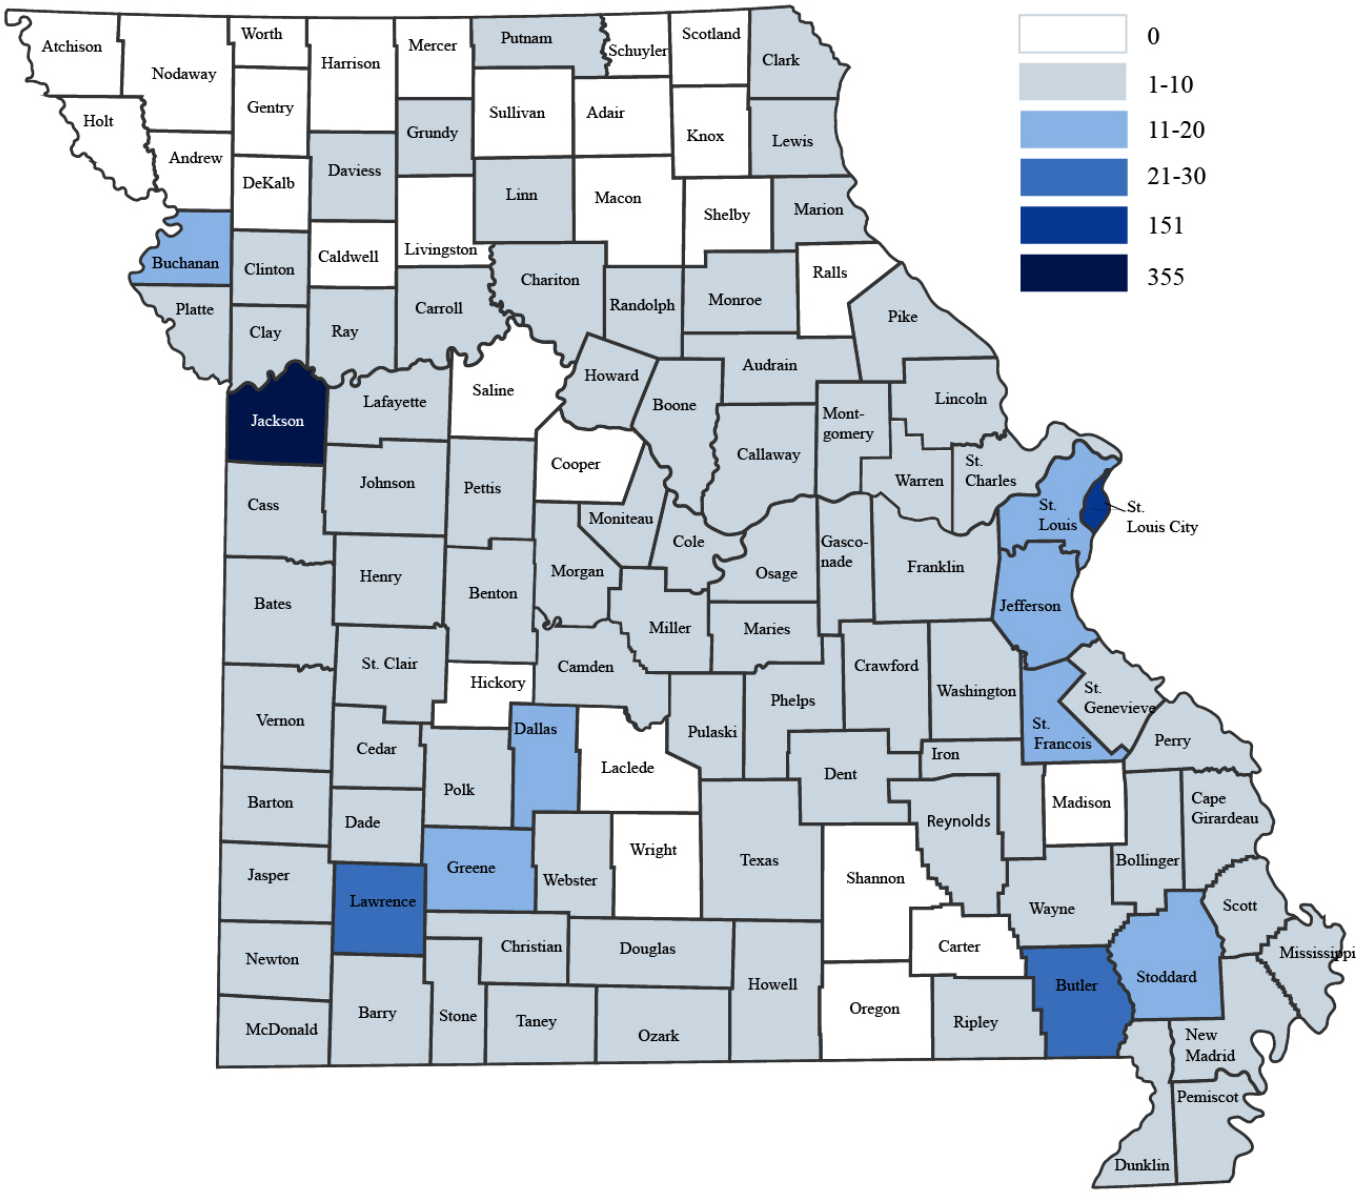


Appendix D
Follow-up Report on Audit Findings
Map of Noncompliant Offenders as a Percentage of Registered Offenders by County

The map depicts the number of noncompliant offenders as a percentage of total registered sex offenders for each county and St. Louis City, based on the sex offender registry database as of February 27, 2019.



The map depicts the number of Tier III offenders[3] identified as noncompliant for each county and St. Louis City, based on the sex offender registry database as of February 27, 2019.



[3] Tier III offenders are those who have committed the most serious offenses such as rape, sodomy, child molestation, sexual trafficking, incest, and the use or promotion of a child in a sexual performance. Tier III totals include offenders not assigned a tier by CLEOs in the sex offender registry database. The MSHP identifies offenders with no assigned tier as Tier III offenders on the MSHP's public website.

Missouri State Auditor

Office of Lieutenant Governor

Report No. 2019-055

July 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Office of Lieutenant Governor

Lieutenant Governor Travel and Calendar	The Lieutenant Governor's office did not take adequate measures to minimize the Lieutenant Governor's travel costs. The office paid travel costs for the Lieutenant Governor to attend entertainment events that did not appear necessary to office operations or a reasonable use of state funds. The office often did not follow office policy or state travel regulations when making travel decisions and submitting mileage reimbursements. The office did not retain a complete, accessible calendar of the Lieutenant Governor's activities.
Vehicles	The Lieutenant Governor's office did not prepare documentation justifying the purchase of two vehicles, and the need for these vehicles is questionable because they were infrequently used. Office personnel did not maintain complete vehicle usage logs.
Payroll and Timekeeping	Payments to one intern totaling $2,330 (233 work hours) were not supported by timesheets. Employee timesheets were not always reviewed by a supervisor or reconciled to the SAM II system and two employees received holiday leave in excess of official state holidays.
Personnel Procedures	The Lieutenant Governor's office did not perform criminal background screenings on employees or potential employees. The office did not prepare written job descriptions for the positions of director of tourism and marketing, director of veterans and senior affairs, and intern. The office did not have adequate controls to ensure timely removal of SAM II system user accounts of terminated employees.
Employee Purchases	The Lieutenant Governor's office purchased several items through employee reimbursements, rather than the normal purchasing process or use of state issued purchasing cards. As a result, the office reimbursed a former Chief of Staff $525 twice for the same item, and without adequate supporting documentation.
Capital Assets	Records and procedures to account for Lieutenant Governor's office property were not adequate.

In the areas audited, the overall performance of this entity was **Fair**.*

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Honorable Mike Kehoe, Lieutenant Governor
Jefferson City, Missouri

We have audited certain operations of the Office of Lieutenant Governor, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the period January 9, 2017 to June 1, 2018. The objectives of our audit were to:

1. Evaluate the office's internal controls over significant management and financial functions.

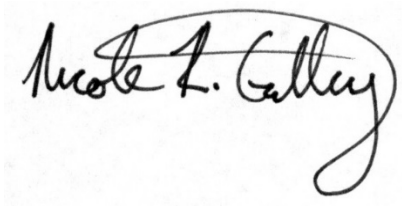
2. Evaluate the office's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Office of Lieutenant Governor.



Nicole R. Galloway, CPA
State Auditor

Office of Lieutenant Governor
Introduction

Background

The lieutenant governor is required to meet the same qualifications as the governor. The lieutenant governor is elected for a 4-year term. On January 9, 2017, Michael L. Parson was inaugurated as the forty-seventh lieutenant governor of Missouri. He served in this role until June 1, 2018, when he was sworn in as Missouri's fifty-seventh governor upon the resignation of Governor Eric R. Greitens. His term as lieutenant governor was to expire in January 2021. Governor Parson appointed Mike Kehoe as lieutenant governor to fill the remainder of the term and he was sworn in on June 18, 2018.

The Office of Lieutenant Governor is located in Jefferson City. During his term of office, Lieutenant Governor Parson resided near Bolivar, about 114 miles southwest of Jefferson City.

Required duties

The duties of the lieutenant governor are prescribed by the Missouri constitution and state law.

Constitutional duties include serving as the ex officio president of the Missouri Senate and voting in the event of a tie vote; presiding as governor when the governor is absent from the state or disabled; and fulfilling the remainder of the term of governor upon the death, conviction, impeachment or resignation of the governor.

By statute, the lieutenant governor is to serve on the following boards and commissions:

- Missouri State Capital Commission
- Board of Public Buildings
- Missouri Development Finance Board
- Missouri Housing Development Commission
- Board of Fund Commissioners
- Tourism Commission
- Missouri Community Service Commission
- Special Health, Psychological and Social Needs of Minority Older Individuals Commission

Other statutory duties include advocating for senior citizens and serving as advisor to the Department of Elementary and Secondary Education on the early childhood education and parents as teachers programs.

Initiatives

Similar to other recent lieutenant governors, Lieutenant Governor Parson promoted various discretionary initiatives. He advocated for military veterans as was the practice of previous lieutenant governors. He developed the Buy Missouri program to promote products that are grown, manufactured, processed, and/or made in Missouri. For this program, the office produced and included on the Lieutenant Governor's website, informational videos for about 15 Missouri manufacturers. Also, Lieutenant Governor Parson served

as co-chair for the Missouri affiliate of the not-for-profit Jobs for America's Graduates program, a national program to support youth to graduate from high school and transition into college and careers. His travel costs often related to these discretionary initiatives.

Employees and expenditures

Throughout Lieutenant Governor Parson's term, the office had 5 to 6 full-time employees in the following positions:

- Chief of staff
- Executive assistant
- Director of communications
- Director of constituent services
- Director of veterans and senior affairs
- Director of tourism and marketing

The director of tourism and marketing position was created and filled in June 2017. The Director of Veterans and Senior Affairs was terminated in December 2017 and was not replaced. During Lieutenant Governor Parson's term, two individuals served as Chief of Staff (one from January to June 2017 and the other from July 2017 to June 2018), and two individuals served as Director of Communications (one from January to December 2017 and the other from December 2017 to June 2018). In addition, the office employed 2 part-time interns. During his term, expenditures for salaries and wages totaled about $477,000, or about 76 percent of total expenditures ($626,000).

A significant portion of the office's non-salary expenditures related to travel. The Lieutenant Governor, interns, Director of Tourism and Marketing, Chief of Staff, and Director of Communications often traveled throughout the state for various purposes. The Lieutenant Governor frequently traveled for meetings, speaking engagements, and other purposes. Much of the Director of Tourism and Marketing's travel related to the Buy Missouri program. During Lieutenant Governor Parson's term, travel-related expenditures including mileage reimbursements, charges for usage of vehicles from the Office of Administration (OA) vehicle fleet, lodging, meals, commercial transportation, fuel, and vehicle repairs totaled about $15,850, or about 11 percent of the office's non-salary expenditures.

In January 2018, the Lieutenant Governor traveled to Hawaii to attend a ceremony related to the USS Missouri submarine. An office press release indicated military foundations sponsored the trip. According to a former office official, the Lieutenant Governor's travel expenses for that trip were funded by private entities, but private sources paid for no other office costs.

Office of Lieutenant Governor
Management Advisory Report
State Auditor's Findings

1. Lieutenant Governor Travel and Calendar

The Lieutenant Governor's office did not take adequate measures to minimize the Lieutenant Governor's travel costs. The Lieutenant Governor primarily used his personal vehicle to travel. During his term (January 9, 2017 to June 1, 2018), he received mileage reimbursements totaling approximately $8,600 for 118 trips. In addition, office personnel did not properly retain and archive an official calendar.

1.1 Unnecessary trips

The Lieutenant Governor's office paid travel costs for the Lieutenant Governor to attend entertainment events that did not appear necessary to office operations or a reasonable use of state funds. The Lieutenant Governor was reimbursed:

- $57 for round trip mileage from Bolivar to Branson to attend a 50th anniversary country gospel musical performance on Sunday, June 30, 2017.
- $224 to attend a performance by the University of Missouri Kansas City Conservatory of Music and Dance on Friday, November 10, 2017. The reimbursement included $122 for lodging and $102 for round trip mileage from Bolivar to Kansas City.
- $111 for round trip mileage from Jefferson City to Kansas City on Saturday, December 16, 2017. His expense report indicated he attended an "event with Clark Hunt at Arrowhead Stadium." Missouri Ethics Commission records indicate a lobbyist provided the Lieutenant Governor with tickets for the football game that day.
- $133 for round trip mileage from Jefferson City to Branson to attend the premier of a theatrical performance on Saturday, March 2, 2018.

According to a former office official, the Lieutenant Governor was invited to each of these events; however, the office did not maintain documentation supporting the business purpose of these trips. Code of State Regulations, 1 CSR 10-3.010(1), requires that state payment of goods and services have a clear business relationship to the agency work program. The Lieutenant Governor's office should ensure funds are used only for costs necessary and beneficial to office operations.

1.2 Vehicular travel reimbursements

The Lieutenant Governor's office often did not follow office policy or state travel regulations when making travel decisions and submitting mileage reimbursements.

Cost-effective method of travel

The Lieutenant Governor used his personal vehicle and received mileage reimbursements when other travel options were more cost effective. In addition, for some trips, the office could not provide documentation that an evaluation of the most cost-effective method of travel had been performed.

The office purchased a vehicle in both November 2017 and January 2018. In addition, for travel considerations of state agencies, the Office of Administration (OA) maintains a fleet of vehicles in Jefferson City, and has contracts with car rental companies with vehicle locations throughout the state including sites in Jefferson City and Bolivar. The OA maintains a Trip Optimizer website for state employees to determine the most cost-effective method of travel. The calculation is based on the employee's location, the trip destination, and the number of travel days and considers the costs of using a rental vehicle or state fleet vehicle, or reimbursing an employee for use of a personal vehicle.

The office did not prepare a Trip Optimizer report or other cost calculation for 40 of the Lieutenant Governor's 118 trips. In addition, for 47 of the 78 trips where a trip optimizer report was prepared, the report indicated an OA fleet vehicle or rental vehicle was a lower-cost option than personal mileage reimbursement. According to the trip optimizer reports, the potential cost savings for these 47 trips totaled about $2,100. For 15 of the 16 trips that began and ended in Jefferson City and after the purchase of the two vehicles, the Lieutenant Governor used his personal vehicle and received mileage reimbursement when at least 1 of the office vehicles was available on the trip date(s). The office did not maintain documentation explaining why the lower-cost option or office vehicles were not used for these trips.

Additional mileage to and/or from residence

For some trips, the Lieutenant Governor was reimbursed additional mileage to and/or from his Bolivar residence than the mileage to and/or from his official domicile in Jefferson City. Of 83 trips that began and/or ended at his residence, the Lieutenant Governor received additional mileage reimbursements totaling $584 for 20 trips where the mileage to and/or from his residence was higher than the mileage to and/or from Jefferson City. The office maintained no documentation justifying the business necessity for reimbursing the additional mileage to and/or from the Lieutenant Governor's residence.

Conclusion

The office's Policies and Procedures Manual states the office will follow state travel regulations. Code of State Regulations, 1 CSR 10-11.030, requires officials and employees select the most cost-effective travel method, retain documentation to justify any exceptions to the requirement, and use the Trip Optimizer or another equivalent method to calculate travel costs.[1] Additionally, 1 CSR 10-11.010 requires mileage be reimbursed and computed between the travel site destination and the official domicile or residence, if leaving directly from the residence, whichever is less. The regulation states official domicile shall be the actual working or headquarters location of an

[1] In May 2019, these provisions were incorporated into 1 CSR 10-11.010 and 1 CSR 10-11.030 was rescinded.

employee or official as best serves the interest of the state and not for the convenience or benefit of the employee. The Lieutenant Governor should follow the travel regulations to ensure travel is conducted in the most cost-effective manner.

1.3 Official calendar

The office did not retain a complete, accessible calendar of the Lieutenant Governor's activities. Office personnel kept a calendar in an email account; however, the calendar was not properly retained or transferred to the Missouri State Archives. The office retained a computer screen print of the calendar by event date for only the period January to June 2017 and the screen prints did not include the full text entries of many events. Upon our request, office personnel obtained from the OA - Information Technology Services Division (ITSD), hundreds of files supporting the calendar events for Lieutenant Governor Parson's term; however, the files were not (1) in a calendar format, (2) listed chronologically by event date, and (3) searchable. Consequently it was difficult and cumbersome to determine the Lieutenant Governor's activities by date. Also, the records generally noted the date, time, and location of scheduled events, and the person(s) with whom he met; but the business nature of the meeting or event was often not documented.

Good governance and the conduct of state business requires transparency, openness, and accountability. Also, the Secretary of State's Agency Records Disposition Schedule requires elected officials transfer calendars to the Missouri State Archives upon completion of the official's term of office. The Lieutenant Governor should maintain and properly archive an official calendar that is maintained chronologically by event date and adequately details the nature and official duties of all travels and office functions.

Recommendations

The Office of Lieutenant Governor:

1.1 Ensure future expenditures are necessary and reasonable for the operation of the office.

1.2 Follow the office's travel policy and state travel regulations requiring the state employees, including elected officials, use the most cost-effective method of travel. If circumstances require a higher-cost travel method or additional mileage to and/or from a personal residence, documentation should be maintained for the justification.

1.3 Maintain an official calendar chronologically by event date that details the official duties of the Lieutenant Governor's official activities, and archive the calendar in accordance with guidelines of the Secretary of State.

Auditee's Response

Former Lieutenant Governor Parson's written response, provided by the current General Counsel to the Governor, is included at Appendix A.

Current Lieutenant Governor Kehoe's written response is included at Appendix B.

Auditor's Comment

1.1 Former Lieutenant Governor Parson's response states the Lieutenant Governor's office only paid for the Lieutenant Governor to travel to events that had a business relationship to his work. For the trips addressed in the audit finding, the Lieutenant Governor was reimbursed travel costs to attend entertainment events; however, no documentation was maintained to support the trips were for business purposes. During audit fieldwork and the exit process, we requested such documentation from current and former personnel of the Lieutenant Governor's office; however, no one provided this documentation. To maintain transparency and demonstrate compliance with state travel regulations, reimbursements for travel expenses associated with entertainment events should be supported by clear, detailed documentation to support that the expenses were necessary for the operation of the office.

1.2 Former Lieutenant Governor Parson's response states the process used by the Lieutenant Governor's office complied with state travel regulations in effect at the time; however, as explained in the audit finding, the office did not document compliance with these requirements. The response also indicates other factors may have been considered when travel decisions were made; however, as noted in the audit finding, such factors were not documented. The regulations require that documentation be retained to justify any exceptions to the requirements. For example, if the Trip Optimizer system fails to provide a travel option (as suggested in the response) office personnel should document that situation and perform an alternative evaluation.

2. Vehicles

Procedures and controls over vehicle purchases and usage were not adequate.

The Lieutenant Governor's office purchased two used sport utility vehicles (SUVs), costing about $33,000, in November 2017 and January 2018. Previously, employees primarily used OA fleet vehicles for travel. As previously indicated, the Lieutenant Governor primarily traveled in his personal vehicle, rather than office vehicles or other methods. Lieutenant Governor Kehoe disposed of one of the vehicles shortly after taking office, reducing the fleet to one vehicle.

2.1 Purchases

The Lieutenant Governor's office did not prepare documentation justifying the purchase of the vehicles, and the need for these vehicles is questionable because they were infrequently used.

Prior to purchasing the vehicles, during the 12-month period of January to December 2017, office employees used OA vehicles during 33 days at a cost of $1,567 (average of $47 per day). During the 5-month period of January to May 2018, vehicle logs show one vehicle was used during 22 days (21 percent of total business days during the period) and the other vehicle during 19 days (18 percent of total business days).

According to former office officials, the vehicles were needed for transporting equipment related to the Buy Missouri program and for other office travels. The OA vehicle fleet and state car rental contracts include SUVs, but office personnel did not have documentation analyzing the cost effectiveness of owning the vehicles.

To ensure efficient use of state resources, the Lieutenant Governor's office should analyze vehicle utilization and costs of owning vehicles versus other travel methods before making decisions to purchase vehicles. Justification supporting the decisions should be documented.

2.2 Usage logs

The Lieutenant Governor's office did not maintain complete vehicle usage logs. The usage log for one vehicle did not include the trips during the months of November and December 2017; and for one trip totaling 359 miles, the log did not include the date, purpose, and destination. The usage log for the other vehicle did not include the purpose or destination for one trip totaling 422 miles.

Complete and accurate vehicle usage logs are necessary to document the appropriate use of vehicles and to support fuel purchases and maintenance expenses. The logs should be periodically reviewed for completeness and reasonableness.

Recommendations

The Office of Lieutenant Governor:

2.1 Before making future vehicle purchases, analyze vehicle utilization and costs of owning vehicles versus other travel methods and prepare documentation to support the justification for buying a vehicle.

2.2 Maintain complete and accurate vehicle usage logs, and periodically review the logs for completeness and reasonableness.

Auditee's Response

Former Lieutenant Governor Parson's written response, provided by the current General Counsel to the Governor, is included at Appendix A.

Current Lieutenant Governor Kehoe's written response is included at Appendix B.

3. Payroll and Timekeeping

Payroll and timekeeping procedures were not adequate and an intern was paid $2,330 without proper support for amounts paid.

Each semi-monthly pay period, the Chief of Staff reported employee leave taken and intern hours worked to the OA for entry into the Statewide Advantage for Missouri (SAM II) system. During Lieutenant Governor Parson's term, the office employed 8 people in 6 positions and 2 part-time interns.

3.1 Intern pay

Payments to one intern totaling $2,330 (233 work hours) were not supported by timesheets. Timesheets were not prepared for 5 of the 13 pay periods for this intern. For each of these periods, the intern was paid $10 per hour for 37 to 47 hours of work. For two other pay periods, the intern received pay for a total of 16 hours in excess of the number of hours recorded on the timesheets. These unsupported payments represented approximately half of the total wages ($4,820) received by the intern.

As noted in MAR finding number 4.2, written job descriptions were not prepared for the intern position. According to a former Chief of Staff, the interns primarily worked on the Buy Missouri program.

The office's Policies and Procedures Manual and Internal Control Plan require timesheets indicating the number of work and leave hours be prepared for each pay period and submitted to the chief of staff for approval. Properly prepared timesheets would document hours actually worked, support amounts paid, and provide information necessary to monitor tasks performed.

3.2 Timesheets and leave

Employee timesheets were not always reviewed by a supervisor or reconciled to the SAM II system and two employees received holiday leave in excess of official state holidays. Our review of 18 timesheets for 10 employees and related leave balances in the SAM II system identified the following concerns:

- Twelve timesheets did not contain indication of supervisory review and approval. Two of these timesheets were for a Chief of Staff.

- Sick leave and/or annual leave balances on 6 timesheets did not agree to the leave balances in the SAM II system with differences ranging from 4 hours to 13 hours. In addition, two timesheets showed leave taken (8 hours sick leave and 14 hours compensatory time off), but no leave usage was reported in the SAM II system for the related pay period. Office personnel did not reconcile leave balances per the timesheets to the SAM

II system and no one could provide an explanation for the differences noted.

- Two timesheets included holiday leave in excess of the official state holiday (8 hours) by 16 hours for one employee and 2 hours for another employee. For Christmas Day 2017, the timesheet for the first employee included 8 hours of holiday leave on 3 days (Friday December 22, Monday December 25, and Tuesday December 26) and the timesheet for the other employee included 10 hours of holiday leave on December 25. One of these timesheets had no indication of supervisory review and approval.

The office's Policies and Procedures Manual and Internal Control Plan require timesheets be submitted to the chief of staff for approval, and the Internal Control Plan requires timesheets for the chief of staff to be approved by the lieutenant governor. Proper review and approval of timesheets is necessary to ensure the accuracy of the hours worked, leave taken, and payroll amounts. In addition, reconciliations of timesheets to the SAM II system are necessary to ensure all leave taken is recorded in the SAM II system.

Recommendations

The Office of Lieutenant Governor:

3.1 Ensure complete and accurate timesheets are prepared for all employees and timesheets agree to amounts paid.

3.2 Ensure employee timesheets are reviewed by a supervisor in accordance with office policy. In addition, the office should establish procedures to reconcile employee leave balances to SAM II system balances and ensure holiday leave is granted in accordance with official state holidays.

Auditee's Response

Former Lieutenant Governor Parson's written response, provided by the current General Counsel to the Governor, is included at Appendix A.

Current Lieutenant Governor Kehoe's written response is included at Appendix B.

4. Personnel Procedures

The Lieutenant Governor's office did not perform criminal background screenings on employees, prepare employee job descriptions for some employees, or promptly remove SAM II system user accounts for terminated employees.

4.1 Background screening

The Lieutenant Governor's office did not perform criminal background screenings on employees or potential employees.

The office's Internal Control Plan indicates thorough background checks are to be performed during the hiring process. The state background check policy (SP-10) issued by the OA requires state agencies to perform pre-employment criminal history record checks on persons under final job consideration, and for current employees, the policy requires background checks for employees performing sensitive job duties and for employees in management positions when no previous background check was performed. Additionally, the OA's SAM II Financial Policies and Procedures require agencies to perform criminal background checks for all employees needing access to the SAM II system. Performing background checks on new employees reduces exposure to potential liabilities and helps safeguard office personnel and assets.

4.2 Employee job descriptions

The Lieutenant Governor's office did not prepare written job descriptions for the positions of director of tourism and marketing, director of veterans and senior affairs, and intern.

Job descriptions are needed to clarify the duties, responsibilities, required qualifications, and reporting relationships of each position to help prevent misunderstandings among employees and supervisors about performance expectations.

4.3 Terminated SAM II user account controls

The Lieutenant Governor's office did not have adequate controls to ensure SAM II system user accounts of terminated employees were timely removed. Three prior administration employees, terminated in January 2017, continued to have access to the SAM II system until termination of their user accounts in September 2017.

The OA's SAM II Financial Policies and Procedures require agencies using the SAM II system to regularly review access to identify accounts belonging to terminated users and request the OA remove the user's access to the system. Without effective procedures to timely remove access, terminated employees could continue to have access to critical or sensitive resources or have opportunities to sabotage or otherwise impair entity operations or assets.

Recommendations

The Office of Lieutenant Governor:

4.1 Ensure background checks are conducted on all employees.

4.2 Prepare job descriptions for all positions.

4.3 Establish procedures to ensure SAM II system user accounts of terminated employees are timely removed.

Auditee's Response

Former Lieutenant Governor Parson's written response, provided by the current General Counsel to the Governor, is included at Appendix A.

Current Lieutenant Governor Kehoe's written response is included at Appendix B.

Auditor's Comment

4.3 Former Lieutenant Governor Parson's response states the Lieutenant Governor's office conducted regular reviews in order to properly limit access to the SAM II system. However, as evidenced in the finding, these reviews were not conducted effectively and/or within sufficient frequency to ensure timely removal of access for terminated employees.

5. Employee Purchases

The Lieutenant Governor's office purchased several items through employee reimbursements, rather than the normal purchasing process or use of state issued purchasing cards. As a result, the office reimbursed one item twice, and without adequate supporting documentation. During his term, the Lieutenant Governor and 4 employees received reimbursements totaling about $7,100 for various office purchases including recognition awards, promotional supplies, equipment, organization memberships, and administrative supplies.

We reviewed 11 office purchases reimbursed to the Lieutenant Governor and employees and noted a Chief of Staff was reimbursed $525 twice, in October 2017 and November 2017, for the same item. The October reimbursement was supported only by a price quote rather than a vendor invoice and the November reimbursement was not supported by an invoice or other proof of purchase. After we discussed this issue with office personnel, the former Chief of Staff provided the invoice supporting the purchase and reimbursed the $525 overpaid. Although, the office's Policies and Procedures Manual requires expense reports be supported by attached proof of purchase, a former office official indicated she did not notice the duplicate claim or lack of supporting documentation when she approved the reimbursement.

Due to the nature of the employee expense reimbursement process, reimbursing employees for office purchases increases the risk of improper expenditures. For smaller purchases, state agencies can participate in the OA's purchasing card program that provides policies and procedures over access and use of purchasing cards. The office should consider participating in this program. If the practice of allowing employees to purchase items and be reimbursed is continued, procedures should be established to ensure purchases are proper and necessary and comply with office policy.

Recommendation

The Office of Lieutenant Governor discontinue the practice of allowing employees to purchase items and be reimbursed and consider utilizing state purchasing cards for smaller purchases. If this practice is continued, procedures should be established to ensure purchases are proper and necessary and comply with office policy.

Auditee's Response

Former Lieutenant Governor Parson's written response, provided by the current General Counsel to the Governor, is included at Appendix A.

Current Lieutenant Governor Kehoe's written response is included at Appendix B.

Auditor's Comment

Former Lieutenant Governor Parson's response states the Lieutenant Governor's office required employees seeking reimbursement for purchases to supply appropriate proof of purchase. However, for the overpayment identified during the audit, the office reimbursed the employee without such documentation.

6. Capital Assets

Records and procedures to account for Lieutenant Governor's office property were not adequate. As of June 1, 2018, 14 assets totaling about $21,000 were recorded in the SAM II system capital asset records.

Office personnel did not update SAM II system capital asset records for acquisitions and dispositions, and did not perform annual physical inventories. All 5 capital assets totaling about $39,000 purchased during Lieutenant Governor Parson's term were not included in the capital asset records. In addition, 1 of the 5 items (valued at $1,800) tested as part of the capital asset records test could not be located. A former office official indicated the item had been disposed of, but not removed from the capital asset records.

The office's Policies and Procedures Manual and Internal Control Plan require asset acquisitions and dispositions be timely recorded, all assets be inventoried annually, and the office follow the inventory policies and procedures in state regulations. Code of State Regulations, 15 CSR 40-2.031, requires each department to account for all acquisitions and dispositions of equipment items $1,000 or more, and to maintain adequate capital asset records that contain identification number; description of the item including name, make, model and serial number, where appropriate; acquisition cost; date of acquisition; estimated useful life at the date of acquisition; physical location in sufficient detail to readily locate the item; and method and date of disposition. An annual physical inventory of capital assets is required, and should be reconciled to capital asset records and the prior annual physical inventory, and documentation should be maintained of the physical inventory including the date, personnel performing the procedure, assets verified, and any adjustments needed to the inventory records. In addition, departments are required to establish controls over sensitive items less than $1,000.

The failure to maintain a complete and accurate inventory listing reduces the control and accountability over capital assets and increases the potential that loss, theft, or misuse will go undetected. In addition, annual inventories are necessary to establish proper accountability over capital assets.

Recommendation

The Office of Lieutenant Governor ensure complete and accurate capital asset records are maintained and annual physical inventories are conducted for all property.

Auditee's Response

Former Lieutenant Governor Parson's written response, provided by the current General Counsel to the Governor, is included at Appendix A.

Current Lieutenant Governor Kehoe's written response is included at Appendix B.

Overall Auditor's Comment

Former Lieutenant Governor Parson's response to several findings (numbers 2.1, 4.2, and 5) states it is outside the scope of the State Auditor's Office to provide oversight and manage the discretion of office holders. Each of these findings identified a lack of adequate documentation and support for purchases and/or management decisions. Office holders are responsible for ensuring management decisions are properly documented.

STATE CAPITOL
201 W. CAPITOL AVENUE, ROOM 216
JEFFERSON CITY, MISSOURI 65101

(573) 751-3222
WWW.GOVERNOR.MO.GOV

Michael L. Parson
GOVERNOR
STATE OF MISSOURI

June 21, 2019

Missouri State Auditor's Office
John Lieser, Audit Manager
State Capitol, Room 121
Jefferson City, MO 65101

Dear Sir:

Please see the below responses to the post-audit you conducted of the Lieutenant Governor's Office. The numbered paragraphs correspond to the numbered findings contained in the draft of the report you provided.

1.1 Unnecessary Trips Auditee's Response:

While serving as Lieutenant Governor, auditee prioritized his public support for Missouri tourism as he faithfully and aggressively fulfilled the duties of his position. Necessarily, this involved traveling and participating in certain events around the state.

In July of 2017, the Lieutenant Governor traveled to the 50th Anniversary celebration of the Pressley's Family Jubilee. The purpose of this travel was to recognize the Pressley family for the work they do to support tourism in Missouri. In fact, the Lieutenant Governor presented a proclamation at this event on behalf of the Lieutenant Governor's Office.

In November of 2017 the Lieutenant Governor traveled to the University of Missouri Kansas City in order to attend an annual event promoting the internationally recognized University of Missouri Kansas City Conservatory.

In December of 2016 the Lieutenant Governor traveled to Arrowhead Stadium in order to meet with Clark Hunt, the owner of the Kansas City Chiefs, and local business leaders in order to promote tourism. The Lieutenant Governor had his own tickets as part of his personally owned season ticket package and attended the Kansas City Chiefs game held at Arrowhead stadium subsequent to his aforementioned meeting.

In March of 2018, the Lieutenant Governor traveled to Branson, Missouri, in order to attend Billy Yates' opening night event to initiate his show in Branson. It should go without saying that Branson is one of the nation's top tourist destinations and an important part of Missouri's tourism industry. The aforementioned travel was directly related to the role of the Lieutenant Governor in promoting tourism in Missouri.

The Lieutenant Governor's Office only paid for the Lieutenant Governor to travel to events that had a business relationship to his work. For each of these events the Governor was requested to attend in his role as Lieutenant Governor. The Auditor has not directed the auditee to any independent authority that defines what constitutes the business of the Lieutenant Governor. Instead, the responsibility to define what constitutes the business of the Lieutenant Governor is properly left to the discretion of the officeholder. The Lieutenant Governor used his personal vehicle for travel to these events because his travel was often for multiple purposes and it was more economically efficient to take one vehicle rather than return to Jefferson City to return a fleet vehicle prior to resuming travel. The Auditor offers no finding the Lieutenant Governor misused state vehicles or sought reimbursement for person travel.

1.2 Vehicular Travel Reimbursements Auditee's Response:

Section 37.450, RSMo (2002) vests the Office of Administration with authority to manage usage of the state's vehicle fleet. The Office of Administration has promulgated regulations to govern the selection of the most cost effective form of travel for state employees. Specifically, the Commissioner of Administration is granted discretion by 1 CSR 10-11.010(5) to approve or disapprove of travel reimbursement. The Office of Administration approved all requests the Lieutenant Governor and his staff made for business travel. The process used by the Lieutenant Governor's Office complied with the version 1 CSR 10-11.010 in effect during the relevant period and the Office of Administration approved each of the travel expenditures highlighted in the post-audit.

In addition, the post-audit treats the Trip Optimizer as dispositive without acknowledging that the regulation states it only "assists in determining the most cost effective travel option." 1 CSR 10-11.030(6). This is not the only regulation limiting the use of the Trip Optimizer. For example, 1 CSR 10-11.030(4) states that "all relevant factors" should be considered in determining the most cost effective method of vehicular travel. Moreover, 1 CSR 10-11.010(6) requires employees seeking reimbursement for official travel to utilize a "prudent person" standard when making these decisions.

It is also important to note that on more than one occasion, when staff employed by the Lieutenant Governor's Office were attempting to utilize the Trip Optimizer, the system failed to provide a travel option. This resulted in omissions in the documentation of travel decisions that were beyond staff control.

1.3 Official Calendar Auditee's Response:

The Auditee acknowledges this recommendation.

2.1 Vehicle Purchases Auditee's Response:

The post audit criticizes the purchase of two used state vehicles but fails to mention the fact that the purchase and usage of the used vehicles at issue were made within the appropriated budget, approved by the Office of Administration, and were subject to an oversight report provided by the Office of Administration to the General Assembly. *See* 37.450, RSMo (2002) (vesting the Office of Administration with authority to manage the purchase of state vehicles). Instead of acknowledging these statutory safeguards, this post-audit would impermissibly create its own additional oversight to the statutory and regulatory framework already provided.

The reasoning for these purchases were well within the Lieutenant Governor's discretion and were purchased in coordination with the office's expansion of programming. Specifically, the vehicles were needed to assist with transporting multiple employees and large display items all at once in association with promoting tourism. This additional oversight is outside the scope of the Auditor's Office and instead serves as an attempt to impermissibly manage the discretion of office holders.

2.2 Usage Logs Auditee's Response:

The Lieutenant Governor's Office maintained a small staff and kept a busy schedule. Despite this imbalanced relationship, the staff attempted to comply with the complicated regulations governing travel and the necessary documentation. Any oversights or omissions concerning travel log documentation would be the result of clerical oversight and the recency of the administration.

3.1 Intern Pay Auditee's Response:

The Lieutenant Governor's Office made necessary reports to the Office of Administration to ensure employees, including interns, were properly remunerated for the time they worked. If discrepancies exist in the timesheets that would be the result of clerical error in data entry.

3.2 Timesheets and Leave Auditee's Response:

The Lieutenant Governor's Office required employees to report when they took time off and what kind of leave they used. The Lieutenant Governor's Office also required leave slips be approved by supervisory staff. Any oversight or omission in documentation was the result of clerical error in data entry.

4.1 Background Screening Auditee's Response:

Auditee acknowledges this recommendation as it applied to some employees and offers that the recency of that administration and clerical error were factors.

4.2 Employee Job Descriptions Auditee's Response:

The Auditor fails to cite to any actual requirement mandating job descriptions or guiding how that process of recording job descriptions would work. Such a task should fall under the purview and discretion of the Lieutenant Governor if not for any other reason than to allow the elected office holder to allow employee job flexibility due to the myriad of tasks that each employee would perform. It is outside the scope of the Auditor's Office to impermissibly manage the discretion of office holders.

4.3 Terminated SAM II User Accounts Auditee's Response:

The Lieutenant Governor's Office conducted regular reviews in order to properly limit access to the SAM II system. Employees who had SAM II access and then left employment with the Lieutenant Governor's Office were identified in the review process and their access was terminated. The post-audit further does not demonstrate that any staff member improperly accessed the SAM II system.

5. Employee Purchases Auditee's Response:

The Lieutenant Governor's Office purchased items necessary to the performance of the business of the office. The Lieutenant Governor's Office required employee's seeking reimbursement for purchases supply appropriate proof of purchase. It is outside the scope of the Auditor's Office to manage the discretion of office holders.

6. Capital Assets Auditee's Response:

The capital asset at issue in this finding (asset valued at $1,800) was an obsolete phone system that was replaced by the Office of Administration Information Technology Systems Department. The Lieutenant Governor's Office neither requested nor bore responsibility for the removal of the obsolete phone system. To the extent the assets were not properly recorded in asset records the oversight or omission in documentation was the result of human error in data entry.

General comments:

The Auditor has conducted a post-audit for an office holder that only lasted one-and-a-half years of the usual four years. The brevity of the Lieutenant Governor's term was due to extenuating circumstances. Many of the Auditor's findings were the direct result of a new office that was itself evolving into new and expanded roles.

However, some of the Auditor's findings exceed the mandate of a post-audit and encroach upon the Lieutenant Governor's discretion to make purchases and manage his office. This point is further emphasized by not only the nature, but also the number of findings when comparing this post-audit to previous post-audit reports of the Lieutenant Governor's Office.

I respectfully request that any new information or reasoning that would be included in the final audit, and not already provided in the draft post-audit (whether it be in response to this letter or otherwise), be furnished to me with an opportunity to respond before anything is published.

If I can be of any future assistance please feel free to contact me.

Respectfully,

Christopher K. Limbaugh
General Counsel

Missouri State Auditor

Plattsburg Special Road District

Report No. 2019-054

July 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Plattsburg Special Road District

Background

The former bookkeeper, who served as the appointed district Secretary/Treasurer, Ava Langner, performed work for the district from April 14, 2011, until her termination by the Board effective October 15, 2018. Ava Langner was considered an independent contractor, but never entered into a formal contract with the district. As Secretary/Treasurer, Ava Langner was solely responsible for the financial accounting functions and records of the district.

In late September 2018, the State Auditor's Office (SAO) Whistleblower Hotline received a complaint questioning the allocation of district funds, and alleging overpayments made to the Secretary/Treasurer and improper charges made on a credit card paid for using district funds. The SAO sent a letter dated October 4, 2018, to the Board of Commissioners notifying them that our office was conducting an initial review of the allegations and requested records be provided to our office. Upon receipt of our letter the Secretary/Treasurer admitted to a Board member that she had stolen monies from the district for her personal use. On October 15, 2018, the Board requested/authorized the SAO to conduct an audit, and the SAO agreed to conduct the audit. The SAO issued subpoenas to Ava Langner and Langner Enterprises, LLC on December 3, 2018, to compel her testimony and require her to produce records and documents. The SAO also issued subpoenas to Chase Bank and Ameren to produce records related to Ava Langner's personal and company transactions paid using district funds.

In October 2018, the Board contacted the Clinton County Prosecuting Attorney regarding these concerns. The Prosecuting Attorney referred this matter to the Missouri State Highway Patrol (MSHP) and the Federal Bureau of Investigation (FBI). Investigations by the MSHP and FBI are ongoing.

Misappropriated Monies

Between April 14, 2011, and October 15, 2018, monies totaling at least $286,615 were misappropriated from the district. Improper payments totaling $156,739 were made to the Secretary/Treasurer's company. The Secretary/Treasurer also used $125,642 of district monies to pay personal credit card bills. Personal credit card statements showed she may have spent over $30,000 on business products to operate her 2 personal businesses. Also, she spent $17,000 at construction and home improvement stores and $14,000 on travel and entertainment. The Secretary/Treasurer also earned an additional $1,634 of credit card rewards from credit card purchases using district monies. The Secretary/Treasurer also made improper payments totaling $2,600 using district monies for personal and company bills. The Secretary/Treasurer may have created/modified 31 meeting minutes after she was terminated on October 15, 2018, with 26 of the 31 meeting minutes created/modified shortly after our office served her and her company subpoenas to obtain records. At least 4 meeting minute files may have been created to reflect increases in monthly fees paid to the Secretary/Treasurer's company in an attempt to conceal or reduce the amount of improper payments.

The Secretary/Treasurer falsified the district's published financial statements to conceal $131,154 of payments made to her company and $76,879 of

	payments for her personal credit card bills. We identified significant differences in receipts, disbursements, and ending cash balances reported on published financial statements in comparison to the accounting records for 2017, 2016, 2015, and 2014, that helped conceal the district's declining financial condition.
Oversight and Bond Coverage	The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the Secretary/Treasurer. The district did not have bond coverage for district employees or officials.
Accounting Controls and Procedures	The Board's review and approval of disbursements and bank activity was insufficient, and provided no assurance that district funds were spent properly. The Board did not have adequate controls over checks, and accounting records maintained by the Secretary/Treasurer were not accurate. The Secretary/Treasurer did not always record or deposit receipts timely. The district did not enter into a written contract with Langner Enterprises, LLC for bookkeeping services detailing services to be rendered or the amount of compensation. The majority of invoices, and all bank records, accounting records, and meeting minutes were maintained by the Secretary/Treasurer at her company or her home, and some records could not be located.
Payroll	The Board approved year-end bonuses to the Secretary/Treasurer and employees contrary to state law and the Secretary/Treasurer did not timely remit federal payroll taxes.
Budgets and Financial Reporting	Neither the Board nor the Secretary/Treasurer prepared budgets for the past 8 years (2011 through 2018), or submitted a financial report to the SAO as required by state law for 5 years (2012 through 2016). The financial report for 2017 was not filed timely.

In the areas audited, the overall performance of this entity was **Poor**.*

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Missouri State Auditor

To the Board of Commissioners
Plattsburg Special Road District

We have audited certain operations of the Plattsburg Special Road District as they relate to the district's finances in fulfillment of our duties under Chapter 29, RSMo. Due to concerns regarding missing monies and improper payments, the State Auditor initiated the audit with the approval of the Plattsburg Special Road District Board of Commissioners. The scope of our audit included, but was not necessarily limited to the period from April 14, 2011, through October 15, 2018. The objectives of our audit were to:

1. Evaluate the district's internal controls over significant management and financial functions.

2. Evaluate the district's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

4. Determine the extent of monies misappropriated from the district.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) misappropriated monies totaling at least $286,615. The accompanying Management Advisory Report presents our findings arising from our audit of the Plattsburg Special Road District.

Background

The former bookkeeper, who served as the appointed district Secretary/Treasurer, Ava Langner, performed work for the district from April 14, 2011, until her termination effective October 15, 2018. Ava Langner was considered an independent contractor, but never entered into a formal contract with the district. As Secretary/Treasurer, Ava Langner was solely responsible for the following financial accounting functions and records of the district:

- Receipts - collecting and recording all monies received by the district, and preparing and making bank deposits.

- Disbursements - maintaining supporting documentation (all disbursements are to be supported by invoices or other documentation), preparing and distributing checks, posting payments to the accounting records, and transferring monies between bank accounts.

- Payroll - calculating, preparing, and distributing payroll checks (including checks related to the payment of payroll taxes); posting payments to the accounting records; and preparing 941 and W-2 forms.

- Bank accounts - receiving and reconciling monthly bank statements to accounting records.

- Reporting - preparing Board meeting minutes and financial reports.

In late September 2018, the State Auditor's Office (SAO) Whistleblower Hotline received a complaint questioning the allocation of district funds, and alleging overpayments made to the Secretary/Treasurer and improper charges made on a credit card paid for using district funds. Under Section 29.221, RSMo, the SAO sent a letter dated October 4, 2018, to the Board of Commissioners notifying them that our office was conducting an initial review of the allegations to determine if the complaint was credible and requested records be provided to our office. Upon receipt of our letter the Secretary/Treasurer admitted to a Board member that she had stolen monies from the district for her personal use. On October 15, 2018, the Board terminated the Secretary/Treasurer and requested/authorized the SAO to conduct an audit, and the SAO subsequently agreed to conduct the audit under Chapter 29, RSMo. The SAO issued subpoenas to Ava Langner and Langner Enterprises, LLC on December 3, 2018, to compel her testimony[1] and require her to produce records and documents (see Appendixes E and F). The SAO also issued subpoenas to Chase Bank and Ameren to produce records related

[1] On December 27, 2018, an attorney of the State Auditor's Office took the testimony of the Secretary/Treasurer. This testimony was given under oath and was recorded by a court reporter.

to Ava Langner's personal and company transactions paid using district funds (see Appendixes G and H).

The district's fiscal year is January 1 through December 31. The scope of our audit included, but was not necessarily limited to the period April 14, 2011, through October 15, 2018, the time period during which the Secretary/Treasurer served the district. In coordination with law enforcement officials, we applied procedures to district receipt and disbursement transactions to determine the amount of misappropriated monies, and the methods used to perpetrate and conceal the theft. During the time period Ava Langner served as the Secretary/Treasurer, she also owned Langner Enterprises, LLC (aka Lathrop Accounting Associates, LLP) and Have Another Cup (a coffee shop).

Criminal investigation

In October 2018, the Board contacted the Clinton County Prosecuting Attorney regarding these concerns. The Prosecuting Attorney referred this matter to the Missouri State Highway Patrol (MSHP) and the Federal Bureau of Investigation (FBI). Investigations by the MSHP and FBI are ongoing.

Plattsburg Special Road District
Management Advisory Report
State Auditor's Findings

1. Misappropriated Monies

Between April 14, 2011, and October 15, 2018, monies totaling at least $286,615[2] were misappropriated from the district. During this period, the Secretary/Treasurer, Ava Langner, made improper payments to her company (Langner Enterprises, LLC referred to as Langner Enterprises throughout the remainder of the report) totaling $156,739. The Secretary/Treasurer also used district monies to pay personal credit card bills totaling $125,642 and obtained $1,634 in credit card rewards points related to transactions paid for using district funds. The Secretary/Treasurer also made other improper payments for personal and company bills totaling at least $2,600.

Appendixes A, B, and D provide details regarding the improper payments from the district's account. Appendix C shows details regarding personal credit card activity. Appendixes E and F show subpoenas issued to Ava Lea Langner and Langner Enterprises, LLC. Appendixes G and H show subpoenas issued to Chase Bank and Ameren related to Ava Langner's personal and company transactions paid using district funds.

The following table provides a summary of the amounts misappropriated.

Type of Improper Payment or Benefit	April 14 to December 31, 2011	Year ended December 31, 2012	2013	2014	2015	2016	2017	January 1 to October 15, 2018	Total
To Langner Enterprises, LLC (Appendix A)	$ 1,714	3,500	7,121	8,300	12,021	51,511	57,872	14,700	156,739
For personal credit card bills (Appendix B)						12,215	64,665	48,762	125,642
Credit card rewards earned						131	881	622	1,634
For personal or business utility bills (Appendix D)						276	1,368		1,644
For personal hotel costs (Appendix D)						363	124	469	956
Total Misappropriation	$ 1,714	3,500	7,121	8,300	12,021	64,496	124,910	64,553	286,615

The Secretary/Treasurer's misappropriation of district funds significantly affected the district's financial condition. The district's bank balances decreased significantly from $119,400 at December 31, 2015, to $6,929 at October 15, 2018, the period during which the majority of the theft occurred.

[2] Amounts presented in the report findings are rounded to the nearest dollar, whereas amounts presented in the report appendixes are not rounded.

Improper payments to Langner Enterprises

Improper payments totaling $156,739 were made to the Secretary/Treasurer's company from April 2011 through September 2018. A comparison of all checks written to Langner Enterprises to legitimate monthly fee amounts and year-end bonuses showed overpayments totaling $156,739 (see Appendix A).

The Board appointed the Secretary/Treasurer's company to provide bookkeeping services for a monthly fee, but did not enter into a contract. In her sworn deposition, the Secretary/Treasurer indicated the Board did not enter into a written contract with her company regarding these services and that her starting pay in 2011 was $350 per month, and that the Board approved periodic increases usually amounting to $50 per month. Based on this information, discussions with Board members, and actual recurring monthly fees paid to Langner Enterprises each year, we are considering $350 per month during 2011, 2012, and 2013, $450 per month during 2014 and 2015, and $500 per month during 2016 to be legitimate payments. Despite discrepancies identified regarding the preparation of the December 2016 meeting minutes, we are considering $600 per month during 2017 and 2018 as the legitimate monthly fees.

The Board also approved one-time annual bonuses to the Secretary/Treasurer of $350 in December 2011, $300 in December 2013 and 2016, and $400 in December 2012 and 2015. As later discussed, there is some uncertainty regarding the December 2011 bonus amount. During the period April 2011 through mid-October 2018, a maximum of 96 payments should have been issued to Langner Enterprises. However, the Secretary/Treasurer issued 211 checks to Langner Enterprises with the checks representing improper payments, legitimate payments, or a combination of improper and legitimate payments. While all checks were signed by at least one Board member, the Board members indicated checks were often signed in advance.

The amounts of numerous checks issued to Langner Enterprises far exceeded the legitimate monthly fees of $350, $450, $500, and $600. Langner Enterprises received 44 checks for $1,500, 20 checks for $1,800, 11 checks for $1,000, 7 checks for $900, 3 checks for $2,000, 3 checks for $1,350, 3 checks for $1,200, 3 checks for $800, 3 checks for $750, 2 checks for $700, and 10 checks for other amounts ranging from $650 to $3,800. Some of these checks included a combination of improper and legitimate payments.

The Secretary/Treasurer also recorded the purpose of payments made to her company in the district's accounting system using false purposes. Of the 211 payments totaling $199,525, she recorded 162 in the accounting system as accounting fees ($157,472); however, only 91 payments should have been recorded to this purpose and 5 payments should have been recorded as bonuses. In addition, she recorded 17 payments as general account ($19,175), 5 as outside contract services ($4,200), 4 as bridge account ($7,450), 3 as shop supplies ($1,150), 3 as telephone, telecommunications ($1,171), 2 as

facility repairs ($850), 2 as 96 International ($1,100), and 2 as office supplies ($921). She recorded 10 other payments ($5,686) using 10 other purposes (96 Ford pickup, general road and bridge operation, 90 GMC dump truck, road grader, 2009 Ford pickup, BMY dump truck 1990, culvert replacement/repair, supplies, accounting fees and office supplies combined, and diesel). One check written for $350 was not recorded in the accounting system. The Secretary/Treasurer recorded the name and address of her company in the memo line of the checks.

The numerical sequence and timing of when some of the checks were issued was unusual. Thirty-nine of the 211 checks were issued out of numerical sequence. In addition, check number 2125 was issued out of numerical sequence and dated April 15, 2011. This check did not clear the bank until October 19, 2011, and check numbers 2107 through 2128 (excluding 2125) were issued in October 2011, giving the appearance that this check was likely back dated.

Meeting minutes

Documentation indicates the Secretary/Treasurer may have created/modified meeting minutes after she was terminated on October 15, 2018. The Secretary/Treasurer provided electronic files for minutes pertaining to 49 meetings. The properties[3] for 18 of these electronic files show the files were created within a reasonable period of meeting dates. Meeting minutes should be prepared shortly following the meeting date and approved by the Board at the following monthly meeting. The properties for 31 of these electronic files show the files were created/modified in October and December of 2018 after her termination. Twenty-six of the 31 files were created/modified on December 3, 5, or 6, 2018, shortly after our office served her and her company with subpoenas requiring her to provide testimony and produce district records and documents. In addition, 5 of the 49 meeting minute files were incomplete. For example, some meeting minutes did not detail meeting attendees and included incomplete sentences.

We identified at least 4 instances that meeting minute files may have been created so that minutes would reflect that the Board authorized increases in monthly fees in an attempt to conceal or reduce the amount of improper payments.

[3] The software used to document the meeting minutes details properties such as dates each file was created, modified, and printed.

Date of Meeting	Date Minutes were Created		Payment Amount per Minutes		Actual Payment Amount
12/08/11	12/06/18		$ 350	(1)	300
12/13/12	12/06/18		450	(2)	350
12/12/13	12/06/18		500	(2)	450
12/10/15	10/29/18	(3)	550	(2)	500

(1) Meeting minutes created documented the year-end bonus amount.

(2) Meeting minutes created documented the authorized monthly payment amount paid to Langner Enterprises.

(3) Meeting minutes were modified on December 6, 2018.

The actual check issued on December 13, 2011 (the date employees were issued year-end bonus payments), totaled $300 instead of the $350 noted in the 2011 meeting minutes (created on December 6, 2018). No checks were written to Langner Enterprises for $450 during 2013, $500 during 2014, or $550 during 2016 as provided for in the meeting minutes (created/modified on December 6, 2018, and October 29, 2018). The actual monthly payment amount as noted in the table during most of 2013 was $350, 2014 was $450, and 2016 was $500.

In addition, the December 8, 2016, meeting minutes indicated the Board approved a monthly fee of $600 be paid to the Secretary/Treasurer's business; however, properties show this electronic minutes file was created on December 5, 2018, and modified on December 6, 2018. As a result the authenticity of these meeting minutes is questionable. Actual payments made to Langner Enterprises in 2017 were inconsistent in amounts (see Appendix A) and we could not determine the legitimate monthly payment amount.

Documentation indicates Board meetings were held on several other dates. However, neither the district nor the Secretary/Treasurer retained or provided other meeting minutes. In addition, Board members indicated the Secretary/Treasurer did not prepare or submit meeting minutes for their review and approval at each monthly meeting, the Board could not provide meeting minutes, and none of the meeting minutes provided by the Secretary/Treasurer were signed by the Board. As a result, the authenticity of the meeting minutes provided by the Secretary/Treasurer could not be confirmed.

Improper personal credit card payments

The Secretary/Treasurer made 54 improper electronic payments totaling $125,642 using the district's checking account to pay her personal Chase Bank credit card bills between September 2016 and September 2018 (see Appendix B). The only payments made on this personal credit card account during this time period were made using district bank accounts. In sworn testimony, the Secretary/Treasurer indicated the Chase Bank credit card

account was her personal account, monies from district bank accounts were used to make payments on this account, and she was the only person with the password to make electronic payments from district bank accounts. Board members indicated the district did not maintain a credit card and they were unaware the credit card payments were being made. There was also no evidence that the Board approved these personal credit card payments, and the disbursements to the credit card vendor were not reported on the district's published financial statements.

Our review of the personal credit card statements determined the Secretary/Treasurer spent $30,004 on business products that may have been used to operate her 2 personal businesses (a coffee shop and an accounting service). Of this amount, $22,031 was spent at restaurant supply stores such as Farmer Brothers Coffee, Restaurant Depot, and Belfonte Ice Cream, and the remaining $7,973 was spent at business and office supply companies such as Canopy Tax, Capital Premium Financing, and American Paper Optics (see Appendix C).

In addition, the personal credit card statements showed the Secretary/Treasurer spent approximately $17,291 at construction and home improvement stores such as Menards, Home Depot, Northland Ready Mix, Orscheln, and Harbor Freight Tools. The personal credit card statements also showed the Secretary/Treasurer spent $14,023 on travel and entertainment, including vendors such as Carnival Cruise Line, Enterprise Rent-A-Car, multiple hotels, and attractions such as Starlight Theatre, Kansas City Royals, Silver Dollar City, and Space Center Houston. The Secretary/Treasurer also spent $29,387 at online shopping sites including $10,007 at Amazon, and $19,380 at other sites. The Secretary/Treasurer also spent $14,845 at Sam's Club and Walmart using this card.

Credit card rewards

In addition to the $125,642 of improper district payments made on the Secretary/Treasurer's personal credit card, the Secretary/Treasurer earned $1,634 in rewards from credit card purchases paid for using district monies, spent $1,479 of the rewards earned, and returned $59 of reward point items purchased. The remaining $214 of district reward points was included in the credit card reward balance as of September 16, 2018. We calculated the amount of rewards received based on transactions paid for with district monies.

Improper personal and company utility payments

The Secretary/Treasurer made 5 improper electronic payments totaling $1,644 using district monies to pay her personal and company utility payments (see Appendix D). Three of the 5 payments totaling $1,213 were made on the utility account for Langner Enterprises between November 2016 and January 2017, and the remaining 2 payments totaling $431 were made on the personal utility account of the Secretary/Treasurer in October and

December 2016. The Board members indicated they were unware these payments occurred. In sworn testimony, the Secretary/Treasurer indicated she was the only person with the password to make electronic payments from district bank accounts.

Improper hotel payments

The Secretary/Treasurer made 6 improper payments using the district's debit card totaling $956 for hotel costs in February 2016 (3 payments), 2017 (1 payment), and 2018 (2 payments) related to events held for Great Northwest Day[4] (see Appendix D). The Secretary/Treasurer also recorded the purpose of these payments in the accounting system as office supplies to conceal the improper payments. While Board members indicated they were aware that the Secretary/Treasurer was involved with these events, they said they did not approve the payment of the hotel costs from district funds.

Falsified published financial statements

The Secretary/Treasurer falsified the district's published financial statements for at least the 4 years ended December 31, 2017. This occurred to conceal improper disbursements. The financial statements prepared by the Secretary/Treasurer were misleading and significantly inaccurate because numerous disbursements had been altered or omitted. For example, payments made to Langner Enterprises totaling $131,154 and payments made to Chase Bank totaling $76,879 were not reported in the published financial statements.

The following table shows significant differences in amounts reported as paid.

	Year Ended December 31,							
	2017		2016		2015		2014	
Vendor or Purpose Listed in the Accounting Records	Published Financial Statements	Accounting Records	Published Financial Statements	Accounting Records	Published Financial Statements	Accounting Records	Published Financial Statements	Accounting Records
Langner Enterprises LLC	$ 6,300	65,072	6,300	57,811	5,700	17,821	4,950	13,700
Payroll	81,300	67,270	55,689	51,764	66,766	56,254	41,676	43,126
Chase Card	0	64,665*	0	12,214	0	0	0	0
Clinton County Great NW Day	0	1,624	0	1,363	0	0	0	0

* One payment was inaccurately recorded in the accounting records for $193 more than the actual check; therefore this amount was adjusted for the actual amount of the check.

[4] Great Northwest Day is an annual event at the Missouri State Capitol, and is a cooperative effort by Northwest Missouri communities to unify and enhance their region's image in Jefferson City and to pursue issues and legislation beneficial to the "Great Northwest." http://www.greatnorthwestday.com, accessed May 1, 2019.

The following table shows significant differences in receipts, disbursements, and ending cash balances reported on published financial statements in comparison to the accounting records.

	Year Ended December 31,							
	2017		2016		2015		2014	
	Published Financial Statements	Accounting Records	Published Financial Statements	Accounting Records	Published Financial Statements	Accounting Records	Published Financial Statements	Accounting Records
Receipts	$ 342,103	259,848	423,720	528,427	373,568	368,568	388,277	396,317
Disbursements	329,397	475,438	334,364	409,880	350,592	306,104	389,523	412,640
Ending Balance	85,636	17,418	422,579	232,835	274,432	115,126	118,525	92,792

In sworn testimony, the Secretary/Treasurer indicated she prepared the financial statements submitted to the county to be published with the county's financial statements.

Section 233.150, RSMo, requires the Board to submit financial information to the county so it can be included with the published annual financial statements. To ensure compliance with this statute, the Board should review the statements for accuracy prior to publication.

Federal monies

The district received $71,638 in federal monies from the Federal Emergency Management Agency and the State Emergency Management Agency during May and June 2016. These monies were deposited into the district's money market bank account and subsequently transferred as needed into the district's checking account by the Secretary/Treasurer.

Overall conclusion

The Board did not provide sufficient oversight of the Secretary/Treasurer and district finances as noted in the remainder of this report, which resulted in the overpayments and personal credit card payments going undetected for many years. The unusual nature and excessive number of checks written and electronic payments should have caused suspicion and alerted the Board to the misappropriation. It is apparent the Board did not review the financial statements for accuracy or compare this information to any supporting documents such as invoices, checks written, or bank statements. The inaccurate published financial statements helped conceal the misappropriation of district monies.

Recommendation

The Board of Commissioners continue to work with law enforcement officials regarding criminal prosecution of the improper payments, falsified records, and improper disbursements, and take the necessary actions to obtain restitution. In addition, the Board of Commissioners should ensure financial statements are reviewed for accuracy prior to publication.

Auditee's Response

We will continue to work with law enforcement regarding criminal prosecution and seek restitution. We have hired a new accounting firm that prepares the published financial statements, and the financial statements are reviewed by the Board prior to publication.

2. Oversight and Bond Coverage

The Board did not establish adequate oversight of the Secretary/Treasurer or obtain bond coverage for applicable officials and employees as required by state law.

2.1 Oversight and segregation of duties

The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the Secretary/Treasurer. Weaknesses identified throughout this report are significant and demonstrate a lack of segregation of duties and proper oversight by the Board. There is little assurance district monies were handled and accounted for properly.

In addition, 109 of the checks issued to Langner Enterprises were for more than $600, which was the maximum amount of monthly compensation authorized at any point during her time of service with the district. According to Board members, blank checks were frequently signed in advance with no subsequent review of the checks. Signing checks in advance is a significant control weakness that diminishes the control intended by multiple signatures. This problem, along with the lack of review of bank statements or canceled checks by anyone other than the Secretary/Treasurer, allowed the improper payments to occur and go undetected for many years.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the Board.

2.2 Bonding

The district did not have bond coverage for district employees or officials. The Secretary/Treasurer and Board members, who signed checks and had access to monies held in bank accounts, and district employees, who had access to district fuel and other supplies, were not covered by a bond. While the district had some fidelity and crime insurance coverage it was limited to $5,000 with a $500 deductible for each specific type of crime listed.

Section 233.055, RSMo, states the board may appoint a treasurer and fix the amount of bond and duties, and for the bond to be filed in the office of the County Clerk. Failure to properly bond individuals with access to funds and other assets exposes the city to risk of loss. Had the district obtained bond coverage as required by state law, the district may have been able to recover more than may be recovered through the insurance policy.

Recommendations

The Board of Commissioners:

2.1 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures. In addition, the Board should not allow any check signers to sign checks in advance.

2.2 Maintain bond coverage for all employees or officials with access to district monies or other assets.

Auditee's Response

2.1 We have segregated duties by hiring a part-time secretary to receive all mail and an accounting firm to handle the monthly payroll transactions and prepare the annual financial statements. The part-time secretary copies all documents received in the mail, including checks and forwards the originals to a Board member that is serving as the Board Treasurer. Deposits are prepared and made by the Board Treasurer. All non-payroll disbursements are made by the Board Treasurer, who pays most bills online, prints the payment confirmation, attaches it to the invoice, and enters the payment onto an electronic ledger. The Board Treasurer also reconciles the bank statements on a monthly basis. The electronic ledger detailing all disbursements is reviewed by the Board on a monthly basis along with the bank statements and reconciliations. All invoices, bank statements, and other district records are on file in the district office. Very few checks are issued, checks are no longer signed in advance, and checks now require the signature of 2 Board members.

2.2 We have increased the bond coverage to $50,000 for all employees and Board members.

3. Accounting Controls and Procedures

Significant weaknesses exist in the district's accounting controls and procedures. The Board's review and approval of disbursements and bank activity was insufficient, and provided no assurance that district funds were spent properly on items necessary and beneficial to the district. In addition, the Secretary/Treasurer used poor procedures for recording and depositing monies, and the district did not maintain various financial and personnel records.

3.1 Board review and approval process

The Secretary/Treasurer did not provide bank statements, a list of bills, or financial statements to the Board for review at monthly meetings. Board members indicated they had not reviewed district bank statements for several years. As a result, the Board was unaware of the improper payments made to Langner Enterprises, the Secretary/Treasurer's personal credit card company, and other vendors, or of the district's declining cash balances. In sworn testimony, the Secretary/Treasurer indicated district bills were mailed to a post office box and she was responsible for retrieving them, and preparing checks to pay them.

The Board and Secretary/Treasurer also failed to monitor the district's cash balances, and as a result, the district's checking account incurred $80 in overdraft fees between April and September 2018. Had the Board reviewed the bank statements, the improper payments and the declining cash balances could have been questioned.

In addition, Board members did not review invoices, and no one generally marked invoices paid or otherwise canceled once payment occurred or acknowledged receipt of goods or services on them. Board members also indicated the Secretary/Treasurer did not prepare meeting minutes for their review and approval. As a result, there is no documentation of the Board's review and approval of most district disbursements.

To safeguard against possible loss or misuse of funds, the Board should approve all disbursements and review supporting documentation, bank information, and canceled checks. Board approval of disbursements should be documented by signing or initialing the monthly list of bills and should be documented in meeting minutes. Canceling invoices and other supporting documentation reduces the likelihood of duplicate payments, and requiring acknowledgement of the receipt of goods or services prior to payment helps ensure the district actually received all items. To prevent bank account overdraft fees, the Board and Secretary/Treasurer should monitor bank account balances.

3.2 District checks and accounting records

The Board did not have adequate controls over checks, and accounting records maintained by the Secretary/Treasurer were not accurate.

- The Secretary/Treasurer did not issue checks in numerical sequence, properly account for the numerical sequence of checks, or retain voided checks. Our review of 264 checks issued during 2016 identified 37 checks (14 percent) issued out of sequence. Based on our review of gaps in the numerical sequence, we identified 14 check numbers unaccounted for during this period. Their disposition (unused, issued but outstanding, voided, etc.) could not be determined and they were not listed in the district's accounting records.

- Some checks were not accurately recorded in the accounting system. In at least 7 instances, the same check number was recorded twice. For example, check number 2877 was recorded on January 10, 2015, for $98, and again on February 26, 2015, for $424. Check number 2877 was actually issued for $98 on January 10, 2015, and the entry on February 26, 2015, was an electronic funds transfer (EFT). In another example, check number 3005 was issued and recorded on August 21, 2015, for $1,350; however, accounting records also showed this check number recorded in error on July 26, 2015, for a $424 EFT. We identified

other instances where checks were not accurately recorded in the accounting system.

In addition, a comparison of check numbers and amounts on bank statements to the computerized accounting system showed that actual check numbers sometimes differed from those recorded in the computerized accounting system. For example, check number 3791 was written to a local lumber company on January 23, 2018, for $170. This disbursement was recorded as check number 3811 in the accounting system and check number 3791 was not recorded. Check number 3811 was recorded twice (once for $170 and once for $50). Check number 3811 was actually issued for $50. We identified other check detail discrepancies.

- The Secretary/Treasurer did not record $9,399 of transactions that cleared the bank in the accounting records during the 4 years ended December 31, 2017, including 26 bank service charge fees totaling $58, 6 payroll tax payments totaling $8,213, and 4 other miscellaneous payments totaling $723. Two other checks totaling $405 were voided in the accounting records, but cleared the bank during this period.

- The Secretary/Treasurer recorded $10,533 of transactions in the accounting records that did not clear the bank during the 4 years ended December 31, 2017, including 12 payroll tax payments totaling $6,834 (payment amounts differed from those previously mentioned that cleared the bank), 4 insurance payments totaling $465, and 15 other miscellaneous payments totaling $2,835. Two other checks totaling $399 were recorded twice in the accounting records during this period.

To properly account for all disbursements and reduce the risk of unauthorized transactions, checks should be issued in numerical sequence, the numerical sequence of checks issued should be accounted for, and voided checks should be properly defaced and retained. Accurate and complete financial information is necessary for the Board to make informed decisions and to provide residents with reliable information about district finances.

3.3 Recording and depositing

The Secretary/Treasurer did not always record or deposit receipts timely. For example, the Clinton County Treasurer issued a $156 check on January 20, 2017, a $15,619 check on January 31, 2017, a $347 check on February 22, 2017, a $16,770 check on February 10, 2017, and a $6,152 check on February 16, 2017, to the district; however, the Secretary/Treasurer held these checks and did not record them in the accounting system until March 23, 2017, or deposit them until March 24, 2017.

Failure to implement adequate recording and depositing procedures increases the risk that loss, theft, or misuse of funds will go undetected.

3.4 Written contract

The district did not enter into a written contract with Langner Enterprises for bookkeeping services detailing services to be rendered, duties and responsibilities for preparing and retaining records, or the amount of compensation. Written agreements, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Had the district entered into a written contract for bookkeeping services, there would have been no confusion regarding the amount of compensation. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.

3.5 Record retention

Board members indicated they requested the Secretary/Treasurer return all accounting records just prior to her termination, and again after her termination. The majority of invoices, and all bank records, accounting records, and meeting minutes were maintained by the Secretary/Treasurer at her company or her home. She provided the district some electronic records in mid-December and provided our office additional district records at the time of her deposition on December 27, 2018. However, some bank statements, invoices, and other financial records could not be located and were obtained from the bank and district vendors.

Retention of records is necessary to ensure the validity of transactions and provide an audit trail. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. Record retention schedules can be found on the Secretary of State's website.[5]

Recommendations

The Board of Commissioners:

3.1 Review bank statements and reconciliations monthly, properly monitor bank account balances to avoid bank fees, and ensure any differences are promptly investigated and resolved. The Board should also ensure a monthly list of bills is prepared and compared to invoices and checks written. In addition, the Board should ensure invoices are adequately reviewed and marked paid and require documentation of receipt of goods and/or services prior to payment of invoices.

3.2 Perform adequate reviews of accounting records and checks written before approving disbursements.

[5] https://www.sos.mo.gov/archives/localrecs/schedules

3.3 Ensure receipts are recorded and deposited timely and intact.

3.4 Enter into clearly written agreements for services.

3.5 Retain all records in accordance with state law.

Auditee's Response

3.1 Bank statements and reconciliations are prepared by the Board Treasurer and reviewed by the Board on a monthly basis. The Board Treasurer reviews all invoices prior to payment, attaches the electronic payment receipt or check stub to the invoice, and presents the Board with a printout of all disbursements each month for review and approvals.

3.2 We are now issuing checks in sequence and ensuring check numbers are not duplicated. Disbursements can now only be issued by a Board member.

3.3 We are now depositing intact within one to two days of receipt.

3.4 We have a written contract (engagement letter) with the new accounting firm.

3.5 We are now maintaining all records on site.

4. Payroll

The Board approved year-end bonuses to the Secretary/Treasurer and employees contrary to state law and the Secretary/Treasurer did not timely file and remit payroll taxes.

4.1 Bonuses

The Board approved year-end bonus payments to the Secretary/Treasurer in December 2011, 2012, 2013, 2015, and 2016 totaling $1,700. District employees also received bonuses. These year-end bonus payments represent additional compensation for services previously rendered and, as such are in violation of Article III, Section 39(3), the Missouri Constitution, and contrary to Attorney General's Opinion No. 72-1955 (June 14, 1955), which states, ". . . a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered." In addition, Article VI, Sections 23 and 25, prohibits local government from granting public money to any private individual, except as otherwise provided by law.

4.2 Payroll taxes

The Secretary/Treasurer did not timely remit federal payroll taxes resulting in interest and penalties for the district. As of November 12, 2018, the Secretary/Treasurer had not remitted the applicable payroll taxes, totaling $2,369, to the Internal Revenue Service for July 2017 and January 2018, resulting in an assessment of penalties and interest totaling $154.

The Internal Revenue Code requires employers to file a 941 form by the last day of the month following the end of the quarter, along with payment of Social Security and Medicare taxes withheld from employees and the employer's share, as well as federal income taxes withheld.

Recommendations

The Board of Commissioners:

4.1 Discontinue the practice of paying bonuses.

4.2 Establish procedures to ensure payroll taxes are remitted timely.

Auditee's Response

4.1 We will discontinue paying bonuses.

4.2 We have ensured all payroll taxes are current and the new accounting firm is responsible for making all payroll tax payments on time. Payroll tax payments are reviewed by the Board along with all other disbursements.

5. Budgets and Financial Reporting

The district did not comply with state law relating to budget preparation and submitting financial statements.

5.1 Budgets

Neither the Board nor the Secretary/Treasurer prepared budgets for the 8 years ended December 31, 2018. Section 67.010, RSMo, requires the budget to present a complete and accurate financial plan for the ensuing budget year, and outlines the various information the budget must include. An accurate, complete, and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of district operations.

5.2 Financial reporting

Neither the Board nor the Secretary/Treasurer submitted a financial report to the SAO as required by state law for the years ended December 31, 2012, 2013, 2014, 2015, or 2016, and the report submitted for the year ended December 31, 2017, was not filed until November 7, 2018.

Section 105.145, RSMo, requires each political subdivision to file an annual report of its financial transactions with the SAO. Section 105.145.5, RSMo, prohibits elected officials from processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the SAO. In addition, 15 Code of State Regulations (CSR) 40-3.030, requires each political subdivision to file annual financial reports within 6 months of the end of the subdivision's fiscal year. Effective August 28, 2017, under Section 105.145, RSMo, the SAO must notify the Missouri Department of Revenue if a political subdivision fails to file a timely financial statement.

Failure to timely file a financial statement may subject the political subdivision to a fine of $500 per day.

Recommendations

The Board of Commissioners:

5.1 Prepare budgets that contain all information required by state law.

5.2 Submit annual financial reports to the State Auditor's Office as required by state law.

Auditee's Response

5.1 We plan to prepare a budget next year.

5.2 We will ensure annual financial statements are filed with the State Auditor's Office before the deadline.

Plattsburg Special Road District
Organization and Statistical Information

The Plattsburg Special Road District is located in Clinton County, Missouri. The district was incorporated prior to 1915 and organized under Sections 233.010 to 233.165, RSMo. The district employed a full-time employee and 2 part-time employees on October 15, 2018.

The Board of Commissioners consists of three commissioners who serve 3-year terms. The commissioners elect a President of the board, and in accordance with Section 233.060, RSMo, commissioners are not compensated.

Board of Commissioners

Name	Dates of Service
George Hoover, President	April 2009 to current
Kurtis Kennedy	April 2007 to current
Corey Wilkinson	April 2016 to current (1)

(1) Raleigh Phillips served from April 1986 to March 2016.

Financial Activity

A summary of the district's financial activity obtained from district bank statements for the year ended December 31, 2017, follows:

Receipts	$	321,641
Disbursements		486,836
Receipts over (under) disbursements		(165,195)
Cash balance, January 1, 2017		182,304
Cash balance, December 31, 2017	$	17,109

Plattsburg Special Road District
Supporting Documentation of Misappropriated Monies

The following appendixes provide supporting documentation for the misappropriated monies and subpoenas issued as discussed in MAR finding number 1 and are summarized in the following table:

Appendix	Type of Supporting Documentation
A	Improper Payments to Langner Enterprises, LLC
B	Improper Personal Credit Card Payments
C	Personal Credit Card Charges
D	Other Improper Payments
E	State Auditor Subpoena - Ava Lea Langner
F	State Auditor Subpoena - Langner Enterprises, LLC
G	State Auditor Subpoena - Chase Bank
H	State Auditor Subpoena - Ameren

MISSOURI STATE AUDITOR'S OFFICE

Nicole Galloway, CPA

Fighting Public Corruption

Protecting Taxpayers

Getting Results

Holding Government Accountable

2018 ANNUAL REPORT

2019-053

Letter from Auditor Galloway

As your state auditor, I am dedicated to being a strong, independent watchdog for all Missourians. Taxpayers deserve to get the most from their government. And each day, I bring my experience as a certified public accountant and certified fraud examiner to work for you.

In 2018, we released 140 reports holding government at all levels accountable to you — the citizens they serve. These reports revealed evidence of theft and abuse of taxpayer dollars, highlighted inefficiencies in government and brought to light mismanagement affecting services to the public. Audits get results, and these efforts have resulted in changes to operations, more effective processes, and, at times, criminal charges brought against corrupt public officials.

My dedicated team works each day to hold government at all levels accountable, and I am proud of our integrity and professionalism. An audit of my office initiated by the General Assembly in 2018 found the office is managed efficiently and effectively. The auditors performed three separate reviews that found the office's overall operations are managed professionally and cybersecurity measures are effective.

Since 2015, our audits have identified more than $350 million in government waste, fraud, abuse and mismanagement and resulted in 38 criminal charges against public officials. In the coming year, I'm proud to expand on the great work we have accomplished. It is my job to tell Missourians who is corrupting our government and to hold the powerful accountable to the people of this state.

It is my honor to serve as your advocate, ensuring government at all levels is efficient, effective and transparent.

Nicole Galloway, CPA

Since 2015

audits released by Auditor Galloway have identified:

$350 million in government waste, fraud and abuse.

Reports have resulted in changes to government operations, improved processes and the return of stolen taxpayer dollars.

38 criminal counts alleging corruption against public officials.

The office has a proven track record of working with local, state and federal law enforcement to pursue justice for taxpayers.

The State Auditor's Office works to ensure the proper use of public funds and to improve the efficiency and effectiveness of Missouri government.

Audits examine financial accountability; look for waste, abuse and fraud; and evaluate whether government organizations and programs are achieving their purposes and operating economically and efficiently. All audits are performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States.

Duties of the State Auditor

The State Auditor's Office is Missouri's independent watchdog for taxpayers. The Missouri Constitution and state law give the Missouri State Auditor authority to audit:

- All state agencies, boards and commissions
- Public employee retirement systems
- Public employee healthcare systems
- State court system
- School districts
- Counties that do not have a county auditor
- Other political subdivisions upon petition by the voters of those subdivisions

Above: Members of the Missouri National Guard provided a tour and briefing on the Joint Incident Site Communication Capability trailer and provided information about the role of technology during an emergency response.

Far left: At request of the Board of Aldermen, Auditor Galloway agreed to complete a comprehensive audit of the City of St. Louis. Auditor Galloway met with community leaders, local officials and residents to ensure audit work addresses the issues that affect citizens.

Second from left: The Missouri State Fair highlights the importance and history of agriculture in the state. Each year, Auditor Galloway attends to support this Missouri tradition.

Third from left: Concerned citizens petitioned for an audit of the Hazelwood School District. Auditor Galloway publicly delivered the report results, which found weaknesses in cash handling and questionable spending decisions.

Fighting Public Corruption

Theft by city clerk in Winona

A citizen-requested audit of the city of Winona, located in Shannon County, showed more than $42,000 missing. Auditors initially noticed financial discrepancies when reviewing money on hand at city hall. Investigations revealed that since January 2015 at least $34,000 in cash was received and documented but not deposited. Additionally, more than $7,000 in utility check payments were recorded in the system, but not deposited. In December, the former Winona city clerk was arrested on a felony charge of receiving stolen property.

Missing money in Greenville, audit uncovers $160,000

An audit of the city of Greenville, located in Wayne County, found more than $160,000 missing from city funds. The audit was initiated as a part of a law enforcement investigation, which resulted in criminal charges filed by the Attorney General's Office. The report detailed improper payroll and other payments, improperly cashed checks and missing cash over a period of more than two years. Felony charges were filed against the former city clerk.

Guilty plea by Callaway County clerk

An audit of the Callaway County Collector's Office detailed more than $300,000 stolen from the collector's office between Jan. 1, 2016 and March 15, 2018. During the more than two years covered by the audit, over $244,000 in cash went missing and was not deposited. Additionally, more than $71,000 in improper checks were issued by the former collector directly to herself. The former collector pleaded guilty to federal criminal charges regarding the theft of public funds.

Stealing & forgery charges facing Coffey city clerk

An audit of the city of Coffey in Daviess County revealed more than $60,000 missing from the small northwest Missouri town. According to the audit, over a period of almost two years the former city clerk failed to make deposits, received improper payroll payments, and falsified board minutes and various financial reports. Felony charges of stealing and forgery were filed against the former city clerk.

Misuse of city funds in Glasgow, missing funds

An audit of Glasgow, located in Chariton and Howard counties, revealed thousands of dollars missing, city funds used to pay a personal credit card and missing firearms. The suspicious activity took place under the supervision of a former city administrator who also served as police chief. The State Auditor's Whistleblower Hotline received a tip related to credit card purchases and firearm inventory concerns. The information was referred to law enforcement and the city ultimately formally requested an audit. The audit found missing cash totaling more than $4,000, credit card charges that were improper or personal in nature and at least three firearms purchased by the city that are missing or unaccounted for.

"When we uncover a serious violation of public trust, my office partners with law enforcement to get answers for citizens and hold corrupt public officials accountable."

Weigh in Motion

Report details conflicts of interest in how state officials administered transportation services contract

A report outlined a series of questionable communications and actions by state employees that demonstrated conflicts of interest in administering the state's weigh in motion contract.

Missouri uses electronic weigh station technology to allow trucking companies to bypass traditional weigh stations and provide data to the state. For the past 15 years, this service has been provided by a nonprofit that contracts to utilize public resources to do business within the state.

Auditors reviewed a series of communications from employees from the Highway Patrol and MoDOT, several of whom also served on the board for the nonprofit. The communications revealed close working relationships with the private entity that cast doubt on the employees' independence and may have led to bias in their decision making.

Within less than a year after leaving state employment, three state employees were subsequently hired by or contracted with the nonprofit. Two of these former employees had business-related communications with the state, including with former subordinates.

There was a further lack of transparency in these relationships because three state employees failed to properly disclose expenses paid to them on their personal financial disclosures to the Missouri Ethics Commission. In two instances, the disclosures were later amended to include board membership and expenses paid by the nonprofit.

Protecting Taxpayers

Not enough being done to prevent or detect abuse of food assistance programs

An audit of the Department of Social Services' Supplemental Nutrition Assistance Program, formerly known as the Food Stamp Program, found millions of dollars in questionable transactions by recipients who were deceased, incarcerated or making purchases exclusively out of state. The audit found issues with the integrity and accuracy of data and made recommendations to ensure potential fraud is identified quickly.

Government red tape hinders efforts to help victims of domestic violence

Burdensome requirements in state law have meant an inefficient and uneven distribution of funding across Missouri, according to an audit of domestic violence shelter funding. In 2017, there were a reported 28,182 unmet requests for shelter and other services in Missouri.

To obtain funding collected by a city or county, domestic violence shelters must demonstrate to local officials that they meet a list of legal qualifications and also file an annual report with that local authority. These requirements for information burden shelters, duplicating documentation already filed with other state agencies. State law also does not require local authorities collecting domestic violence fees to actually distribute the funds or set a limit on the amount they can retain.

Auditor Galloway encouraged the legislature to address the concerns highlighted in the audit and streamline the process of getting money to shelters to assure funds are being used to help Missourians in need.

More than 1,200 sex offenders unaccounted for

An audit of the sexual offender registration program found more than 1,200 registered sex offenders were unaccounted for. State law requires those convicted or found guilty of sexual offenses to register their name, address and other information with the chief local law enforcement official, who is most often the county sheriff. That information is made public through a database and website maintained by the Missouri State Highway Patrol. Offenders must verify the information at regular intervals and notify the appropriate law enforcement officials if they move.

Due to inadequate enforcement of the registration requirements at the local level, 1,259 registered sex offenders failed to comply with state law during the audit period. Although not complying with registration requirements is a felony, the audit found that less than 10 percent of offenders identified as noncompliant had an active arrest warrant for non-compliance. The report also highlighted a need to improve management of the database and weaknesses in current state laws.

Audits Get Results

Putnam County Memorial ends questionable lab billing scheme

In 2017, Auditor Galloway's report on Putnam County Memorial Hospital uncovered $90 million in inappropriate lab billings. The findings of the audit were covered by national news outlets and resulted in calls for a federal investigation into hospital billing schemes.

The questionable activity began after the Putnam County Hospital Board hired Hospital Partners, Inc., to take over day-to-day management of the hospital. In July, Auditor Galloway released a follow-up report, which found the board terminated the agreement with Hospital Partners, Inc. and an affiliated company that provided billing services and lab management.

The 2017 audit also found the hospital was paying the salaries of 33 employees from around the country to conduct lab work. These "employees" were removed from the hospital payroll in October 2017.

Increased accountability for special taxing districts in city of Harrisonville

In 2017, an audit of the city of Harrisonville found financial management issues and lack of accountability in redevelopment and revitalization projects that depend on revenue from both Transportation Development Districts (TDDs) and Tax Increment Financing Districts (TIFs).

Since May 2017, no new incentives have been approved, and the city is in the process of developing better procedures to account for remaining debt on existing projects. The city has filled vacant positions on the TIF Commission, held public meetings and filed annual reports as required by law. The review also found that the city is no longer using restricted utility funds to pay for road improvements on a separate TDD project, and repaid money previously loaned from the utility account with interest.

University of Missouri ends hidden bonuses and addresses vehicle allowances

A follow-up report found improvement since the March 2017 audit criticized the UM System for hidden payments and incentives to top executives and for excessive vehicle allowances for system executives.

The follow-up report found that no incentive pay has been issued since March 10, 2017, and that the university system has stopped eight of the 15 vehicle allowances noted in the 2017 audit. The University is phasing out four administrators' vehicle allowances as their contracts come up for renewal.

National news stories highlight billing schemes at rural hospitals throughout the country

National news stories made it clear billing schemes extend well beyond Putnam County Memorial Hospital. A CBS News investigation focused on similar situations in Florida and Georgia where health care management companies would either purchase financially strapped rural hospitals or take over their day-to-day management. Those companies then often would hire partner companies to perform lab services, which were billed to insurance companies at much higher reimbursement rates. After the stories aired, there were calls for a federal investigation into hospital billing schemes.

Audits can often reveal serious issues that need immediate attention. In certain circumstances, the Auditor will issue a follow-up report looking at what steps have been taken to address findings.

Increasing Government Accountability

New laws increase government accountability, protect privacy and taxpayer dollars

Auditor Galloway worked with lawmakers from both parties during the 2018 legislative session to pass several bills that went into effect on Aug. 28. They include measures improving school cybersecurity, protecting whistleblowers, holding government more accountable for tax refunds, and prohibiting state government from using non-disclosure agreements in taxpayer-funded settlements.

The 2018 legislation joins other priorities successfully pushed by the Auditor in recent years. In total, nine of the Auditor's legislative priorities have been passed by lawmakers during the past three sessions, with eight of the bills becoming law.

Leveling the playing field for taxpayers

A new law requires the state to pay taxpayers the same interest rate charged to taxpayers on late payments. The Auditor highlighted the interest rate disparity in a January 2018 audit on the timeliness of tax refunds from the Department of Revenue. In addition to finding so many refunds were issued late to taxpayers, Auditor Galloway worked with the legislature to fix the problem of the interest rate disparity. It passed.

Protecting the privacy of Missouri's students

Parents of students at public schools statewide must be notified by their children's school districts if a data breach compromises sensitive student data. The Auditor highlighted the issue of cybersecurity in schools, both through her audits and in her recognition of several Missouri school districts that proactively implemented parental notification policies.

Restoring protections to government whistleblowers

In 2017, then-Gov. Greitens signed a bill that stripped away long-standing whistleblower protections for government employees who exposed waste, fraud and misuse of taxpayer resources. The bill became law over the objections of Auditor Galloway. She called on lawmakers to restore the protections, saying they are vital to uncovering wrongdoing in government. Thanks to the new law passed in 2018, those protections are again in place.

Prohibiting non-disclosure agreements in taxpayer-funded settlements and judgments

Auditor Galloway has been a critic of non-disclosure agreements, or NDAs, in settlements or judgments that state government agencies pay from the Legal Expense Fund. NDAs prevent public discussion of claims settled against the government, Auditor Galloway said, and also can hide long-term, festering problems that often result in more lawsuits and greater costs to taxpayers. Those secret agreements are now prohibited because of legislation pushed by the Auditor.

CID laws allow pattern of self-dealing and lack of accountability

A report on Community Improvement Districts (CIDs) found that lax oversight of taxpayer-funded projects has allowed for spending decisions to be made by those that benefit the most. Taxpayers will be burdened with increased taxes to pay for an estimated $2.2 billion in costs for more than 400 CIDs across the state. The report outlined multiple recommendations to improve oversight and of CIDs and address lack of transparency.

Findings in the report included:

• State law does not require local governments to evaluate whether a district is in the best interest of the public.

• Districts can form with vague purposes and timeframes, and can change their purpose after being established.

• State law specifies that CID taxes should be approved by the qualified voters within a district; the majority of districts, however, are designed in such a way so as not to include any registered voters within their boundaries.

• There are no requirements as to the makeup of the board that oversees a CID. The report found more than 80 percent of CID boards are controlled by developers.

• The Department of Revenue does not adequately track sales tax district boundaries, resulting in errors in how taxes are administered.

"Legislators from both sides of the aisle worked together with my office to pass these bills. The benefits will put more money in Missourians' pockets, protect the privacy of our children, and hold government officials more accountable."

Looking Forward

In January 2019, Auditor Nicole Galloway was sworn in for a second term as Missouri's 38th State Auditor. Auditor Galloway reaffirmed her office's fight against public corruption. As part of that renewed commitment, Galloway announced she is directing increased resources towards investigations of fraud and abuse in government in a newly created Public Corruption and Fraud Division (PCFD) within the State Auditor's Office. By focusing additional resources on fighting public corruption through the PCFD, the Auditor's Office can more effectively address whistleblower complaints regarding abuse in local government.

CITIZENS SUMMARY

Findings in the audit of the City of New Bloomfield

Segregation of Duties	The Board of Aldermen has not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work performed by city personnel are performed.
Budget and Financial Reporting	The city budget prepared for the year ended December 31, 2018, did not contain all required elements. The city did not maintain accurate accounting records.
Sunshine Law	The Board did not make specific reference to the section of law allowing the closure of Board meetings when voting to go into a closed session for 3 of the 8 closed meetings held during the year ended December 31, 2018.
Bidding	The city has not followed established policies and procedures for the selection of professional audit services in accordance with the city's bidding policy.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of New Bloomfield, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of New Bloomfield. We have audited certain operations of the city in fulfillment of our duties. The city engaged Gerding, Korte & Chitwood, P.C., Certified Public Accountants, to audit the city's financial statements for the year ended December 31, 2018. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

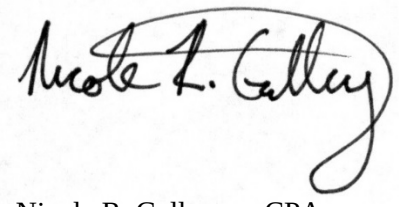
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the city.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Lori Melton, M.Acct., CPA

Audit Staff:	Michaela N. Shaver
	Zachery L. Harris

City of New Bloomfield
Management Advisory Report
State Auditor's Findings

1. Segregation of Duties

The Board of Aldermen has not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work performed by city personnel are performed. The City Clerk is responsible for receipting and recording payments received, making deposits, issuing checks, and performing bank reconciliations. Reviews of the detailed accounting and bank records are not performed by other city personnel or Board members.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records should be performed.

Recommendation

The Board of Aldermen segregate the accounting duties. If proper segregation cannot be achieved, ensure documented independent or supervisory reviews of detailed accounting and bank records are performed.

Auditee's Response

Segregation of duties for the City Clerk is cost prohibitive for the city at this time. Until such time as funds are available to fund a second employee, the Board will review all financial records and provide general oversight accountability.

2. Budget and Financial Reporting

The 2018 annual budget was not prepared in accordance with state law and the city did not maintain accurate accounting records.

2.1 Budget

The city budget prepared for the year ended December 31, 2018, did not contain all required elements. The budget document did not include a budget message, actual or budgeted amounts for the 2 preceding years, payments of interest and principal for debt, the actual beginning and estimated ending cash balance for any funds, or a budget summary. In addition, the Board does not receive a report of the city's budget-to-actual financial information at its meetings, and as a result, does not adequately monitor the city's annual budget. As a result, the public is not provided a complete overview of city finances.

Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in setting the tax levy, utility rates, and informing the public about city operations and current finances. Proper monitoring is necessary for the budget to be an effective management tool and to comply with state law.

2.2 Accounting records

The city did not maintain accurate accounting records. We performed a test of 35 disbursements and identified 5 errors (14 percent) including:

- The amounts recorded in the accounting records for the principal and interest on a loan did not agree to the principal and interest amounts per the United States Department of Agriculture loan agreements. The principal and interest amounts paid on this loan fluctuates monthly. The payment made on April 1, 2018, totaled $3,749 with $1,521 to be applied to principal and $2,228 to interest; however, the city recorded $2,847 to principal and $902 to interest. This error resulted in overstating the principal paid by $1,326 and understating interest by that amount.

- The city paid a vendor $2,108 on June 20, 2018, and again on July 18, 2018, for the same invoices. The vendor applied the overpayment to subsequent invoices.

Accurate financial information is necessary for the Board to make informed decisions and to provide residents with reliable information about city finances. Inaccurately recorded transactions make it more difficult to detect loss, theft, or misuse of funds.

Recommendations

The Board of Aldermen:

2.1 Prepare annual budgets that contain all information as required by state law. In addition, the Board periodically obtain and review reports of budgeted and actual disbursements to properly monitor the annual budget.

2.2 Ensure accounting transactions are appropriately recorded.

Auditee's Response

2.1 The Board is taking steps to assure that all budget forms are in full compliance with Section 67.010, RSMo, and any other provisions, as well as being comprehensive and understandable to the general public. The 2019 budget was correctly presented in the budget-to-actual 3 year format. The budget message for the year 2018 was presented in the 2017 audit report, however, it was not presented as part of the 2018 budget. The Board is adopting procedures to maintain compliance. Section 67.010, RSMo, does not require a Board to review their budget at each monthly meeting; however, in interest of increased supervision, the Board will be monitoring the budget-to-actual financial information on a more frequent basis.

2.2 Accounting transactions are reviewed together frequently with the City Clerk and a member of the Board to ensure transactions are accurately recorded. Two signatures have always been and will continue to be required from the Mayor and an Alderman or two

Aldermen to validate every check. In the past, the city auditor has corrected the loan allocation of principal versus interest annually. This problem will be corrected in future financial documents.

3. Sunshine Law

The Board did not make specific reference to the section of law allowing the closure of Board meetings when voting to go into a closed session for 3 of the 8 closed meetings held during the year ended December 31, 2018.

Section 610.022, RSMo, requires public bodies announce the specific reasons allowed by law for going into a closed session and to enter the reason into the minutes.

Recommendation

The Board of Aldermen ensure the specific section of law allowing the meeting to be closed is announced publicly and recorded in the minutes.

Auditee's Response

It is and has been the policy of the Board that before entering into each executive session, the Board announces the specific section of Section 610.021, RSMo, that applies. However, it was not always recorded correctly in the minutes. Minutes will be carefully reviewed to ensure accuracy.

4. Bidding

The city has not followed established policies and procedures for the selection of professional audit services in accordance with the city's bidding policy. The city did not solicit requests for proposals and did not periodically conduct a competitive selection process when the current CPA firm was contracted to perform the annual audit for the last 4 years. During the year ended December 31, 2018, the city paid $9,400 to the CPA firm for the 2017 audit. The city's procurement policy requires the city to advertise bids for expenditures over $5,000.

Soliciting proposals for professional services is good business practice, helps provide a range of possible choices, and allows the city to make better-informed decisions to ensure necessary services are obtained from the best qualified provider taking expertise, experience, and cost into consideration.

Recommendation

The Board of Aldermen periodically solicit proposals for professional services in accordance with the established city bidding policy.

Auditee's Response

The Board has consistently bid out professional contracts approximately every 3-5 years. Requests for proposals have been requested for the 2019 annual independent audit to be reviewed at the August 12, 2019, monthly meeting. Due to time constraints of the 2018 audit deadline of June 1, 2019, and personnel shortages, we were not able to accommodate a 2018 bid. The Board has now corrected personnel issues to prevent future occurrences.

City of New Bloomfield
Organization and Statistical Information

The City of New Bloomfield is located in Callaway County. The city was incorporated in 1971 and is currently a fourth-class city. The city employed 2 full-time employees on December 31, 2018.

City operations include utility services (water, sewer, and trash), and street maintenance.

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at December 31, 2018, are identified below. The Mayor and Board of Aldermen receive no compensation.

Terry Shaw, Mayor
Rosemary Augustine, Alderwoman
Gary Hoelscher, Alderman
Bryan Manes, Alderman (1)
Martha Siegel, Alderwoman (2)

(1) Replaced by Daniel Kliethermes, who was elected in April 2019.
(2) Replaced by Michael Lowe, who was elected in April 2019.

Financial Activity

Appendixes A and B present a summary of the city's financial activity for the year ended December 31, 2018. We obtained this information from the city's audited financial statement report.

CITIZENS SUMMARY

Findings in the audit of the Tenth Judicial Circuit - City of Monroe City Municipal Division

Accounting Controls and Procedures	The municipal division has not adequately segregated accounting and record-keeping duties, and neither the Municipal Judge nor city personnel perform supervisory or independent reviews of municipal division accounting and court records. The municipal division does not reconcile receipts slips issued for court receipts in the city's financial accounting system to the case management system to ensure all monies are properly recorded. Police department personnel cannot account for all bonds received. Generic unnumbered bond forms are issued and recorded on a log. Prenumbered receipt slips are issued for bond payments received; however, the receipt slip number is not posted to the log. The municipal division has not established a formal administrative plan for the collection of court debt and does not adequately monitor accrued costs, including fines and court costs.
Court Costs	The municipal division does not assess certain court costs in compliance with city ordinance and state law.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Presiding Judge
Tenth Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the Board of Aldermen
Monroe City, Missouri

We have audited certain operations of the City of Monroe City Municipal Division of the Tenth Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended September 30, 2018. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.

2. Evaluate the municipal division's and city's compliance with certain legal provisions.

3. Evaluate the municipal division's compliance with certain court rules.

4. Evaluate the city's compliance with state laws restricting the amount of certain court revenues that may be retained.

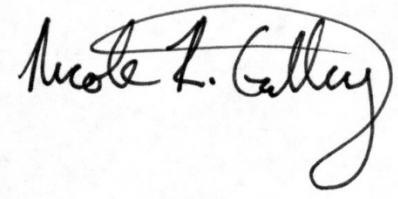
Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) no significant noncompliance with court rules, and (4) no noncompliance with state laws restricting the amount of certain court revenues that may be retained. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Monroe City Municipal Division of the Tenth Judicial Circuit.

A petition audit of the City of Monroe City, fulfilling our obligations under Section 29.230, RSMo, is still in process, and any additional findings and recommendations will be included in the subsequent report.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Audit Manager:	Julie A. Moulden, MBA, CPA
In-Charge Auditor:	Richard Stuck
Audit Staff:	Amanda G. Flanigan, MAcc
	Sacha Tejan

1. Accounting Controls and Procedures

Accounting controls and procedures need improvement. During the fiscal year ended September 30, 2018, the municipal division collected $40,285 in fines, court costs, and bonds.

1.1 Segregation of duties

The municipal division has not adequately segregated accounting and record-keeping duties, and neither the Municipal Judge nor city personnel perform supervisory or independent reviews of municipal division accounting and court records.

The Court Clerk is solely responsible for recording court receipts and case activity to the case management system, preparing disbursements, and preparing monthly financial reports for court activities. Court receipts can be collected by any administrative staff at city hall.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential and should include accounting for the numerical sequence of receipt slips and ensuring monies received have been accounted for properly.

1.2 Recording and reconciling

The municipal division does not reconcile receipts slips issued for court receipts in the city's financial accounting system to the case management system to ensure all monies are properly recorded.

Failure to implement adequate recording and reconciling procedures increases the risk that loss, theft, or misuse of monies will go undetected.

1.3 Bonds

Police department personnel issue generic unnumbered bond forms and record information on bonds received on a log. Prenumbered receipt slips are issued for bond payments received; however, the receipt slip number is not posted to the log. As a result, police department personnel cannot account for all bonds received and ensure bonds are handled properly and transmitted to the Court Clerk timely.

To reduce the risk of loss, theft, or misuse of bond monies received, and to provide assurance all bond monies are accounted for properly, official prenumbered bond forms should be issued for all bonds received and all bonds collected should be recorded on a bond log and transmitted to the Court Clerk timely.

1.4 Accrued costs

The municipal division has not established a formal administrative plan for the collection of court debt and does not adequately monitor accrued costs, including fines and court costs.

The municipal division accepts partial payments from defendants; however, they do not sign formal payment plans. Municipal division personnel do not prepare a listing of accrued costs At our request, the Court Clerk prepared a listing of accrued costs totaling $4,515 as of April 23, 2019.

Proper and timely monitoring of accrued costs is necessary to help ensure unpaid amounts are collected and proper follow-up action is taken for non-payment. In addition, proper monitoring is necessary to provide information to the Municipal Judge and determine appropriate handling when amounts are deemed uncollectible. Also, payment agreements signed by the defendant formalize the liability to the municipal division and could aid in the collection process.

Recommendations

The City of Monroe City Municipal Division:

1.1 Segregate accounting duties or ensure documented independent or supervisory reviews of municipal division accounting and court records are periodically performed.

1.2 Reconcile receipts slips issued for court monies in the city's financial accounting system to the case management system.

1.3 Work with the police department to ensure official prenumbered bond forms are issued, the numerical sequence of all bond forms is accounted for, and the bond log includes these numbers.

1.4 Establish procedures to monitor accrued costs and obtain signed payment plans from all defendants making partial payments.

Auditee's Response

1.1 A full segregation of duties is not possible due to the small number of employees at city hall. In addition, the Municipal Judge is only available one day a month for court. However, we agree an independent review would be beneficial and will work with the city to implement the recommendation.

1.2 A reconciliation of receipts recorded in the financial accounting system and the case management system will be performed and documented.

1.3 We will work with the police department to implement the recommendation.

1.4 We will establish procedures to monitor accrued costs and require defendants to sign payment plans.

2. Court Costs

The municipal division does not assess certain court costs in compliance with city ordinance and state law. We identified the following concerns:

- The municipal division does not assess and collect the $2 law enforcement training surcharge in accordance with city ordinance 30.47. The municipal division only charges a $1 law enforcement training surcharge. Section 488.5336.1, RSMo, allows municipalities to collect a $2 law enforcement training surcharge.

- The municipal division charges an additional $1 fee per case for judicial education instead of withholding the $1 fee from court costs in accordance with state law. Section 479.260.1, RSMo, provides that municipal divisions may withhold the $1 Judicial Education Fund fee from court costs (not collected in addition to court costs) if authorized by the city.

The municipal division should ensure courts costs are assessed in accordance with city ordinance and state law.

Recommendation

The City of Monroe City Municipal Division review all court costs to ensure amounts are assessed in accordance with city ordinance and state law.

Auditee's Response

We have already begun working with the city attorney to update the city's ordinances and fine schedule to ensure courts costs are assessed in accordance with city ordinance and state law.

Tenth Judicial Circuit
City of Monroe City Municipal Division
Organization and Statistical Information

The City of Monroe City Municipal Division is in the Tenth Judicial Circuit, which consists of Marion, Monroe, and Ralls Counties. The Honorable Rachel Bringer Shepherd serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury. The municipal division does not utilize OSCA's statewide automated case management system known as JIS. Instead, the municipal division utilizes an automated case management software provided by Information Technologies, Inc., which has been approved for use in municipal divisions by the State Judicial Records Committee.

Personnel

At September 30, 2018, the municipal division employees were as follows:

Title	Name
Municipal Judge	Michael P. Wilson
Court Clerk	Christine Ellison
Prosecuting Attorney	Michael Williams

Financial and Caseload Information

	Year Ended September 30, 2018
Receipts	$40,285
Number of cases filed	431

Court Costs, Surcharges, and Fees

Type	Amount
Court Costs (Clerk Fee)	$ 12.00
Crime Victims' Compensation	7.50
Law Enforcement Training	1.00
Peace Officer Standards and Training	1.00
Domestic Violence Shelter	1.00
Sheriff's Retirement	3.00
Judicial Education	1.00

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Madison County Collector and Property Tax System

Background

In October 2018, a taxpayer notified the County Collector about concerns with his taxes after he attempted to sell a piece of real estate and was informed his real estate taxes were unpaid and delinquent. The taxpayer provided the County Collector with a paid tax receipt issued by her office. On November 2, 2018, the County Collector requested and received a report of deleted transactions from the property tax system vendor. When scanning the list, she indicated she identified deleted transactions that looked unusual or she could not recall making. On November 5, 2018, the County Collector brought her concerns to the County Commission, who notified the Prosecuting Attorney. At the request of the Sheriff, the Missouri State Highway Patrol (MSHP) opened an investigation and obtained reports of deleted transactions.

On November 26, 2018, the State Auditor's Office (SAO) received an anonymous citizen concern regarding the County Collector's office. The SAO contacted the MSHP regarding its ongoing investigation and conducted an initial review of information provided by the MSHP under Section 29.221, RSMo. Based on discussions with law enforcement, the SAO determined an audit was warranted. The MSHP investigation is ongoing. The Sheriff, County Collector, County Clerk, and County Commission continue to cooperate with MSHP investigators.

Missing Monies and Other Questionable Deleted Transactions

Between January 1, 2017, and October 31, 2018, monies totaling at least $13,263 were receipted and the transactions were subsequently deleted from the property tax system. Two additional receipt transactions, totaling $1,108, were deleted and the taxes are delinquent in the property tax system. Three deleted transactions totaling $948 were for the former Deputy Collector's personal property taxes, including her 2016 taxes that were entered and deleted on two separate occasions.

County Collector's Controls and Procedures

The County Collector has not adequately segregated accounting duties and does not perform a supervisory review of detailed accounting and bank records. The County Collector did not review and approve deleted transactions in the property tax system or periodically obtain a report of deleted transactions from the property tax system vendor to review. The County Collector does not account for the numerical sequence of receipt slip numbers assigned by the property tax system or manual receipt slips issued for partial payments. The County Collector does not prepare monthly lists of liabilities for the office's two bank accounts and consequently, liabilities are not agreed to reconciled bank balances. The County Collector does not adequately monitor taxpayer balances in the partial payment account.

Electronic Data Security

Employees in the County Collector's office shared user identifications and passwords for the property tax system. The County Collector has not established adequate security controls to lock computers or the property tax system after a specified number of incorrect logon attempts. The County Collector does not store backup files at an off-site location. In addition, backup files are not periodically tested.

Review of Activity	Neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

County Commission
and
County Collector
Madison County, Missouri

We have audited the County Collector and Property Tax System of Madison County in fulfillment of our duties under Sections 29.200.3 and 29.230, RSMo. Due to concerns regarding missing monies, the State Auditor initiated the audit. The scope of our audit included, but was not necessarily limited to, the period of January 1, 2018, through February 28, 2019. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant property tax functions.

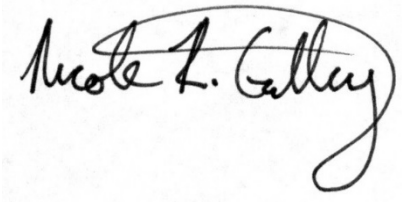
2. Evaluate the county's compliance with certain legal provisions.

3. Determine the extent of monies missing from the County Collector's office.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; requesting confirmation of tax account balances; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) missing monies totaling at least $13,263. The accompanying Management Advisory Report presents our findings arising from our audit of the County Collector and Property Tax System of Madison County.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kelly Davis, M.Acct., CPA, CFE
Audit Manager:	Travis Owens, MBA, CPA, CFE, CGAP
In-Charge Auditor:	Emily Barraclough, CPA
Audit Staff:	Misty Bowen, MSED

Madison County Collector and Property Tax System Introduction

Background

The County Collector bills and collects property taxes for the county and most local governments. Pursuant to Section 52.015, RSMo, collectors are elected to terms that expire on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29). Property taxes and other monies collected by the Madison County Collector's office totaled approximately $8 million during the year ended February 28, 2019.

Debby Boone was elected Madison County Collector in November 2010, took office in March 2011, and has been subsequently elected to the position every 4 years thereafter. During the year ended February 28, 2019, the County Collector received compensation of $40,301. Compensation was in accordance with statutory provisions. The County Collector supervised the daily operations of the County Collector's office and employed 1 full-time Deputy Collector as of February 28, 2018. The Deputy Collector began extended leave on November 3, 2018, and voluntarily resigned on January 14, 2019. The office had 2 part-time employees as of February 28, 2019.

In October 2018, a taxpayer notified the County Collector about concerns with his taxes after he attempted to sell a piece of real estate and was informed his real estate taxes were unpaid and delinquent. The taxpayer provided the County Collector with a paid tax receipt issued by her office. The County Collector began reviewing this taxpayer's account and payment activity in the property tax system and noted the transaction supported by the paid tax receipt was missing and may have been deleted.

On November 2, 2018, the County Collector requested and received a report of deleted transactions from the property tax system vendor. When scanning the list, she indicated she identified deleted transactions that looked unusual or she could not recall making. On November 5, 2018, the County Collector brought her concerns to the County Commission, who notified the Prosecuting Attorney.

On November 6, 2018, the Prosecuting Attorney recommended personnel in the County Collector's office change their passwords, no longer accept cash, and cease deleting computer transactions, and the office not rehire any part-time staff who assisted during the 2017 tax season. The County Collector and Presiding Commissioner voluntarily signed a document agreeing to the recommendations. On November 7, 2018, Judge Rob Fulton issued an order to preserve evidence directing the County Collector and her employees not to dispose of any electronic or physical records in the custody of the County Collector's office and to not accept cash payments for any reason.

At the request of the Sheriff, the Missouri State Highway Patrol (MSHP) opened an investigation and obtained reports of deleted transactions. As part

of the investigation, MSHP investigators also interviewed various current and former employees of the County Collector's office and certain taxpayers associated with deleted transactions.

On November 26, 2018, the State Auditor's Office (SAO) received an anonymous citizen concern regarding the County Collector's office. The SAO contacted the MSHP regarding its ongoing investigation and conducted an initial review of information provided by the MSHP under Section 29.221, RSMo. Based on discussions with law enforcement, the SAO determined an audit was warranted.

We began an audit of the County Collector's office on March 4, 2019. The scope of our audit included, but was not necessarily limited to, the period of, January 1, 2018, through February 28, 2019. We reviewed the activity of the County Collector's bank accounts, including the general operating bank account (main account) and the partial payment account, and reviewed property tax records maintained by the County Collector's office. After identification of monies missing and the method used to perpetrate and conceal the theft, we applied limited procedures to certain property tax records for the year ended December 31, 2016. The limited procedures included reviewing deleted transaction data obtained from the property tax system vendor for the period.

Criminal investigation

The MSHP investigation is ongoing. The Sheriff, County Collector, County Clerk, and County Commission continue to cooperate with MSHP investigators.

1. Missing Monies and Other Questionable Deleted Transactions

Between January 1, 2017, and October 31, 2018, monies totaling at least $13,263[1] (see Appendix) were receipted and the transactions were subsequently deleted from the property tax system. The monies were not deposited and are missing. Additional transactions totaling at least $2,056 were receipted and subsequently deleted from the property tax system during the period and are questionable. As a result, additional monies may be missing.

When a tax payment is received, office personnel record the receipt in the property tax system and a system-generated paid tax receipt is issued to the taxpayer. At the end of each day, cash drawers are counted and reconciled to daily batch reports printed from the property tax system. Office personnel prepare separate deposit slips for each cash drawer and make deposits at a local bank the following morning. If transactions are deleted, they are not included on daily batch reports to be reconciled to collections.

We obtained and reviewed a report of deleted transaction data from the property tax system vendor for the period of January 1, 2017, through October 31, 2018.[2] Based on this report, receipt transactions for 39 personal property and 29 real estate tax bills were deleted and the taxes were considered delinquent as of November 2, 2018. Taxes related to 12 of the personal property and 9 real estate tax bills were subsequently abated by the County Assessor or paid and 2 of the personal property tax bills were related to the Deputy Collector.

We attempted to confirm the remaining 25 personal property and 20 real estate tax bills were actually delinquent or obtain documentation of payment. We obtained copies of paid tax receipts for 23 personal property and 17 real estate tax bills. One taxpayer confirmed his/her personal property taxes were delinquent, 2 taxpayers did not respond, and 1 taxpayer did not respond but subsequently paid her 2016 and 2017 real estate taxes.

Deleted transactions confirmed missing

Tax payments totaling $13,263 were recorded in the property tax system and a paid tax receipt issued, but the transactions were subsequently deleted and the associated payment taken before the daily deposit was prepared and the taxes were listed in the system as delinquent. (See Appendix)

Twenty-seven taxpayers provided proof of payment for their delinquent taxes to the County Collector or the SAO. The County Collector provided us 37 paid tax receipts from 24 taxpayers, totaling $12,139. The receipts were

[1] Amounts presented in the report finding text are rounded, whereas amounts presented in the tables in this section and the Appendix are not rounded.

[2] The County Collector requested the capability to delete transactions in the property tax system be removed in November 2018.

issued in 2017 and 2018 and show the taxes for 20 personal property and 17 real estate tax bills had been paid and should not have been listed as delinquent. The taxpayers brought the tax receipts to the County Collector after receiving their 2018 tax bill that also listed their 2016 and/or 2017 taxes as delinquent. Three additional taxpayers confirmed to our office their personal property taxes, totaling $1,124, were paid and provided paid tax receipts. Twenty-five of the 27 taxpayers indicated to the MSHP or SAO they paid cash, and the remaining 2 taxpayers did not indicate their method of payment.

Since the County Collector, former Deputy Collector, and seasonal employees used the same user identifications and passwords for the property tax system, there is no assurance that the user listed in the system for a transaction or deletion was the individual who performed the transaction (see MAR finding number 3.1). As a result, it is unclear who deleted the transactions.

Additional questionable deleted transactions

Two additional receipt transactions, totaling $1,108, were deleted and the taxes are delinquent in the property tax system. There is no subsequent receipt transaction on the same or a later date indicating the deletion was for one of the routine reasons used by office personnel (see MAR finding number 2.2). One transaction was for personal property taxes and the other for real estate taxes. We requested confirmation of the delinquent amounts from the taxpayers associated with these transactions, but did not receive a response.

Date Paid	Receipt Number	Tax Year	Date Deleted	Amount
02/02/2018	2017006070	2017	02/02/2018	$ 6.40
07/17/2018	2017007687	2016	07/17/2018	1,101.49
Total				$ 1,107.89

Former Deputy Collector deleted transactions

We noted three deleted transactions totaling $948 for the former Deputy Collector's personal property taxes, including her 2016 taxes that were entered and deleted on two separate occasions. We could not determine if any payments occurred with the entry of these receipts or why someone made these transactions.

Date Paid	Receipt Number	Tax Year	Date Deleted	Amount
02/01/2017 (1)	2016006552	2016	02/01/2017	$ 312.12
12/29/2017 (1)	2017004879	2016	12/29/2017	354.14
12/29/2017	2017004879	2017	12/29/2017	281.40
Total				$ 947.66

(1) These deleted transactions are for the same account and tax year. The transaction on December 29, 2017 is larger due to additional accrued interest and penalties.

Conclusion

The lack of segregation of duties, inadequate controls, and the absence of proper oversight as discussed in the remainder of the report, resulted in property tax collections not being properly recorded, deposited, and distributed.

Recommendation

The County Commission and the County Collector work with law enforcement officials regarding criminal prosecution related to the missing monies and take the necessary actions to obtain restitution.

Auditee's Response

The County Commissioners and the County Collector will continue working together with the Missouri State Highway Patrol, Madison County Sheriff's Department, and Madison County Prosecuting Attorney for investigative and legal advice. We will assist with pursuing criminal prosecution of the person whom the MSHP finds responsible.

The Madison County Commission will continue their efforts to pursue all available avenues to recover financial losses to Madison County and to the entities involved.

2. County Collector's Controls and Procedures

Significant weaknesses exist in the County Collector's accounting controls and procedures.

2.1 Segregation of duties

The County Collector has not adequately segregated accounting duties and does not perform a supervisory review of detailed accounting and bank records. All employees receive and record payments received in the property tax system and the partial payment manual receipt slip book and prepare daily deposits. The County Collector does not perform a documented review of accounting and bank records.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, depositing, disbursing, and reconciling monies. In addition, documented independent reviews of detailed accounting and bank records are essential.

2.2 Deletions and adjustments

The County Collector did not review and approve deleted transactions in the property tax system or periodically obtain a report of deleted transactions from the property tax system vendor to review. The County Collector indicated office staff routinely deleted transactions in the property tax system to change the payment method, tax year, personal property account number, or real estate parcel number on transactions. Office personnel also deleted portions of transactions (e.g., for a specific real estate parcel or personal

property account when the whole transaction included multiple parcels and/or accounts).

As discussed in MAR finding number 1, deleted transactions were not included on daily batch reports to be reconciled to collections, and as a result, there was a risk completed transactions could be improperly deleted and not detected. The system vendor can provide a deleted transaction report that includes the initial transaction, deletion date, and user(s) responsible for the action. However, the County Collector does not have immediate access to these records and did not request these reports until after she began reviewing the payment concern reported by a taxpayer.

In November 2018, after the County Collector determined deleted transactions were used to perpetrate and conceal theft of monies, the County Collector's office began using the adjustment function in the property tax system instead of deleting transactions. The property tax system retains the receipt number for adjustments, includes adjustments on the daily batch report, automatically generates a daily adjustment report, and requires documentation of an explanation for the adjustment when completing the transaction. The County Collector indicated she reviews these reports daily to ensure reasons for adjustments have been sufficiently documented and the adjustments were proper. The County Collector also requested the property tax system vendor remove the ability for her and her staff to delete transactions.

Retaining documentation to support deleted transactions or adjustments helps ensure such transactions are appropriate. In addition, an independent and/or supervisory review and approval of deletions and adjustments is necessary to ensure such transactions are appropriate and reduce the risk of errors, loss, theft, or misuse of funds.

2.3 Numerical sequence of receipt slips

The County Collector does not account for the numerical sequence of receipt slip numbers assigned by the property tax system or manual receipt slips issued for partial payments. The 2 collection stations (cash drawers) share the same sequence of receipt slip numbers. As a result, receipt slip numbers are not in numerical sequence on each station's daily batch report. In addition, due to system limitations, a comprehensive report of all receipt slip numbers cannot be printed. No one in the County Collector's office accounts for the numerical sequence of the receipt slip numbers. This weakness allowed for manipulation of receipts processed through the property tax system to go undetected.

To ensure all monies received are properly recorded and deposited, and to reduce the risk that loss, theft, or misuse of funds, the County Collector should ensure adequate controls are in place to properly account for the numerical

sequence of receipt slip numbers assigned by the property tax system and issued from the manual receipt slip book.

2.4 Liabilities

The County Collector does not prepare monthly lists of liabilities for the office's two bank accounts and consequently, liabilities are not agreed to reconciled bank balances.

The County Collector deposits receipts of current and delinquent property taxes and other miscellaneous receipts into her main bank account. The County Collector maintains a separate partial payment account to collect and hold payments for current and delinquent property taxes until sufficient monies have accumulated to pay tax bills in full.

At our request, the County Collector prepared a list of liabilities for each account. For the main account, identified liabilities totaled $174,585 at February 28, 2019. The reconciled bank balance was $174,625, leaving an unidentified balance of $40. For the partial payment account, identified liabilities totaled $28,927 at March 27, 2019. The reconciled bank balance was $28,927, leaving no unidentified balances.

Monthly lists of liabilities should be prepared and reconciled to the available cash balance to ensure sufficient cash is available for the payment of amounts due and all monies in the bank accounts can be identified. Prompt follow up on discrepancies is necessary to resolve errors and ensure monies are properly disbursed. Various statutory provisions provide for the disposition of unidentified monies.

2.5 Partial payments

The County Collector does not adequately monitor taxpayer balances in the partial payment account. As a result, the County Collector held monies that should have been refunded or applied to tax bills.

The County Collector does not maintain centralized records of partial pay balances. The County Collector records taxpayer partial payment activity on manual receipt slips and in an electronic check register. At our request, the County Collector generated reports of taxpayers with balances in the partial payment account. To accomplish this she had to search the electronic register for each taxpayer's name and total the amounts paid and disbursed. As of March 27, 2019, approximately 116 taxpayers had balances in the account.

The County Collector's list included 13 taxpayers with balances totaling approximately $2,990 that should be refunded. These taxpayers have not made a partial payment since at least July 2018 and no longer owe the county for taxes. In addition, 3 taxpayers had sufficient balances to make a full payment of their taxes due but continued to accrue penalties and interest on delinquent tax bills. One of the 3 taxpayers was charged penalties and interest when the County Collector posted his payment in April 2019. However, full payment of his 2016 real estate taxes could have been made by the due date

(avoiding penalties and interest) if the County Collector had more closely monitored the account. The County Collector indicated taxpayers are supposed to indicate if they want to use their partial payment balance when making a tax payment.

Without regular identification of taxpayer balances and comparison to taxes due, there is less likelihood payments will be promptly applied and refunds will be issued when necessary. If a partial payment account list of liabilities was maintained, the County Collector could also use this information to monitor taxpayer partial payment balances.

Recommendations

The County Collector:

2.1 Segregate accounting duties to the extent possible or ensure independent or supervisory reviews of detailed accounting and bank records are performed and documented.

2.2 Require an independent and/or supervisory review and approval of all deleted transactions and adjustments made in the property tax system.

2.3 Implement procedures to account for the numerical sequence of receipt slip numbers.

2.4 Prepare monthly lists of liabilities and reconcile the list to the available cash balance. Any differences should be promptly investigated and resolved. Any unidentified monies should be disposed of in accordance with state law.

2.5 Monitor partial payment account balances to determine if taxpayer balances are sufficient to apply to taxes due. Also, the County Collector should timely process refunds when necessary.

Auditee's Response

2.1 I have established procedures for supervisory reviews in my office. I review the Deputy Collector's work and she reviews my work. In addition, on a weekly basis the County Commission reviews the daily reports from the property tax system, and also reviews the monthly distribution report.

2.2 The County Collector's office no longer has the ability to delete any transactions and all corrections are done through adjustments. When adjustments occur, a report is generated from the property tax system to provide a reason for the adjustment, how much the adjustment was for, and who made the adjustment. The adjustments are reviewed and approved by the County Collector and the County Commission.

2.3 The numerical sequences should be uninterrupted as the deletion capability no longer exists and, when an adjustment is made, the numerical sequence stays intact. The County Collector and Deputy Collector review the numerical sequences daily.

2.4 I will continue to reconcile monthly bank statements and prepare a report with all liabilities identified for comparison. Any bank interest and over plus monies will be identified as such and distributed in a timely manner.

2.5 I have already put new measures in place to track the current balance of each customer. Inactive customers have been refunded and some monies have been turned over to the Missouri State Treasurer.

3. Electronic Data Security

Controls over the County Collector's office computers are not sufficient to prevent unauthorized access. As a result, county records are not adequately protected and are susceptible to unauthorized access.

3.1 User identification and passwords

Employees in the County Collector's office shared user identifications and passwords for the property tax system. Employees share computers in the office and do not log off and log back on with their unique user identification and password when using the property tax system at one of the shared computers. As a result, there was no assurance that the user listed in the system for posting or deleting a transaction was the person who did it. Also, employees are not required to change passwords periodically and passwords are not required to have a minimum number of characters. The County Collector required all employees to change their passwords in November 2018 at the request of the Prosecuting Attorney and now requires each employee to use his/her own unique user identification and password when posting transactions to the tax system.

Unique user identifications and passwords are necessary to identify activity performed by each individual. While user identifications and passwords are required to authenticate access, the security of these logon credentials is dependent upon keeping them confidential. Allowing certain users to share logon credentials increases the risk of unauthorized access and/or changes to the system and records and does not provide assurance access is limited to only those individuals who need access to perform their job responsibilities. User identifications should be unique to each person and passwords should be confidential, contain a minimum number of characters, and be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

3.2 Security controls

The County Collector has not established adequate security controls to lock computers or the property tax system after a specified number of incorrect logon attempts.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive unsuccessful logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data including confidential data and sensitive resources.

3.3 Data backup

The County Collector does not store backup files at an off-site location. In addition, backup files are not periodically tested. Failure to store computer backup data at a secure off-site location results in the data being susceptible to the same damage as the data on the computer.

To help prevent loss of information and ensure essential information and computer systems can be recovered, backup data should be stored at a secure off-site location and tested on a regular basis.

Recommendations

The County Collector:

3.1 Require unique user identifications and passwords for each employee and require passwords contain a minimum number of characters and be changed periodically.

3.2 Require the property tax system and each computer to have security controls in place to lock after a specified number of unsuccessful logon attempts.

3.3 Ensure backup data is stored in a secure off-site location and tested on a regular basis.

Auditee's Response

3.1 All employees must have unique user identifications and passwords and receive reminders to change their passwords at least every three months. We have also established a minimum character requirement for passwords.

3.2 On June 10, 2019, our information technology (IT) vendors enabled controls on the office's computers to lock a computer after 5 incorrect logon attempts. Computers now lock after inactivity for three minutes.

3.3 Computer data is being backed up by our IT vendor on a secure off-site server. The vendor will send me reports to verify the backup dates and times. The County Collector and IT vendor will ensure the data is being backed up and the backup is tested.

4. Review of Activity

Neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector. The County Clerk does not maintain an account book or other records summarizing property tax charges. In addition, the County Clerk and County Commission do not perform adequate procedures to verify the accuracy and completeness of the County Collector's annual settlements. As a result, there is an increased risk of loss, theft, or misuse of property tax monies going undetected, and less assurance the annual settlements are complete and accurate.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. An account book or other records that summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk and the County Commission to verify the County Collector's annual settlements. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector. Such procedures are intended to establish checks and balances related to the collection of property taxes.

Recommendation

The County Clerk maintain an account book with the County Collector. In addition, the County Clerk and County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.

Auditee's Response

The County Commission will review the activities of the County Collector on a more frequent basis. Deposit sheets along with collection sheets will be reviewed. The County Commission will also review the amounts on the annual settlement before it is approved and submitted to the State Tax Commission. The County Clerk has corrected the error in failing to track the beginning and current balance of property taxes owed.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Greenville, Missouri

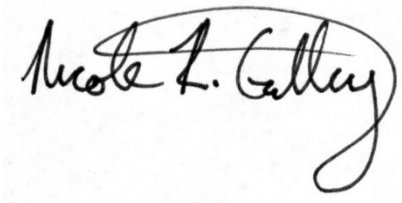
We have conducted follow-up work on audit report findings contained in Report No. 2018-120, *City of Greenville* (rated as Poor), issued in November 2018, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by city officials and held discussions with city officials to verify the status of implementation for the recommendations. Documentation provided by the city included minutes of meetings, financials records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during April 2019.



Nicole R. Galloway, CPA
State Auditor

City of Greenville
Follow-Up Report on Audit Findings
Status of Findings

1. Improper Payments and Missing Monies

The audit identified approximately $161,000 in improper payments and undeposited monies. The former City Clerk also falsified disbursement listings presented to the Board of Aldermen to conceal improper disbursements.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of the improper payments, inappropriately negotiated city checks, the falsified records, and the undeposited receipts, and take the necessary actions to seek restitution.

Status

Implemented

In July 2018, the Attorney General's Office filed felony criminal charges of receiving stolen property and forgery against the former City Clerk and the case is ongoing as of June 2019.

2. Oversight, Annual Audits, and Bond Coverage

The Board had not established adequate oversight of the former City Clerk, obtained annual audits as required by state law, or obtained bond coverage for applicable officials and employees.

2.1 Oversight and segregation of duties

The Board had not established adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the former City Clerk. In addition, 239 checks issued to the former City Clerk and the majority of city checks issued were only signed by the City Clerk.

Recommendation

The Board of Aldermen segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures. In addition, the Board should require dual signatures on all checks.

Status

Implemented

The City Clerk indicated the Mayor and a Board member independently and periodically review the check registers and bank statements of city accounts; however, their review was not documented on the December 2018 bank statements we reviewed. The City Clerk indicated that a Board member is now documenting his/her review of bank statements. A monthly report of all transactions, including a list of bills due and paid, is provided to the Board for their review and approval, and the list is retained with monthly meeting minutes. The City Clerk indicated the Mayor or a Board member compares the list of bills to checks written, but she said their review is not documented. The City Clerk also indicated invoices are available at meetings for the Board's review when they are signing checks. The City Clerk indicated checks are required to be signed by 2 Board members. Our review of the December 2018 canceled checks showed that 2 Board members signed all checks.

2.2 Annual audits

The city had not obtained annual audits as required by state law.

Recommendation

The Board of Aldermen obtain annual audits of the waterworks and sewerage system as required by state law.

Status

In Progress

The city has selected an independent auditor to complete an audit of the waterworks and sewerage system for the year ended June 30, 2018.

2.3 Bonding

The city did not have bond coverage for city employees or officials. The former City Clerk, the Mayor, and Board members, who signed checks and had access to monies held in bank accounts, were not covered by a bond.

Recommendation

The Board of Aldermen maintain bond coverage for all personnel with access to city monies.

Status

Implemented

The city has obtained bond coverage for all personnel with access to city monies.

3. Accounting Controls and Procedures and Disbursements

Significant weaknesses existed in the city's accounting controls and procedures.

3.1 Receipting, recording, and depositing

The city's procedures for receipting, recording, and depositing monies were poor.

- The former City Clerk did not always issue manual receipt slips for monies received.
- Some manual receipt books were missing.
- The former City Clerk did not always timely record utility payments in the computerized utility system.
- The former City Clerk did not consistently indicate the method of payment, or reconcile the method of payment to the composition of receipts recorded in the computerized utility system or to the deposit.
- The former City Clerk did not deposit receipts timely or intact.

Recommendation

The Board of Aldermen require issuance of receipt slips for all monies received with the method of payment indicated and reconciliation of the composition of receipts to the composition of amounts recorded and

deposited. The Board should also ensure receipt slips are retained and monies received are deposited timely and intact.

Status

Partially Implemented

We reviewed financial activity for December 2018, and while city officials retained receipt records, they have not taken sufficient steps to fully implement the other recommendations. Receipt slips were not issued for some hall rental and dog pound fees collected and some utility payments received in December 2018 were not posted to the utility system timely with 2 of these payments not posted as of March 2019. While the City Clerk recorded the method of payment received on receipt records, the composition of receipts did not always agree to the composition recorded in the computerized utility system. The City Clerk did not retain the utility report or calculator tape of monies deposited in December 2018, and therefore could not demonstrate the composition of receipts agreed to the composition of the deposits or that receipts were deposited intact. The City Clerk indicated she is now retaining the utility report and documentation of the deposit. Some receipts collected during the month of December 2018 were not deposited timely. The 3 deposits made during that month ranged from $2,114 to $5,146.

3.2 Bank accounts, reconciliations, and fees

Controls and procedures over bank accounts and reconciliations needed improvement. The city maintained an excessive number of bank accounts, resulting in cumbersome record keeping. The Board and the former City Clerk failed to monitor the city's cash balances and incurred overdraft and minimum balance bank fees.

Recommendation

The Board of Aldermen evaluate the number of bank accounts. The Board should also properly monitor bank account balances to avoid bank fees.

Status

Implemented

The Board reduced the number of bank accounts from 18 to 7 accounts. The City Clerk said the city did not incur any overdraft or minimum balance fees from August 2018 through December 2018.

3.3 Excessive and unauthorized transfers and commingling of restricted funds

The former City Clerk made excessive and unauthorized transfers between various bank accounts, and did not always deposit utility receipts into the proper bank account, which led to commingling of restricted funds.

Recommendation

The Board of Aldermen monitor and reduce the number of transfers made between bank accounts and ensure monies received are deposited in the appropriate bank accounts.

Status

Implemented

We reviewed the December 2018 bank statements and financial activity and noted the Board had reduced the number of transfers made between accounts to only those necessary and appropriate. There was no indication of unauthorized small dollar transfers still occurring as identified during the audit. Utility receipts were deposited in the appropriate bank accounts during December 2018.

3.4 Utility deposits

Refundable utility deposits held in the water bank account were not accounted for properly. The water bank account balance as of April 30, 2016, was not sufficient to cover the amount of utility deposits held.

Recommendation

The Board of Aldermen account for customer utility deposits previously paid, prepare an accurate list of utility deposits and reconcile to monies in the water bank account monthly, and resolve any discrepancies.

Status

Not Implemented

Refundable utility deposits are still held in the water bank account. The City Clerk has not accounted for customer utility deposits paid prior to March 2016 or resolved the shortage identified in the audit. The City Clerk only has a list of utility deposits paid since April 2016, that also includes a utility deposit paid in March 2016, and there is no process to reconcile the list of utility deposits to monies in the water bank account monthly.

3.5 Licenses and rental fees

Prenumbered forms were not used for merchant and liquor licenses and gathering hall and festival booth rental fees, and records were not retained to account for the collection and deposit of these fees.

Recommendation

The Board of Aldermen require prenumbered forms for licenses and rentals, properly account for the numerical sequence of the forms, and reconcile the related monies collected to deposits.

Status

Not Implemented

Prenumbered forms for merchant and liquor licenses and gathering hall and festival booth rental fees are not used, and the City Clerk does not reconcile the related monies collected to deposits.

3.6 Record retention

Various financial and personnel records were not maintained. Some records were recovered by city officials from a city dumpster shortly after the termination of the former City Clerk.

Recommendation

The Board of Aldermen retain records in accordance with state law.

Status

Implemented

The City Clerk indicated city records are now being retained in accordance with state law.

4. Payroll Policies, Records, and Taxes

Significant improvement regarding personnel policies, employee records, and remitting payroll taxes was needed.

4.1 Personnel policies and files

The city had not established personnel policies addressing overtime, holidays, vacation and sick leave, employee benefits, uniform allowances, and hours of work, and a personnel file was not retained for the former City Clerk.

Recommendation

The Board of Aldermen adopt detailed personnel policies addressing requirements of employees and benefits provided, and maintain personnel files for all city employees.

Status

In Progress

In January 2019 the Board adopted an Employee Handbook that addresses overtime and holidays; however it does not address vacation and sick leave, or hours of work. The City Clerk indicated the Board plans to discuss revising the Employee Handbook at its July 2019 meeting to include these items. The City Clerk indicated the handbook does not address uniform allowances because the Board discontinued this benefit. The City Clerk indicated personnel files are now maintained for all employees.

4.2 Payroll taxes and unreported compensation

The former City Clerk did not timely file and remit various payroll taxes, and concealed some of these untimely filings and payments by falsifying disbursement listings provided to the Board. Overpayments and improper payments were not included on the former City Clerk's W-2 forms and not subject to payroll tax withholdings.

Recommendation

The Board of Aldermen establish procedures to ensure all compensation is properly reported and payroll taxes are properly withheld and remitted to the appropriate taxing entities timely. In addition, the former City Clerk's W-2 forms should be amended as appropriate.

Status

In Progress

We reviewed payroll records for December 2018 and determined compensation was properly reported and payroll taxes were properly withheld and timely remitted to the appropriate taxing entities. The City Clerk indicated the Board plans to amend the former City Clerk's W-2 forms once the criminal case is concluded.

5. Municipal Division

We identified significant weaknesses with accounting controls and procedures of the municipal division. The former City Clerk also served as the Court Clerk until her termination.

5.1 Missing records

Several case files could not be located by the municipal division and some manual receipt books were not retained. However, some case files contained copies of manual receipt slips issued from the missing receipt books.

Recommendation

The City of Greenville Municipal Division ensure necessary records are retained.

Status

Implemented

The Board indicated the court functions were limited in 2018 and tickets are now only issued for ordinance violations and as a result, there is very little municipal division activity. The City/Court Clerk indicated only one ticket was issued during 2018, and we noted the case file and related receipt slip were retained for this ticket.

5.2 Oversight

Neither the municipal division nor city personnel performed adequate supervisory or independent reviews of accounting functions and records. In addition, the former Municipal Judge did not approve the final disposition of cases brought before the court or the fines handled through the Violations Bureau (VB), and the Municipal Judge's approval of amended and dismissed tickets was not documented.

Recommendation

The City of Greenville Municipal Division ensure documented periodic independent or supervisory reviews of municipal division records is performed, and ensure the Municipal Judge approves the final disposition of all cases and reviews and approves all amended and dismissed tickets.

Status

Not Implemented

For the only ticket issued during 2018, there was no documentation that the Municipal Judge approved the final disposition of the case.

5.3 Receipting, recording, and depositing

The municipal division's procedures for receipting, recording, and depositing were poor.

- The former Court Clerk did not always issue manual receipt slips for monies received and did not always record the method of payment on receipt slips issued.
- The former Court Clerk recorded payments to multiple different records and did not ensure payments were consistently and properly recorded to all appropriate records.

- The former Court Clerk did not deposit receipts timely or intact.

Recommendation

The City of Greenville Municipal Division properly receipt, record, and deposit all monies received.

Status

Implemented

For the only ticket issued during 2018, the Municipal Division issued a receipt slip on March 12, 2018, for $80, properly recorded the receipt in the case file, and deposited the monies the next day.

5.4 Disbursement and reporting

The former Court Clerk did not disburse fines and court costs timely. In addition, the former Court Clerk did not submit monthly caseload summary reports to the city or monthly reports of court activity to the Office of the State Courts Administrator (OSCA) during the period July 1, 2014, through April 14, 2016.

Recommendation

The City of Greenville Municipal Division ensure court fees are disbursed within 30 days of receipt and monthly reports are submitted timely to the city and OSCA.

Status

Partially Implemented

The court collected $80 in March 2018 and disbursed $30 in April and May 2018 related to the ticket issued during 2018; however, the remaining $50 has not been disbursed. In addition, the Municipal Division bank account had a cash balance of $1,151 from May 2018 to December 2018 (including the $50), that has not been disbursed. The court submitted the December 2018 monthly Municipal Division Summary Reporting to OSCA timely. The city also received a copy of that report.

5.5 Violation Bureau schedule

The former Municipal Judge had not issued a court order for the schedule of fines and court costs to be collected on tickets paid through the VB, and if a schedule of fines and court costs was used by the former Court Clerk to assess court costs and fines during the period July 1, 2014, through April 14, 2016, it could not be located at the VB.

Recommendation

The City of Greenville Municipal Division establish the VB schedule by court order and prominently post the schedule.

Status

Implemented

The City Clerk indicated the Municipal Division established a VB schedule by court order that is prominently posted at City Hall.

6. Electronic Data Security

The city had not developed a formal, written contingency plan for resuming normal business operations and recovering computer systems and data in the event of a disaster or other extraordinary situations. In addition, city personnel did not regularly back up data or periodically test backup data to ensure essential data could be restored, and did not always store backup data at a secure off-site location.

Recommendation

The Board of Aldermen develop a formal, written contingency plan that is periodically tested, evaluated, and updated as needed. The Board should also require data to be backed up regularly, tested on a periodic basis, and stored in a secure off-site location.

Status

Partially Implemented

A formal, written contingency plan has not been developed. The City Clerk indicated data is regularly backed up, but recovery of that data is not periodically tested; however, she has been able to restore data to the city's computer system from the backup files. The backup data is still not stored at an off-site location.

CITIZENS SUMMARY

Findings in the audit of City of St. Louis - Department of Personnel

Background

The City of St. Louis Department of Personnel is responsible for providing all human resource management functions for the city's civil service employees. The City of St. Louis employs approximately 5,600 full-time employees and 300 part-time and per performance employees.

Findings

The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, and no significant deficiencies in management practices and procedures. No findings resulted from this audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

State Auditor's Report 2

Organization and Statistical Information 4

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Director of Personnel
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Department of Personnel in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2018. To minimize duplication of effort, we reviewed the CPA firm's report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2018. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.

2. Evaluate the department's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

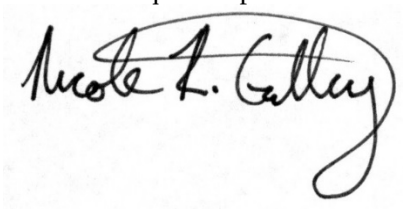
Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. No findings resulted from our audit of the City of St. Louis Department of Personnel.

Additional audits of various officials and departments of the City of St. Louis are still in process, and any additional findings and recommendations will be included in subsequent reports.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Douglas J. Porting, CPA, CFE
Audit Manager:	Chris Vetter, CPA, CGAP

Audit Staff:	Dacia Rush, M.Acct., CIA, CFE, CGAP

City of St. Louis - Department of Personnel
Organization and Statistical Information

The City of St. Louis Department of Personnel is responsible for providing all human resource management functions for the city's civil service employees. The City of St. Louis employs approximately 5,600 full-time employees and 300 part-time and per performance employees. The Director of Personnel is Richard Frank. The director's office coordinates the work of the following nine sections:

1. Classification and Compensation

   This section has two primary responsibilities - the classification of approximately 5,600 civil service positions in the city and the preparation and administration of the city's compensation ordinance.

2. Training and Organizational Development

   This section offers training programs on general supervision, ethics, code of conduct, new employee training, safety, etc. In addition, the section oversees any outside training needed for city employees.

3. Employee Relations

   This section coordinates and conducts hearings for employee and management service rating appeals, investigates internal Equal Employment Opportunity complaints, and is responsible for the review of employee grievances. The section oversees the Drug and Alcohol Testing Program, Employee Assistance Program, and the Family and Medical Leave Act (FMLA) program. These responsibilities include issuing and enforcing administrative regulations, providing supervisory and management training, bidding and administering service contracts, day-to-day operation and oversight of substance abuse testing, and final review of all FMLA leave requests.

4. Police

   This section provides support to the Police Division of the Department of Public Safety including handling examinations for the division and the preparing and processing of documentation pertaining to payroll and personnel changes. The section is also responsible for maintaining the internal personnel files for employees of the Police Division and for posting internal transfer requests for commissioned officer positions.

5. Recruitment and Examination

This section fulfills a variety of staffing functions for all departments and agencies regarding the city's merit system. These functions include a broad range of recruitment activities, examination development and administration, and creation of eligible candidate lists. The department by charter is required to follow traditional merit system procedures for filling positions.

6. Personnel Services

This section maintains the official personnel records of all civil service city workers, oversees and processes payroll forms and records all personnel transactions. The section receives personnel requisitions from city departments when they need to fill a vacant position. The section maintains lists of eligible candidates for city jobs and certifies those eligible to appointing authorities for selection. In addition, the section insures that service ratings are completed and recorded for each city worker.

7. Employee Benefits

This section administers the city's health care insurance plans and other optional benefits including insurance (life, dental, and accidental death) and pre-paid legal services for all civil service and non-merit offices.

8. Employee Retirement System

This section administers the city's retirement plan for all civil service and non-merit offices.

9. Firemen's Retirement Plan

This section administers the city's Firemen's Retirement System for fire department personnel.

CITIZENS SUMMARY

Conclusions in the review of Article X, Sections 16 through 24

Background

The Constitution of Missouri was amended in 1980 to add Article X, Sections 16 through 24, commonly referred to as the Hancock Amendment. This tax limitation amendment places restrictions on the amount of personal income used to fund state government, and the amount by which fees and taxes can be increased. Mathematical formulas are used by the Office of Administration, Division of Budget and Planning (OA-BP) to determine the relevant threshold amounts each year.

Section 18(a-d) of the Hancock Amendment requires no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people.

Section 18(e) requires voter approval before taxes or fees can be increased by the General Assembly beyond a certain annual limit. Based upon the calculation provided by the OA-BP, the relevant annual revenue limit for fiscal year 2018 was $102.9 million.

Fiscal Year 2018 Conclusions

For the year ended June 30, 2018, total state revenue was approximately $3.9 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2018. This revenue limit has not been exceeded since the year ended June 30, 1999.

In addition, the OA-BP determined based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees could decrease by a total of at least $41.3 million. The projected net decrease does not include 9 bills for which the Section 18(e) fiscal impact could not be projected. Actual compliance with the Section 18(e) revenue limit can be determined after each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Because of the nature of this review, no rating is provided.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Sarah H. Steelman, Commissioner
Office of Administration
Jefferson City, Missouri

We have conducted a review of revenues of the state of Missouri for the year ended June 30, 2018, and the application to those revenues of Article X, Sections 16 through 24, Missouri Constitution, more commonly referred to as the Hancock Amendment (included as an Appendix). We previously reported on revenues of the state for the years ended June 30, 1982 through 2017. The amendment, which was adopted by the voters of Missouri on November 4, 1980, limits the growth of state revenues collected in any fiscal year. The objectives of this review were to:

1. Evaluate the formulas to calculate the state's revenue limits.

2. Determine the specific items included in total state revenue.

3. Verify the accuracy of the revenue limit computations and compare the limits to total state revenue and projected tax and fee increases from legislative actions.

4. Review the state's overall compliance with the provisions of the amendment.

Our review included only the application of the revenue limit to state revenues and, accordingly, did not include a review of the effects of the amendment on any local governmental unit.

Our methodology to accomplish these objectives included discussions with personnel of the Office of Administration, Division of Budget and Planning, inspecting relevant records and reports compiled by that office, and reviewing data and reports from the statewide accounting system.

The Executive Summary and the Background, Methodology, and Conclusions present our comments and conclusions concerning the state's overall compliance with the provisions of Article X, Sections 16 through 24, Missouri Constitution.

Executive Summary

The amendment, commonly referred to as the Hancock Amendment, limits annual state revenues, and tax and fee increases.

Total State Revenue (TSR) Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

For the year ended June 30, 2018, total state revenue (TSR) was approximately $3.9 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2018. This revenue limit has not been exceeded since the year ended June 30, 1999. Over the last 5 years, the amount of TSR under the refund threshold has ranged from $3.9 billion to $4.2 billion.

Tax and fee increases Section 18(e)

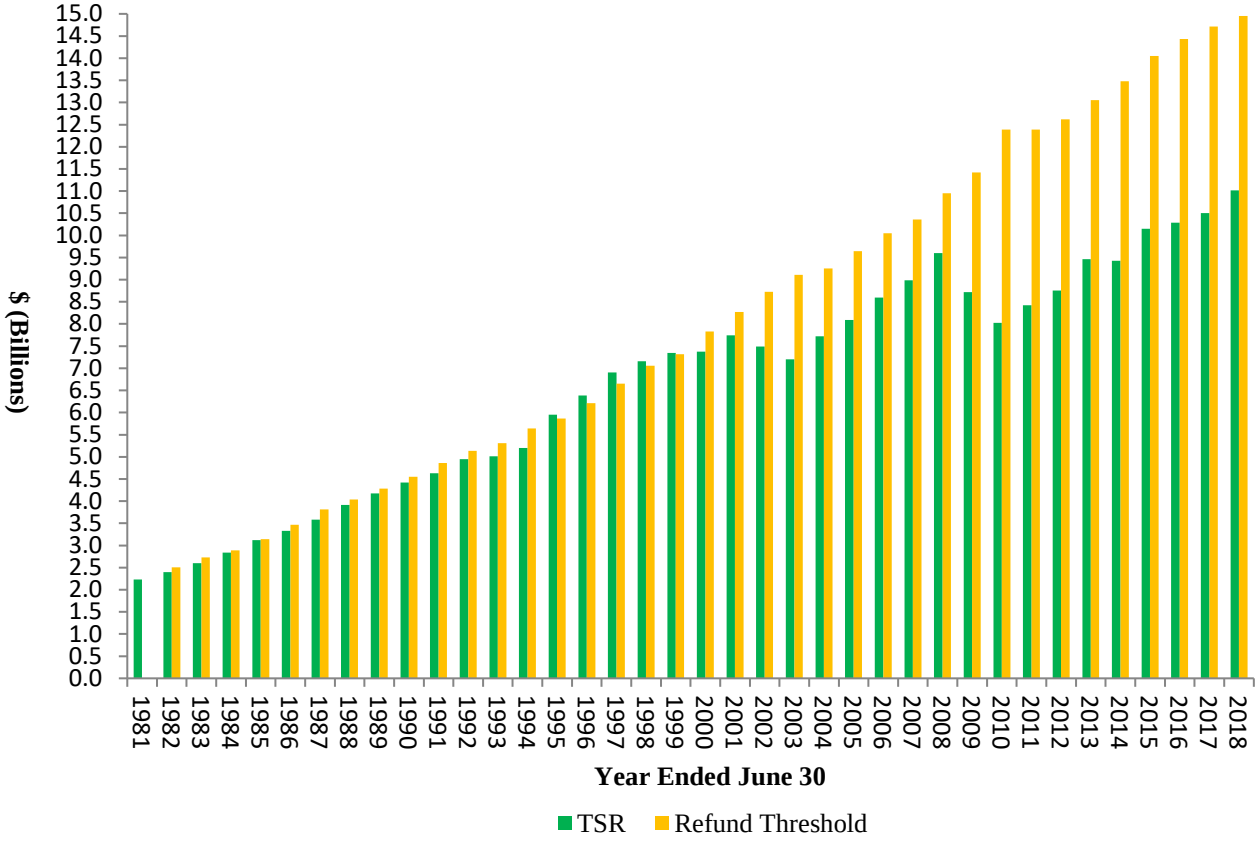
Section 18(e) of the Hancock Amendment states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than $50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less.

For the year ended June 30, 2018, the Office of Administration, Division of Budget and Planning (OA-BP) determined based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees could decrease by a total of at least $41.3 million. The projected net decrease does not include 9 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit is determined by measuring the aggregate actual new annual revenues produced in the first fiscal year each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

A bar graph of TSR compared to the refund threshold follows:

REVIEW OF ARTICLE X, SECTIONS 16 THROUGH 24,
CONSTITUTION OF MISSOURI
GRAPH OF TOTAL STATE REVENUE VERSUS REFUND THRESHOLD



Review of Article X, Sections 16 Through 24, Constitution of Missouri Background, Methodology, and Conclusions

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment is commonly referred to as the Hancock Amendment.

This review addresses the components of the amendment that relate to state revenues, primarily the requirements outlined in Section 18(a-d) which limit annual state revenues and Section 18(e) which limits tax and fee increases.

Total State Revenue Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires annual total state revenue limits. The amendment limits the amount of personal income that may be used to fund state government to no greater than the portion used to do so in 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

The Office of Administration, Division of Budget and Planning (OA-BP) calculates annual total state revenue (TSR), revenue limits, refund thresholds, and refund amounts.

Calculation

The following table summarizes the calculated TSR, revenue limits, refund thresholds, and refund calculations for the 5 years ended June 30, 2018.

		Year Ended June 30,				
		2014	2015	2016	2017	2018
		(in millions)				
TOTAL STATE REVENUE (TSR)						
Total revenues	$	24,616.14	25,845.98	26,737.22	27,249.91	28,525.80
Less excluded revenue		(13,878.69)	(14,442.15)	(15,019.33)	(15,326.03)	(16,087.60)
Less expenditure refunds		(1,328.25)	(1,278.49)	(1,459.78)	(1,474.61)	(1,480.78)
Add refundable tax credits		19.19	24.22	29.83	53.62	56.15
TSR	$	9,428.39	10,149.56	10,287.94	10,502.89	11,013.57
Missouri personal income (MPI)	$	235,661.00	245,771.39	252,482.44	257,338.33	261,547.77
Base year ratio (BYR)	x	0.056395	0.056395	0.056395	0.056395	0.056395
Base limit		13,290.10	13,860.28	14,238.75	14,512.60	14,749.99
Judicial article amendment		51.86	52.42	52.70	53.75	55.90
Revenue limit		13,341.96	13,912.70	14,291.45	14,566.35	14,805.89
1 percent adjustment		133.42	139.13	142.91	145.66	148.05
Refund threshold	$	13,475.38	14,051.83	14,434.36	14,712.01	14,953.94
TSR	$	9,428.39	10,149.56	10,287.94	10,502.89	11,013.57
Less refund threshold		13,475.38	14,051.83	14,434.36	14,712.01	14,953.94
Over (under) threshold		(4,046.99)	(3,902.27)	(4,146.42)	(4,209.12)	(3,940.37)
1 percent adjustment		0.00	0.00	0.00	0.00	0.00
Refund	$	0.00	0.00	0.00	0.00	0.00

The calculation shows for the year ended June 30, 2018, TSR was approximately $3.9 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2018. This revenue limit has not been exceeded since the year ended June 30, 1999.

Revenue limit formula

The OA-BP calculated the 1981 base year ratio of personal income to TSR as 5.6 percent, and uses this ratio to calculate the annual revenue limit.

Section 18(a) establishes the revenue limit formula as follows:

Revenue limit for fiscal year (FY) 20XX	=	Total state revenue (TSR) in FY 1981 / CY 1979 Missouri personal income (MPI)	x	The greater of MPI in the calendar year (CY) prior to the CY in which appropriations are made for FY 20XX or Average MPI for 3 CYs preceding FY 20XX.

The formula is composed of two principal parts. The first part of the formula, the base year ratio (BYR), is as follows:

$$\frac{\text{TSR in FY 1981}}{\text{CY 1979 MPI}}$$

The application of this ratio to the second part of the formula (future years' MPI) sets the revenue limit to ensure no greater portion of a future year's personal income will be used to fund state government than was the case at the time of passage of the amendment.

The MPI amounts used in the formula for the base year and subsequent years are reported by the U.S. Department of Commerce (DOC). The OA-BP uses the MPI first officially published by the DOC after the close of the calendar year to calculate the revenue limit for the applicable fiscal year. The OA-BP does not adjust the MPI used in the BYR or the second part of the formula for subsequent adjustments to the MPI by the DOC. Section 17(2) refers to ". . . total income . . . as defined and officially reported by" the DOC. Even though the amendment does not specifically refer to such adjustments, this wording suggests the revenue limit should be recalculated each time the MPI is adjusted by the DOC. For example, the BYR would be adjusted whenever the CY 1979 MPI is adjusted by the DOC. The use of the initial reporting of MPI provides at least two benefits. First, by having a consistent and unchanging BYR, the state can more easily plan and make appropriate adjustments to stay under the revenue limit. Second, if the initial MPI is subsequently adjusted, retroactive refunds are a possibility. That is, an adjustment to MPI for any prior year (including the base year) could reduce the revenue limit for a prior year below that year's TSR, providing a refund where one previously was not due. Therefore, we find this approach reasonable if it is followed consistently.

The BYR was calculated by the OA-BP as follows (dollar amounts are in millions):

$$\frac{\$2{,}232.204096}{\$\ 39{,}581.0} = .05639584891$$

In its calculations of the revenue limit, the OA-BP rounded the BYR to .056395. To determine the revenue limit for the fiscal year, this amount is multiplied by the MPI in the calendar year preceding the calendar year in which appropriations were made for the fiscal year or the average MPI for the 3 calendar years preceding the fiscal year. For the fiscal year 2018 revenue limit calculation, the OA-BP used the CY 2016 MPI which was greater than the average MPI for the preceding 3 calendar years.

Adjustments

Section 18(d) provides the revenue limit may be adjusted, "[i]f responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, . . . provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such a change."

The OA-BP has adjusted the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll under Section 483.245, RSMo, effective on July 1, 1981. In *Kelly v. Hanson*, 959 S.W.2d 107 (Mo. Banc 1997), the Supreme Court held that this adjustment to the revenue limit is appropriate.

Refund threshold

Section 18(b) allows the state to exceed the revenue limit by less than 1 percent before a refund is due. Therefore, to determine the point at which the refund provision takes effect (the refund threshold) the revenue limit is adjusted upward by 1 percent. However, should TSR exceed the refund threshold, all revenues in excess of the revenue limit are subject to refund.

TSR

An integral part in applying the provisions of the amendment to state revenues is to determine what constitutes TSR. The amendment does not specify the methodology to be used to determine TSR. Consequently, procedures to calculate TSR have been established and certain decisions as to items that would be either included or excluded have been made, except for items ruled on by the Attorney General or the Missouri courts.

TSR includes all revenues recorded in the Statewide Accounting System for Missouri (SAM II) and receipted by the state treasurer, which may only be withdrawn pursuant to an appropriation or which stand appropriated by the Constitution of Missouri. Various funds not in the state treasury are not included in TSR. These funds include university local funds; local sales and

use tax fund collections made by the Department of Revenue; various funds held in trust for inmates, patients, etc.; and various quasi-governmental agencies such as the Board of Public Buildings, the Housing Development Commission, the Higher Education Loan Authority, the Health and Educational Facilities Authority, and the state's retirement systems. The Hancock Amendment states the composition of TSR is, "defined in the budget message of the governor for fiscal year 1980-81." The funds described above were not addressed in the governor's budget message for that year since the funds were not in the state treasury and not appropriated. Thus, it is reasonable to conclude these funds should not be included in TSR.

From the revenue amounts obtained from SAM II, 7 funds are entirely excluded and 26 types of revenues are excluded to arrive at TSR, as defined in Section 17(1). These excluded funds and revenue types, and other exclusions and limits considered to arrive at TSR are described at Appendix C. A detailed schedule of SAM II revenue, adjustments for excluded funds and revenue types and other exclusions and limits, and resulting TSR for the 5 years ended June 30, 2018, is shown at Appendix A.

Tax and Fee Increases Section 18(e)

A 1996 amendment added Section 18(e) to the Hancock Amendment, which imposes an additional revenue limit on tax and fee increases.

Section 18(e) states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than $50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less. Sections 18(e) and 23 provide any taxpayer can bring suit in a court of law to enforce the provisions of the Hancock Amendment.

The OA-BP calculates the limits and monitors new legislation for tax and fee increases and decreases for each legislative session.

Calculation

The following table summarizes the OA-BP's annual projected net increases/decreases from legislative actions based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, calculated revenue limits, and projected amounts over/under revenue limits for the 5 years ended June 30, 2018.

	Year Ended June 30,				
	2014	2015	2016	2017	2018
LEGISLATIVE ACTIONS*					
Net tax and fee increases/decreases	$ At least (619,541,539)	(20,823,150)	Up to 127,712,253	2,272,090	At least (41,321,078)
REVENUE LIMIT					
By MPI growth	$ 110,160,390	115,701,458	117,529,541	120,291,485	123,479,209
By 1 percent of TSR	$ 87,556,705	94,623,204	94,283,895	101,495,508	102,879,357
Revenue limit (lesser amount)	$ 87,556,705	94,623,204	94,283,895	101,495,508	102,879,357
DIFFERENCE					
Over (under) limit	$ N/A	N/A	Up to 33,428,358	(99,223,418)	N/A

* Legislative action amounts do not include bills for which Section 18(e) fiscal impact could not be projected.
N/A For fiscal years 2014, 2015, and 2018, the projections showed a net decrease in taxes and fees.

For the year ended June 30, 2018, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general assembly legislative actions, net taxes and fees could decrease by a total of at least $41.3 million. As noted in the Legislative actions section, the projected net decrease does not include 9 bills for which the Section 18(e) fiscal impact could not be projected.[1] As noted in the Compliance section, actual compliance can be determined after each bill is fully effective. The 2016 legislative session was the only year the limit has been projected to be exceeded.

Revenue limit formula

Section 18(e) establishes the revenue limit as the lesser of (1) $50 million adjusted annually by the percentage change in MPI for the second previous year, or (2) 1 percent of TSR for the second fiscal year prior to the legislative session.

For fiscal year 2018, the OA-BP calculated the MPI growth limit at $123.5 million by multiplying the fiscal year 2017 MPI growth limit ($120.3 million) by the percentage change in the MPI for fiscal year 2016 (2.65%). The OA-BP calculated the TSR limit at $102.9 million by multiplying the fiscal year 2016 TSR ($10.29 billion) by 1 percent. The revenue limit was established at the lessor of these amounts, or the TSR limit of $102.9 million.

Legislative actions

After each legislative session, OA-BP personnel prepare a spreadsheet to quantify the potential fiscal impact of tax and fee increases and decreases from legislation enacted during the session. In accordance with Section 18(e),

[1] OA-BP indicated the estimated fiscal impact of Senate Bill 882 was unknown but also noted the decrease of tax revenue was "possibly substantial."

the OA-BP includes each House Bill and Senate Bill truly agreed and finally passed during the session, except bills vetoed by the governor and not overridden by the general assembly, and the estimated fiscal impact amount.

The OA-BP determines estimated Section 18(e) fiscal impact amounts by compiling information and amounts in fiscal notes for each bill. The fiscal notes are prepared by the Oversight Division with input from state agencies and local political subdivisions. In accordance with Section 18(e), the OA-BP compiles an amount for the first fiscal year the bill is fully effective. For most bills with Section 18(e) fiscal impact, the OA-BP determines an increase or decrease amount based on information in the fiscal note. For some bills, the fiscal note indicates the fiscal impact is "unknown." Accordingly, the OA-BP lists "unknown," rather than a dollar amount, in the legislative actions spreadsheet for these bills. OA-BP personnel indicated they did not attempt to develop a more precise estimate for this calculation because in some cases, it is not possible to quantify the potential impact of the legislation. The legislative actions spreadsheet contains a net total tax and fee increase/decrease for all bills combined. That information is compared to the calculated revenue limit to determine potential Section 18(e) compliance. The netting of the tax and fee increases and decreases is reasonable and in compliance with the amendment language.

The OA-BP legislative actions spreadsheet for the fiscal year 2018 legislative session included 125 bills, 40 of which the OA-BP determined had potential Section 18(e) fiscal impact.

Compliance

Section 18(e)(4) provides compliance with Section 18(e) shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year each individual tax or fee change is fully effective. For the fiscal year 2018 legislative session, actual compliance can be measured after each 2018 legislative session bill is fully effective.

Section 18(e)(5) provides any taxpayer or statewide elected official may bring action under Section 23 of the Hancock Amendment to enforce compliance with the provisions of Section 18(e). For actions brought by any statewide elected official, the Missouri Supreme Court shall have original jurisdiction. In such enforcement actions, the court shall invalidate the taxes and fees that should have received a public vote. The court shall order remedies in the amount of excess revenues collected, such as refunds or reductions in future taxes and/or fees.

Conclusions

TSR

For the year ended June 30, 2018, TSR was approximately $3.9 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2018. This revenue limit has not been exceeded since the year ended June 30, 1999.

Tax and Fee Increases

For the year ended June 30, 2018, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general assembly legislative actions, net taxes and fees could decrease by a total of at least $41.3 million. The projected net decrease does not include 9 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit can be determined after each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.
